2024 HAWK INLET SALMON PURSE SEINE TEST FISHERY UPDATE # 2

The *F/V Osprey* conducted the second of the 2024 Hawk Inlet shoreline test fisheries on Friday, July 5. Comparing the daily harvests to the recent 10-year average harvests on or around this date, sockeye, coho and chum salmon harvests were above average while pink salmon harvest was below average. Sockeye salmon harvest was 194% of average, chum salmon harvest was 147% of average, and pink salmon harvest was 4% of average.

The pink salmon sex ratio was 86% male, well above the average of 66% male for previous year's test fisheries conducted on or around this date.
