Advisory Announcement

For Immediate Release: Tuesday, Aug 13, 2019

CONTACT: Jeff Gross, 907-883-2971

Fortymile Caribou Season on Steese Highway and White Mountains to Close Thursday

The State of Alaska fall hunting season for Fortymile caribou in zone 1, accessible from the Steese Highway and Chena Hot Springs road and in zone 4 (White Mountains) will close after 5 days on Thursday, August 15, 2019 at 11:59 p.m. State hunting seasons for Fortymile caribou opened on August 11 in all zones.

Caribou are present in Zones 1 and 4 and harvest in the first 5 days of the season is expected to meet the quota of 860 caribou in those zones. The state hunting season is scheduled to remain open in Zones 2 and 3.

Caribou are abundant in Zone 2 (located in roadless portions of Game Management Units 20B, 20D north of the Tanana River, and western Unit 20E) and widely scattered in Zone 3 (Taylor Highway area in a part of Unit 20E). ADF&G staff will be monitoring the hunt carefully to minimize chances that the quota is exceeded in these zones.

Caribou movements during fall are largely unpredictable, and seasons may be closed in other zones to keep the harvest within the harvest quota. Hunters are advised to phone the Fortymile Caribou Hotline at 907-267-2310 before departing for the field to obtain the most current information on status of the hunt. Hunters are required to obtain the RC860 registration permit before hunting caribou in these areas.

The annual Fortymile quota is 2,180 caribou, with 1,635 allocated to the fall hunt and 545 to the winter hunt. The fall quota of 1,635 is divided as follows: Zones 1 and 4 combined is 860, Zone 2 is 200 and Zone 3 is 575. The fall bag limit for residents is 1 caribou (either-sex). The nonresident bag limit is 1 bull.

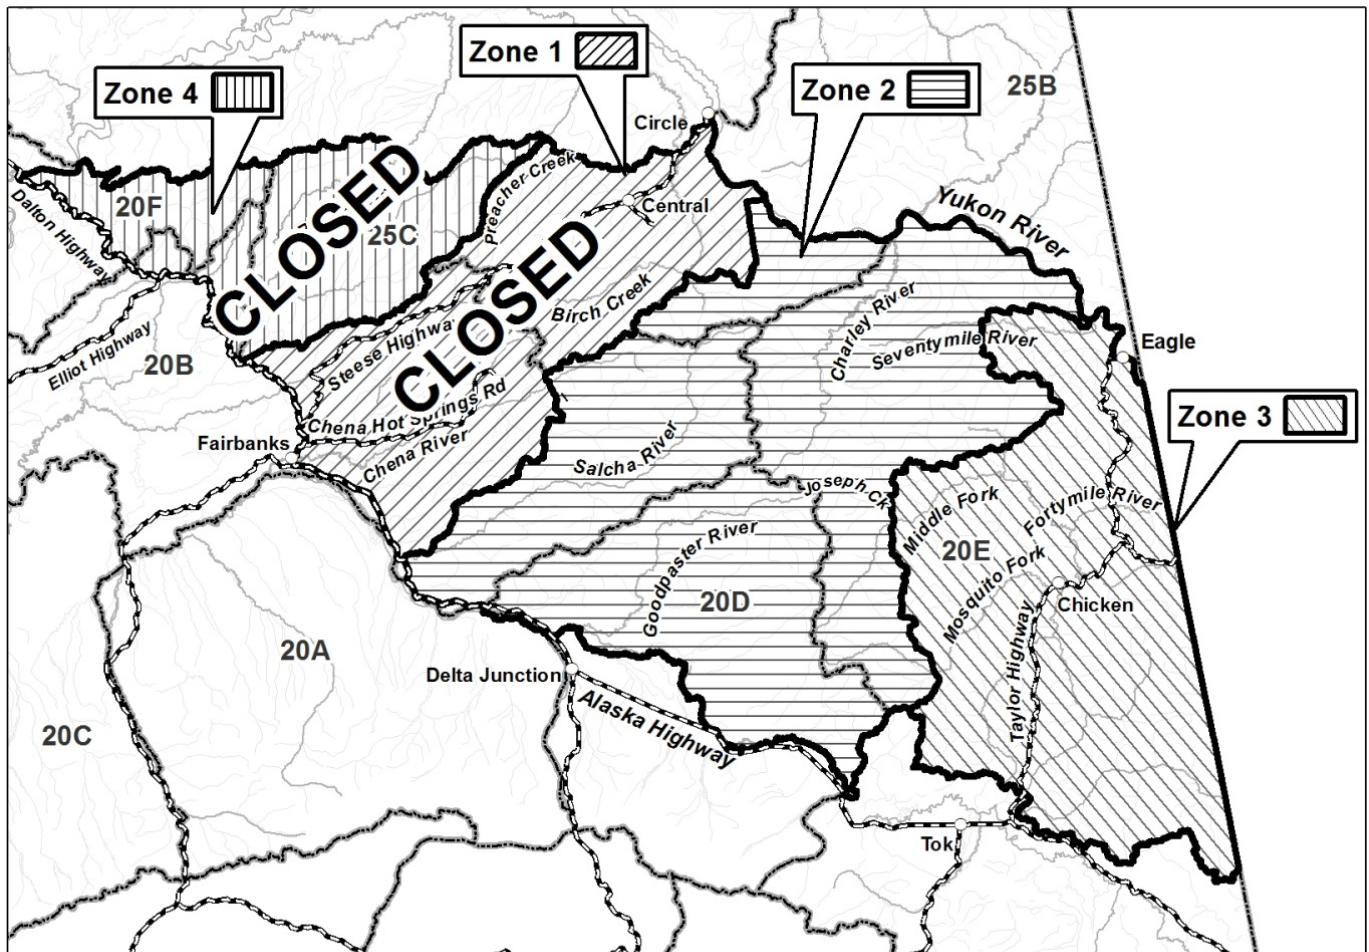

These changes only apply to state caribou hunts in these areas. The federal caribou hunt on federal lands is not affected by these changes. Hunters with questions about federal subsistence regulations should call (800) 478-1456.

Successful hunters must report within three days of the kill on the internet at <http://hunt.alaska.gov>, or in person or by phone to the ADF&G office in Tok (883-2971). Hunters who report by phone must also mail their permit reports or drop them off to the Tok ADF&G office. Unsuccessful hunters must return their reports to the Tok office or report online at <http://hunt.alaska.gov> by October 15.

Hunters are urged to obtain a receipt when they turn in their hunt reports or to mail them by delivery confirmation receipt. Permit holders who fail to report will not be allowed to obtain registration, drawing, or tier I and II permits next year, and may be cited for a violation of the Alaska hunting regulations.

The Alaska Board of Game endorsed the Fortymile Caribou Herd Harvest Plan (harvest plan) as a means of guiding harvest of the herd. The harvest plan allocates all available Fortymile Herd harvest to a hunt area, divided into 4 Zones south of the Yukon River in portions of Units 20B, 20D, 20F and all of Units 20E and 25C.

Management is designed to allow the Fortymile Herd to continue to grow and expand within habitat limitations into its former range in Alaska and Yukon. At about 83,000 animals, the Fortymile Herd is the largest caribou herd in Interior Alaska.
