Unit 26B Moose Season To Open April 2, 2011

The Alaska Department of Fish and Game will open a general season for hunting moose in Unit 26B on Saturday, April 2, 2011 through Friday, April 15, 2011.

The annual harvest quota for all hunts in Unit 26B is 15 bull moose, and eight were harvested last fall under drawing permits. An additional seven can be taken during this April general season.

The hunt includes Unit 26B, except the Canning River drainage. The bag limit for this hunt is one bull moose per regulatory year. A hunter who has killed a moose anywhere in Alaska since July 1, 2010, under either state or federal regulations, is not eligible to hunt. A hunter must have a 2011 hunting license and a 2010–2011 green moose harvest ticket.

The Dalton Highway Corridor Management Area extends five miles either side of the Dalton Highway in Unit 26B, and hunters may not use firearms within the corridor. Neither snowmachines nor other motorized vehicles may be used for hunting within the area. Hunters who originate outside of the corridor are allowed to drive through it, but may not drive a motorized vehicle originating from inside the corridor to hunt outside the corridor.
