Under Authority of AS 16.05.060

Emergency Order No. 1-KS-R-19-20

Issued at: Sitka, Friday, July 10, 2020.

Effective Date: 12:01 a.m. Saturday,
July 11, 2020

Expiration Date: 11:59 p.m. Wednesday,
September 30, 2020 unless superseded by
subsequent emergency order.

EXPLANATION: This emergency order rescinds Emergency Order 1-KS-R-16-20, issued June 9, 2020, that established regional resident and nonresident king salmon bag and possession limits and nonresident harvest limits for the Southeast Alaska king salmon sport fishery for the 2020 season.

Since implementation of these current regulations the Southeast Alaska sport king salmon fishery is estimated to be significantly below its treaty allocation in 2020 due to a significant decrease in nonresident effort related to COVID-19 interstate travel mandates and cancellations of large cruise ship operations. This emergency order establishes from July 11— August 15 , a resident bag limit of four king salmon, 28 inches or greater in length; a nonresident bag limit of two king salmon, 28 inches or greater in length; and a nonresident annual limit of 6 king salmon, 28 inches or greater in length; and, from August 16 — September 30, a resident bag limit of three king salmon, 28 inches or greater in length; a nonresident bag limit of one king salmon, 28 inches or greater in length; and a nonresident annual limit of 4 king salmon, 28 inches or greater in length. The additional king salmon opportunity provided by these new regional limits is estimated to increase sport king salmon treaty harvest without exceeding the sport fishery allocation.

REGULATION: Consistent with objectives within 5 AAC 47.055 *Southeast Alaska King Salmon Management Plan*, the provisions of 5 AAC 47.020 (21) are added by this emergency order and become effective 12:01 a.m. Saturday, July 11, 2020. Under this emergency order, the following provisions are effective:

5 AAC 47.020. General provisions for seasons and bag, possession, annual, and size limits for the salt waters of the Southeast Alaska Area.

(22) king salmon:

(A) from July 11 — August 15;

- (i) resident bag and possession limit of four fish, 28 inches or greater in length;
- (ii) nonresident bag and possession limit of two fish, 28 inches or greater in length;
- (iii) nonresident annual limit of six fish, 28 inches or greater in the length, a harvest record under 5 AAC 75.006 is required;

(B) from August 16 — September 30;

- (i) resident bag and possession limit of three fish, 28 inches or greater in length;
- (ii) nonresident bag and possession limit of one fish, 28 inches or greater in length;
- (iii) nonresident annual limit of four fish, 28 inches or greater in the length, a harvest record under 5 AAC 75.006 is required;

Doug Vincent-Lang
Commissioner

By delegation to:

Bob Chadwick
Regional Management Coordinator
Division of Sport Fish

JUSTIFICATION: Due to the unforeseen reduction in nonresident harvest caused by COVID-19 interstate travel mandates and cancellations of large cruise ship operations, without modification the 2020 sport harvest of treaty king salmon is estimated to be 14,000-18,000 fish approximately 20,000-24,000 fish below the sport fishery allocation of 37,900. Implementation of these less restrictive king salmon regulations is estimated to result in a 2020 sport harvest of approximately 30,000-34,400 treaty king salmon which is within the sport allocation of treaty king salmon.

The Southeast Alaska king salmon fishery will be monitored inseason and management action will be taken if needed to keep the sport fishery within the sport allocation.
