**JUSTIFICATION:** The Alaska Board of Fisheries authorized the department to use its emergency order authority to increase sport bag and possession limits and modify annual limits for hatchery king salmon in terminal harvest areas when escapement is expected to be in excess of the broodstock requirements. King salmon in excess of broodstock requirements are expected to return to the Deer Mountain Hatchery, Whitman Lake Hatchery and Carroll Inlet remote release site. Therefore, the department is providing opportunity for anglers to target hatchery king salmon in the saltwater terminal areas adjacent to these locations. The terminal harvest area regulations provided for under the *District 1: Herring Bay Terminal Harvest Area Salmon Management Plan* (5 AAC 33.369) are being implemented more conservatively to protect wild king salmon stocks transiting the Ketchikan area.

**PREVIOUS EMERGENCY ORDERS AFFECTED:**

Emergency Order 1-KS-R-08-25 established regional king salmon bag, possession and annual limits for the 2025 season. These regulations remain in effect outside of the time and areas identified in this emergency order.

Emergency Order 1-KS-R-09-25 establishes areas and times when king salmon may not be retained in the vicinity of Haines, Skagway, Juneau, Petersburg, Wrangell, and Ketchikan to reduce the harvest of Southeast Alaska wild king salmon stocks and meet objectives for king salmon management within the Pacific Salmon Treaty. The actions implemented by emergency order 1-KS-R-09-25 continue to apply in the areas and times outside the hatchery areas identified in this emergency order.

**DISTRIBUTION:**

The distribution list for this emergency order is on file at the Region 1 Office of the Alaska Department of Fish and Game, Division of Sport Fish, P. O. Box 110024, Douglas, AK 99811, (907) 772-5231.
