Area Management Biologist

JUSTIFICATION:

The Seward Lagoon and waters draining out of the lagoon are stocked annually by the department with king salmon smolt to provide sport fishing opportunity. King salmon returning to this location are primarily caught in salt water, but the Alaska Board of Fisheries established a youth-only fishery to provide sport fishing opportunity for youth anglers in the lagoon and waters flowing from the lagoon. The fish returning to these waters are not intended to naturally reproduce in the lagoon or be used for hatchery broodstock. King salmon have had later returns over the last couple of years and we anticipate the same

this year. Extending the season of the youth-only sport fishery is warranted to provide additional sport fishing opportunity to youth anglers under the age of 16 years old to harvest late-returning king salmon.
