Moose season extension (October 4-8, 2021) in Game Management Units 21D and 24D (outside the Koyukuk Controlled Use Area)

(Galena) – The Alaska Department of Fish and Game is announcing the extension of the State of Alaska moose hunting season in the portion of Game Management Unit 21D south of the south bank of the Yukon River, downstream of the up-river entrance of Kala Slough and west of Kala Creek and the portion of 24D, west of the Koyukuk Controlled Use Area (Fig. 1). This season extension opens at 12:01 am on October 4, 2021 and closes at 11:59 pm on October 8, 2021. The bag limit is one bull.

Alaska residents who have not already harvested a moose this regulatory year qualify for this hunt. To participate, hunters must possess a valid 2021 Alaska state hunting license, and state registration permit RM834. Permits will be available online at <http://hunt.alaska.gov>, and from vendors in Units 21D and 24D, at the ADF&G Regional Office in Fairbanks or the Galena Area office.

One antler must be cut through the middle of the palm at the kill site and the upper half of one antler must be surrendered to ADF&G or designated representative.

All hunters (successful, unsuccessful, did not hunt) are required to report no later than October 22, 2021. The permit report can be completed online (<http://hunt.alaska.gov>) or return the completed permit report card to the vendor that issued the permit, the ADF&G Galena Area Office, or the ADF&G Fairbanks Regional Office.

For additional hunt or permit information contact Glenn Stout at 907-459-7218.

Figure 1. The season extension described in this announcement occurs in the red-shaded areas of this map.
