Alaska Department of Fish and Game

DIVISION OF SPORT FISH

1255 W. 8th Street
P.O. Box 115526
Juneau, Alaska 99811-5526
(907) 465-4180

Mike Dunleavy, *Governor*
Doug Vincent-Lang, *Commissioner*
Dave Rutz, *Director*

The Department of Fish and Game (ADF&G) is responsible for managing fish and game under statutory authority from the Alaska Legislature. By law, the mission of the Department of Fish and Game is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and the well-being of the people of the state, consistent with the sustained yield principle.

The Division of Sport Fish is one of six divisions in the department. By law, the mission of the Division of Sport Fish is to protect and improve the state's sport fisheries resources. Division of Sport Fish operations are largely funded by anglers and recreational boaters through contributions to Federal Aid in Sport Fish Restoration and Fish and Game license funds. At least 15 percent of the state's federal aid apportionment must be used for improvement of recreational boating facilities and access.

ADF&G may change fishing regulations at any time by emergency order.

Statewide, numerous emergency orders may be issued to open or close seasons or areas, modify bag limits and methods and means in any given year. Most, but not all, affect salmon fishing, as opposed to fishing for resident species. Emergency orders may also be posted at key access points. All emergency orders are widely announced via news media, and are accessible on recorded ADF&G hotlines, at ADF&G offices (see a list on the back cover), and online at www.adfg.alaska.gov.

Alaska Board of Fisheries

The Alaska Board of Fisheries (Board) adopts Alaska's fishing regulations under statutory authority from the Alaska Legislature. The Board sets fishing seasons, bag limits, and methods and means. It also sets policy and provides direction of the management of the state's fishery resources through regulatory management plans. The Board consists of seven members that are appointed by the governor, confirmed by the Legislature, and serve 3-year terms.

The Board process is one of the more open systems for incorporating public input into state fisheries policy. The Board meets four to six times per year to consider proposed changes to fishing regulations in specific areas of the state. Any individual or organization may submit a proposal to change a fishing regulation. The Board uses biological and socioeconomic information provided by the Alaska Department of Fish and Game, public comment, and guidance from the Alaska Department of Public Safety and Alaska Department of Law when creating regulations.

The Board meets on a 3-year cycle. It most recently addressed Prince William Sound/Upper Copper and Upper Susitna Rivers Finfish and Shellfish (except shrimp) regulations in November 2021.

How to Use This Book

Licensing Requirements -

Read licensing and harvest recording requirements, pages 4 and 5.

Regional Regulations -

Read the regional regulations to find out about allowable sport fishing gear, possession requirements for sport caught fish, and other General Regulations, as well as prohibited acts.

General Regulations -

Read the General Regulations for seasons, bag, possession, and size limits, and methods and means for the area in which you intend to fish.

Special Regulations -

Check the Southwest Alaska Waters index on pages 10–11. If a special regulation exists for the species when and where you plan to fish, follow the special regulation; special regulations prevail over the general regulations listed for that area. If the waters you plan to fish DO NOT APPEAR in the index or within the special regulations, follow the general regulations for seasons, bag, possession, and size limits, and methods and means for that area.

This summary of Alaska sport and personal use fishing and shellfish regulations is published by the Division of Sport Fish as a service to anglers. It is not intended to be a complete digest of all fishing regulations.

For a complete list of all sport fishing regulations, see the Alaska Administrative Code, Title 5 at:

<http://www.legis.state.ak.us/basis/folioproxy.asp?url=http://www.jnu01.legis.state.ak.us/cgi-bin/folioisa.dll/aac>.

Some regulations in this booklet may be changed by the Alaska Board of Fisheries during its regular meetings, by emergency regulation, or by emergency order at any time.

► Emergency Orders: *Inseason changes to regulation*

Regulations in this booklet may be changed by emergency order at any time. If an inseason change has been made by emergency order for the species when and where you plan to fish, follow the inseason regulation; inseason regulatory changes prevail over the regulations listed in this booklet. All such changes can be found by contacting any ADF&G Sport Fish Office or online at the ADF&G website.

You can sign up to receive emergency order notifications via email.

Visit: www.wefishak.alaska.gov for more information.

Cover Photos

- **Main Image:** Stella Kneip with a nice coho salmon from the Buskin River.
- **Inset Left:** A nice chrome coho.
- **Inset Middle:** Carsen Brown with a grayling from the Agulowak River.
- **Inset Right:** Sockeye salmon in spawning colors.

An Alaska sport fishing license is required for all resident anglers 18 and older and nonresident anglers 16 and older to fish in all fresh and salt waters of Alaska.

- In accordance with the regulations outlined in this summary booklet, a sport fishing license allows you to take, or attempt to take, finfish or shellfish in the fresh or salt waters of Alaska. Additionally, you may need a King Salmon Stamp or a Harvest Record Card (see page 5).
- Your sport fishing license, PID or DAV must be in your possession while you are sport fishing.
- All persons fishing engaged in sport fishing or in possession of sport caught finfish or shellfish must show their sport fishing license, required harvest record and/or stamp, and their harvest to any representative of ADF&G or any peace officer of the state, upon request.
- No person may alter, loan, or transfer to any other person any sport fishing license; and no person may use any license issued to another person.
- If your sport fishing, hunting, or trapping license is revoked in any state, you may not obtain an Alaska sport fishing license.

A Resident of Alaska is a Person Who...

For the preceding 12 consecutive months, has maintained a home in Alaska with the intent to stay, and who is not claiming residency (or receiving benefits under a claim of residency) in another state, territory or country. Benefits include but are not limited to, applying for a resident fishing or hunting license in another state, obtaining a driver's license in another state, or receiving benefits or paying taxes as a resident of another state.

Active Duty Military Personnel and Their Dependents...

- Stationed in Alaska for the preceding 12 months may purchase a resident sport fishing license regardless of benefits received in another state. Resident sport fishing regulations apply.
- Permanently stationed in Alaska for less than 12 months may purchase a nonresident military license and nonresident military annual king salmon stamp at reduced rates and are considered nonresidents. Nonresident sport fishing regulations apply.

If you have questions about your residency, call your local Alaska Wildlife Troopers (telephone numbers listed on page 9).

License Fees | Alaska Residents

Annual sport fishing license \$20

Alaska residents 18 or older. Valid for the calendar year.

ADF&G Permanent (Senior) ID Card (PID)..... Free to qualifying residents

Alaska residents 60 or older may apply for a PID for hunting, fishing, and trapping. For residents only - if you become a nonresident, your PID is no longer valid, requiring you to purchase a nonresident sport fishing license.

ADF&G Disabled Veteran Card (DAV)..... Free to qualifying residents

Alaska residents who are disabled veterans (with disability of 50% or greater that was incurred during military service), may apply for a DAV for hunting and fishing. If you become a nonresident, your DAV is no longer valid, requiring you to purchase a nonresident sport fishing license.

Sport fishing license for the blind \$0.50

Affidavit required—available from license vendor or ADF&G.

Income restricted..... \$5

To be eligible for a low income license, an Alaskan resident must have an annual family or household income equal to or less than the most recent poverty guidelines for the state set by the U.S. Department of Health and Human Services for the year preceding application. A.S. 16.05.340 (a)(6)

Visit: <http://www.adfg.alaska.gov/index.cfm?adfg=license.lowincome>

License Fees | Nonresidents

1-day sport fishing license \$15

3-day sport fishing license \$30

7-day sport fishing license \$45

14-day sport fishing license..... \$75

Annual sport fishing license \$100

** Nonresidents under the age of 16 do not need to purchase a sport fishing license.*

** Residents of Yukon Territory may purchase nonresident licenses at Alaska resident license fees.*

Nonresident Military License and Fee

Nonresident annual military sport fishing license \$20

Only for active duty members of military service permanently stationed in Alaska for less than 12 months or for dependent(s) of such.

HARVEST RECORD

Harvest records are required by **ALL** anglers when harvesting any species with an annual limit. Species with an annual limit are listed in the General Regulations section.

- Areas to record harvested species with an annual limit are printed on each sport fishing license.
- A harvest record card is required for resident anglers under 18, nonresident anglers under 16, and PID or DAV licensed anglers.
- Immediately upon landing and retaining a fish that has an annual limit, all anglers must enter the species, date, and location, IN INK, on the harvest record form on the back of their sport fishing license or their harvest record card.
- A person obtaining a duplicate or additional license or harvest record card must transfer their harvest records of species with annual limits previously landed during the current year to their new license or harvest record card.

Alaska Department of Fish & Game
Division of Sport Fish
Sport Fishing Harvest Record Card

Fill in the information below. See the back of this card for more instructions, or visit www.adfg.alaska.gov for more information.

Name _____

Check ONE: Resident Senior Resident Disabled Veteran
 Non-resident under 16 Resident under 18

Senior or DAV license number: _____

OR, if youth angler, age & birthday: _____

Check here if this is a replacement for a lost card(s). By law, anglers must transfer **ALL** harvest information from the lost card(s) to this card.

| DATE of harvest | NAME OF WATER where the fish was harvested | SPECIES OF fish harvested |
|-----------------|--|---------------------------|
| | | |
| | | |
| | | |
| | | |
| | | |

Harvest Record Card

LICENSES/STAMPS/HARVEST CARDS

Sport fishing licenses and King Salmon Stamps may be purchased online at: www.adfg.alaska.gov/store or from a license vendor (most sporting goods stores).

Harvest Record Cards are available online at: http://www.adfg.alaska.gov/static/license/sportlicense/pdf/sf_harvest_record_card.pdf, from ADF&G offices, and from fishing license vendors.

PID/DAV licenses – Apply online at: <http://www.adfg.alaska.gov/index.cfm?adfg=license.proxy>.

KING SALMON STAMP

Anglers sport fishing for king salmon (except king salmon stocked in landlocked lakes) must purchase a current year's king salmon stamp. Stamps purchased online can be printed immediately. If you purchase a physical stamp, it must be signed across the face of the stamp, in ink, and stuck to the back of your sport fishing license.

This is an example of a king salmon stamp purchased online.

King Salmon Stamp Fees

| | |
|---|-------------|
| Resident king salmon stamp | \$10 |
| Nonresident 1-day stamp | \$15 |
| Nonresident 3-day stamp | \$30 |
| Nonresident 7-day stamp | \$45 |
| Nonresident 14-day stamp..... | \$75 |
| Nonresident annual stamp..... | \$100 |
| Nonresident military annual stamp | \$30 |
| Duplicate stamp | \$5 |

The following persons do not need a king salmon stamp:

- Resident anglers under 18 and nonresident anglers under 16.
- Residents who possess an ADF&G PID or a DAV card.
- Residents with the \$5 income restricted license.
- Residents with the 50¢ license for the blind.

Use our secure server to buy your licenses, stamps, and tags online!

www.adfg.alaska.gov/store/

HARVEST RECORD REQUIREMENTS

- **Harvest records** are required when angling for any species with an annual limit.
- A harvest record form is printed on the sport fishing license. For anglers who do not require a sport fishing license, free harvest reporting cards are available online at https://www.adfg.alaska.gov/static/license/sportlicense/pdf/sf_harvest_record_card.pdf or from ADF&G offices and from fishing license vendors.
- Annual limits are listed in the General and Special Regulations for each area.
- Immediately upon landing and retaining a fish that requires harvest recording, anglers must enter the species, date, and location, IN INK, on the back of their sport fishing license or on the harvest record card.

DATA COLLECTION REQUIREMENTS

- Upon request by a Department representative or state peace officer, anglers must forfeit the heads of any salmon or trout with external or internal tags and all fish that are adipose finclipped along with the date and location of where caught.

LIABILITY FOR VIOLATIONS

- Unless otherwise provided by regulation or statute, a person who violates a provision of these regulations is strictly liable for the offense, regardless of that person's intent.

PROHIBITED ACTS

CLOSED WATERS/WATERS CLOSED TO SPORT FISHING:

- Unless otherwise provided by area regulations: (a) the waters within 300 feet of a fish weir or fish ladder are closed to sport fishing, unless a lesser or greater distance is indicated by Department markers; and (b) it is unlawful to cast, drift, or place by any means a hook, bait, lure, or fly into waters closed to sport fishing.

SALE OF SPORT-CAUGHT FISH PROHIBITED:

- No person may buy, sell, or barter sport-caught fish or their parts.

POSSESSION OR MARKING OF LIVE FISH OR LIVE FISH EGGS:

- It is unlawful to possess, transport, release live fish or live fish eggs, or in any way mark any live fish prior to release;
 - except in accordance with the terms of a permit that may be issued by the Commissioner under 5 AAC 41 or AS 16.05.930(a),
 - or in accordance with sport fishing provisions listed on page 7 under "Use of sport-caught fish as bait."

FELT-SOLED BOOTS PROHIBITED:

- The use of footwear with absorbent felt or other fibrous material on the soles is prohibited while sport fishing in fresh water.

GAFFS PROHIBITED:

- A gaff may not be used to puncture any fish intended or required to be released.

MOLESTING OF FISH:

- Molesting or impeding spawning or the natural movement of fish contrary to lawful methods and means of sport fishing is prohibited.

SNAGGING IN FRESH WATER PROHIBITED:

- It is unlawful to intentionally snag or attempt to snag any fish in fresh water.
- "Snag" means to hook a fish elsewhere than in its mouth. A fish unintentionally hooked elsewhere than its mouth must be released immediately.
- Unless otherwise prohibited under area regulation, snagging is allowed in salt water.

WASTE OF FISH:

- The intentional waste or destruction of any species of sport-caught fish is prohibited.

USE OF EXPLOSIVES OR TOXICANTS:

- The use of any toxicant or explosive is prohibited in the taking of any fish in the waters of Alaska. Except that a shaft tipped with an explosive charge (commonly known as a bangstick or powerhead) or a firearm may be used on board a vessel in saltwater to dispatch a fish caught with legal gear.

POSSESSION AND TRANSPORT OF AQUATIC ORGANISMS:

- It is unlawful for a person to collect, transport, possess, propagate, export from the state, or release into the waters or the lands of the state, any aquatic organism;
- Except in compliance with the terms of a fish resource or aquatic resources permit issued by the commissioner, and under the provisions of Chapter 5 AAC 41.
- It is unlawful for a person to possess, import, propagate, transport, release, purchase, or sell within the state a banned invasive species, classified under 5 AAC 41.075, including any part of the organism, such as reproductive or genetic material, at any stage of its life cycle (see Definitions).
- Except as provided in Chapter 5 AAC 41.

METHODS AND MEANS

FRESH WATER SPORT FISHING:

Fish may not be taken in fresh water by means of:

- Fixed or weighted hooks and lures (except those of standard manufacture);
- Multiple hooks with gap between point and shank larger than one-half inch;
- Spear, unless permitted by area regulations; or arrow, unless permitted by area regulations.

SPORT FISHING GEAR:

Unless otherwise provided in regulation, sport fishing may be conducted only by use of:

- A closely attended single line attached to not more than one plug; one spoon; one spinner or series of spinners; two artificial flies; or two hooks.
- The line must be closely attended, unless unattended setlines for burbot are allowed per area regulations.

METHODS AND MEANS (CONTINUED)

USE OF ATTRACTOR (BEAD):

An attractor, including a bead, when used with an artificial fly, artificial lure, or bare hook, must be:

- Either fixed within two inches of the bare hook, fly, or lure,
- Or be free sliding on the line or leader.
- A bead fished on the line above a bare single hook is legal gear in waters where only flies may be used.

USE OF UNDERWATER SPEAR (SALT WATER):

- In salt water, spears and spearguns may be used to take fish, subject to applicable seasons and limits, by persons who are completely submerged, provided that the spear or speargun is not tipped with an explosive charge.

ICE FISHING GEAR:

- Sport fishing through the ice is permitted using two closely attended lines, provided only one hook or artificial lure is used on each line, except that additional gear may be used for northern pike and burbot as specified in statewide or area regulations.
- The maximum number of lines/hooks that an angler may deploy is not cumulative and is equal to the maximum number of lines/hooks allowed for any species. The number of lines/hooks used to target a species may not exceed the number allowed for that species. For example, in a lake where regulations allow 15 lines for burbot and 5 lines for northern pike, the maximum number of lines you may fish is 15 (not $15 + 5 = 20$); and when setting your 15 lines, only 5 of them may be placed to target pike.

SPORT FISHING GEAR FOR NORTHERN PIKE:

- Unless otherwise provided by the area regulations, northern pike may be taken by spear.

SPORT FISHING GEAR FOR HERRING AND SMELT:

- In salt water, herring and smelt may be taken with the use of 15 or less unbaited single or multiple hooks attached to a single line.

SPORT FISHING GEAR FOR BURBOT:

Unless otherwise provided by area regulations, burbot may be taken in fresh water with more than one line and hook, provided:

- The total aggregate number of hooks may not exceed 15 or the daily bag limit for burbot in the waters being fished, whichever is less;
- Hooks are single hooks with gap between point and shank larger than $\frac{3}{4}$ inch;
- Each hook is set to rest on the bottom of the lake or stream;
- Each line is identified with angler's name and address;
- Each line is physically inspected at least once in each 24-hour period.

POSSESSION OF SPORT-CAUGHT FISH (EXCEPT HALIBUT)

- Sport-caught fish, their parts, and articles manufactured from such fish may be possessed within the state by any person at any time, and may be transported within and exported out of the state by any person at any time, except that no person may possess any unpreserved fish, or part of one, not legally taken by the angler, unless the angler furnishes, upon request of any peace officer of the state, a statement signed by the person taking the fish stating the type of fish, number of fish, location, date taken, and license number. See Transfer of Possession Form on page 38. The statement is unnecessary if the person possessing the fish is accompanied by the person who took the fish. No person may possess fish which were not legally taken.
- A person may possess only the limit of fish allowed for the water on which that person is fishing.
- Upon request by an employee of the Department, or a peace officer of the state, a person must present for inspection any fish taken or possessed by the person in a sport fishery.
- Upon request by an employee of the Department or a peace officer of the state, a person while taking fish must present for inspection any apparatus designed to be or capable of being used to take fish in a sport fishery.

POSSESSION OF SPORT-CAUGHT HALIBUT

- Pacific halibut fisheries are managed by the federal government under international treaty.
- Federal possession and landing requirements for sport-caught halibut differ from state regulations. Possession includes unpreserved AND preserved fish for halibut.
- Consult federal regulations for: bag, size, and possession limits for guided (charter) anglers; possession and landing requirements.
- **Federal halibut regulations are available from: NOAA Fisheries Alaska Region, (907) 586-7228**
<https://alaskafisheries.noaa.gov/fisheries/sport-halibut>

USE OF SPORT-CAUGHT FISH AS BAIT

- Unless provided for in this section, fish taken under sport fishing regulations may not be used as bait, except:
 - Herring and whitefish may be used as bait.
 - Species for which bag limits, seasons, or other regulatory methods and means are not provided in sport fishing regulations may be used as bait.
 - The head, tail, fins, and viscera of legally taken sport fish, may be used as bait.
- Live herring and other species for which no seasonal or harvest limits are specified in sport fishing regulations may be used as live bait in salt water.
- Live fish may not be used as bait for sport fishing in fresh water.
- Live bait may be possessed, transported, or released only in the salt waters of the regulatory area in which it was taken.

The following are some of the definitions set forth in AS 16.05.940, 5 AAC 75.020, and 5 AAC 75.995.

AREA—Means a regulatory management area as described in 5 AAC 47-5 AAC 74.

ARTIFICIAL FLY—A fly which is constructed by common methods known as fly tying, including a dry fly, wet fly, and nymph, or a bare single hook that is free of bait as defined in 5 AAC 75.995. Materials and chemicals designed and produced primarily to cause flies to float or sink may be used on artificial flies.

ARTIFICIAL FLY (UNWEIGHTED)—A fly which weighs less than one-fourth ounce in its entirety.

ARTIFICIAL LURE—Any lure which is man-made, free of bait as defined in 5 AAC 75.995, and is used to attract fish. This includes an artificial fly.

BAG LIMIT—The maximum legal take of fish per person per day, in the area in which the person is fishing, even if part or all of the fish are immediately preserved; a fish when landed and not immediately released becomes a part of the bag limit of the person who originally hooked it.

- The per person, per day bag limit applies across fisheries. You cannot take a bag limit of fish from one area then move to another area and take another limit there. However, if the bag limit of a specific species is higher in a particular area (for example, 6 fish per day in one area and 3 per day of the same species in another) you can take 3 fish from one area and move to the area with the higher bag limit and take 3 from there. **If you have questions, please call ADF&G at 907-267-2218.**

BAIT—Any substance applied to fishing gear for the purpose of attracting fish by scent, including fish eggs in any form, natural or preserved animal, fish, fish oil, shellfish, or insect parts, natural or processed vegetable matter, and natural or synthetic chemicals.

BANNED INVASIVE SPECIES: A non-native species that can become established in Alaska; competes with native species for food, habitat and resources; degrades habitat; threatens the health or population of native species; and causes economic or environmental harm.

CHAR—All char, including Dolly Varden, Arctic char, lake trout (Mackinaw), and eastern brook trout.

CHARTER VESSEL—A vessel licensed under AS 16.05.490, used for hire in the sport, personal use, or subsistence taking of fish or shellfish, and not used on the same day for any other commercial fishing purpose; a charter vessel does not include a vessel or skiff without a charter vessel operator.

CHARTER VESSEL OPERATOR—A person engaged in carrying passengers on a charter vessel for any valuable consideration that passes directly or indirectly to the vessel's owner, operator, or a person with a financial interest in the vessel, in consideration of the carriage of any person on board.

CLOSED SEASON—The time during which fish may not be taken (this includes catch-and-release fishing).

CLOSED WATERS—Waters designated by the Board of Fisheries wherein it is illegal to take fish.

CLOSELY ATTENDED LINE—That the line or strike indicator is within the view of and is accessible to the angler at all times.

DRAINAGE—All of the waters comprising a watershed including tributary rivers, streams, sloughs, ponds, and lakes which contribute to the water supply of the watershed.

FISHING ROD—A tapered, flexible rod typically used for sport fishing, equipped with a hand grip and a line guide system that guides the line from the reel to the tip of the rod, and upon which is mounted a fishing reel used to deploy and retrieve the sport fishing line.

FLOWING WATERS—Means all fresh waters, excluding lakes and ponds, that have detectable current, including creeks, streams, and rivers draining into, between, and out of all lakes and ponds, and all intertidal waters upstream of the stream mouth.

FRESH WATER—All inland waters; inland waters are separated from salt water at the mouths of creeks, streams, and rivers at a line between extremities of the latter's banks at a mean low tide or at a point to be determined and adequately marked by the Department.

LENGTH OF FISH—The length from the tip of the snout to the tip of the tail (total length).

LOCAL REPRESENTATIVE OF THE DEPARTMENT—

(a) The nearest most accessible professional employee of the Department, (b) a person designated by the Commissioner or by a professional employee of the Department to perform specific functions for the Department, or (c) a law enforcement officer of the Department of Public Safety.

MARK OR MARKING—All forms of skin alteration, fin clipping, or other mutilation, or insertion of foreign materials in live fish that permit later identification.

MESH SIZE (STRETCH MESH SIZE, STRETCH MEASURE)—

The average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurement shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under five pound weight, except as otherwise provided in this title.

MOLESTING—The harassing, disturbing, or interfering with fish by any means, including the use of any missile or object not established as legal gear; molesting includes dragging, kicking, throwing, striking, or otherwise abusing a fish which is intended to be released.

MULTIPLE HOOK—A fish hook with two or more points with or without barbs.

OPEN SEASON—The time during which fish may lawfully be taken; each period of time prescribed as an open season shall be construed to begin at 12:01 a.m. on the first day and end at midnight of the last day thereof.

PEACE OFFICER OF THE STATE—(a) An employee of ADF&G authorized by the Commissioner; (b) a police officer in the state; or (c) any other person authorized by the Commissioner.

POSSESSION LIMIT—The maximum number of unpreserved fish a person may have in possession.

POWER ASSISTED FISHING REEL—A reel used to deploy and retrieve the sport fishing line that is operated or assisted by any electronic hydraulic, or other mechanical power source other than by hand-cranking a handle attached to the reel.

DEFINITIONS (CONTINUED)

PRESERVED FISH—Fish prepared in such a manner, and in an existing state of preservation, as to be fit for human consumption after a 15-day period, and does not include unfrozen fish temporarily stored in coolers that contain ice, dry ice, or fish that are lightly salted.

REEL SEAT—An attachment mechanism that holds the fishing reel to the rod using locking, threading rings, sliding bands, or other attachment devices and is designed to allow the reel to be readily detached from the fishing rod.

ROCKFISH—Includes all fish of the genus *Sebastes*, and does not include Irish lords, other sculpins, greenlings or lingcod.

SALMON—All salmon, including the five species of Pacific salmon: coho (silver), chum (dog), Chinook (king), pink (humpy), and sockeye (red).

SALT WATER—All marine waters; marine waters are separated from fresh water at the mouths of streams, rivers, and creeks.

SET LINE—An unattended line or lines that have been set, staked, anchored or otherwise fixed.

SINGLE HOOK—A fish hook with only one point with or without a barb.

SNAG—To hook a fish elsewhere than in its mouth.

SPORT FISHING—The taking of or attempting to take for personal use, and not for sale or barter, any fresh water, marine, or anadromous fish by hook and line held in the hand, or by hook and line attached to a pole or rod which is held in the hand or closely attended, or by other means defined by the Alaska Board of Fisheries.

SPORT FISHING GUIDE—A person who is licensed to provide sport fishing guide services to persons who are engaged in sport fishing.

SPORT FISHING GUIDE SERVICES—Assistance, for compensation or with the intent to receive compensation, to a sport fisherman to take or attempt to take fish by accompanying or physically directing the sport fisherman in sport fishing activities during any part of a sport fishing trip; however, the term does not include sport fishing services or services provided by an assistant, deckhand, or similar person who works directly under the supervision of and on the same vessel as a sport fishing guide.

SPORT FISHING SERVICES—The indirect provision of assistance, for compensation or with the intent to receive compensation, to a person engaged in sport fishing in taking or attempting to take fish or shellfish by a business that employs a sport fishing guide to provide sport fishing guide services to the person during any portion of a sport fishing trip; sport fishing services does not include an activity for which a sport fishing guide license is required, or booking and other ancillary services provided by a tour broker or agent to a sport fishing services operator.

STREAM MOUTH—The downstream point defined as a straight line running from the most downstream extremity on one stream bank to the most downstream extremity on the other stream bank, or a point defined and marked by the Department.

TAKE—Taking, pursuing, fishing, or in any manner disturbing, capturing, or killing or attempting to take, pursue, fish, or in any manner capture or kill fish or shellfish.

TOXICANT—Any material or chemical that upon introduction to the waters of Alaska by direct or indirect means will kill, stun, or drive fish from their natural repose.

TRANSPORT—Ship, transport, carry, import, export, or receive or deliver for shipment, transportation, carriage, or export.

TROUT—Includes rainbow, steelhead, and cutthroat.

WATERS OF ALASKA—Has the same meaning as set out in 5 AAC 39.975(13).

YEAR—The calendar year from January 1 through December 31.

Major Drainages of Bristol Bay

General Regulations - Bristol Bay

Inclusive waters: All fresh waters draining into Bristol Bay between Cape Menshikof and Cape Newenham, and all salt waters east of a line from Cape Newenham to Cape Menshikof.

The fishing season for all species is open year-round unless otherwise noted below.

KING SALMON

- **Season:** May 1–July 31.
- 20 inches or longer— Annual limit of 5 king salmon 20 inches or longer in Bristol Bay salt and fresh waters. Of these 5 total king salmon, no more than 4 may be harvested from the Nushagak/Mulchatna river drainage, and no more than 2 may be harvested from the Wood River drainage. Harvest record required. See page 5 for recording instructions.
- **Fresh waters:**
 - **King salmon removed from the water must be retained:** Any king salmon removed from freshwater drainages of Bristol Bay from Cape Menshikof to Cape Newenham **MUST BE RETAINED** and becomes part of the bag limit of the person originally hooking it. If you intend to release a king salmon, you may not remove it from the water before releasing it.
 - 20 inches or longer: 3 per day, 3 in possession, only 1 of which may be 28 inches or longer.
 - Less than 20 inches: 10 per day, 10 in possession.
- **Salt waters:**
 - 3 per day, 3 in possession, only 2 of which may be 28 inches or longer.

OTHER SALMON

- 5 per day, 5 in possession.

ARCTIC CHAR AND DOLLY VARDEN

- **Season:** June 8–October 31.
 - 3 per day, 3 in possession.
- **Season:** November 1–June 7.
 - 10 per day, 10 in possession.

RAINBOW TROUT

- **Season:** June 8–October 31.
 - 2 per day, 2 in possession, only 1 of which may be 20 inches or longer.
- **Season:** November 1–June 7.
 - 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

ARCTIC GRAYLING

- 2 per day, 2 in possession.

LAKE TROUT

- 4 per day, 4 in possession.

NORTHERN PIKE

- 5 per day, 5 in possession, only 1 of which may be 30 inches or longer.

BURBOT

- 15 per day, 15 in possession.

HALIBUT

Pacific halibut fisheries are managed by the federal government under international treaty. See page 7 for federal contact information.

- **Season:** February 1–December 31.
- **Unguided anglers:** 2 per day, 4 in possession.
- Consult federal regulations for bag, possession and size limits and other regulations for guided (charter) anglers.
- **Filleting requirements for fish cleaned at sea:** No person shall possess on board a vessel, including charter vessels and pleasure craft used for fishing, Pacific halibut that have been filleted, mutilated, or otherwise disfigured in any manner, except that each Pacific halibut may be cut into no more than 2 ventral pieces, 2 dorsal pieces, and 2 cheek pieces, with a patch of skin on each piece, naturally attached.

LINGCOD

- No limit.

ROCKFISH

- No limit.

KING CRAB

- **Season:** June 1–January 31.
 - Males only:
 - 6½ inches or more: 6 per day, 6 in possession.

DUNGENESS CRAB

- Males only:
 - 6½ inches or more: 12 per day, 12 in possession.

TANNER CRAB

- Males only:
 - 5½ inches or more: 12 per day, 12 in possession.

SHARKS (EXCEPT SPINY DOGFISH)

- 1 per day, 1 in possession, no size restrictions.
- Annual limit of 2 sharks. Harvest record required. See page 5 for recording instructions.

SPINY DOGFISH

- 5 per day, 5 in possession—no size restrictions. Harvest record **not** required.

OTHER FINFISH

- No limit

Methods and Means - Bristol Bay

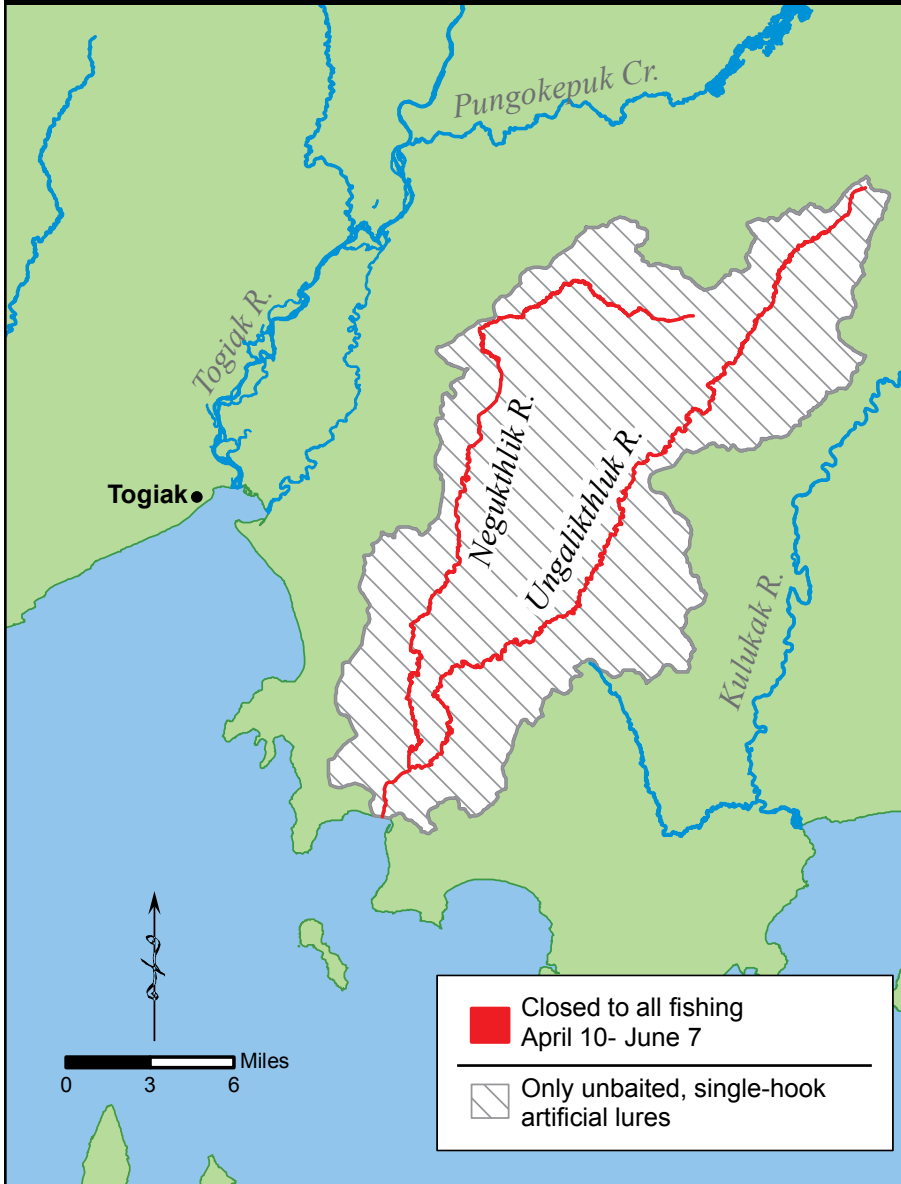

Chumming:

- In waters closed to the use of bait, sport fishing guides and guided anglers are prohibited from placing in the water any substance (bait) for the purpose of attracting fish by scent.

Sport fishing guides and the retention of fish:

- A sport fishing guide may not retain fish while the guide is accompanying or personally directing the angler in fishing activities during any portion of a guided fishing trip.

Ungalikthluk River Drainage

A nice Arctic char. Get out and fish!

Special Regulations - *Bristol Bay*

Ungalikthluk drainage - including the Negukthlik River:

- **June 8–April 9:** Open to fishing.
- Only unbaited, single hook, artificial lures or flies may be used.
- Rainbow trout limits:
 - **June 8–Oct. 31:** No retention of rainbow trout. All rainbow trout caught must be released immediately.
 - **Nov. 1–April 9:** 5 per day, 5 in possession, only 1 may be over 20 inches.

Special Regulations - Bristol Bay

Wood River drainage:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 31:** Open to fishing for king salmon.
- King salmon limits:
 - Less than 20 inches: 10 per day, 10 in possession.
 - 20 inches or longer: 1 per day, 1 in possession, only 1 over 28 inches.
 - There is an annual limit of 2 king salmon over 20 inches taken from the Wood River drainage. All harvested king salmon 20 inches or longer must be recorded; see page 5.
- **Agulowak River** (from an ADF&G regulatory marker at the outlet of Lake Nerka, downstream to Lake Aleknagik, including waters of Lake Aleknagik within ½ mile of the Agulowak River outlet):
 - Only unbaited, single hook, artificial lures or flies may be used.
 - Rainbow trout limits: 1 per day, 1 in possession.
 - Arctic char/ Dolly Varden limits: 2 per day, 2 in possession.

- **Agulukpak River** (From the outlet of Lake Beverly to the island located 1.2 miles downstream):

- **Sept. 1–June 7:** Only unbaited, single hook, artificial lures or flies may be used.
- **June 8–Aug. 31:** Only unbaited, single hook, artificial flies may be used.
- Rainbow trout limits:
 - **June 8–Oct. 31:** No retention. All rainbow trout caught must be released immediately.
 - **Nov. 1–June 7:** 5 per day, 5 in possession, only 1 may be over 20 inches.

- **Kulik Lake:**

- Northern pike: No retention of northern pike 30 inches or longer.

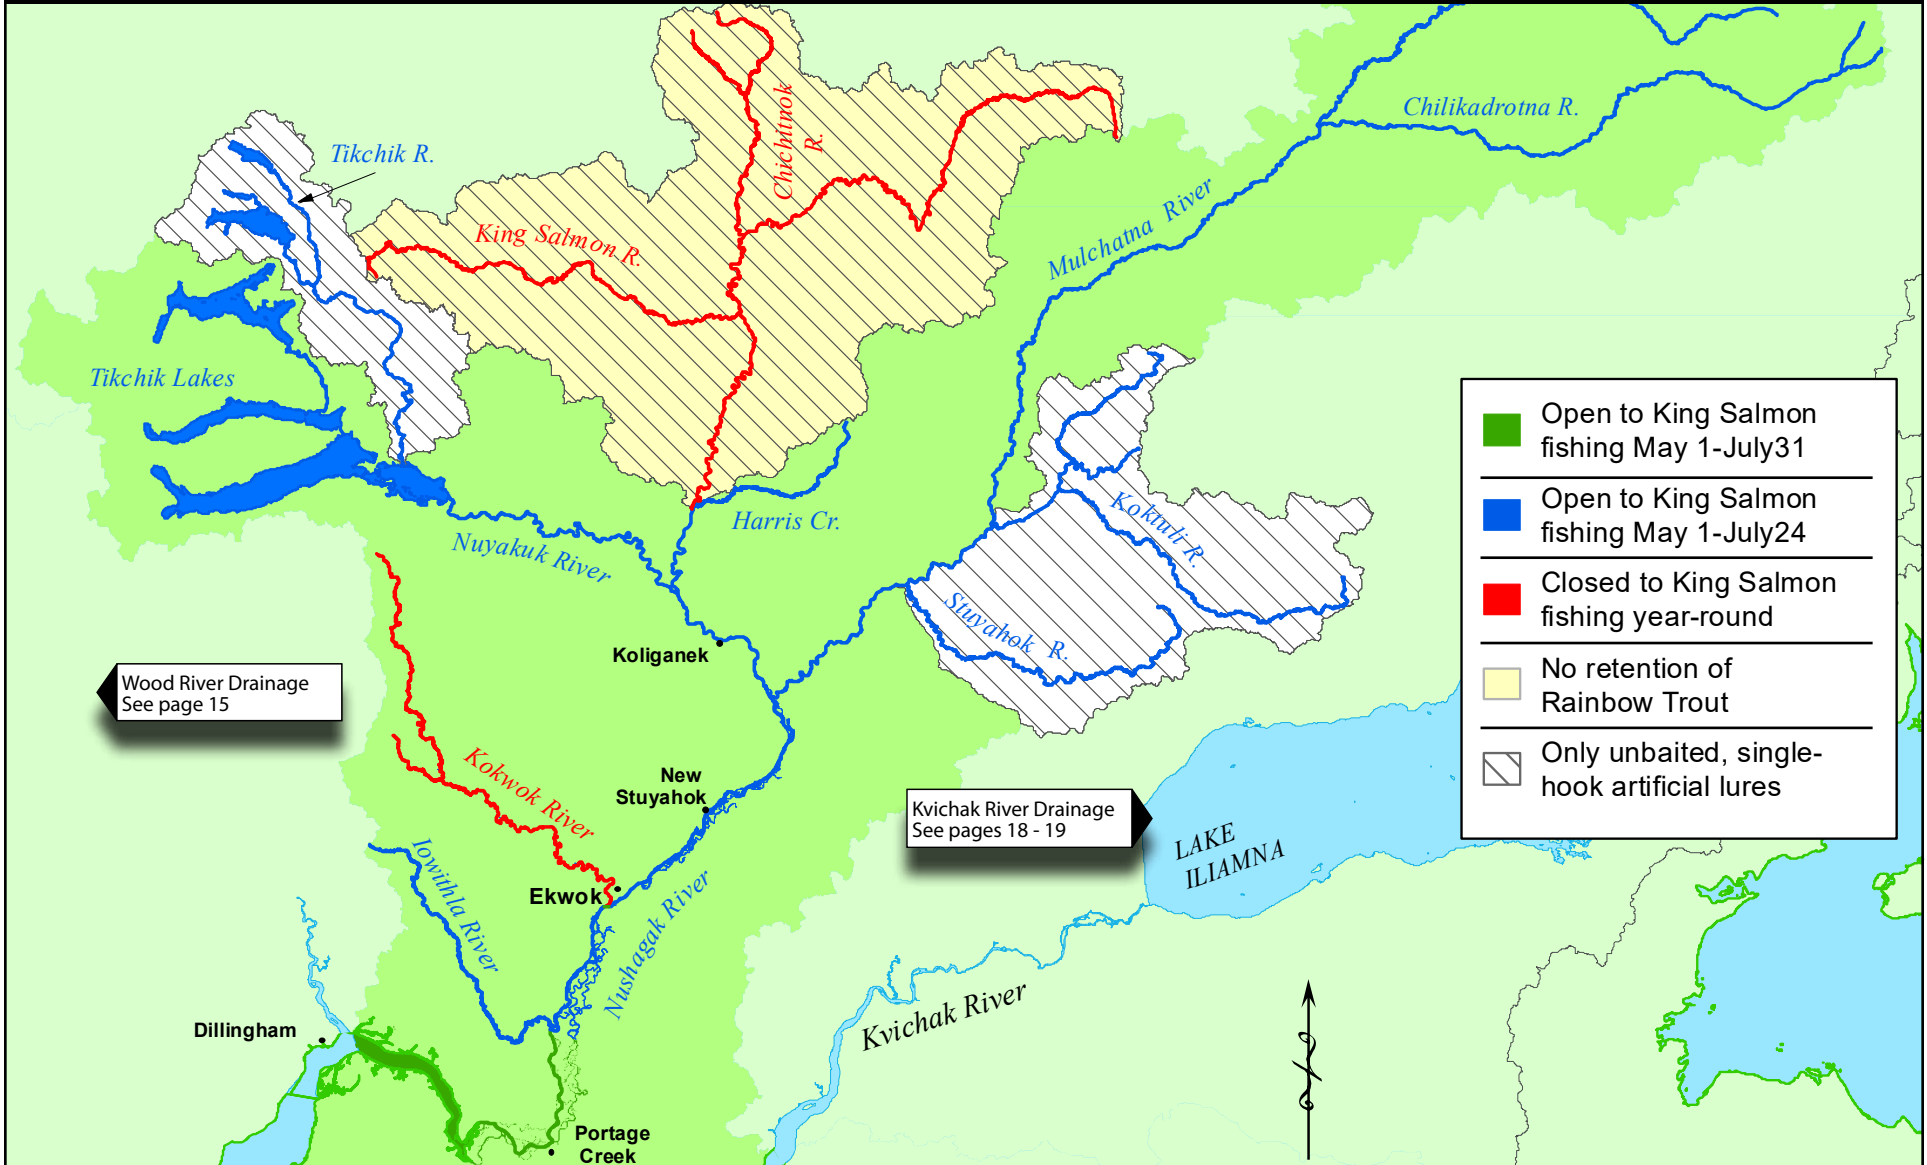

A happy angler with a nice coho salmon.

Wood River Drainage

Nushagak/Mulchatna River Drainage

The Nushagak/Mulchatna Chinook and Coho Salmon Management Plans

may require inseason adjustments to the regulations (emergency orders) for seasons, bag limits, gear, and open waters, depending on escapement levels of king or coho salmon. See page 3 for instructions on how to check for emergency orders in the area you are fishing.

Nushagak/Mulchatna drainage:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 31:** Only one single hook lure or fly, or one single hook may be used. The use of bait is allowed during this time frame. Refer to page 7 for number of allowable hooks per target species.
- **August 1–April 30:** Bait and multiple hooks are allowed.
- **In waters of the Nushagak/Mulchatna River drainage open to fishing for king salmon:**
 - King salmon limits:
 - 20 inches or longer:
 - 2 per day, 2 in possession, only 1 over 28 inches.
 - After taking a bag limit of king salmon 20 inches or longer from the Nushagak/Mulchatna River drainage, you may only use unbaited artificial lures or flies with *one single hook*, in the Nushagak/Mulchatna River drainage for the remainder of the day.
 - There is an annual limit of 4 king salmon over 20 inches taken from the entire Nushagak/Mulchatna drainage.
 - All harvested king salmon 20 inches or longer must be recorded. See page 5 for recording instructions.
 - Less than 20 inches: 5 per day 5 in possession
 - **From its confluence with the Iowithla River, upstream to Harris Creek, including the Iowithla River:**
 - **May 1–July 24:** Open to fishing for king salmon.
 - **Upstream of its confluence with Harris Creek:**
 - **Closed year-round to fishing for king salmon.**
 - Bait prohibited, only unbaited, single hook, artificial lures may be used year-round.
 - Rainbow trout: No retention year-round. All rainbow trout caught must be released immediately.

Kokwok River (including waters of the Nushagak River within ¼ mile of its confluence with the Kokwok River):

- Open to fishing year-round for species other than king salmon.
- Closed year-round to fishing for king salmon.

Koktuli River drainage:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 24:** Open to fishing for king salmon.
- Only unbaited, single hook, artificial lures or flies may be used year-round.

Mulchatna River drainage—from ADF&G markers about 1½ miles downstream from the Stuyahok River outlet, upstream to markers about 1½ miles upstream from the Koktuli River outlet:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 24:** Open to fishing for king salmon.
- Only unbaited, single hook, artificial lures or flies may be used year-round.

Nuyakuk River—from the outlet of Tikchik Lake to an island located about 2 miles downstream from Nuyakuk Falls:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 24:** Open to fishing for king salmon.
- Only unbaited, single hook, artificial lures or flies may be used year-round.

Stuyahok River drainage:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 24:** Open to fishing for king salmon.
- Only unbaited, single hook, artificial lures or flies may be used year-round.

Tikchik River drainage:

- Open to fishing year-round for species other than king salmon.
- **May 1–July 24:** Open to fishing for king salmon.
- Only unbaited, single hook, artificial lures or flies may be used year-round.

Kvichak and Alagnak River Drainages

Chulitna River drainage (including waters of Lake Clark within 1 mile of the Chulitna River):

- Open to fishing year-round.
- Northern pike: No retention of northern pike 30 inches or longer is allowed. All northern pike 30 inches or longer must be immediately released.

Kvichak River drainage:

Use of helicopters for transporting anglers and sport-caught fish is prohibited in the Kvichak River drainage.

- Salmon limits (except king salmon) excluding the Alagnak River drainage: 5 per day, 5 in possession; only 2 per day, 2 in possession may be coho salmon.
- **Kvichak River upstream from its outlet in Kvichak Bay to Iliamna Lake:**
 - **April 10–June 7:** Closed to all sport fishing.
 - Only unbaited, single hook, artificial lures or flies may be used year-round, except in lake waters more than a ½-mile radius from inlet or outlet streams.
- **Kvichak River from Kvichak Bay upstream to an ADF&G marker at the confluence of Yellow Creek:**
 - Rainbow trout limits:
 - **June 8–Oct. 31:** 1 per day, 1 in possession, no size limit.
 - **Nov. 1–April 9:** 5 per day, 5 in possession, only 1 over 20 inches.
- **From an ADF&G regulatory marker at the confluence of Yellow Creek upstream to the waters of Iliamna Lake within a ½-mile radius of its outlet at Igiugig:**
 - Rainbow trout:
 - **June 8–Sept. 30:** No retention of rainbow trout is allowed. All rainbow trout must be immediately released.
 - **Oct. 1–Oct. 31:** 1 per day, 1 in possession, no size limit.
 - **Nov. 1–April 9:** 5 per day, 5 in possession, only 1 over 20 inches.

The Kvichak Inriver Sockeye Management Plan may require inseason changes to sockeye salmon bag limits and waters open to fishing, depending on escapement levels. See page 3 for instructions on how to check for emergency orders in the area you are fishing.

Kvichak River drainage (continued):

- **Iliamna Lake** and all its tributaries, including the Newhalen River and tributaries, upstream to the outlet of Lake Clark:
- Open to fishing year-round except in lake waters within a ½ mile radius from inlet or outlet streams.
- Only unbaited, single hook, artificial lures or flies may be used year-round, except in waters of lakes more than a ½-mile radius from inlet or outlet streams.
- **All flowing waters, and lake waters within a ½-mile radius of inlet or outlet streams:**
 - **April 10–June 7:** Closed to all sport fishing. In lake waters more than ½ mile distant from inlet or outlet streams, General Regulations and limits apply.
- **In all waters except those of lakes more than a ½-mile radius from inlet or outlet streams:**
 - Rainbow trout:
 - **June 8–October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1–April 9:** 5 per day, 5 in possession, only 1 over 20 inches.

Lower Talarik Creek (including waters of Lake Iliamna within ½ mile of the Lower Talarik Creek mouth):

- **June 8–October 31:** Bait prohibited. Only unbaited artificial flies may be used.
- **June 8–October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

Upper Talarik Creek (including waters of Lake Iliamna within ½ mile of the Upper Talarik Creek mouth):

- **June 8–October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

Gibraltar River drainage (including all flowing waters and the waters of Lake Iliamna within ½ mile of the Gibraltar River mouth):

- **June 8–April 9:** Open to fishing.
- **June 8–October 31:** Bait prohibited. Only unbaited artificial flies may be used.
- **June 8–October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

Copper River drainage (including all flowing waters downstream from Lower Copper Lake and the waters of Lake Iliamna within ½ mile of the Copper River mouth):

- **June 8–April 9:** Open to fishing.
- **June 8–October 31:** Bait prohibited. Only unbaited artificial flies may be used.
- **June 8–October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

Tazimina River—from the falls, downstream to 1 mile upstream of its outlet into Sixmile Lake:

- **June 8–April 9:** Open to fishing.
- **June 8–October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

Sixmile Lake and Lake Clark:

- In all tributaries upstream of Sixmile Lake, including Lake Clark:
 - Open to fishing year-round.
 - Rainbow trout limits:
 - **June 8–October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1–June 7:** 5 per day, 5 in possession, only 1 over 20 inches.

Iliamna River drainage:

- **June 8–April 9:** Open to fishing.
- Arctic char and Dolly Varden: No retention of Arctic char or Dolly Varden is allowed. All Arctic char or Dolly Varden must be released immediately.

Alagnak River drainage: (Unless further restricted below. See map on pg. 18):

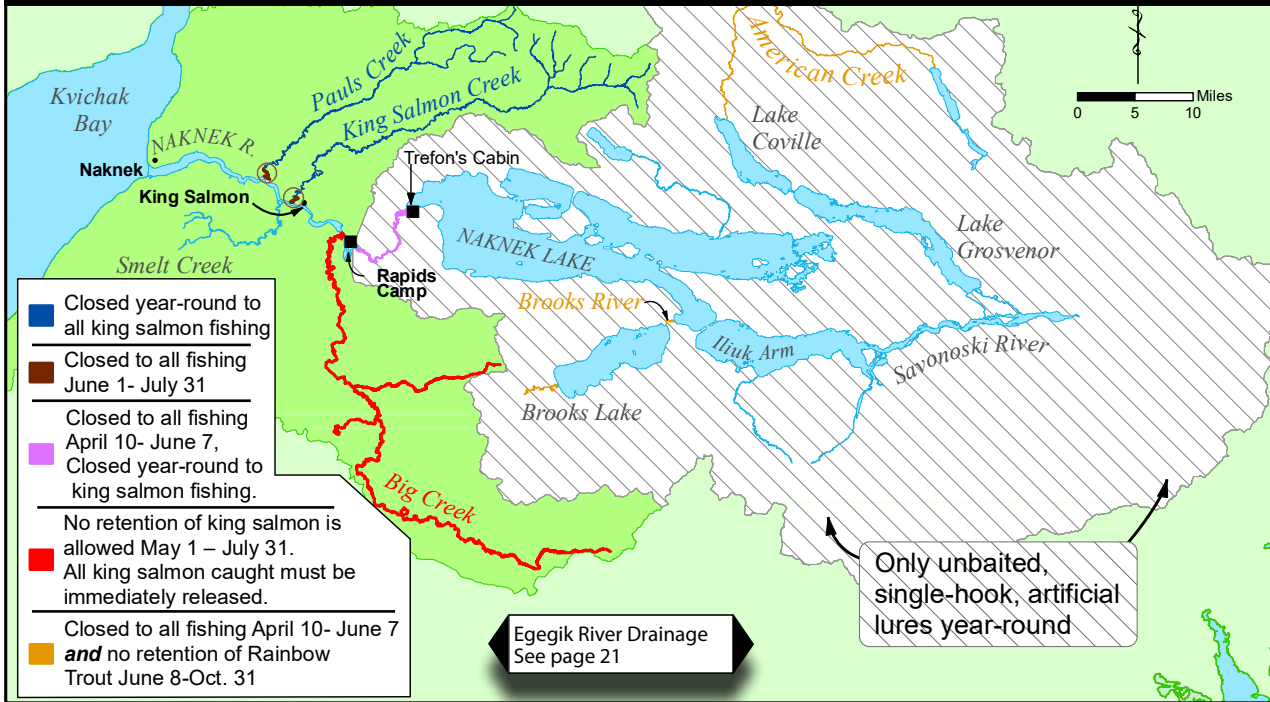

The use of helicopters for transporting anglers and sport-caught fish is prohibited.

- Salmon limits (all species except king): 5 per day, 5 in possession, only 3 per day, 3 in possession may be coho salmon. Limits for king salmon are the same as shown under General Seasons and Limits on page 13.
- Rainbow trout limits:
 - **June 8–October 31:** No retention of rainbow trout is allowed. All rainbow trout must be released immediately.
 - **November 1–April 9:** The daily limit is 5 per day, 5 in possession, must be less than 18 inches.
- **Alagnak River Drainage** (all flowing waters of the Alagnak River drainage, including lake waters within ½ mile of all inlet and outlet streams):
 - **June 8–April 9:** Open to fishing.
 - Only unbaited, single hook, artificial lures or flies may be used.

Moraine Creek drainage (all flowing waters):

- **June 8–April 9:** Open to fishing.
- **June 8–October 31:** Only unbaited, single hook, artificial flies may be used.

Naknek River Drainage

Special Regulations (continued)

Naknek River drainage:

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8–October 31:** Unless further restricted below, in the Naknek River drainage, 1 per day, 1 in possession, must be less than 18 inches.
 - **November 1–June 7:** 5 per day, 5 in possession, must be less than 18 inches.
- **In all flowing waters:**
 - **March 1–November 14:** Only unbaited, artificial lures or flies may be used.

- **In all flowing waters upstream from an ADF&G regulatory marker located ½ mile upstream of Rapids Camp, including all waters within ¼ mile of all lake inlet and outlet streams:**
 - Only unbaited, single hook, artificial lures or flies may be used year-round.
- **Upstream from ADF&G markers located ½ mile above Rapids Camp to ADF&G markers at Trefon's cabin at the outlet of Naknek Lake:**
 - **Closed year-round to fishing for king salmon.**
 - **June 8–April 9:** Open to fishing.
 - **March 1–April 9** and from **June 8–July 31:** Only unbaited, single hook, artificial lures or flies with a gap between the point and shank of ½ inch or less are allowed. For the remainder of the year, only unbaited, single hook, artificial lures or flies may be used.

Naknek River drainage continued...

- **Within a 1/4 mile radius of Big Creek:**
 - **May 1–July 31:** King salmon may be retained. Bag limits and gear restrictions are the same as the remainder of the Naknek River.

King Salmon Creek:

- Rainbow trout limits: 1 per day, 1 in possession, must be less than 18 inches.
- **Upstream from ADF&G markers at the confluence with the Naknek River, to the upstream side of the Alaska Peninsula Highway bridge:**
 - **August 1–May 31:** Open to fishing.
- **Upstream of the Alaska Peninsula Highway bridge:**
 - Open year-round to fishing for species other than king salmon.
 - **Closed year-round to fishing for king salmon.**

Paul's Creek:

- Rainbow trout limits: 1 per day, 1 in possession, must be less than 18 inches.
- **Upstream from ADF&G markers at confluence with the Naknek River to the upstream side of the Alaska Peninsula Highway bridge:**
 - **August 1–May 31:** Open to fishing.
- **Upstream of the Alaska Peninsula Highway bridge:**
 - Open year-round to fishing for species other than king salmon.
 - **Closed year-round to fishing for king salmon.**

Big Creek—upstream of its confluence with the Naknek River:

- Open year-round to fishing for species other than king salmon.
- **May 1–July 31:** King salmon may not be retained. All king salmon caught must be released immediately.

Brooks River drainage:

- Rainbow trout limits:
 - **June 8–October 31:** Unless further restricted below, all rainbow trout caught must be immediately released.
 - **November 1–June 7:** The bag and possession limit for rainbow trout is 5 fish less than 18 inches in length. Any rainbow trout caught that are 18 inches or greater in length must be immediately released.
- **In all flowing waters of the Brooks River drainage, including lake waters within ¼ mile of all inlet and outlet streams and waters of Naknek Lake within ¼ mile of the outlet of the Brooks River:**
 - **June 8–April 9:** Open to sport fishing.
 - Only unbaited, single hook, artificial flies may be used.
 - Rainbow trout limits: November 1–April 9: 5 per day, 5 in possession, must be less than 18 inches.
- **The outlet of Brooks Lake downstream to the bridge at Brooks Camp:**
 - Open to catch-and-release only. No retention of any species is allowed. All fish caught must be released immediately.

Brooks River and Brooks Camp are within Katmai National Park. Additional National Park regulations may apply to access and conduct of the fishery. Call (907) 246-3305 for information.

Savonoski River drainage (including the waters of Naknek Lake within ¼ mile of the mouth of the Savonoski River, and including Lake Coville and Lake Grosvenor, but excluding American Creek):

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8–October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1–June 7:** 5 per day, 5 in possession, only 1 over 20 inches.

Egegik and Ugashik River Drainages

American Creek:

- **June 8–April 9:** Open to fishing.
- Rainbow trout limits:
 - **June 8–October 31:** No retention of rainbow trout is allowed. All rainbow trout must be released immediately.
 - **November 1–April 9:** 5 per day, 5 in possession, only 1 over 20 inches.

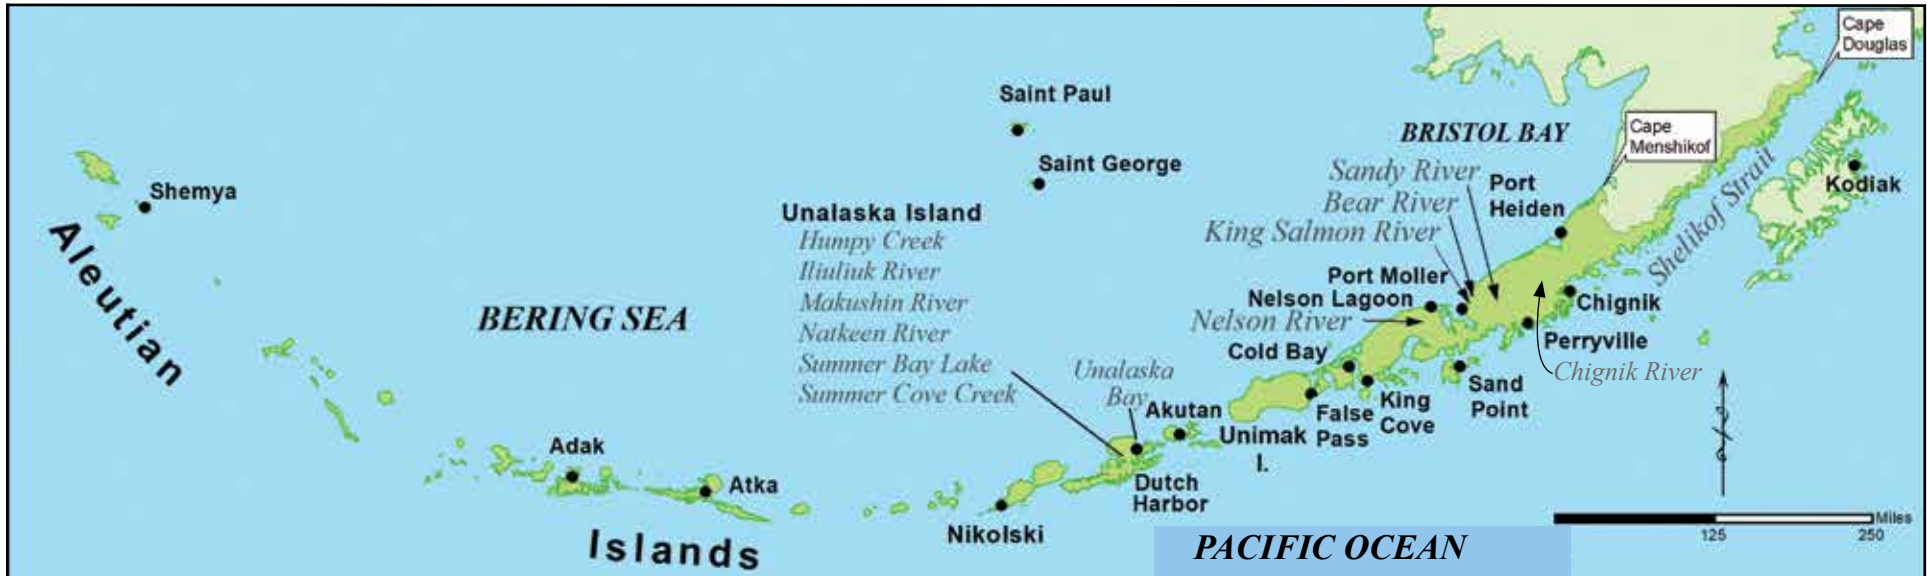

Egegik River drainage: (all waters, including Becharof Lake):

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8–October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1–June 7:** 5 per day, 5 in possession, only one fish over 20 inches.
- **At Becharof Lake outlet, including the waters of Becharof Lake within ¼ mile of the outlet and the waters of the Egegik River within ¼ mile of the outlet:**
 - Arctic grayling: No retention. All Arctic grayling must be released immediately.

Ugashik River drainage - including Ugashik Lakes:

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8–October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1–June 7:** 5 per day, 5 in possession, only one fish over 20 inches.
- **In Ugashik Narrows (the waters from the outlet of Upper Ugashik Lake downstream to the inlet of Lower Ugashik Lake, including those waters of Upper and Lower Ugashik Lakes within ¼ mile of the Ugashik Narrows):**
 - Arctic grayling: No retention. All Arctic grayling must be released immediately.
- **The Ugashik River:**
 - **Closed year-round to fishing for Arctic grayling.**
- **In the remainder of the Ugashik drainage, including Ugashik Lakes and all Ugashik tributaries:**
 - Arctic grayling: 2 per day, 2 in possession.

General Regulations - Alaska Peninsula and Aleutian Islands

Inclusive waters: All fresh waters of the Aleutian Islands and the Alaska Peninsula (Pacific Ocean drainages west of the longitude of Cape Douglas and Bering Sea drainages south of the latitude of Cape Menshikof).

The freshwater fishing season for all species is open year-round unless otherwise noted below.

KING SALMON

- **Season:** January 1–July 25.
 - 20 inches or longer: 2 per day, 2 in possession. Annual limit of 5 fish. Harvest record required. See page 5 for recording instructions.
 - Less than 20 inches: 10 per day, 10 in possession.

OTHER SALMON

- Alaska Peninsula/Aleutian Islands Remote Zone:
 - 20 inches or longer (total combination of all species except king salmon): 5 per day, 10 in possession.
 - Less than 20 inches: 10 per day, 10 in possession.
- Unalaska Bay Drainages (Unalaska/Dutch Harbor Road Zone):
 - 20 inches or longer (total combination of all species except king salmon): 5 per day, 5 in possession, of which 2 may be coho and 2 may be sockeye salmon.
 - Less than 20 inches: 10 per day, 10 in possession.

RAINBOW/STEELHEAD TROUT

- 2 per day, 2 in possession, only 1 of which may be 20 inches or longer. Annual limit of 2 fish 20 inches or longer. Harvest record required. See page 5 for recording instructions.

DOLLY VARDEN

- 10 per day, 10 in possession.

ARCTIC GRAYLING

- 5 per day, 5 in possession.

OTHER FINFISH

- No limit

Special Regulations - Alaska Peninsula

Chignik River:

- Open to fishing year-round for species other than king salmon.
- **January 1–August 9:** Open to fishing for king salmon.

King Salmon River:

- Open to fishing year-round.
- **That section of river from its mouth to an ADF&G regulatory marker located 1,000 yards upstream:**
 - Only unbaited, artificial lures or flies may be used year-round.
 - Fishing for king salmon is only open to catch-and-release. Any king salmon caught must be released immediately and must not be removed from the water before release.

Runway Lake (near Anchorage Bay in Chignik):

- Open to fishing year-round.
- Rainbow trout limits: Annual limit of 2 fish over 20 inches or longer does not apply. General limits still apply.

Sandy River:

- Open to fishing year-round.
- Rainbow/steelhead trout limits: **No possession or retention of rainbow/steelhead trout.** Rainbow/steelhead trout must be released immediately.
- King salmon limits: 20 inches or longer: 1 per day, 1 in possession, 2 fish annual limit.
- Only one unbaited, single hook, artificial lure or fly may be used.

Nelson (Sapsuk) River drainage: upstream from an ADF&G marker located about 2 miles upstream:

- Open to fishing year-round.
- Only one unbaited, single hook, artificial lure or fly may be used.
- Fishing for king salmon is only open to catch-and-release. Any king salmon caught must be released immediately and must not be removed from the water before release.

Swanson Lagoon:

- **August 1–December 31:** Open to fishing.
- Closed year-round to fishing for sockeye salmon.

Special Regulations - Aleutian Islands

Humpy Creek:

- **Closed year-round to sport fishing.**

Makushin River - upstream from an ADF&G marker located about 2 miles upstream:

- **Closed year-round to sport fishing.**

Nateekin River - upstream from an ADF&G marker located about 2 miles upstream:

- **Closed year-round to sport fishing.**

Iliuliuk drainage - including the Iliuliuk Creek (also known as Town or Unalaska Creek), Iliuliuk Lake and all waters flowing into Iliuliuk Lake:

- **Upstream from ADF&G regulatory markers located at the Church Hole:**
 - **Closed year-round to fishing for salmon.**
- **Downstream from ADF&G regulatory markers located at the Church Hole:**
 - **Closed year-round to fishing for sockeye salmon.**

Summer Bay Creek (see map below):

- **Closed year-round to fishing for salmon.**

Summer Bay Lake

drainage—including salt waters within a 250-yard radius of the Summer Bay Creek outlet:

- **January 1–August 15:** Open to fishing.
- **January 1–August 15:**
 - Coho, chum, sockeye and pink salmon limits: Total combination of all species —5 per day, 5 in possession, only 2 of which may be coho and only 2 may be sockeye salmon.

Unalaska Bay drainages:

- Coho, chum, sockeye and pink salmon limits: Total combination of all species: 5 per day, 5 in possession, only 2 of which may be coho salmon and only 2 may be sockeye salmon.

General Regulations - Salt Water

Inclusive waters: All salt waters circumjacent to Kodiak Island, the Aleutian Islands and the Alaska Peninsula (coastline west of the longitude of Cape Douglas and Bering Sea coastline south of the latitude of Cape Menzhikof).

The salt water fishing season for all species is open year-round unless otherwise noted below.

KING SALMON

- 2 per day, 2 in possession. **No annual limit.**

OTHER SALMON

- Kodiak and Alaska Peninsula/Aleutian Islands remote zones: 5 per day, 10 in possession.
- Kodiak Road Zone (refer to map on page 25): 5 per day, 5 in possession -
 - Only 2 of which may be sockeye salmon.
 - Only 2 of which may be coho salmon prior to Sept 16, and only 1 of which may be a coho salmon from September 16-Dec. 31 (*see special regulations for stocked areas*).
- Unalaska Bay: 5 per day, 5 in possession, of which 2 may be coho and 2 may be sockeye.

RAINBOW/STEELHEAD TROUT

- 2 per day, 2 in possession, only 1 may be 20 inches or longer (except Kodiak Road Zone—see page 25).
 - 20 inches or longer: Annual limit of 2 fish. Harvest record required. See page 5 for recording instructions.

DOLLY VARDEN

- 10 per day, 10 in possession.

LINGCOD

- **Season:** July 1 - December 31.
 - 2 per day, 4 in possession.

SHARKS (EXCEPT SPINY DOGFISH)

- 1 per day, 1 in possession: No size restrictions. Annual limit of 2 sharks. Harvest record required. See page 5 for recording instructions.

SPINY DOGFISH

- 5 per day, 5 in possession. No size restrictions.

HALIBUT

Pacific halibut fisheries are managed by the federal government under international treaty. See page 7 for federal contact information.

- **Season:** February 1 - December 31.
- **Unguided anglers:** 2 per day, 4 in possession.
- **Consult federal regulations for the following:**
 - Bag, size, and possession limits for guided (charter) anglers.
 - Possession and landing requirements.
 - Inseason changes to the regulations.

ROCKFISH

- **Chiniak and Marmot Bay Limits:** 3 per day, 6 in possession; only 2 per day, 4 in possession may be non-pelagic, only 1 per day, 2 in possession may be a Yelloweye. (*See page 25 for map*).
- Captain and crew of charter vessels may not retain rockfish while clients are on board in this area. (*See page 25 for map*).
- **Remainder of Kodiak Island:** 5 per day, 10 in possession; only 2 per day, 4 in possession may be non-pelagic, only 1 per day, 2 in possession may be a Yelloweye.
- **Alaska Peninsula & Aleutian Islands limits:** 10 per day, 20 in possession.

OTHER FINFISH

- No limit

KING CRAB

- Alaska Peninsula/Aleutian Islands (golden king crab):
 - Males only: 6 ½ inches or more: 6 per day, 6 in possession
 - Red or blue king crab may not be retained or possessed.
- **Kodiak Area: Closed for all king crab species.**

DUNGENESS CRAB

- Males only: 6½ inches or more (straight-line distance across carapace, **not** including spines)—12 per day, 12 in possession.

TANNER CRAB

- Males only: 5½ inches or more (straight-line distance across carapace, **including** spines)—6 per day, 6 in possession.
- In a commercial Tanner crab section of the Kodiak District that will be open to a commercial Tanner crab fishery, the taking of Tanner crab is prohibited in waters 25 fathoms or more in depth during the 14 days immediately before the scheduled opening of a commercial Tanner crab fishing season in that section.

Attention salt water anglers:

As of January 1, 2020, anglers must carry a deepwater release device onboard their vessel when sport fishing in salt water and will be required to use the device to release rockfish that are not harvested at depth of capture or 100 feet.

Special Regulations - Salt Water

Chiniak and Marmot Bays:

- In the waters of Chiniak Bay and Marmot Bay, west of a line from Cape Chiniak (57° 37.22' N. lat, 152° 9.34' W. long) to Pillar Cape (58° 8.89' N. lat, 152° 6.78' W. long) and east of a line from Head Point on Afognak Island (57° 59.67' N. lat, 152° 46.75' W. long) to Dolphin Point (57° 59.15' N. lat, 152° 43.40' W. long) on Whale Island, east of a line from Bird Point (57° 55.30' N. lat, 152° 47.50' W. long) on Whale Island to Inner Point (57° 54.05' N. lat, 152° 47.75' W. long) on Kodiak Island and all waters of Kizhuyak Bay:
- Rockfish limits** are 3 per day, 6 in possession; only 2 per day, 4 in possession may be non-pelagic, and only 1 per day, 2 in possession may be a Yelloweye. Captain and crew of charter vessels may not retain rockfish while clients are on board in this area.

Kodiak Road Zone:

- Open to fishing year-round.
- Salmon limits: Of daily other salmon limit, only 2 may be sockeye salmon. Prior to September 16, only 2 may be coho salmon. From September 16-December 31, only 1 may be a coho salmon.
- In the saltwaters of Monashka and Mill Bay and Mission Beach, the year-round daily bag and possession limit of coho salmon is 2 fish.
- Steelhead/rainbow trout: No retention of steelhead/rainbow trout is allowed. All steelhead/rainbow trout must be released immediately.

Kodiak Remote Zone:

- Open to fishing year-round.
- Salmon limits (other than king salmon): 5 per day, 10 in possession.

Mill Bay:

- Open to fishing year-round.
- September 16–July 31:** Snagging is allowed.

Mission Beach:

- Open to fishing year-round.
- September 16–July 31:** Snagging is allowed.

Monashka Bay:

- Open to fishing year-round.
- July 6–April 30:** Snagging is allowed.

Unalaska Bay:

- Open to fishing year-round.
- Salmon (except king salmon) limits: 5 per day, 5 in possession, only 2 may be coho salmon and only 2 may be sockeye salmon.

Summer Bay—All salt waters within a 250 yard radius of the outlet of Summer Bay Lake:

- January 1–August 15:** Open to fishing.
- January 1–August 15:** Coho, chum, sockeye and pink salmon limits:
 - Total combination of all species —5 per day, 5 in possession, of which only 2 may be coho and 2 may be sockeye salmon.

Kitoi Bay:

- Within 500 yards of Little Kitoi Creek:
 - October 1–August 14:** Open to fishing.
- From the mouth of Big Kitoi Creek to ADF&G markers located at approx. 152° 22' W. long.:
 - Closed year-round to all fishing.**
- Seaward from ADF&G markers located at approx. 152° 22' W. long. to ADF&G markers located at approx. 152° 21.75' W. long.:
 - October 1–August 14:** Open to fishing.

Kodiak Island Road Zone

General Regulations - Kodiak Island Fresh Water

Inclusive waters: All drainages of the Kodiak and Afognak Island groups.

- **Kodiak Island Road Zone:** All fresh waters of Kodiak Island that are east of a line extending south from Crag Point on the west side of Anton Larsen Bay to the westernmost point of Saltery Cove, including the waters of Woody and Long. See map on page 27.
- **Kodiak Island Remote Zone:** All drainages outside of the Kodiak Island Road Zone.

The fresh water fishing season for all species is open year-round unless otherwise noted below.

KING SALMON

- 20 inches or longer: 2 per day, 2 in possession. Annual limit of 5 fish. Harvest record required. See page 5 for recording instructions.
- Less than 20 inches: 10 per day, 10 in possession.

OTHER SALMON

- **Kodiak Remote Zone:**
 - 20 inches or longer (total combination of all species): 5 per day, 10 in possession.
 - Less than 20 inches: 10 per day, 10 in possession.
- **Kodiak Road Zone:**
 - 20 inches or longer (total combination of all species): 5 per day, 5 in possession.
 - Only 2 of which may be sockeye salmon
 - Only 2 of which may be coho salmon prior to September 16, and only 1 of which may be a coho salmon from September 16-December 31 (*see special regulations for stocked areas on pages 27-28*).
 - Less than 20 inches: 10 per day, 10 in possession.

RAINBOW/STEELHEAD TROUT

- **Kodiak Remote Zone:**
 - 2 per day, 2 in possession, only 1 of which may be 20 inches or longer.
 - 20 inches or longer: Annual limit of 2 fish. Harvest record required. See page 5 for recording instructions.
- **Kodiak Road Zone:**
 - No retention. All rainbow/steelhead trout caught must be released immediately (there are exceptions for stocked lakes, see special regulations that follow and the list of stocked lakes on page 29). Bait restrictions apply, see the special regulations.

DOLLY VARDEN AND ARCTIC GRAYLING

- 10 per day, 10 in possession.

OTHER SPECIES

- No limit.

Kodiak Island Remote Zone and Road Zone

Methods and Means - Kodiak Island Road Zone

Bait Restriction:

- In all fresh waters of the Kodiak Road Zone:
 - **November 1–April 30:** Only unbaited, artificial lures or flies may be used (this does not apply to Road Zone stocked lakes and Chiniak and Barry Lagoons).

Special Regulations - Kodiak Island Road Zone

Abercrombie (Gertrude) Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Aurel Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Big Lake (Lilly/Kings Diner):

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Bull Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Caroline Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Cicely Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Dark Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Dolgoi Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Dragonfly Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

East Twin Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Heitman Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Horseshoe Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Island Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Island Lake Creek/Mill Bay:

- Open to fishing year-round for species other than salmon.
- **Island Lake Creek is closed year-round to salmon fishing.**
- Mill Bay coho salmon bag limit is 2 per day, year-round.
- **September 16–July 31:** Snagging is allowed in Mill Bay.

Kalsin Pond Outlet Stream—*from the Chiniak Highway culvert downstream approximately 150 feet to an ADF&G marker:*

- **Closed year-round to sport fishing.**

Lee Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Lily Pond (Nyman's Peninsula Lake):

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Long Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Mission Beach:

- Open to fishing year-round.
- Coho salmon bag limit is 2 per day, year-round.
- **September 16–July 31:** Snagging is allowed.

Monashka Creek:

- Closed year-round to sport fishing upstream of the ADF&G regulatory markers located approximately 50 yards upstream of the Monashka Highway.
- Coho salmon bag limit is 2 per day, year-round in all other waters of Monashka Creek.

Pillar Creek:

- Closed year-round to all fishing above the highway.
- Coho salmon bag limit is 2 per day year-round below the highway.

Saltery Cove streams:

- Open to fishing year-round.
- Only 2 fish of the 5 salmon bag limit (for salmon other than king salmon) may be coho salmon prior to September 15, and only 1 may be a coho salmon from September 16–December 31; all 5 may be sockeye salmon.

Tanignak Lake:

- Open to fishing year-round.
- Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.

Kodiak Island Remote Zone - Special Regulations

Ayakulik River:

- Open to fishing year-round for species other than king salmon.
- **January 1–July 25:** Open to fishing for king salmon.

Dog Salmon drainage (including Frazer Lake):

- Open to fishing year-round for species other than king salmon.
- **January 1–July 25:**
 - Open to fishing for king salmon.
 - The use of bait is prohibited for any species.
- **Dog Salmon River** - from the Frazer Fish Pass Weir to an ADF&G marker 200 yards downstream:
 - **Closed to sport fishing June 1 - August 31.**

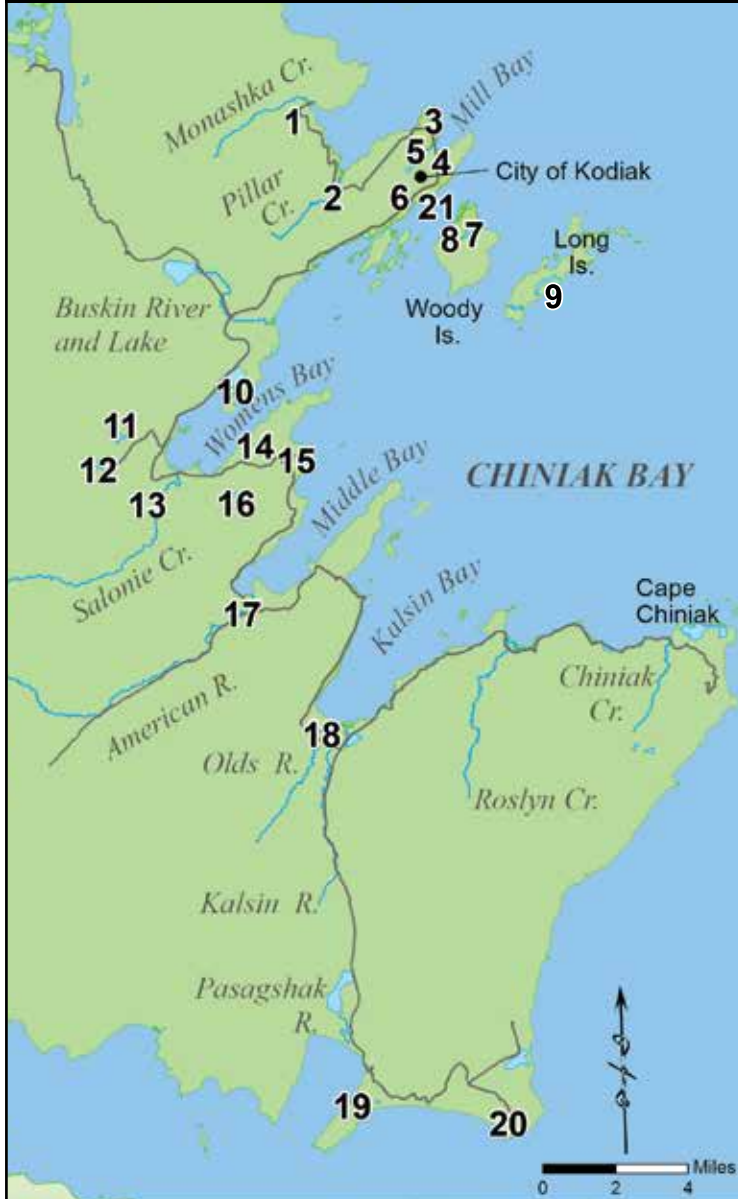

Karluk River:

- Open to fishing year-round for species other than king salmon.
- **January 1–July 25:** Open to fishing for king salmon.

Little Kitoi Lake and Creek:

- Open to fishing year-round for species other than salmon.
- **October 1–August 14:** Open to fishing for salmon.

Stocking Areas Kodiak Road Zone

Kodiak Road Zone Sport Fishing Enhancement Projects

The Department of Fish and Game annually funds numerous fisheries enhancement projects throughout Alaska in order to increase the abundance and diversity of fish species available to anglers. On Kodiak Island, several enhanced sport fisheries are maintained in Road Zone waters and include populations of anadromous king salmon, plus anadromous coho salmon and resident rainbow trout. Hatchery raised king salmon can be caught from mid-June through early August at the American and Olds river drainages and Salonie Creek. Anadromous coho salmon return to Monashka and Pillar creeks, Mill Bay and Mission Beach from early August through the end of September. Rainbow trout annually stocked in 17 Road Zone lakes are available to anglers year-round and can be fished through the ice when safe conditions exist.

- Stocked location maps are available from the Kodiak ADF&G office and also online:

<http://www.adfg.alaska.gov/index.cfm?adfg=fishingSport.region&StockingAreaID=8>

- Additional information on Kodiak and other sport fisheries enhancement activities can be found at the Division of Sport Fish website: <http://www.adfg.alaska.gov/index.cfm?adfg=fishingSport.main>

SS = Silver (coho) Salmon RT = Rainbow Trout KS = King Salmon

LEGAL GEAR REQUIREMENTS FOR HARVESTING SHELLFISH

- Crab may be taken by hand, or with pots or ring nets; or by diving gear or dip nets; or by hooked or hookless lines, either operated by hand or attached to a pole or rod.
- Shrimp may be taken only with pots or ring nets.
- Clams may be taken by hand, or with rakes, shovels, or manually operated clam guns.
- No more than 5 pots of any size per person and 10 pots per vessel may be used to take shellfish at any time.
- If a keg or buoy is used on shellfish gear, the first initial and last name and home address of the person operating the pot must be legibly inscribed on the keg or buoy. In addition, the name or AK number of the vessel used to set the gear must also be inscribed on the keg or buoy.
- All pots must include an escape mechanism in accordance with shellfish harvest regulations (5 AAC 39.145). See next section for description.

Tanner crab

SHELLFISH POT GEAR ESCAPE MECHANISMS

(Summary of 5 AAC 39.145)

- Pot gear must include escape mechanisms in order to avoid waste of the resource in case the pot is lost.
- A sidewall, which may include the tunnel, must contain an opening at least 18 inches long (6 inches long for shrimp pots). The opening must be within 6 inches of the bottom of the pot, and must be parallel to the bottom of the pot.
- The opening must be laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine no larger than 30-thread. The cotton twine may be knotted at each end only. The cotton twine may not be looped around or tied to the web bars.

Placement of escapement mechanism

Exception 1: Dungeness crab pots only may have the pot lid tie-down straps secured to the pot at one end by a single loop of untreated 100 percent cotton twine no larger than 60-thread.

"Dungeness crab pot Exception 1" (see text above)

Exception 2: Tanner crab and shrimp pots may use 36-thread twine (or smaller) and a galvanic timed-release device (GTR) in their 18-inch (or 6 inch for shrimp pots) opening. The GTR must be designed to release in no more than 30 days in salt water, and must be integral to the length of the twine so that when the device releases, the twine will no longer secure or obstruct the opening of the pot. The twine may be knotted only at each end and at the attachment points on the GTR.

Spot shrimp

OTHER IMPORTANT INFORMATION

Octopus are occasionally caught in crab pots. Octopus are defined as "other shellfish." There are no closed seasons, no bag or possession limits. Octopus may be taken only by pots or hook and line.

The captain and crew members of a charter vessel may not deploy, set, or retrieve their own gear in a subsistence, sport, or personal use fishery when that vessel is being chartered.

An owner, operator, or employee of a lodge, charter vessel, or other enterprise that furnishes food, lodging, or sport fishing guide services may not furnish to a client or guest of that enterprise, subsistence-, sport-, or personal use-caught shellfish, unless the shellfish:

1. Has been taken with gear deployed and retrieved by the client or guest;
2. Has been taken with gear that has been marked with the client's or guest's name and address; and
3. Is to be consumed by the client or guest or is consumed in the presence of the client or guest.

CRAB IDENTIFICATION AND MEASUREMENT

TANNER CRAB (minimum size 5½ inches)

Female - **NO HARVEST ALLOWED**

Wide abdominal flap covers most of underside (females usually smaller than 5½")

Male

Narrow abdominal flap

Width measurement of Tanner crab is the straight-line distance across the carapace, **including** spines.

DUNGENESS CRAB (minimum size 6½ inches)

Female - **NO HARVEST ALLOWED**

Wide abdominal flap covers most of underside

Male

Narrow abdominal flap

Width measurement of Dungeness crab is the straight-line distance across the carapace, **NOT** including spines.

KING CRAB - Alaska Peninsula and Aleutian Islands are only open to golden king crab (minimum size 6½ inches); Kodiak Island is **CLOSED** for all three species

Female - **NO HARVEST ALLOWED**

Wide abdominal flap covers most of underside

Male

narrow abdominal flap

6 prominent spines on mid-dorsal plate

RED KING CRAB

(minimum size 6½ inches)

5 to 9 spines on mid-dorsal plate

GOLDEN KING CRAB

(minimum size 6½ inches)

4 prominent spines on mid-dorsal plate

BLUE KING CRAB

(minimum size 6½ inches)

PACIFIC SALMON MARINE PHASE IDENTIFICATION

Please note, when salmon enter fresh water they undergo significant physical changes including changes in coloration. This chart is intended to help anglers identify salmon by species. However, it is the angler's responsibility to be able to positively identify the species at any point in its life cycle.

Chinook (king) Salmon

- Spots on back and both lobes of the tail
- Black mouth with a black gumline

Coho (silver) Salmon

- Spots on back and upper lobe of the tail
- Black mouth with a white gumline

Sockeye (red) Salmon

- No distinct spots on back or tail
- White mouth with a white gumline
- Large, bright gold eye

Pink (humpy) Salmon

- Large, oval spots on back and both lobes of tail
- White mouth with a black gumline

Chum (dog) Salmon

- No spots; calico bands on body (often faint in saltwater)
- White mouth with a white gumline

Chinook (king) Salmon

- Spawning adults turn maroon or olive brown
- Spots on body and both lobes of the tail remain

Coho (silver) Salmon

- Males develop pronounced “kype” (hooked-nose)
- Spots on back and upper lobe of the tail remain
- Male and female turn dark maroon and have dark backs

Sockeye (red) Salmon

- Spawning adults develop dull-green heads
- Males develop hump on back
- Both female and male turn red

Pink (humpy) Salmon

- Spawners turn dull gray on their backs and upper sides
- Lower sides appear cream color or white
- Large, oval spots on back and both lobes of tail remain

Chum (dog) Salmon

- Spawners develop pronounced, vertical calico bands on sides
- Males exhibit large, canine-like teeth

Photographs by the Alaska Department of Fish and Game.

ATTENTION, ANGLERS:

Know the difference between King Salmon, Steelhead Trout and Coho Salmon

King Salmon

Irregular-shaped spots on back, dorsal fin, and tail
Spots on both lobes of tail

Photograph courtesy of Washington Department of Fish and Wildlife.

Steelhead Trout

Small black spots on back and both lobes of tail

Coho Salmon

Spots on upper lobe
Silver color adjacent to caudal

— Take the — Five Salmon Family Challenge

The Alaska Department of Fish and Game Five Salmon Family certificate program provides recognition to angling families who catch and document the five species of Pacific salmon commonly found in Alaska.

Certification in the program requires all salmon must be legally caught in Alaskan waters (fresh or salt water) open to the public and in compliance with current ADF&G sport fishing regulations.

Learn more at: www.adfg.alaska.gov

TROUT

RAINBOW TROUT

Green to bluish back with silvery to yellowish-green sides. Broad pinkish band along side and black spots on back, sides, and tail. Upper jaw usually does not extend past eye on adult.

STEELHEAD

White mouth with white gums at base of teeth on lower jaw.

California Department of Fish and Game

Sea-run rainbow trout with bluish gray back and bright silvery sides. Small black spots on back, sides, and tail. Pink/red coloration develops after returning to fresh water to spawn.

CUTTHROAT TROUT

Yellowish-green body with no pinkish band along sides. Many black spots on back, sides, and tail. Upper jaw extends well past eye on adults. Red to orange slash on underside of lower jaw.

ARCTIC GRAYLING

Light brown to dark purple back, fading to bluish gray with black spots on sides. Very large dorsal fin with red and violet spots.

NORTHERN PIKE

Back and sides usually greenish with yellow-white spots. Head depressed forward with duck-like jaws containing many large, sharp teeth.

BURBOT

The only freshwater cod in North America. Slim brownish-black body with smooth skin. Flattened head with wide mouth and one barbel hanging from lower jaw.

CHAR

DOLLY VARDEN

Bluish gray or silver background with light spots (usually smaller than its pupil). No spots on head or tail. Easily confused with Arctic char, but Dolly Varden occur mainly in rivers, have a more squared-off tail, a more elongated head (especially spawning males), and a wider tail base than Arctic char. Pelvic and anal fins often have a white leading edge.

ARCTIC CHAR

Very difficult to distinguish from Dolly Varden. Arctic char are generally found in the Bristol Bay area and throughout western Alaska, and Dolly Varden are found on Kodiak Island, throughout the waters of southcentral and southeastern Alaska, and on the North Slope. Brown to olive background with light spots (usually larger than its pupil); sides fade to a pale belly.

LAKE TROUT

Dark green to grayish back and light silvery sides with oval or irregular white to yellowish spots. No other Alaskan char species has spots on face and tail. Lake trout also have deeply forked tails, unlike other char, and, although normally lake dwellers, they are sometimes found in northern Alaska rivers.

Rockfish Identification

For the purposes of sport fishery management, rockfish are divided into two groups, **PELAGIC** and **NONPELAGIC**. Bag and possession limits differ for the two groups in many areas, so it is important to be able to distinguish them. This chart shows the most common species in each group.

Pelagic Rockfish:

Six pelagic species of rockfish are often found mid-water in schools, close to rocky structures. These fish are moderately long-lived (most fish are 7-30 years old).

Black Rockfish

(Black Bass); Dark gray to black with white belly. Usually uniform in color, but may have lighter patches along back. No pores on lower jaw. Size: up to 25 inches.

Dusky Rockfish

Brownish body color with whitish belly, tinged with pink or orange; fins tinged with pink or orange; more common in deep water. Three pores on each side of lower jaw, and two dark bars on each cheek. Size: up to 20 inches.

Yellowtail Rockfish

Olive green to greenish brown with lighter underside; fins distinctly yellowish green. Size: up to 26 inches.

Photo by Vicky Okimura (WDFW)

Widow Rockfish

This is a relatively slim species in various shades of brown or brass that lighten towards the belly. Size: up to 23 inches.

Dark Rockfish

Uniform black to dark blue on back and sides with slight gradual lightening on the belly, more common in shallow water. Size: up to 20 inches.

There are over 30 species of rockfish in Alaska. If the rockfish is not featured in the pelagic category, then for the purposes of regulation it is a nonpelagic rockfish.

Nonpelagic Rockfish:

Bottom-dwelling species found on or near the ocean floor, usually in rocky or boulder-strewn habitat. Extremely long-lived (most fish are 15-75 years old).

Quillback Rockfish

Brown body mottled with orange and yellow. Long, prominent spines on a high dorsal fin. Size: up to 24 inches.

Silvergray Rockfish

Greenish to silver-gray body, belly white, tinged with soft orange or pink. Slender body fish with a long lower jaw protruding well beyond upper jaw. Size: up to 28 inches.

Copper Rockfish

Olive brown to copper with pink or yellow blotches, white on sides and belly. Dorsal fins dark copper brown to black with some white. Rear two-thirds of lateral line is light. Size: up to 22 inches.

Tiger Rockfish

Light pink with five dark red stripes along the side. Two dark bars extend from each eye. Size: up to 24 inches.

Yelloweye Rockfish

Orange red and orange yellow, bright golden yellow eye, fins may be black at tips. Juveniles have two light bands along the side, one on the lateral line and a smaller one below the lateral line. Size: up to 36 inches.

China Rockfish

Mostly black, with bright yellow and white blotches and a yellow stripe along most of the lateral line. Size: up to 17 inches.

Rockfish caught in deep water often sustain injuries — referred to as barotrauma — caused by rapid decompression and expansion of gases in the swim bladder.

.....
If released at the surface, these fish are often not able to swim back down and become targets for birds, other fish and marine mammals.

WHAT IS BAROTRAUMA?

The protruding stomach and bulging eyes seen on this Yelloweye rockfish are signs of barotrauma. If released at the surface, this fish would have a difficult time resubmerging and would likely die. Using deepwater release methods can greatly increase the chance of survival of fish exhibiting signs of barotrauma. Both pelagic and nonpelagic rockfish are susceptible to barotrauma.

Help Conserve Alaska's Rockfish

Practice Deepwater Release

Deepwater Release Methods

Step 1:

Make sure your release device is ready — rockfish are most likely to survive when time at the surface is minimized. With practice, rockfish can be released within two minutes of reaching the surface.

Reel the fish up as quickly as possible. After unhooking it, hook the release device through soft tissue on the jaw. Make sure the hook does not have a barb. Release the anti-reverse on the reel so line can spool out freely.

Rockfish are most likely to survive when released quickly at depth of capture (or 100 feet) using the following steps:

Step 2:

Swing the fish slightly to one side and let go of the jig. Let line out as the weight pulls the fish back to the bottom. When the jig hits bottom (or 100 feet in depth), lock the reel and give a hard tug to release the fish.

Conservation Tips

▪ Avoid catching unwanted rockfish.

When targeting other species, such as halibut or lingcod, avoid rockfish by keeping jigs and bait 10-15 feet off the bottom. This has little or no affect on halibut and lingcod catch rates. Move to a different area if you are catching rockfish unintentionally.

▪ Avoid excessive rockfish harvests.

Rockfish have a freezer life of about four months, so harvest only what you are likely to eat in the near future.

▪ Use release-friendly tackle.

When fishing with bait, use a single circle hook. Circle hooks are less likely to cause injury by being deeply swallowed, increasing the chances of survival for released fish.

Sport Fishing by Proxy Proxy fishing for halibut is not allowed.

Alaska residents may proxy sport fish, proxy personal use fish, and/or proxy subsistence fish for another Alaska resident who is:

- (1) 70% or greater physically disabled (physician's affidavit required);
- (2) 65 years or older;
- (3) Legally blind (physician's affidavit required); or
- (4) Developmentally disabled (physician's affidavit required).

No person may give or receive payment to be a beneficiary or a proxy.

To obtain a "Proxy Information Form":

Go to any Alaska Department of Fish and Game office, or visit:
<http://www.adfg.alaska.gov/index.cfm?adfg=personaluseproxyfishing.main>

IT'S UP TO ALL 
OF US TO **PROTECT**
ALASKA WATERS.

CLEAN all aquatic plants, animals, and mud from your boat and gear before you leave the launch. Dispose of debris in the trash.

DRAIN water from bilge, ballast, motor, live-wells and bait buckets before you leave the area.

DRY your boat and gear as completely as possible between outings.

Help Stop the Spread of Aquatic Invasive Species

Angler Recognition Programs

Trophy Fish Program

The Trophy Fish Program gives special recognition to anglers taking fish that meet minimum weight (trophy certificates) or length standards (catch-and-release certificates) within a species. Trophy fish for both certificates must be legally caught from waters open to the public, in compliance with current ADF&G sport fishing regulations. **There is now a category for Youth anglers.**

Photo courtesy of Chris Cox.

Five Salmon Family Challenge

The Five Salmon Family certificate program provides recognition to angling families who catch and document the five species of Pacific salmon commonly found in Alaska. Certification in the program requires all salmon must be legally caught in Alaskan waters (fresh or salt water) open to the public and in compliance with current ADF&G sport fishing regulations.

Stocked Waters Challenge

The Stocked Waters Challenge program awards a certificate of recognition to individuals or groups who successfully complete one or more angling challenges at stocked waters.

Alaska Trophy Fish Record Holders

| Species | Min. wt. | Lbs/oz | Year | Location | Angler |
|------------------------------|-------------|--------|------|----------------|---------------------|
| Arctic char/ Dolly Varden | 10 lb | 27/6 | 2002 | Wulik River | Mike Curtiss |
| Brook trout | 3 lb | 3/4 | 2012 | Green Lake | Kyle Kitka |
| Burbot | 8 lb | 24/12 | 1976 | Lake Louise | George R. Howard |
| King salmon | (see below) | 97/4 | 1985 | Kenai River | Lester Anderson |
| Chum salmon | 15 lb | 32/0 | 1985 | Caamano Point | Fredrick Thynes |
| Coho salmon | 20 lb | 26/0 | 1976 | Icy Strait | Andrew Robbins |
| Cutthroat trout | 3 lb | 8/6 | 1977 | Wilson Lake | Robert Denison |
| Grayling | 3 lb | 5/1 | 2008 | Fish River | Peter Cockwill |
| Halibut | 250 lb | 459/0 | 1996 | Unalaska Bay | Jack Tragis |
| Lake trout | 20 lb | 47/0 | 1970 | Clarence Lake | Daniel Thorsness |
| Lingcod | 55 lb | 82/9 | 2007 | Gulf of Alaska | Robert Hammond |
| Northern pike | 15 lb | 38/8 | 1991 | Innoko River | Jack Wagner |
| Pink salmon | 8 lb | 13/7 | 2016 | Kenai River | Robert Dubar |
| Rainbow/ steelhead trout | 15 lb | 42/3 | 1970 | Bell Island | David White |
| Rockfish | 18 lb | 39/1 | 2013 | Sitka | Henry Liebman |
| Sheefish | 30 lb | 53/0 | 1987 | Pah River | Lawrence E. Hudnall |
| Sockeye salmon | 12 lb | 16/0 | 1974 | Kenai River | Chuck Leach |
| Whitefish | 4 lb | 9/0 | 1989 | Tozitna River | Al Mathews |

King salmon minimum weight for the Kenai River is 75 lb. For the rest of the state, it is 50 lb.

Minimum weights for trophy fish certificates are listed on the table above (second column). Entries must be weighed in the presence of witnesses and a Trophy Fish Official, on a scale currently certified by the Division of Weights and Measures.

For catch-and-release certificates, do not remove your fish from the water. Hold it just at the water's surface while a photograph is quickly taken, then release it into the current.

Minimum lengths for catch-and-release honorary certificates:

- Arctic char/Dolly Varden—30 inches
- Arctic grayling—18 inches
- Brook trout—20 inches
- Burbot—32 inches
- Cutthroat trout—20 inches
- Lake trout—36 inches
- Lingcod—53 inches
- Northern pike—40 inches
- Rainbow/steelhead—32 inches
- Sheefish—36 inches

We've added a Youth Category to our Trophy Fish Program!

A Message From the Commissioner

Alaska is blessed with world-class fishery resources, from salmon and trout, to halibut and rockfish, to grayling and burbot. These resources provide Alaskans an opportunity to feed their families and fill their freezers, or simply to get out and fish as a way to reduce the stress of their everyday lives. And they provide visitors to our state “trips of their lives.”

Over the past couple years, we have endured some very difficult and challenging times. The worldwide COVID-19 pandemic has had significant impacts on our daily routines and personal behaviors. We understand the pandemic caused some to stay home, more put a halt to travel plans, and some were not able to make a trip to Alaska in 2021 to enjoy the natural beauty and outstanding resources this great state has to offer. We do hope to see you in 2022! Because the one thing that hasn't changed is, there are still plenty of fish throughout Alaska to enjoy with family and friends.

Since you're reading this, you are obviously one of the hundreds of thousands of people who fish in Alaska each year. We thank you for that! When you purchase a fishing license or king stamp, those dollars go directly toward funding fisheries resource conservation, management, research, and enhancement efforts in Alaska. When you purchase fishing equipment or boat fuel, a portion of those excise tax dollars go into a federal fund designed to distribute monetary resources back to states. These funds, distributed annually, are used for resource management and conservation and to provide improved access to fishing across Alaska. Your participation as an angler in Alaska helps the Alaska Department of Fish and Game to maintain and improve the state's fisheries. In our book, that makes you very special. Again, thank you!

We encourage you to get out and go fishing as a fun and healthy way to spend time with family and friends. Alaska's fish belong to the people. Our fisheries managers and division staff take this responsibility quite seriously.

We are stronger together. And as anglers, we are unified under a common goal – to get out and fish and to conserve those opportunities for our future generations. With that in mind, please consider taking someone fishing who has never been. If you're active on social media, please share your photos using #wefishak. Let's work together to ensure Alaska's pristine sport fisheries can be enjoyed by everyone now and in the future.

Doug Vincent-Lang
Commissioner, Alaska Department of Fish and Game

Alaska Department of Fish & Game Southwestern Alaska Sport Fish Offices

This publication was released by Alaska Department of Fish and Game at a cost of \$0.22 per copy to provide fishing regulations to the public and printed in Anchorage, Alaska.

A Message From the Director

Fishing in Alaska is an experience that should be shared with friends or family. There are countless fishing opportunities to enjoy. This year we're looking forward to helping make your experience fishing in Alaska more enjoyable by introducing our new mobile app.

You probably noticed on the front cover of this book a way for you to access and download our new mobile app. We are excited to bring this app to you. We've spent a considerable amount of time developing the app and hope you find using it easy and beneficial as you take to the waters of Alaska with a fishing rod in hand. In the mobile app you will have access to detailed maps, current fishing and hunting regulations; you'll have the ability to maintain your licenses and select permits and you will be able to use navigational tools to display fishing regulations for where you're fishing.

We thank you for being one of the thousands of anglers who take to the pristine waters of Alaska in pursuit of your next catch. The money you spend on a sport fishing license and king salmon stamp all goes directly back into managing the resources. You help keep Alaska's aquatic resources healthy and sustainable for future generations. Thank you.

We truly hope you make time this year to get out and fish. While you're at it, make time to take someone with you who has never been fishing. Introducing someone to fishing is a great opportunity to share a unique experience.

If you have questions about fishing or our diverse fisheries in Alaska, please don't hesitate to contact one of our offices. We are here to help you.

Good luck!

Dave Rutz
