JUSTIFICATION:

An emergency order (01-09-21) has been issued to close the mountain goat hunting season in the area bounded by the Klehini River on the north, the Tsirku River south, the Canadian border west, and the Chilkat River on the east side at **11:59 P.M., on Thursday, September 9, 2021.**

Based on an aerial survey counts a guideline harvest objective of 2-3 points (male goats=1 point, female goats=2 points) was established by ADF&G for the area described above. As of Thursday September 8, 2021, one female goat and one male goat have been harvested for a total of 3 points. Because the guideline harvest level has been met and due to the vulnerability of goats in this area to overharvest, this emergency order is being issued.
