Fishermen and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.

All Chinook salmon harvested in the commercial drift gillnet fisheries may be retained and sold. Chinook salmon less than 28 inches in length and those of Alaska hatchery origin will not be counted against Southeast Alaska's all gear harvest limit of the Pacific Salmon Treaty. Therefore, fishermen and tenders are requested to keep Chinook salmon harvested in THAs separate from those harvested in traditional fishing areas. Separating these harvests will allow for better accounting of harvests and assist in sampling the harvests to identify Alaska hatchery-produced Chinook salmon.

The Emergency Order corresponding with this announcement is EO 1S2822.
