JUSTIFICATION:

Hunt managers set a harvest quota of 5 males or 1 female for the Cold Storage hunt zone of mountain goat hunt RG150 on Baranof Island. Quotas are based on the most recent aerial surveys. Baranof Island hunt zones were developed in 2017. To date, two female goats have been harvested in the Cold Storage hunt zone of RG150. Winter snow conditions have made goats more accessible. Additional harvest could be detrimental to the long-term stability of the goat herd in this area. Therefore, this zone is being closed by emergency order (EO) at 11:59 PM, Wednesday, December 29, 2021.
