(Anchorage) – Registration permit hunt RM445 for bull moose in the Eklutna Lake Management Area (Game Management Unit 14C) will close at one minute before midnight on October 4<sup>th</sup>, 2019 by emergency order of the Alaska Department of Fish and Game. Four bull moose were reported taken as of October 3<sup>rd</sup> from a population of approximately 80 animals (including the Eklutna and Thunderbird drainages) and hunters remain in the field. To maintain appropriate bull:cow ratios and the overall population objective in this hunt area, the department has determined harvest should not exceed four bulls.
