Salisbury Sound (113-62)	May 11-13

Yakutat area

Yakutat Bay (183-10)	May 9
----------------------	-------

Weekly troll openings will be announced by advisory announcement each Friday. Spring troll fishery openings begin at 12:01 a.m. and close at 11:59 p.m. The Port Saint Nicholas and Bucareli Bay spring troll Chinook salmon areas will open initially during the week of May 15. The Western Channel, Goddard, and West Crawfish Inlet spring troll areas will open initially during the week of May 29, and the Mountain Point and Rock Point spring troll areas will open during the week of June 5. The Northern Chatham Strait, Point Couverden, Homeshore, Cross Sound, South Passage, and Keku Strait hatchery chum salmon areas will open on June 15: Chinook salmon retention is prohibited. Maps of spring troll and terminal harvest areas (THA) and additional details on the fishery are provided in the 2022 Spring Troll Fishery Management Plan, available in area offices and on the ADF&G troll web site at:

https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareasoutheast.salmon_trollspring.

Fishing time in an area may be extended based on inseason assessment of coded wire tag data and historic harvest timing information. **It is extremely important to segregate fish caught in different fishery areas so that accurate dockside sampling can occur by department personnel.** If salmon are harvested in multiple areas, each troller and tender is required to report these catches on **separate fish tickets** (5 AAC 29.090[k]). The fishery name and the fishery statistical area number must be reported on all fish tickets.

THA troll openings will occur as follows, unless closed by emergency order. Opening and closing times vary by area, refer to the appropriate THA advisory announcements for fishery details. Chinook salmon retention is prohibited during the month of June in the Southeast Cove and Thomas Bay THAs.
