## SOUTHEAST ALASKA/YAKUTAT WINTER TROLL FISHERY ANNOUNCEMENT

The commercial winter troll fishery for Chinook salmon will close in all waters of Southeast Alaska/Yakutat at 11:59 p.m., Tuesday, March 15, 2022.

During the 2018 Alaska Board of Fisheries meeting held in Sitka, action plans were adopted giving the department direction, through emergency order authority, to conserve wild Southeast Alaska Chinook salmon. Provisions under the *Unuk River King Salmon Stock Status and Action Plan, 2018* specify that notwithstanding any remaining portion of the 45,000 non-Alaska hatchery-produced Chinook salmon guideline harvest level, the commercial winter troll fishery will close in all waters of Southeast Alaska/Yakutat on March 15.

The Southeast Alaska Chinook salmon action plans can be found at the links below:

- Unuk River King Salmon Stock Status and Action Plan, 2018:  
<http://www.adfg.alaska.gov/FedAidPDFs/RIR.1J.2018.04.pdf>
- Chilkat River and King Salmon River King Salmon Stock Status and Action Plan, 2018:  
<http://www.adfg.alaska.gov/FedAidPDFs/RIR.1J.2018.05.pdf>

Information regarding plans for spring troll fisheries will be announced in the *2022 Spring Troll Fishery Management Plan* and by advisory announcement during the month of April. Information regarding intended management actions for the conservation of Southeast Alaska Chinook salmon in the 2022 commercial troll and net fisheries will be announced following the Southeast Alaska/Yakutat Board of Fisheries Meeting held March 10–22, 2022, in Anchorage.

The Emergency Order corresponding to this announcement is EO 1S0122.
