Seal River: waters of the Seal River will be closed upstream of the confluence of the East Fork Tributary of the Seal River (located downstream of Vitus Lake).

Dual Permits: The use of dual permits is being allowed in the Situk-Ahrnklin Inlet and Yakutat Bay north of a line from Point Manby to Ocean Cape. Individuals are reminded that if going to fish with two permits that they are to notify the Yakutat Fish and Game office of when they plan to fish with two permits and when they stop fishing with two permits.

Additional time to commercial fish the Tsiu River is warranted because the escapement goal of 10,000-29,000 coho salmon has been exceeded. An aerial survey conducted on September 11, 15,300 coho salmon were observed below the commercial fishing markers, and 40,700 coho salmon were observed above the markers. Harvest of surplus is needed to alleviate biological concerns.

The Emergency Order corresponding to this announcement is EO 1Y2420.

Under Alaska’s Health Mandates 10, 17, and 18, commercial fishing is an Essential Business and is part of Alaska’s Essential Services and Critical Infrastructure. Commercial fishermen should ensure that all travel and other activities in support of commercial fishing operations follow protocols in Alaska COVID-19 Health Mandates.
