Advisory Announcement

For Immediate Release: July 30, 2020

CONTACT: Carl Koch
Assistant Area Management
Biologist
(907) 465-4329

TAKHINSHA RANGE CLOSED TO MOUNTAIN GOAT HUNTING BETWEEN CANADIAN BORDER AND GARRISON GLACIER(RG026)

(DOUGLAS)-Due to a decline in the number of goats observed during aerial surveys, the area bounded by the Canadian Border on the west, the Tsirku and Takhin Rivers on the north, the Kicking Horse River/Garrison Glacier on the east, and Glacier Bay National Park on the south (see map below) is closed to mountain goat hunting. An emergency order (01-04-20) is being issued to close the goat hunting season in this area at **11:59 pm on Friday, July 31, 2020**.

Biologists observed 63 goats (54 adults, 9 kids) during an aerial survey conducted on September 28, 2016. Subsequent surveys have observed a lower number of goats. On September 17, 2019, under conditions similar to the fall 2016 survey, 54% fewer goats (25 adults, 4 kids) were observed. In addition, snowfall last winter was 45% above the long-term average and may have increased winter mortality. Due to the vulnerability of goats in this area, an emergency order (01-04-20) is being issued.

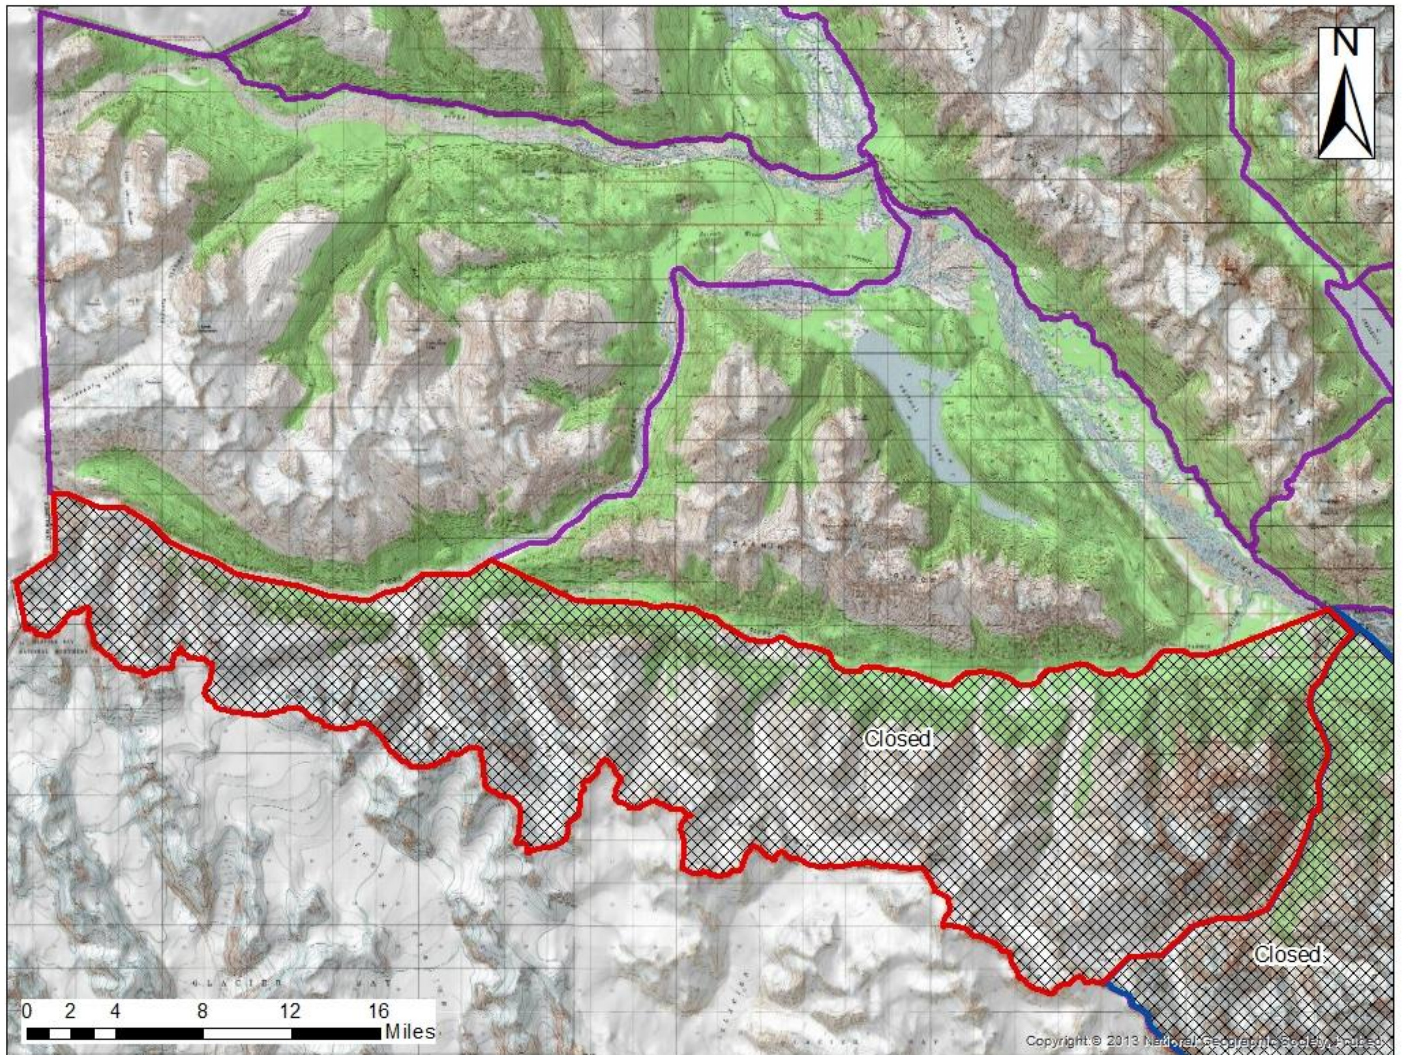

Those portions of Unit 1D not affected by emergency orders, and not previously closed, will remain open until the harvest guidelines are reached or the seasons come to their scheduled conclusions.

Hunters with questions about goat hunting can contact Carl Koch, in the Douglas Area Office at 907-465-4329.
