JUSTIFICATION:

The Fortymile Caribou Herd Harvest Plan guides harvest of the herd. The annual harvest quota is allocated seasonally: 75% to the fall hunt and 25% to the winter hunt. The winter harvest quota is further subdivided into zones within the RC867 registration hunt area, each with its own quota. The winter 2021 combined quota for Zones 1 through 4 is 2,500 caribou. To provide additional harvest opportunity and to help reach harvest objectives by the end of the season, the bag limit will be increased to 2 caribou for the winter hunt in all zones. Fortymile caribou are currently accessible in Zones 1, 2 and 4, and we expect adequate opportunity for hunters to harvest caribou in the RC867 hunt area.
