KODIAK SUBSISTENCE SALMON FISHERY ADVISORY ANNOUNCEMENT #03 For Emergency Order #4-FS-K-Sub-03-22

As of June 29, 4,492 sockeye salmon have been counted through the Buskin River weir, which is within the desired escapement goal range for this date. Based on the cumulative escapement, it appears that the Buskin Lake sockeye salmon escapement goal of 5,000-8,000 fish will be achieved, and the subsistence fishery can resume without harming the resource.

The Buskin River Section will **reopen** to subsistence salmon fishing at **12:01 a.m. Saturday, July 2** until further notice to the normal closed waters:

-continued-

As previously announced:

Closed Water Adjustments

Until further notice, closed waters are **reduced** for subsistence fishing in the following locations:

- At Saltery Creek (stream #259-415) to the stream terminus; and,
- At Ouzinkie Harbor to the stream terminus of stream #259-396.

The Alaska Department of Fish and Game, under the direction of the Alaska Board of Fisheries, manages sport, commercial, personal use, and state subsistence harvest on all lands and waters throughout Alaska.
