# **MOOSE HUNTING SEASON CLOSURE UNIT 5A WEST OF THE DANGEROUS RIVER**

(Juneau) – The Alaska Department of Fish and Game and the United States Forest Service announce an early closure to the moose hunting season in that portion of Game Management Unit 5(A) west of the Dangerous River, but not including Nunatak Bench. The hunt in this area is managed under joint state and federal registration permit RM061.

Biologists with the Alaska Department of Fish and Game set the 2021 harvest objective at 30 bull moose for the portion of the Yakutat Forelands west of the Dangerous River. As of Tuesday morning, October 12, 2021, 35 bulls have been harvested under the Federal Hunt regulations. Due to the Federal season fulfilling the area quota there will not be a State season on the west side of the Dangerous River this year.

This Emergency Order (01-15-21) closes the state moose hunting season in this area on Thursday, October 14, 2021 @ 11:59 pm. The United States Forest Service has also issued a news release closing the Federal moose hunting season in this area, effective October 11, 2021 @ 12:00 pm.

Hunters are reminded that the remainder of Game Management Unit 5A east of the Dangerous River will remain open for moose hunting through the 15<sup>th</sup> of November or until the harvest of bull moose on the east-side Forelands reaches 30 bulls.

Hunters with questions about moose hunting in Game Management Unit 5A are encouraged to contact Roy Churchwell at the Douglas Area Office of ADF&G @ 465-4266.
