***Modified opening day:** the one day/week fishery will open on Thursdays for all remaining 2022 openings.

Weekly troll openings will be announced by advisory announcement each Friday. Spring troll fishery openings begin at 12:01 a.m. and close at 11:59 p.m. Maps of spring troll and terminal harvest areas (THA) and additional details on the fishery are provided in the 2022 Spring Troll Fishery Management Plan, available in area offices and on the ADF&G troll web site at:

<https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareasoutheast.salmon.trollspring>.

Fishing time in an area may be extended based on inseason assessment of coded wire tag data and historic harvest timing information. **It is extremely important to segregate fish caught in different fishery areas so that accurate dockside sampling can occur by department personnel.** If salmon are harvested in multiple areas, each troller and tender is required

to report these catches on **separate fish tickets** (5 AAC 29.090[k]). The fishery name and the fishery statistical area number must be reported on all fish tickets.

THA troll openings will occur as follows, unless closed by emergency order. Opening and closing times vary by area, refer to the appropriate THA advisory announcements for fishery details. Chinook salmon retention is prohibited during the month of June in the Southeast Cove and Thomas Bay THAs.
