2020 KETCHIKAN HERRING FISHERY UPDATE # 4

Ketchikan . . . An aerial survey was conducted today in the Craig Area. Weather was overcast with light rain and moderate winds.

A spot spawn was observed near Port Bagial. Predator activity is dispersed throughout the area, with large concentrations of sea lions observed on the north side of Wadleigh Island near Shinaku Inlet and along the western shore of Fish Egg Island extending south. Two whales were observed near Cape Suspiro. No herring have been introduced to any of the approximately 70 pound structures on the grounds.

The Ketchikan and Craig ADF&G offices remain open. Due to the safety measures implemented by the building operator, the Ketchikan ADF&G building remains locked to public access. Please call the Ketchikan front office at (907) 225-5195 to inform staff of your arrival. **Fishermen registering for the *Macrocystis* kelp harvest permit are encouraged to call prior to visiting an ADF&G office to help expedite the permitting process.** ADF&G staff are available on the grounds for assistance and can be reached on marine VHF channel 16 or 10.

In the event that local ADF&G offices are closed, personnel can be reached at the following email addresses:

Bo Meredith	Area Management Biologist	bo.meredith@alaska.gov
Justin Breese	Assistant Area Management Biologist	justin.breese@alaska.gov
Whitney Crittenden	Assistant Area Management Biologist	whitney.crittenden@alaska.gov
Kim Vicchy	Administrative Supervisor	kim.vicchy@alaska.gov
Melissa Kleeman	Technician IV	melissa.kleeman@alaska.gov
Rhonda Ren-Kingery	Craig Program Technician	rhonda.ren-kingery@alaska.gov

The next scheduled aerial survey is planned for Thursday, March 26.
