**Kasnyku Bay and waters of the THA outside Kasnyku Bay**: will be closed south of the latitude of North Point at 57°13.36' N lat and north of the latitude of 57°11.58' N lat.

#### District 13

The following area will be open to purse seining from **5:00 a.m., Sunday, July 21, through 8:00 p.m., Wednesday, July 24, 2024**:

Section 13-B: Redoubt Bay, Kanga Bay, and contiguous waters will be open east of 135°22.76' W long.

Fishermen, tenders, and processors are reminded that fish harvested during a state common property opening must be accurately documented on an ADF&G fish ticket, including area, species, number and pounds of fish, and the completed fish ticket submitted to the ADF&G, before leaving the regulatory area or state waters. Likewise, fish harvested outside of

the state or regulatory area, which then enter state waters, must accurately be documented on a fish ticket before participating in a state common property opening. To comply, this requires any harvested fish be offloaded at a fish processing plant or tender with state certified scales. For additional information contact the Ketchikan ADF&G office.

To date, **269** sockeye salmon have been counted at the Hugh Smith Lake weir. The current weir count projects a total escapement of approximately **3,000** sockeye salmon, well below the optimal escapement goal range of 8,000–18,000 sockeye salmon. The department will continue to monitor the sockeye salmon escapement as the season progresses and may take management actions in District 1 through statistical week 33.

Chinook Salmon Landing Restrictions: All Chinook salmon harvested in the Anita Bay and Hidden Falls THAs may be retained and sold. All Chinook salmon harvested in the Deep Inlet THA must be retained and may be sold. For all other fishing areas, Chinook salmon 28 inches or greater in length may NOT be retained and Chinook salmon less than 28 inches may be retained but not sold. These restrictions will be in effect until at least July 31, 2024.

When under nonretention of Chinook salmon 28 inches or larger, purse seine fishermen are encouraged to quickly release Chinook salmon in a manner that minimizes mortality. If Chinook salmon greater than 28 inches (large) are retained, the fisherman is in violation and may be issued a citation. Retained large Chinook salmon will be donated, and the fisherman may be subject to the cost associated with processing the fish for donation. On the fish ticket, the number and weight of the fish must be recorded and the disposition code "86-Donated" must be used.

Fishermen, tenders, and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.

The next seine announcement will be issued on **Tuesday, July 23, 2024**.

The Emergency Order corresponding to this announcement is EO 1S4524.
