Released: noon June 6, 2024

KODIAK SUBSISTENCE SALMON FISHERY ADVISORY ANNOUNCEMENT # 01 For Emergency Order #4-FS-K-Sub-01-24

Through June 5, only 6 Chinook salmon have been counted through the Karluk River weir. Historically by this date, approximately four percent of the Chinook salmon escapement has passed the weir. It is not expected that the Karluk Chinook escapement goal of 3,000-6,000 fish will be achieved. The commercial fishery is restricted to non-retention, and the sport fishery is closed.

Effective at 12:01 a.m. Saturday, June 8, until 11:59 p.m. December 31, Chinook salmon in the Karluk River drainage, including the Karluk River lagoon, may not be retained in the subsistence fishery.

Closed Water Adjustments

Effective at noon Friday, June 7, closed waters will be **reduced** for subsistence fishing **until further notice** in the following locations:

- At Saltery Creek (stream #259-415) to the stream terminus; and,
- At Ouzinkie Harbor to the stream terminus of stream #259-396.

The Alaska Department of Fish and Game, under the direction of the Alaska Board of Fisheries, manages sport, commercial, personal use, and state subsistence harvest on all lands and waters throughout Alaska.
