KODIAK COMMERCIAL HERRING SAC ROE FISHERY ADVISORY ANNOUNCEMENT #25 For Emergency Order #4-FH-K-25-20

The combined **Inner Uyak Bay and Browns Lagoon sections (UY30,32)** of the **Uyak District** will **Close** to commercial herring fishing for the remainder of the 2020 Kodiak herring sac roe season at **8:00 p.m. Sunday, April 19.**

So far this season, approximately 2,095 tons of herring have been harvested in the Kodiak Area.

As Previously Announced:

The *R/V K-Hi-C* will now be conducting surveys in the **combined Village Islands/Uganik sections (UG30,32,33, and 34)**. If test fishing detects fishable quantities of quality fish, commercial fishing may begin as soon as **1:00 p.m. Monday, April 20**. Herring fishermen interested conducting test sets should contact the *R/V K-Hi-C* on the fishing grounds (VHF channel 6 or Sat dispatch 7412).

The **Terror Bay Section (UG21)** of the **Uganik District** **opened** to commercial herring fishing at **noon Sunday, April 19** and will follow the fishing periods as described in regulation. The Guideline Harvest Level (GHL) for the Terror Bay Section (UG21) **will be 350 tons**.

The following areas are **closed** for the remainder of the 2020 Kodiak herring sac roe season:

- (EA21) Three Saints Bay;
- (EA22) Newman Bay;
- (EA24) Barling Bay;
- (EA31) Tanginak Anchorage;

EMERGENCY ORDER (EO) AREAS

These sections will be actively managed for roe quality and size of herring by the ADF&G management biologist aboard the R/V *K-Hi-C*. There will be at least 24-hour notice prior to any potential fishing period. ADF&G will attempt to target approximately 140 gram or larger herring with approximately 11% roe recovery on the grounds. Permit holders wishing to fish in these sections are urged to contact the management biologist to volunteer for test fishing and discuss how the fishery will be managed. Purse seine permit holders will be given the first opportunity to fish after permit holders have detected harvestable quantities of quality fish.

GHLs and maps of open sections are available at the Kodiak office and in the herring sac roe fishery harvest strategy for the 2020 season. Fishermen are urged to check with their market and test their catch prior to landing herring. Determining if size or roe quality meets processor standards is the responsibility of fishermen and industry. It is anticipated that many small and green fish will be present on the grounds during the initial open fishing periods. Recent fishery information may be obtained by calling the Department's message phone at 486-4559.

Under Alaska's Health Mandates 10, 11, and 12, commercial fishing is an Essential Business and is part of Alaska's Essential Services and Critical Infrastructure. Commercial fishermen should ensure that all travel and other activities in support of commercial fishing operations follow protocols in Alaska COVID-19 Health Mandates.
