Chinook Salmon Landing Restrictions: Chinook salmon 28 inches or greater in length may **NOT be retained in Districts 1, 2, 10, 12, 13, and 14**. Chinook salmon 28 inches or greater in length **MAY be retained and sold in Districts 3 and 4**. Chinook salmon less than 28 inches may be retained but not sold. All Chinook salmon harvested in the Deep Inlet Terminal Harvest Area (THA) must be retained and may be sold. The differential Chinook salmon retention is due to the wild stock Chinook salmon run timing in the inside waters of Southeast Alaska.

When under nonretention of Chinook salmon 28 inches or larger, purse seine fishermen are encouraged to quickly release Chinook salmon in a manner that minimizes mortality. If Chinook salmon greater than 28 inches are retained, the fisherman is in violation and may be issued a citation. Retained Chinook salmon will be donated, and the fisherman may be subject to the cost associated with processing the fish for donation. On the fish ticket, the number and weight of the fish must be recorded and the disposition code "86-Donated" must be used.

Fishermen, tenders, and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.

To date, 600 sockeye salmon have been counted at the Hugh Smith Lake weir. The current weir count projects to a total escapement of approximately 2,300 sockeye salmon, well below the optimal escapement goal range of 8,000–18,000 sockeye salmon. The department will continue to monitor the sockeye salmon escapement as the season progresses and may take management actions in District 1 through statistical week 33.

The 2022 forecasted run of summer chum salmon to Hidden Falls THA is 304,000 fish. NSRAA needs 150,000 chum salmon for broodstock. A test fishery conducted by NSRAA in the Hidden Falls THA and sampling of that harvest indicates that broodstock needs will likely be met. Additional seine openings will be dependent on daily observations and inseason run strength.

The next seine announcement will be issued on **Friday, July 29, 2022**.

The Emergency Order corresponding with this announcement is EO 1S4722.
