Prince William Sound Salmon Fishery Announcement #25

SEINE FISHERIES: This announcement will provide time and area specifics for commercial purse seine fishing opportunity in eastern PWS on Wednesday, July 15. VFDA began its cost recovery sales program on Monday, July 6 and has collected approximately 100% of the assigned pink salmon revenue goal through July 14. VFDA reports that cost recovery pink salmon harvest in Port Valdez on Monday, July 13 resulted in an average weight of 3.7 pounds per fish and 31% female. Preliminary contribution estimates from the 14-hour fishing period on Saturday, July 11 in the Eastern District were 96% SGH and 4% wild.

An aerial survey of Southeastern district was conducted on July 14 and pink salmon counts are within expected ranges for the date. Aerial surveys of other districts are expected to be conducted this week, weather depending, to further assess the strength of wild stock returns throughout PWS. The department does not anticipate these stocks will sustain a consistent schedule of openers at this time. The next wild stock fishing opportunity will be dependent on escapement, harvest information and effort.

EASTERN DISTRICT: Waters of the Eastern District will open to commercial purse seine fishing for a 14-hour period, from 6:00 am until 8:00 pm, on Wednesday, July 15.

Waters of Port Valdez east of a line from 61° 05.00' N, 146° 21.50' W to 61° 06.00' N, 146° 21.50' W and south of a line from 61° 06.00' N, 146° 21.50' W to 61° 06.00' N, 146° 15.10' W will be CLOSED to commercial salmon fishing during this period.
