

Alaska Department of Fish and Game

2020–2022

Cook Inlet Area Commercial Salmon Fishing Regulations

This booklet contains regulations regarding **COMMERCIAL SALMON FISHERIES** in the **Cook Inlet Area**. **This booklet covers the period May 2020 through March 2023 or until a new book is available following the Board of Fisheries meetings.**

Note to Readers: These statutes and administrative regulations were excerpted from the Alaska Statutes (AS), and the Alaska Administrative Code (AAC) based on the official regulations on file with the Lieutenant Governor. There may be errors or omissions that have not been identified and changes that occurred after this printing. **This booklet is intended as an informational guide only. To be certain of the current laws, refer to the official statutes and the AAC located online here: <http://www.legis.state.ak.us/basis/aac.asp> Please note that there may also be a delay in posting regulations to this website.**

Changes to Regulations in this booklet: The regulations appearing in this booklet may be changed by subsequent board action, emergency regulation, or emergency order at any time. Supplementary changes to the regulations in this booklet will be available on the department's website and at offices of the Department of Fish and Game.

For information or questions regarding regulations, requirements to participate in commercial fishing activities, allowable activities, other regulatory clarifications, or questions on this publication please contact the Regulations Program Coordinator at (907) 465-6124 or email shellene.hutter@alaska.gov

The Alaska Department of Fish and Game (ADF&G) administers all programs and activities free from discrimination based on race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972.

If you believe you have been discriminated against in any program, activity, or facility please write: ADF&G ADA Coordinator, P.O. Box 115526, Juneau, AK 99811-5526 or

U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, MS 2042, Arlington, VA 22203

or the Office of Equal Opportunity, U.S. Department of the Interior, 1849 C Street NW MS 5230, Washington DC 20240.

The department's ADA Coordinator can be reached via phone at the following numbers:

ADF & G Mission Statement

The Alaska Department of Fish and Game's mission is to manage, protect, maintain, and improve the fish, game and aquatic plant resources of Alaska. The primary goals are to ensure that Alaska's renewable fish and wildlife resources and their habitats are conserved and managed on the sustained yield principle, and the use and development of these resources are in the best interest of the economy and well-being of the people of the state.

Guiding Principles

- Seeking excellence in carrying out its responsibilities under state and federal law, the department will:
- Provide for the greatest long-term opportunities for people to use and enjoy Alaska's fish, wildlife and habitat resources.
- Improve public accessibility to, and encourage active involvement by the public in, the department's decision making processes.
- Build a working environment based on mutual trust and respect between the department and the public, and among department staff.
- Maintain the highest standards of scientific integrity and provide the most accurate and current information possible.
- Foster professionalism in department staff, promote innovative and creative resource management, and provide ongoing training and education for career development.

Chapter 21 Cook Inlet Area

Article 1 Description of Area

5 AAC 21.001. Application of this chapter Requirements set out in this chapter apply to commercial fishing only, unless otherwise specified. Subsistence, personal use, and sport fishing regulations affecting commercial fishing vessels or affecting any other commercial fishing activity are set out in the subsistence fishing regulations in 5 AAC 01 and 5 AAC 02, personal use fishing regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 56 - 5 AAC 62 and 5 AAC 75.

5 AAC 21.100. Description of area The Cook Inlet Area includes all waters of Alaska enclosed by a line extending east from Cape Douglas (58° 51.10' N. lat.), and a line extending south from Cape Fairfield (148° 50.25' W. long.).

Article 2 Fishing Districts, Subdistricts, and Sections

5 AAC 21.200. Fishing districts, subdistricts, and sections

(a) Northern District: north of a line extending from Boulder Point at 60° 46.39' N. lat., to Shell Platform C, then to a point on the west shore at 60° 46.39' N. lat.

(1) Eastern Subdistrict: all waters south of the latitude of Point Possession, north of the latitude of Boulder Point, and east of a line from Shell Platform C to a point at 61° 02.67' N. lat., 150° 40.00' W. long.;

(2) General Subdistrict: all waters of the Northern District not specified in (1) of this subsection.

(b) Central District: all waters between a line extending from Boulder Point at 60° 46.39' N. lat., to Shell Platform C, to a point on the west shore at 60° 46.39' N. lat., and the latitude of Anchor Point Light (59° 46.15' N. lat.)

(1) Kustatan Subdistrict: all waters within a line from the Drift River terminal to the South Kalgin Island Light at 60° 20.67' N. lat., 152° 05.09' W. long., northerly along the west side of Kalgin Island to Northwest Point at 60° 30.90' N. lat., 151° 55.77' W. long., bearing 43° to Shell Platform C, to a point on the west shore at 60° 46.39' N. lat., excluding the waters of the Kalgin Island Subdistrict;

(2) Upper Subdistrict: all waters within a line from Boulder Point to Shell Platform C, then bearing 223° to Northwest Point at 60° 30.90' N. lat., 151° 55.77' W. long., then following the eastern shore of Kalgin Island to the South Kalgin Island Light at 60° 20.67' N. lat., 152° 05.09' W. long., then to a point at 60° 04.02' N. lat., 151° 46.60' W. long. to the Ninilchik small boat harbor, excluding the waters of the Kalgin Island

Subdistrict;

(A) East Foreland Section: all waters from the northern boundary of the Upper Subdistrict to the latitude of the base of Colliers Dock at 60° 40.35' N. lat. (the southernmost of the pile-supported docks at Nikiski) and within one nautical mile of the mean high tide mark on the Kenai Peninsula shoreline;

(B) Kenai Section: all waters enclosed by a line from the base of Colliers Dock at 60° 40.35' N. lat., to a point at 60° 40.35' N. lat., 151° 26.33' W. long., to a point at 60° 27.10' N. lat., 151° 25.70' W. long., to a point on the beach at 60° 27.10' N. lat.;

(C) Expanded Kenai Section: all waters enclosed by a line from a point located on the shore at 60° 40.35' N. lat., 151° 23.00' W. long., west to a point located at 60° 40.35' N. lat., 151° 26.33' W. long., south to a point at the latitude of the Blanchard Line located at 60° 27.10' N. lat., 151° 33.76' W. long., and east to a point on the beach at 60° 27.10' N. lat., 151° 16.94' W. long.;

(D) Kasilof Section: all waters enclosed by a line from a point on the beach at 60° 27.10' N. lat., to a point at 60° 27.10' N. lat., 151° 25.70' W. long., to a point at 60° 12.75' N. lat., 151° 32.05' W. long., to a point at 60° 04.02' N. lat., 151° 46.60' W. long., to an ADF&G regulatory marker located at 60° 04.02' N. lat., 151° 38.90' W. long.;

(E) Expanded Kasilof Section: all waters enclosed by a line from a point on the beach at 60° 27.10' N. lat., 151° 16.94' W. long., west to a point at the Blanchard Line located at 60° 27.10' N. lat., 151° 33.76' W. long., south to a point located at 60° 04.02' N. lat., 151° 49.00' W. long., and east to an ADF&G regulatory marker located at 60° 04.02' N. lat., 151° 38.90' W. long.;

(3) Kalgin Island Subdistrict: all waters within a line encompassing Kalgin Island within one mile of mean lower low water as delineated by the most recent NOAA Chart #16660 (31st Edition, April 2012);

(4) Lower Subdistrict: waters between a line extending from Ninilchik small boat harbor to a point at 60° 04.02' N. lat., 151° 46.60' W. long., then to the South Kalgin Light at 60° 20.80' N. lat., 152° 05.09' W. long., then bearing 236° to a point one nautical mile from the bluff on the northwestern shore of Chisik Island at 60° 10.50' N. lat., 152° 35.00' W. long., then in a southerly direction one nautical mile seaward of the mean high tide mark to a point at the southern end of the silver salmon setnet area at 59° 55.67' N. lat., then bearing 270° to the shore, and the latitude of the Anchor Point Light, excluding the waters of the Chinitna Bay and the Kalgin Island Subdistricts;

(A) Anchor Point Section: all waters enclosed by a line from an ADF&G regulatory marker located at a point on the beach at 60° 04.02' N. lat., 151° 38.90' W. long., west to a point located at 60° 04.02' N. lat., 151° 49.00' W. long., south to a point located at 59° 46.15' N. lat., 152° 15.80' W. long., and east to a point on shore at 59° 46.15' N. lat., 151° 52.06' W. long.;

(5) Western Subdistrict: waters within a line from the Drift River terminal to the South Kalgin Light at 60° 20.80' N. lat., 152° 05.09' W. long., then bearing 236° to a

point one nautical mile from the bluff on the northeast shore of Chisik Island at 60° 10.50' N. lat., 152° 35.00' W. long., then in a southerly direction one nautical mile seaward of the mean high tide mark to a point of the southern end of the silver salmon setnet area at 59° 55.67' N. lat., then bearing 270° to the shore, excluding the waters of the Kalgin Island Subdistrict;

(6) Chinitna Bay Subdistrict: all waters in Chinitna Bay west of a line from Spring Point at 59° 52.70' N. lat., 152° 48.45' W. long., to Sea Otter Point at 59° 50.04' N. lat., 153° 01.25' W. long.

(c) Repealed 5/31/72.

(d) Southern District: all waters enclosed by a line from Anchor Point Light west to 59° 46.15' N. lat., 152° 20.00' W. long., then south to 59° 03.42' N. lat., 152° 20.00' W. long., then in a northeasterly direction to the tip of Cape Elizabeth at 59° 09.35' N. lat., 151° 53.13' W. long., then from the tip of Cape Elizabeth to the tip of Point Adam at 59° 15.31' N. lat., 151° 58.68' W. long.

(1) Port Graham Subdistrict: all waters east of the longitude of Point Bede at 151° 59.40' W. long., and south of the latitude of Point Pogibshi at 59° 25.47' N. lat.;

(A) Port Graham Section: all waters north of a line from 59° 22.25' N. lat., 151° 59.40' W. long. to 59° 21.39' N. lat., 151° 55.25' W. long.;

(B) English Bay Section: all waters south of a line from 59° 22.25' N. lat., 151° 59.40' W. long. to 59° 21.39' N. lat., 151° 55.25' W. long.;

(2) Seldovia Bay Subdistrict: all waters southeast of a line from Point Naskowhak at 59° 27.22' N. lat., 151° 44.56' W. long., to 59° 27.37' N. lat., 151° 44.63' W. long., to Seldovia Point at 59° 28.22' N. lat., 151° 42.37' W. long.;

(3) Barabara Creek Subdistrict: all waters between the longitudes of Seldovia Point at 59° 28.22' N. lat., 151° 42.37' W. long., and Nubble Point at 59° 29.15' N. lat., 151° 34.15' W. long., and south of 59° 30.00' N. lat.;

(4) Tutka Bay Subdistrict: all waters east of the longitude of Nubble Point and south of the latitude of Anisom Point on the eastern shore of Eldred Passage at 59° 32.07' N. lat., 151° 27.00' W. long., including Kasitsna Bay;

(5) Humpy Creek Subdistrict: all waters east of a line from a point on Glacier Spit at 59° 38.00' N. lat., 151° 12.10' W. long., to the Northshore Subdistrict line at 59° 38.00' N. lat., 151° 19.70' W. long., and southeast of a line from that point on the Northshore Subdistrict line at 59° 38.00' N. lat., 151° 19.70' W. long., to a point north of Chugachik Island at 59° 45.00' N. lat., 151° 02.80' W. long., to a point on the mainland at 59° 44.50' N. lat., 151° 02.10' W. long.;

(6) Northshore Subdistrict: all waters north of a line from Coal Point at 59° 36.00' N. lat., 151° 24.50' W. long., to a point north of Chugachik Island at 59° 45.00' N. lat., 151° 02.80' W. long., then northwesterly to a point one-half statute mile southwest of the

terminus of Swift Creek at 59° 47.15' N. lat., 151° 05.45' W. long.;

(7) China Poot Subdistrict: all waters south of a line from Peterson Point at 59° 35.67' N. lat., 151° 16.70' W. long., to Coal Point on the tip of the Homer Spit at 59° 36.00' N. lat., 151° 24.50' W. long., to 59° 32.07' N. lat., 151° 33.09' W. long., to Anisom Point;

(8) Halibut Cove Subdistrict: all waters within a line from a point on Glacier Spit at 59° 38.00' N. lat., 151° 12.10' W. long., to the intersection of the Northshore Subdistrict line at 59° 38.00' N. lat., 151° 19.70' W. long., to Coal Point to Peterson Point.

(e) Kamishak Bay District: all waters enclosed by a line from 59° 46.15' N. lat., 153° 00.70' W. long., then east to 59° 46.15' N. lat., 152° 20.00' W. long., then south to 59° 03.42' N. lat., 152° 20.00' W. long., then southwesterly to Cape Douglas (58° 51.10' N. lat.)

(1) Iniskin Bay Subdistrict: all waters north of a line from a point on the east shore of Iniskin Bay near Scott Island at 59° 38.59' N. lat., 153° 25.50' W. long., to a point on North Head at 59° 37.89' N. lat., 153° 33.40' W. long.;

(2) Cottonwood Bay Subdistrict: all waters west of a line from South Head north to a point at 59° 37.89' N. lat., 153° 33.40' W. long.;

(3) Ursus Cove Subdistrict: all waters west of the longitude of Ursus Head and north of 59° 28.09' N. lat.;

(4) Rocky Cove Subdistrict: all waters between 59° 28.09' N. lat. and 59° 25.00' N. lat., and west of 153° 40.00' W. long., to the longitude of an unnamed creek between Fortification Bluff and Step Mountain at 153° 46.40' W. long.;

(5) Bruin Bay Subdistrict: all waters enclosed by a line extending from the longitude of an unnamed creek at 153° 46.40' W. long., south to the latitude of a point offshore at 59° 25.00' N. lat., east to 153° 40.00' W. long., then south to 59° 20.00' N. lat., and west to a point south of Contact Point at 154° 01.00' W. long.;

(6) Kamishak River Subdistrict: all waters east of a line from McNeil Head at 59° 07.30' N. lat., 154° 10.54' W. long., to the mushroom islet at 59° 07.59' N. lat., 154° 09.50' W. long., to the northern tip of Nordyke Island at 59° 10.92' N. lat., 154° 05.50' W. long., south of the latitude of the northern tip of Nordyke Island, and west of 153° 50.00' W. long.;

(7) McNeil River Subdistrict: all waters southwest of a line from McNeil Head to a point of land at 59° 09.50' N. lat., 154° 12.75' W. long.;

(8) Chenik Subdistrict: all waters between 59° 20.00' N. lat. and the latitude of the northern tip of Nordyke Island at 59° 10.92' N. lat., 154° 05.50' W. long., and west of 153° 40.00' W. long.;

(9) Paint River Subdistrict: all waters south of the latitude of the northern tip of

COOK INLET AREA

Nordyke Island at 59° 10.92' N. lat., 154° 05.50' W. long., west of a line from the northern tip of Nordyke Island to the mushroom islet at 59° 07.59' N. lat., 154° 09.50' W. long., to McNeil Head, and east of a line from McNeil Head to a point of land at 59° 09.50' N. lat., 154° 12.75' W. long.;

(10) Douglas River Subdistrict: all waters west of the longitude of Cape Douglas (153° 15.07' W. long.), south of the latitude of the northern tip of Nordyke Island at 59° 10.92' N. lat., 154° 05.50' W. long., and east of 153° 50.00' W. long.

(f) Barren Island District: all waters enclosed by a line from Cape Douglas (58° 51.10' N. lat.) to the tip of Cape Elizabeth at 59° 09.35' N. lat., 151° 53.13' W. long., then south to 58° 51.10' N. lat., 151° 53.13' W. long., then west to Cape Douglas.

(g) Outer District: all waters enclosed by a line from the tip of Point Adam to the tip of Cape Elizabeth, then south to 58° 51.10' N. lat., 151° 53.13' W. long., then east to the longitude of Aligo Point (149° 44.47' W. long.), then north to the tip of Aligo Point

(1) Koyuktolik Subdistrict: all waters east of the longitude of Point Adam and north of 59° 13.92' N. lat.;

(2) Port Chatham Subdistrict: all waters north of 59° 10.00' N. lat., and east of 151° 50.00' W. long.;

(3) Windy Bay Subdistrict: all waters west of a line from 59° 12.60' N. lat., 151° 27.60' W. long., to 59° 14.05' N. lat., 151° 26.70' W. long.;

(4) Rocky Bay Subdistrict: all waters north of a line from 59° 14.05' N. lat., 151° 26.70' W. long., to 59° 12.77' N. lat., 151° 19.30' W. long.;

(A) Scurvey Creek Section: all waters northwest of a line from 59° 14.05' N. lat., 151° 26.70' W. long., to a point on the southwest corner of Picnic Harbor at 59° 14.95' N. lat., 151° 25.10' W. long.;

(5) Port Dick Subdistrict: all waters of Port Dick north of 59° 13.20' N. lat.;

(A) Port Dick Headend Section: all waters of Port Dick west of 151° 15.00' W. long.;

(B) Port Dick Middle Creek Section: all waters of Port Dick west of 151° 10.50' W. long. to the Port Dick Headend Section boundary at 151° 15.00' W. long.;

(C) Port Dick Island Creek Section: all waters of Port Dick west of a line between 59° 13.30' N. lat., 151° 06.10' W. long. and 59° 16.20' N. lat., 151° 05.20' W. long. to the Port Dick Middle Creek Section boundary at 151° 10.50' W. long.;

(D) Outer Port Dick Section: all waters of Port Dick north of 59° 13.20' N. lat. to the Port Dick Island Creek Section boundary at a line between 59° 15.30' N. lat., 151° 06.10' W. long. and 59° 16.20' N. lat., 151° 05.20' W. long.;

(6) Nuka Island Subdistrict: all waters of Nuka Passage north of a line from Front Point to Nuka Point and south of the latitude of Hardover Point;

(7) East Nuka Subdistrict: all waters of the East Arm of Nuka Bay north of the latitude of Harrington Point.

(h) Eastern District: all waters east of the longitude of Aligo Point (149° 44.47' W. long.), west of the longitude of Cape Fairfield (148° 50.25' W. long.), and north of 58° 51.10' N. lat.

(1) Aialik Bay Subdistrict: all waters north of a line from Aligo Point to Aialik Cape;

(2) Resurrection Bay Subdistrict: all waters north of the latitude of Caines Head (59° 58.94' N. lat.).

5 AAC 21.205. Seaward boundary of Kamishak Bay District The seaward boundary of the Kamishak Bay District is three nautical miles seaward from the shoreline between a point on the west shore of Cook Inlet at approximately 59° 46.15' N. lat., 153° 00.70' W. long., and Cape Douglas at approximately 58° 51.10' N. lat., 153° 15.07' W. long., including a line three nautical miles seaward from the shorelines of Augustine Island and Shaw Island, and including the line demarking all state waters shown on National Oceanic and Atmospheric Administration (NOAA) Nautical Chart Number 16640, 23rd Edition, July 5, 1997, hereby adopted by reference.

Article 3 Salmon Fishery

5 AAC 21.310. Fishing seasons

(a) If an opening date specified in this section for a fishing season in any district, subdistrict, or section falls on a date during a closed weekly fishing period under 5 AAC 21.320, the fishing season will open the first day of the next open weekly period.

(b) Salmon may be taken only as follows:

(1) Northern District: from June 25 until closed by emergency order;

(2) Central District, for set gillnet:

(A) Western Subdistrict: from June 16 until closed by emergency order;

(B) Kalgin Island, Kustatan, and Chinitna Bay Subdistricts: from June 25 until closed by emergency order;

(C) Upper Subdistrict:

(i) Kasilof Section: from June 25 through August 15, unless closed earlier by emergency order under (iii) of this subparagraph; however, if the department estimates

COOK INLET AREA

that 30,000 sockeye salmon are in the Kasilof River before June 25, but on or after June 20, the commissioner shall, by emergency order, open the fishery; from August 1 through August 15, the fishery is open for regular periods only;

(ii) Kenai and East Foreland Sections: from July 8 through August 15, unless closed earlier by emergency order under (iii) of this subparagraph; from August 11 through August 15, the fishery is open for regular periods only; from July 1 through August 15, when the Kasilof Section is open to commercial fishing with set gillnets and the Kenai and East Forelands Sections are closed to commercial fishing with set gillnets, commercial fishing with set gillnets may be allowed within 600 feet of the mean high tide mark in that portion of the Kenai Section north of the latitude of the Blanchard Line at 60° 27.10' N. lat., and south of the latitude of the ADF&G regulatory marker located south of the Kenai River mouth at 60° 30.49' N. lat., and is not subject to the time limitations in 5 AAC 21.359(e)(3) and 5 AAC 21.360; from July 1 until the Kenai and East Foreland Sections commercial salmon set gillnet fishery open for the regular season, set gillnet gear may not exceed 29 meshes in depth and may not have a mesh size greater than four and three quarter inches during all fishing periods that are restricted to within 600 feet of the mean high tide mark;

(iii) Kenai, Kasilof, and East Forelands Sections: in the combined Kenai and East Forelands Sections, and separately in the Kasilof Section, the season will close August 15, unless closed earlier by emergency order after July 31, if the department determines that less than one percent of the season's total sockeye harvest has been taken per fishing period for two consecutive fishing periods in the combined Kenai and East Forelands Sections, or separately in the Kasilof Section; from August 11 through August 15, the fishery is open for regular fishing periods only; for purposes of this subparagraph, "fishing period" means a time period open to commercial fishing as measured by a 24-hour calendar day from 12:01 a.m. until 11:59 p.m.;

(3) Central District, for drift gillnet: from the third Monday in June or June 19 whichever is later, until closed by emergency order, except that fishing with drift gillnets may not occur within

(A) two miles of the mean high tide mark on the eastern side of the Upper Subdistrict until those locations have been opened for fishing with set gillnets;

(B) one and one-half miles of the mean high tide mark of the Kenai Peninsula shoreline in

(i) that area of the Kenai and Kasilof Sections of the Upper Subdistrict south of the Kenai River;

(ii) the Anchor Point Section, if fishing with drift gillnets is open in the Anchor Point Section under 5 AAC 21.353;

(C) one mile of the mean high tide mark of the Kenai Peninsula shoreline in that area of the Kenai and East Forelands Sections of the Upper Subdistrict north of the Kenai River;

(4) Southern District:

(A) seine gear season: opened and closed by emergency order;

(B) set gillnet season: opened by emergency order, on or after June 1, and closed September 30;

(5) Kamishak Bay District: open and closed by emergency order;

(6) Outer District: open and closed by emergency order;

(7) Eastern District: open and closed by emergency order.

5 AAC 21.320. Weekly fishing periods

(a) In the set gillnet fishery,

(1) salmon may be taken in the Northern District from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(2) in the Central District:

(A) salmon may be taken in the Chinitna Bay Subdistrict from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(B) salmon may be taken in the Western Subdistrict from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(C) salmon may be taken in the Kustatan Subdistrict from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(D) salmon may be taken in the Kalgin Island Subdistrict from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(E) salmon may be taken in the Upper Subdistrict from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(F) salmon may be taken in the Lower Subdistrict from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday;

(3) salmon may be taken in the Southern District from 6:00 a.m. Monday until 6:00 a.m. Wednesday and from 6:00 a.m. Thursday until 6:00 a.m. Saturday;

(4) the fishing periods set forth in (1) - (3) of this subsection may be modified by emergency order.

(b) In the drift gillnet fishery,

(1) salmon may be taken in the Central District from 7:00 a.m. Monday until 7:00 p.m. Monday and from 7:00 a.m. Thursday until 7:00 p.m. Thursday, except salmon may be taken

(A) in the Chinitna Bay Subdistrict only during periods established by emergency order;

(B) repealed 6/13/99;

(2) the fishing periods set forth in (1) of this subsection may be modified by emergency order.

(c) In the seine fishery, salmon may be taken in the

(1) Chinitna Bay Subdistrict of the Central District only during periods established by emergency order;

(2) Kamishak Bay, Outer, Eastern, and Southern Districts only during periods established by emergency order.

5 AAC 21.330. Gear

(a) Purse seines, hand purse seines, and beach seines may be used in the Southern, Kamishak Bay, Outer, and Eastern Districts, and in the Chinitna Bay Subdistrict east of a line from the crane on the south shore to the largest boulder on the landward end of Glacier Spit.

(b) Set gillnets may be used only in the following locations:

(1) Southern District:

(A) on Ismailof Island east of 151° 13.10' W. long., and the mainland south of Ismailof Island from 151° 13.10' W. long. to 151° 12.12' W. long., and inshore of a line from a point off the northeast shore of Ismailof Island at 59° 36.27' N. lat., 151° 13.10' W. long., to 59° 36.11' N. lat., 151° 12.58' W. long., to 59° 35.65' N. lat., 151° 12.60' W. long., to a point off the eastern entrance to Halibut Cove at 59° 35.70' N. lat., 151° 12.12' W. long.;

(B) between Barabara Point at 59° 29.12' N. lat., 151° 38.76' W. long., and a point on the north side of McDonald Spit at 59° 28.49' N. lat., 151° 36.12' W. long., and inshore of a line from a point off Barabara Point at 59° 29.39' N. lat., 151° 38.76' W. long., to another point at 59° 29.31' N. lat., 151° 38.20' W. long., to a point near the base of McDonald Spit at 59° 28.80' N. lat., 151° 36.12' W. long.;

(C) from the north side of McDonald Spit at 59° 28.69' N. lat., 151° 35.25' W. long., east along the outer shoreline of McDonald Spit, and including the entire shoreline of Kasitsna Bay to the headland at the west side of the entrance of Jakolof Bay, and inshore of a line from a point near the base of McDonald Spit at 59° 28.53' N. lat., 151° 35.44' W. long., to 59° 29.25' N. lat., 151° 34.53' W. long., to 59° 29.33' N. lat., 151°

34.47' W. long., to 59° 29.37' N. lat., 151° 34.20' W. long., to 59° 29.29' N. lat., 151° 33.89' W. long., to 59° 29.00' N. lat., 151° 33.16' W. long., to 59° 28.84' N. lat., 151° 33.18' W. long., to 59° 28.66' N. lat., 151° 33.91' W. long., to 59° 28.30' N. lat., 151° 33.84' W. long., to 59° 28.47' N. lat., 151° 32.68' W. long., to 59° 28.39' N. lat., 151° 32.11' W. long., to a point on the east shore of the entrance to Jakolof Bay at 59° 28.16' N. lat., 151° 32.03' W. long.;

(D) the west shore of Seldovia Bay from Point Naskowhak to a point at the latitude of an unnamed creek at 59° 25.19' N. lat., 151° 44.05' W. long., and inshore of a line from Point Naskowhak at 59° 27.37' N. lat., 151° 44.63' W. long., to 59° 27.45' N. lat., 151° 44.41' W. long., to 59° 27.38' N. lat., 151° 44.22' W. long., to 59° 26.96' N.

lat., 151° 44.19' W. long., to 59° 26.74' N. lat., 151° 43.78' W. long., to 59° 25.90' N. lat., 151° 44.12' W. long., to 59° 25.14' N. lat., 151° 43.53' W. long.;

(E) from the old cannery site on the south shore of Port Graham at 59° 21.06' N. lat., 151° 49.61' W. long., along the beach to a point south of English Bay at 59° 20.98' N. lat., 151° 56.77' W. long., and inshore of a line from a point in English Bay at 59° 21.41' N. lat., 151° 56.77' W. long., to 59° 21.49' N. lat., 151° 56.31' W. long., to 59° 21.78' N. lat., 151° 56.10' W. long., to 59° 22.07' N. lat., 151° 55.04' W. long., to 59° 22.04' N. lat., 151° 52.37' W. long., to 59° 21.71' N. lat., 151° 51.11' W. long., to 59° 21.66' N. lat., 151° 50.19' W. long., to 59° 21.37' N. lat., 151° 49.01' W. long., to the old cannery in Port Graham at 59° 21.06' N. lat., 151° 49.61' W. long.;

(2) Northern District: set gillnets may be used only in the following areas:

(A) those waters along the north and west coast from Point MacKenzie at 61° 14.29' N. lat., 149° 59.20' W. long., to the southern boundary of the district on the west shore at 60° 46.39' N. lat., except for closed waters listed in 5 AAC 21.350;

(B) waters along the west coast of Fire Island from North Point to West Point;

(C) waters along the east coast in the Northern District

(i) from Point Possession to the latitude of Birch Hill at approximately 60° 55.00' N. lat.;

(ii) from 60° 52.67' N. lat. (one-half mile north of Otter Creek) to the southern boundary of the district (60° 46.39' N. lat.);

(3) Central District: set gillnets may be used only in the following locations:

(A) waters along the west coast in the Central District

(i) from the northern boundary of the district to the Drift River terminal and only within five miles of the mean high tide mark;

(ii) from 60° 29.50' N. lat., 152° 19.00' W. long., to 60° 28.50' N. lat., 152° 19.50' W. long. and only within five miles of the mean high tide mark;

COOK INLET AREA

(iii) from 60° 27.50' N. lat., 152° 19.74' W. long., to 60° 22.75' N. lat., 152° 16.50' W. long. and only within five miles of the mean high tide mark;

(iv) from 60° 21.47' N. lat., 152° 21.50' W. long., to 60° 20.67' N. lat., 152° 22.50' W. long. and only within five miles of the mean high tide mark;

(v) from 60° 16.19' N. lat., 152° 29.90' W. long., to 60° 14.24' N. lat., 152° 32.62' W. long. and from 60° 13.42' N. lat., 152° 34.65' W. long. to 60° 05.25' N. lat., 152° 34.92' W. long. and only within five miles of the mean high tide mark;

(vi) near Johnson River from 60° 01.32' N. lat., 152° 36.25' W. long., to 59° 55.67' N. lat., 152° 41.67' W. long. and only within five miles of the mean high tide mark;

(vii) along the north side of Chinitna Bay from 59° 53.18' N. lat., 153° W. long., to 59° 51.64' N. lat., 153° 08.35' W. long., and only within 2,500 feet of the mean high tide mark;

(B) waters along the coast of Kalgin Island within one mile of the mean lower low tide mark;

(C) waters along the east coast in the Central District

(i) within one mile of the mean high tide mark from the northern boundary of the district to a line from the northern ADF&G regulatory marker at the mouth of the Kenai River at 60° 34.24' N. lat., 151° 18.99' W. long., then offshore on a bearing of 235° to a point one mile from the mean high tide mark at 60° 33.66' N. lat., 151° 20.66' W. long.;

(ii) from a line from the southern ADF&G regulatory marker at the mouth of the Kenai River at 60° 30.49' N. lat., 151° 16.80' W. long., offshore approximately one and one-half miles to a point at 60° 30.49' N. lat., 151° 19.86' W. long., to a line from the northern ADF&G regulatory marker at the mouth of the Kasilof River at 60° 24.23' N. lat., 151° 17.66' W. long., offshore approximately one and one-half miles to a point at 60° 24.23' N. lat., 151° 20.68' W. long., and only within one and one-half miles of the mean high tide mark;

(iii) from a line from the southern ADF&G regulatory marker at the mouth of the Kasilof River at 60° 22.56' N. lat., 151° 20.98' W. long., offshore approximately one and one-half miles to a point at 60° 23.97' N. lat., 151° 22.02' W. long., to a line from the ADF&G regulatory marker at the northern limit of the closed area at the mouth of the Ninilchik River at 60° 04.02' N. lat., 151° 38.90' W. long., offshore approximately one and one-half miles to a point at 60° 04.02' N. lat., 151° 42.00' W. long., and only within one and one-half miles of the mean high tide mark;

(D) waters around Chisik Island north of the latitude of Chisik Island Light within five miles of the mean high tide mark except those waters near the Crescent River described in 5 AAC 21.350(a).

(c) Drift gillnets may be used only in the Central District, except that in the Chinitna Bay Subdistrict drift gillnets may be used only east of a line from the crane on the south shore at 59° 49.91' N. lat., 153° 05.47' W. long., to Glacier Spit at 59° 51.67' N. lat., 153° 07.92' W. long.

(d) Repealed 3/8/74.

(e) Each fisherman shall operate or assist in operating only one type of gear at any one time.

(f) Repealed 4/18/86.

(g) Repealed 3/8/74.

(h) Repealed 3/8/74.

5 AAC 21.331. Gillnet specifications and operations

(a) No person may operate a set gillnet that has not been intentionally set, staked, anchored or otherwise fixed, and no person may operate a drift gillnet that has been intentionally set, staked, anchored or otherwise fixed.

(b) The maximum mesh size for gillnets is six inches.

(c) Except as allowed under 5 AAC 21.333, a drift gillnet may not be more than 150 fathoms in length and 45 meshes in depth. No person may operate more than one drift gillnet.

(d) A set gillnet may not be more than 35 fathoms in length and 45 meshes in depth. South of the latitude of Anchor Point, 30 fathoms of seine webbing may be used on the shore between high and low water levels. A person may not operate more than four set gillnets with more than 105 fathoms of set gillnet in the aggregate, except that

(1) on Fire Island a person may operate more than four set gillnets, but the aggregate length of the nets may not exceed 105 fathoms;

(2) repealed 6/11/2005.

(e) Set gillnets shall be operated in substantially a straight line. No more than 20 yards of each set gillnet may be used as a single hook.

(f) Repealed 3/8/74.

(g) Repealed 4/2/88.

(h) Notwithstanding 5 AAC 39.250(c), in the Cook Inlet Area, a person may use single filament mesh web in a drift gillnet or in a set gillnet.

(i) A CFEC permit holder who holds two Cook Inlet set gillnet CFEC permits may operate an aggregate length of set gillnets not to exceed 210 fathoms in length and 45 meshes in depth, except that in the Upper Subdistrict no more than 105 fathoms in length

may be more than 29 meshes in depth. A single set gillnet may not exceed 35 fathoms in length. Notwithstanding 5 AAC 39.280, in order to identify the gillnet as a dual permit set gillnet, the permit holder shall mark the buoys as specified in 5 AAC 21.334 with both of the permit holder's five-digit CFEC permit serial numbers followed by the letter "D" on the identification buoy. In addition, each set gillnet operated under this subsection that is not more than 29 meshes in depth must be identified at one end of the gillnet with an attached blue buoy that is not less than nine and one-half inches in diameter. All identifiers must be displayed in a manner that is plainly visible, unobscured, and in a color that contrasts with the background.

5 AAC 21.332. Seine specifications and operation

(a) Purse seines, hand purse seines, and beach seines may not be less than 90 fathoms in length and 100 meshes in depth, nor more than 250 fathoms in length and 335 meshes in depth. Detachable or loose leads are not permitted.

(b) A seine vessel may tow another seine vessel as long as each vessel has no more than one legal limit of gear on board.

(c) A purse seine is considered to have ceased fishing as specified in 5 AAC 39.260(c).

5 AAC 21.333. Requirements and specifications for use of 200 fathoms of drift gillnet in the Cook Inlet Area

(a) Except as specified in (e) - (g) of this section, two Cook Inlet drift gillnet CFEC permit holders may concurrently fish from the same vessel and jointly operate up to 200 fathoms of drift gillnet gear, and a person holding two Cook Inlet drift gillnet CFEC permits may operate up to 200 fathoms of drift gillnet gear, under this section.

(b) Repealed 5/18/2014.

(c) When two Cook Inlet drift gillnet CFEC permit holders fish from the same vessel and jointly operate additional drift gillnet gear, and when a person holding two Cook Inlet drift gillnet CFEC permits operates additional drift gillnet gear, the vessel must display its ADF&G permanent license plate number followed by the letter "D" to identify the vessel as a dual permit vessel. The letter "D" must be removed or covered when the vessel is operating with only one drift gillnet CFEC permit on board the vessel. The permanent license plate number and letters must be displayed

(1) in letters and numerals 12 inches high with lines at least one inch wide;

(2) in a color that contrasts with the background;

(3) on both sides of the hull; and

(4) in a manner that is plainly visible at all times when the vessel is being operated.

(d) When two permit holders jointly operate gear under this section, each permit holder is responsible for ensuring that the entire unit of gear is operated in a lawful

manner.

(e) The operation of additional drift gillnet gear is not allowed when drift gillnet gear is restricted to any of the following areas:

- (1) repealed 6/21/2020;
- (2) repealed 5/21/2011;
- (3) repealed 5/21/2011;
- (4) Kasilof River Special Harvest Area as described in 5 AAC 21.365.

(f) A vessel with two Cook Inlet drift gillnet CFEC permits on board, when transiting through any area where the legal limit of gillnet gear is less than 200 fathoms, may have on board up to 200 fathoms of gillnet gear if no portion of the gear is deployed into the water.

(g) Repealed 5/21/2011.

5 AAC 21.334. Identification of gear

(a) Each drift gillnet in operation must have a bright red keg or buoy at one end plainly and legibly marked with the permanent vessel license plate (ADF&G) number of the vessel operating the gear and the initials of the operator.

(b) Markers described in 5 AAC 39.280(a) are not required for set gillnets.

(c) Buoy identification requirements for set gillnets in the Upper Subdistrict of the Central District are as follows:

(1) each set gillnet must have an identification tag issued by the department; the tag must be placed on a "trailer" buoy attached to the set gillnet; the tags will be issued before each fishing season and will be sequentially numbered and colored for each year;

(2) not more than three tags will be issued to a permit holder operating set gillnets 35 fathoms in length; not more than four tags will be issued to a permit holder operating set gillnets less than 30 fathoms in length;

(3) tags lost during the season may be replaced if the permit holder submits a sworn statement or affidavit describing how the tags were lost and listing the numbers of the lost tags; replacement tag numbers will be preceded by the letter "R";

(4) buoy sticker identification tags and replacement tags are available for purchase on the department's website and may also be obtained at the ADF&G office in Soldotna from Monday through Friday from 8:00 a.m. to 5:00 p.m., except on a state holiday;

(5) the permit holder must obtain new tags before each fishing season;

(6) repealed 4/7/93;

(7) a CFEC permit holder may register with the department to fish in a group with other CFEC permit holders at the time the permit holders purchase buoy stickers; all permit holders in the group shall register at the same time and place; any trailer buoy with a buoy sticker attached registered to that group may be attached to any CFEC permit holder's set gillnet that is also registered to that group to comply with the identification requirements under (1) of this subsection.

5 AAC 21.335. Minimum distance between units of gear

(a) No part of a commercial drift gillnet or set gillnet may be set or operated within 600 feet of any part of another commercial set gillnet.

(b) Repealed 7/21/91.

(c) In the Chinitna Bay Subdistrict, no part of a purse seine may be placed or operated within 600 feet of a drift or set gillnet.

(d) Except as specified in (c) of this section, no part of a seine may be operated within 300 feet of a set gillnet except in the zone outside of the offshore end of a set gillnet.

5 AAC 21.336. Identification of gillnet vessel Repealed 4/13/80.

5 AAC 21.342. Vessel identification Repealed 4/18/86.

5 AAC 21.345. Registration

(a) A CFEC set gillnet permit holder shall register for a registration area described in

(b) of this section before fishing, by completing a registration form available from the department and returning the form in person to the department office in Anchorage, Soldotna, or Homer, by mail to the department office in Soldotna, or by completing and submitting to the department an electronic registration form available on the department's website. A CFEC set gillnet permit holder may not fish in more than one registration area during a registration year.

(b) Registration areas are as follows:

(1) Northern District Area: as described in 5 AAC 21.200(a);

(2) Upper Subdistrict Area: as described in 5 AAC 21.200(b)(2);

(3) Greater Cook Inlet Area: all waters of the Cook Inlet Area open to set gillnet fishing as described in 5 AAC 21.200(b)(1), (b)(3) - (6), and (d).

(c) The registration year is January 1 - December 31.

(d) Registration is not transferable between registration areas during a registration year.

(e) Repealed 6/22/2002.

5 AAC 21.350. Closed waters

(a) Salmon may not be taken in any of the waters listed in this section.

(b) Central District

(1) within one statute mile of the terminus of the following salmon streams:

(A) Deep Creek;

(B) Stariski Creek;

(C) Anchor River;

(2) Crescent River: east of a line from an ADF&G regulatory marker located approximately one mile west of the terminus of the Crescent River to the northernmost tip of Chisik Island, south of the latitude of an ADF&G marker located approximately one mile north of the terminus of the Crescent River, and within a three-mile radius from the terminus of the Crescent River at mean high tide;

(3) Kenai River: waters enclosed by a line from the southern ADF&G regulatory marker at the mouth of the Kenai River at 60° 30.49' N. lat., 151° 16.80' W. long., to a point approximately one and one-half miles offshore at 60° 30.49' N. lat., 151° 19.86' W. long., to a point at 60° 31.07' N. lat., 151° 19.81' W. long., to the Coast Guard channel marker 1 KE located approximately at 60° 31.27' N. lat., 151° 20.84' W. long., to a point at 60° 33.07' N. lat., 151° 19.72' W. long., to a point approximately one mile offshore at 60° 33.66' N. lat., 151° 20.66' W. long., to the northern ADF&G regulatory marker at the mouth of the Kenai River at 60° 34.24' N. lat., 151° 18.99' W. long.;

(4) Kasilof River: waters enclosed by a line from the southern ADF&G regulatory marker at 60° 22.56' N. lat., 151° 20.98' W. long., to a point approximately one and one-half miles offshore at 60° 23.97' N. lat., 151° 22.02' W. long., to a point approximately one and one-half miles offshore at 60° 24.23' N. lat., 151° 20.68' W. long., to the northern ADF&G regulatory marker at 60° 24.23' N. lat., 151° 17.66' W. long.;

(5) Ninilchik River,

(A) within one statute mile of the river terminus;

(B) between the latitude of an ADF&G regulatory marker located approximately one statute mile north of the Ninilchik boat harbor entrance at 60° 04.02' N. lat., 151° 38.90' W. long. and the latitude of Anchor Point Light at 59° 46.15' N. lat. and extending offshore for a distance of one statute mile from mean lower low water;

COOK INLET AREA

(6) on the west side of the Central District from the northern boundary of the district south to Harriet Point (60° 23.75' N. lat., 152° 14.00' W. long.),

(A) within one statute mile of the terminus, at mean high tide, of the Kustatan River and the Drift River;

(B) within one statute mile of the terminus, at mean lower low water, of Cannery Creek;

(C) within one statute mile of the Big River;

(D) within 500 yards of the terminus, at mean high tide, of any anadromous fish stream;

(E) within 900 feet of the streambed or channel of any anadromous fish stream throughout the intertidal portion of that stream out to the lower low water mark;

(7) Packers Creek: waters enclosed by a line from the south ADF&G regulatory marker located at 60° 26.11' N. lat., 151° 55.66' W. long., to 60° 25.33' N. lat., 151° 55.00' W. long., to 60° 25.31' N. lat., 151° 52.68' W. long., to 60° 26.42' N. lat., 151° 51.71' W. long., to the north ADF&G regulatory marker located at 60° 26.42' N. lat., 151° 53.32' W. long.

(c) Northern District

(1) within one statute mile of the terminus of the following salmon streams:

(A) Swanson Creek;

(B) Bishop Creek;

(C) Three-mile Creek;

(D) Chuit River;

(E) Nikolai Creek;

(F) McArthur River;

(2) Turnagain Arm and Knik Arm: east of a line from Point Possession at 61° 02.33' N. lat., 150° 22.62' W. long., to the site of the old West Point light at 61° 07.56' N. lat., 150° 16.93' W. long., on Fire Island, along the eastern shore of Fire Island to North Point at 61° 10.33' N. lat., 150° 09.58' W. long., to a point offshore located at 61° 14.14' N. lat., 149° 59.07' W. long., to Point MacKenzie at 61° 14.29' N. lat., 149° 59.20' W. long.

(d) Southern District

(1) northeast of a line from 59° 44.43' N. lat., 151° 02.80' W. long. to a point on the shore one-half statute mile southwest of the terminus of Swift Creek at 59° 47.15' N. lat.,

151° 05.45' W. long.;

(2) waters of China Poot Bay south and east of a line beneath the Homer Electric Association power line from a point on the north shore of the north arm of China Poot Bay at 59° 33.92' N. lat., 151° 15.42' W. long., to a point on the peninsula between the north and south arm of China Poot Bay at 59° 33.47' N. lat., 151° 15.71' W. long., to a point on the south shore of the south arm of China Poot Bay at 59° 33.21' N. lat., 151° 16.46' W. long.;

(3) waters of Sadie Cove south of 59° 30.00' N. lat.;

(4) repealed 3/22/2014;

(5) waters of Jakolof Bay south of 59° 28.07' N. lat.;

(6) waters of Seldovia Bay south of a line from 59° 25.09' N. lat., 151° 42.57' W. long. to 59° 24.84' N. lat., 151° 43.06' W. long.;

(7) waters of Port Graham Bay south of 59° 20.44' N. lat.;

(8) Northshore Subdistrict.

(e) Kamishak Bay District

(1) waters of Cottonwood Bay west of a line from 59° 38.39' N. lat., 153° 39.41' W. long. to 59° 37.68' N. lat., 153° 39.51' W. long.;

(2) waters of Chenik Lagoon south and west of 59° 13.42' N. lat., 154° 07.32' W. long.;

(3) waters of Iniskin Bay north of a line from 59° 46.05' N. lat., 153° 27.82' W. long. to 59° 46.69' N. lat., 153° 26.01' W. long.;

(4) waters of Right Arm in Iniskin Bay east of a line from 59° 43.93' N. lat., 153° 22.83' W. long. to 59° 42.90' N. lat., 153° 22.86' W. long.;

(5) waters of Ursus Cove west of a line from 59° 32.43' N. lat., 153° 46.06' W. long. to 59° 31.20' N. lat., 153° 45.74' W. long.

(6) waters of Akumwarvik Bay inshore of a line from a point at 59° 03.31' N. lat., 154° 11.24' W. long., to 59° 02.82' N. lat., 154° 10.18' W. long., to the west shore at 59° 02.32' N. lat., 154° 07.08' W. long.;

(7) waters of the Douglas River area inshore of a line from a point at 59° 03.78' N. lat., 153° 46.09' W. long., to 59° 03.95' N. lat., 153° 45.09' W. long.

(f) Outer District

(1) waters of Port Chatham east of a line from 59° 13.32' N. lat., 151° 43.41' W.

COOK INLET AREA

long. to 59° 12.59' N. lat., 151° 43.55' W. long.;

(2) waters of Windy Bay west of 151° 32.85' W. long.;

(3) waters of Taylor Bay north of 59° 18.00' N. lat.;

(4) waters of Tacoma Cove and Sunday Harbor east of 151° 01.15' W. long.;

(5) waters of Koyuktolik (Dogfish) Bay east of a line from 59° 14.45' N. lat., 151° 52.72' W. long. to 59° 14.25' N. lat., 151° 52.90' W. long.;

(6) waters of Chugach Bay west of a line from 59° 11.36' N. lat., 151° 37.57' W. long. to 59° 11.03' N. lat., 151° 37.25' W. long.;

(7) waters of Rocky Bay inshore of a line from 59° 14.92' N. lat., 151° 23.82' W. long. to 59° 14.72' N. lat., 151° 23.32' W. long.;

(8) waters of Port Dick west of a line from 59° 18.16' N. lat., 151° 17.33' W. long. to 59° 18.60' N. lat., 151° 17.10' W. long.;

(9) waters of Middle Creek north of a line from 59° 18.18' N. lat., 151° 12.13' W. long. to 59° 18.08' N. lat., 151° 13.13' W. long.;

(10) waters of Island Creek inshore of a line from 59° 17.09' N. lat., 151° 08.78' W. long. to 59° 17.11' N. lat., 151° 08.30' W. long. and inshore of a line from 59° 17.04' N. lat., 151° 08.06' W. long. to 59° 16.88' N. lat., 151° 07.15' W. long., and including the waters northwest of the island between those two lines;

(11) waters of McCarty Fjord north of a line from 57° 37.52' N. lat., 150° 19.18' W. long. to 59° 37.03' N. lat., 150° 17.01' W. long.;

(12) waters of the East Nuka Subdistrict east of a line from a point north of the entrance to McCarty Lagoon at 59° 32.76' N. lat., 150° 20.20' W. long., to a point offshore of the entrance of McCarty Lagoon at 59° 32.45' N. lat., 150° 21.50' W. long., to a point south of the entrance of McCarty Lagoon at 59° 31.90' N. lat., 150° 21.00' W. long.;

(13) waters of the East Nuka Subdistrict east of a line from a point north of the entrance to Desire Lake Creek at 59° 35.02' N. lat., 150° 17.86' W. long. to a point south of the entrance to Desire Lake Creek at 59° 34.68' N. lat., 150° 17.95' W. long.

(14) waters of the Nuka Island Subdistrict off the mouth of the Petrof River west of a line from a point at 59° 20.85' N. lat., 150° 50.35' W. long., to a point at 59° 21.50' N. lat., 150° 50.30' W. long.

(g) Eastern District

(1) waters of Resurrection Bay west of a line from the old military dock pilings on the west shore of Resurrection Bay north of Caines Head at 60° 00.48' N. lat., 149° 24.20'

W. long. to a point located near the Seward Airport at 60° 07.49' N. lat., 149° 24.72' W. long.;

(2) king and coho salmon may not be taken in waters of Resurrection Bay north of a line from Cape Resurrection at 59° 52.00' N. lat., 149° 16.71' W. long. to a point on Aialik Cape at 59° 42.39' N. lat., 149° 31.29' W. long.;

(3) waters of Aialik Bay north of 59° 53.47' N. lat.

(h) In any bay, estuary, slough, or lagoon less than 300 feet in width at mean lower low water.

(i) In all other streams or rivers within 500 yards of the terminus or as specified in 5 AAC 39.290.

5 AAC 21.353. Central District Drift Gillnet Fishery Management Plan

(a) The purpose of this management plan is to ensure adequate escapement and a harvestable surplus of salmon into the Northern District drainages and to provide management guidelines to the department. The department shall manage the commercial drift gillnet fishery to minimize the harvest of Northern District salmon and Kenai River coho salmon in order to provide all users with a reasonable opportunity to harvest these salmon stocks over the entire run, as measured by the frequency of inriver restrictions. The department shall manage the Central District commercial drift gillnet fishery as described in this section.

(b) The regular weekly fishing periods are as described in 5 AAC 21.320(b). The fishing season will open the third Monday in June or June 19, whichever is later.

(c) From July 9 through July 15,

(1) fishing during the first regular fishing period and second regular fishing period is restricted to the Expanded Kenai and Expanded Kasilof Sections of the Upper Subdistrict and Drift Gillnet Area 1;

(2) at run strengths greater than 2,300,000 sockeye salmon to the Kenai River, the commissioner may, by emergency order, open one additional 12-hour fishing period in the Expanded Kenai and Expanded Kasilof Sections of the Upper Subdistrict and Drift Gillnet Area 1;

(3) additional fishing time under this subsection is allowed only in the Expanded Kenai and Expanded Kasilof Sections of the Upper Subdistrict.

(d) From July 16 through July 31,

(1) at run strengths of less than 2,300,000 sockeye salmon to the Kenai River, fishing during all regular 12-hour fishing periods will be restricted to the Expanded Kenai and Expanded Kasilof Sections of the Upper Subdistrict;

COOK INLET AREA

(2) at run strengths of 2,300,000 - 4,600,000 sockeye salmon to the Kenai River,

(A) fishing during one regular 12-hour fishing period per week will be restricted to one or more of the following sections and areas:

- (i) Expanded Kenai Section of the Upper Subdistrict;
- (ii) Expanded Kasilof Section of the Upper Subdistrict;
- (iii) Anchor Point Section of the Lower Subdistrict;
- (iv) Drift Gillnet Area 1;

(B) the remaining weekly 12-hour regular fishing period will be restricted to one or more of the following sections:

- (i) Expanded Kenai Section;
- (ii) Expanded Kasilof Section;
- (iii) Anchor Point Section;

(3) at run strengths greater than 4,600,000 sockeye salmon to the Kenai River, one regular 12-hour fishing period per week will be restricted to the Expanded Kenai, Expanded Kasilof, and Anchor Point Sections;

(4) additional fishing time under this subsection is allowed only in one or more of the following sections:

- (A) Expanded Kenai Section;
- (B) Expanded Kasilof Section;
- (C) Anchor Point Section.

(e) From August 1 through August 15,

(1) fishing during both regular 12-hour fishing periods per week will be restricted to one or more of the following:

- (A) Expanded Kenai Section;
- (B) Expanded Kasilof Section;
- (C) Anchor Point Section;
- (D) Drift Gillnet Area 1;

(2) additional fishing periods are allowed in one or more of the following:

(A) Expanded Kenai Section;

(B) Expanded Kasilof Section;

(C) Anchor Point Section;

(3) regular fishing periods will be restricted to Drift Gillnet Areas 3 and 4 if

(A) the Upper Subdistrict set gillnet fishery is closed under 5 AAC 21.310(b)(2)(C)(iii); or

(B) the department determines that less than one percent of the season's total drift gillnet sockeye salmon harvest has been taken per fishing period for two consecutive fishing periods in the drift gillnet fishery.

(f) From August 16 until closed by emergency order, Drift Gillnet Areas 3 and 4 are open for fishing during regular fishing periods.

(g) For the purposes of this section,

(1) "Drift Gillnet Area 1" means those waters of the Central District south of Kalgin Island at 60° 20.43' N. lat.;

(2) "Drift Gillnet Area 2" means those waters of the Central District enclosed by a line from 60° 20.43' N. lat., 151° 54.83' W. long. to a point at 60° 41.08' N. lat., 151° 39.00' W. long. to a point at 60° 41.08' N. lat., 151° 24.00' W. long. to a point at 60° 27.10' N. lat., 151° 25.70' W. long. to a point at 60° 20.43' N. lat., 151° 28.55' W. long.;

(3) "Drift Gillnet Area 3" means those waters of the Central District within one mile of mean lower low water (zero tide) south of a point on the West Foreland at 60° 42.70' N. lat., 151° 42.30' W. long.;

(4) "Drift Gillnet Area 4" means those waters of the Central District enclosed by a line from 60° 04.70' N. lat., 152° 34.74' W. long. to the Kalgin Buoy at 60° 04.70' N. lat., 152° 09.90' W. long. to a point at 59° 46.15' N. lat., 152° 18.62' W. long. to a point on the western shore at 59° 46.15' N. lat., 153° 00.20' W. long., not including the waters of the Chinitna Bay Subdistrict.

(h) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).

5 AAC 21.354. Cook Inlet Pink Salmon Management Plan

(a) The purpose of this management plan is to allow for the harvest of surplus pink

salmon in the Upper Subdistrict for set gillnet and drift gillnet gear. Notwithstanding 5 AAC 21.310(b)(2)(C)(iii), from August 11 through August 15, the commissioner may, by emergency order, open a commercial pink salmon fishery in an even-numbered year for up to two regular 12-hour fishing periods if the commissioner determines that the sockeye salmon escapement goals in the Kenai and Kasilof Rivers are being achieved and coho salmon run strength is sufficient to withstand additional harvest.

(b) The first pink salmon commercial fishing period will occur only if, during the regular fishing periods from August 6 through August 10, the daily harvest of pink salmon in the Upper Subdistrict set gillnet fishery exceeds 25,000 fish or the cumulative harvest is 50,000 or more pink salmon. The second pink salmon commercial fishing period will occur only if 25,000 or more pink salmon and no more than 2,500 coho salmon are harvested in the Upper Subdistrict set gillnet fishery during the first pink salmon commercial fishing period.

(c) During a pink salmon commercial fishing period opened under this section, a

(1) set gillnet may not have a mesh size greater than four and three-quarters inches; and

(2) drift gillnet may not have a mesh size greater than four and three-quarters inches, and fishing with drift gillnet gear will only be opened in the areas defined in 5 AAC 21.200(b)(2)(B).

5 AAC 21.355. Reporting requirements A commercial salmon fisherman shall, at the time of landing, report on an ADF&G fish ticket the number of salmon, by species, taken but not sold.

5 AAC 21.356. Cook Inlet Pink Salmon Management Plan Repealed.

5 AAC 21.357. Kenai River Coho Salmon Conservation Management Plan Repealed.

5 AAC 21.358. Northern District Salmon Management Plan

(a) The purposes of this management plan are to minimize the harvest of coho salmon bound for the Northern District of upper Cook Inlet and to provide the department direction for management of salmon stocks. The department shall manage the chum, pink, and sockeye salmon stocks for commercial and inriver uses to provide an opportunity to harvest these salmon resources based on abundance. The department shall also manage the chum, pink, and sockeye salmon stocks to minimize the harvest of Northern District coho salmon, to provide sport and guided sport fisherman and other inriver users a reasonable opportunity to harvest these salmon resources over the entire run, as measured by the frequency of inriver restrictions, or as specified in this section and other regulations.

(b) The department shall manage the Northern District commercial salmon fisheries based on the abundance of sockeye salmon counted through the weirs on Larson, Chelatna, and Judd Lakes or other salmon abundance indices as the department deems

appropriate.

(c) From July 20 through August 6, if the department's assessment of abundance indicates that restrictions are necessary to achieve the escapement goal, the commissioner may, by emergency order, close the commercial set gillnet fishery in the Northern District and immediately reopen a season during which the number of set gillnets that may be used is limited to the following options selected at the discretion of the commissioner, except that from July 31 through August 6, the commissioner may allow the use of two set gillnets in that portion of the General District south of the Susitna River:

- (1) three set gillnets that are not more than 105 fathoms in aggregate length;
- (2) two set gillnets that are not more than 70 fathoms in aggregate length;
- (3) one set gillnet that is not more than 35 fathoms in length.

(d) In addition to the provisions specified in (b) and (c) of this section, the department shall manage the Northern District commercial salmon fisheries to minimize the incidental take of coho salmon stocks bound for the Northern District in the following manner:

(1) additional fishing periods, other than the weekly fishing periods described in 5 AAC 21.320(a)(1), may not be provided when coho salmon are expected to be the most abundant species harvested during that period; additional fishing periods may not be provided based on the abundance of Northern District coho salmon;

(2) after August 15, the department shall limit the harvest of coho salmon in the Northern District by limiting commercial fishing time to the weekly fishing periods described in 5 AAC 21.320(a)(1).

(e) Personal use fishing with a set gillnet is prohibited in the Northern District.

(f) The department shall, to the extent practicable, conduct habitat assessments on a schedule that conforms to the board's triennial meeting cycle. If the assessments demonstrate a net loss of riparian habitat caused by noncommercial fishermen, the department is requested to report those findings to the board and submit proposals to the board for appropriate modification of this management plan.

(g) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).

5 AAC 21.359. Kenai River Late-Run King Salmon Management Plan

(a) The purposes of this management plan are to ensure an adequate escapement of late-run king salmon into the Kenai River system and to provide management guidelines to the department. The department shall manage the late-run Kenai River king salmon stocks primarily for sport and guided sport uses in order to provide the sport and guided sport fishermen with a reasonable opportunity to harvest these salmon resources over the

entire run, as measured by the frequency of inriver restrictions. The provisions of this management plan are in effect from June 20 through August 15.

(b) The department shall manage the late run of Kenai River king salmon to achieve an optimal escapement goal of 15,000 — 30,000 king salmon 75 cm mid eye to tail fork and longer as described in this section.

(c) In the sport fishery,

(1) if the optimal escapement goal is projected to be exceeded, the commissioner may, by emergency order, extend the sport fishing season up to seven days during the first week of August;

(2) from July 1 through July 31, a person may not use more than one single hook in the Kenai River downstream from an ADF&G regulatory marker located at the outlet of Skilak Lake;

(3) that portion of the Kenai River downstream from an ADF&G regulatory marker located at the outlet of Skilak Lake is open to unguided sport fishing from a nonmotorized vessel on Mondays in July; for purposes of this paragraph, a nonmotorized vessel is one that does not have a motor on board.

(d) If the projected late-run king salmon escapement is less than 15,000 king salmon 75 cm mid eye to tail fork and longer, the department shall

(1) close the sport fisheries in the Kenai River and in the salt waters of Cook Inlet north of the latitude of Bluff Point to the taking of king salmon;

(2) close the commercial drift gillnet fishery in the Central District within one mile of the Kenai Peninsula shoreline north of the Kenai River and within one and one-half miles of the Kenai Peninsula shoreline south of the Kenai River; and

(3) close the commercial set gillnet fishery in the Upper Subdistrict of the Central District.

(e) In order to achieve the optimal escapement goal and provide reasonable harvest opportunity, the commissioner may, by emergency order, establish fishing seasons as follows:

(1) in the Kenai River sport fishery,

(A) the use of bait is prohibited;

(B) the use of bait is prohibited and retention of king salmon 34 inches or greater in length as defined in 5 AAC 75.995(a) is prohibited; or

(C) the use of bait and retention of king salmon are prohibited;

(2) in the Kenai River personal use fishery, if the use of bait is prohibited in the Kenai River sport fishery under (1) of this subsection, the retention of king salmon is prohibited in the personal use fishery;

(3) in the Upper Subdistrict set gillnet commercial fishery, notwithstanding the provisions of 5 AAC 21.360(c)(1)(B), (2)(B), and (3)(B), based on the abundance of sockeye salmon returning to the Kenai and Kasilof Rivers,

(A) if the use of bait is prohibited in the Kenai River sport fishery under (1)(A) of this subsection, commercial fishing periods are open for no more than 48 hours per week, with a 36-hour continuous closure per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday;

(B) if the use of bait and the retention of king salmon greater than 34 inches in length as defined in 5 AAC 75.995(a) are prohibited in the Kenai River sport fishery under (1)(B) of this subsection, commercial fishing periods are open for no more than 36 hours per week, with a 36-hour continuous closure per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday;

(C) if the use of bait and the retention of king salmon are prohibited in the Kenai River sport fishery under (1)(C) of this subsection, commercial fishing periods are open for no more than 24 hours per week, with a 36-hour continuous closure per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday;

(D) if preseason restrictions are issued for the late-run Kenai River king salmon sport fishery, then all Upper Subdistrict set gillnet fisheries are restricted;

(E) if restrictions for the late-run Kenai River king salmon sport fishery are in effect on July 31, then, beginning August 1, Upper Subdistrict set gillnet commercial fishing periods are open for no more than 36 hours per week; if the Kenai River late-run king salmon sport fishery is not restricted under the provisions of this section, or, after August 1, if the Kenai River late-run king salmon OEG is achieved, the Upper Subdistrict set gillnet fishery will be managed under the provisions of 5 AAC 21.360, Kenai River Late-Run Sockeye Salmon Management Plan;

(F) Upper Subdistrict set gillnet commercial fishing periods that are limited under this section may be limited to fishing within 600 feet of the mean high tide mark and are exempt from hour and gear limitations identified under (e)(3)(A)-(E) of this section;

(G) if commercial fishing is limited under (e)(3) of this section, the operation of setnets operated by a CFEC permit holder shall be restricted to:

(i) up to four set gillnets that are each not more than 35 fathoms in length, 105 fathoms in aggregate length, and 29 meshes in depth, or two set gillnets that are each not more than 35 fathoms in length and 45 meshes in depth; set gillnets used that are not

more than 29 meshes in depth must be identified at the end of the gillnet with an attached blue buoy that is not less than nine and one-half inches in diameter; or

(ii) up to two set gillnets that are each not more than 35 fathoms in length and 29 meshes in depth or one set gillnet that is not more than 35 fathoms in length and 45 meshes in depth; set gillnets used that are not more than 29 meshes in depth must be identified at the end of the gillnet with an attached blue buoy that is not less than nine and one-half inches in diameter.

(f) Repealed 6/8/2017;

(g) Repealed 6/8/2017;

(h) The provisions of (e)(3)(G) of this section do not apply to provisions of the Kasilof River Salmon Management Plan contained in 5 AAC 21.365(f) that pertain to the Kasilof Special Harvest Area. The provisions of (e)(3)(A) — (C) of this section apply to provisions of the Kasilof River Salmon Management Plan contained in 5 AAC 21.365(f) that pertain to the Kasilof River Special Harvest Area.

(i) The department will, to the extent practicable, conduct habitat assessments on a schedule that conforms to the Board of Fisheries (board) triennial meeting cycle. If the assessments demonstrate a net loss of riparian habitat caused by noncommercial fishermen, the department is requested to report those findings to the board and submit proposals to the board for appropriate modification of this plan.

(j) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).

5 AAC 21.360. Kenai River Late-Run Sockeye Salmon Management Plan

(a) The department shall manage the Kenai River late-run sockeye salmon stocks primarily for commercial uses based on abundance. The department shall also manage the commercial fisheries to minimize the harvest of Northern District coho, late-run Kenai River king, and Kenai River coho salmon stocks to provide personal use, sport, and guided sport fishermen with a reasonable opportunity to harvest salmon resources.

(b) The Kenai River late-run sockeye salmon commercial, sport, and personal use fisheries shall be managed to

(1) meet the sustainable escapement goal (SEG) range of 750,000 — 1,300,000 late-run sockeye salmon;

(2) achieve inriver goals as established by the board and measured at the Kenai River sonar counter located at river mile 19; and

(3) distribute the escapement of sockeye salmon evenly within the (SEG) range, in proportion to the size of the run.

(c) Based on preseason forecasts and inseason evaluations of the total Kenai River late-run sockeye salmon return during the fishing season, the run will be managed as follows:

(1) at run strengths of less than 2,300,000 sockeye salmon,

(A) the department shall manage for an inriver goal range of 1,000,000 — 1,200,000 sockeye salmon past the sonar counter at river mile 19; and

(B) subject to the provisions of other management plans, the Upper Subdistrict set gillnet fishery will fish regular weekly fishing periods, as specified in 5 AAC 21.320, through July 20, unless the department determines that the minimum inriver goal will not be met, at which time the fishery shall be closed or restricted as necessary; the commissioner may, by emergency order, allow extra fishing periods of no more than 24 hours per week, except as provided in 5 AAC 21.365;

(2) at run strengths of 2,300,000 - 4,600,000 sockeye salmon,

(A) the department shall manage for an inriver goal range of 1,100,000 - 1,400,000 sockeye salmon past the sonar counter at river mile 19;

(B) subject to the provisions of other management plans, the Upper Subdistrict set gillnet fishery will fish regular weekly fishing periods, as specified in 5 AAC 21.320, through July 20, or until the department makes a determination of run strength, whichever occurs first; if the department determines that the minimum inriver goal will not be met, the fishery shall be closed or restricted as necessary; the commissioner may, by emergency order, allow extra fishing periods of no more than 51 hours per week, except as provided in 5 AAC 21.365; and

(C) the Upper Subdistrict set gillnet fishery will be closed for one continuous 36-hour period per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday and for one continuous 24-hour period per week beginning between 7:00 p.m. Monday and 7:00 a.m. Wednesday;

(3) at run strengths greater than 4,600,000 sockeye salmon,

(A) the department shall manage for an inriver goal range of 1,200,000 - 1,600,000 sockeye salmon past the sonar counter at river mile 19;

(B) subject to the provisions of other management plans, the Upper Subdistrict set gillnet fishery will fish regular weekly fishing periods, as specified in 5 AAC 21.320, through July 20, or until the department makes a determination of run strength, whichever occurs first; if the department determines that the minimum inriver goal will not be met, the fishery shall be closed or restricted as necessary; the commissioner may, by emergency order, allow extra fishing periods of no more than 84 hours per week, except as provided in 5 AAC 21.365; and

(C) the Upper Subdistrict set gillnet fishery will be closed for one continuous 36-hour period per week, beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday.

(d) The sonar count levels established in this section may be lowered by the board if noncommercial fishing, after consideration of mitigation efforts, results in a net loss of riparian habitat on the Kenai River. The department will, to the extent practicable, conduct habitat assessments on a schedule that conforms to the Board of Fisheries (board) triennial meeting cycle. If the assessments demonstrate a net loss of riparian habitat caused by noncommercial fishermen, the department is requested to report those findings to the board and submit proposals to the board for appropriate modification of the Kenai River late-run sockeye salmon inriver goal.

(e) Repealed 6/11/2005.

(f) Repealed 6/11/2005.

(g) Subject to the requirement of achieving the lower end of the sustainable escapement goal, the department shall provide for a personal use dip net fishery in the lower Kenai River as specified in 5 AAC 77.540.

(h) Subject to the requirement of achieving the lower end of the sustainable escapement goal, the department shall manage the sport fishery on the Kenai River, except that portion of the Kenai River from its confluence with the Russian River to an ADF&G regulatory marker located 1,800 yards downstream, as follows:

(1) fishing will occur seven days per week, 24 hours per day;

(2) the bag and possession limit for sockeye salmon is three per day, with six in possession, in the sport fishery, unless the department determines that the abundance of late-run sockeye salmon exceeds 2,300,000 fish, at which time the commissioner may, by emergency order, increase the bag and possession limit as the commissioner determines to be appropriate; and

(3) if the projected inriver run of sockeye salmon above the Kenai River sonar counter located at river mile 19 is less than 1,000,000 fish and the inriver sport fishery harvest is projected to result in an escapement below the lower end of the sustainable escapement goal, the commissioner may, by emergency order, decrease the bag and possession limit, as the commissioner determines to be appropriate, for sockeye salmon in the sport fishery above the Kenai River sonar counter located at river mile 19.

(i) For the purposes of this section, "week" means a calendar week, a period of time beginning at 12:00:01 a.m. Sunday and ending at 12:00 midnight the following Saturday.

(j) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363 (e).

5 AAC 21.361. Russian River Sockeye Salmon Management Plan Repealed.

5 AAC 21.362. Early Kenai River King Salmon Management Plan Repealed 5/3/84.

5 AAC 21.363. Upper Cook Inlet Salmon Management Plan

(a) The department should receive long-term direction in management of upper Cook Inlet salmon stocks and salmon species. Divisions within the department must receive long-term direction in order to accomplish their missions and plan management, research, administrative, and other programs. Upper Cook Inlet stakeholders should be informed of the long-term management objectives of the Board of Fisheries (board). Therefore, the board establishes the following provisions for the management and conservation of upper Cook Inlet salmon stocks:

(1) consistent with the statutory priority for subsistence, the harvest of upper Cook Inlet salmon for customary and traditional subsistence uses will be provided for specific species in appropriate areas, seasons, and periods to satisfy subsistence needs; other beneficial uses, to the extent they are consistent with the public interest and overall benefit of the people of Alaska, will be allowed in order to maximize the benefits of these resources;

(2) to provide for the management and allocation of the upper Cook Inlet salmon resources, the harvest of the upper Cook Inlet salmon will be governed by specific and comprehensive management plans adopted by the board for salmon stocks and species, on a Cook Inlet basin wide basis, for different areas, and drainages and for different types of fisheries;

(3) in adopting the specific management plans described in (2) of this subsection the board will consider:

(A) the need for sustainable fisheries for all salmon stocks and salmon species throughout the Cook Inlet basin;

(B) the protection of the fisheries habitat both in the fresh water and the marine environment throughout the Cook Inlet basin; and

(C) the various needs and demands of the user groups of the salmon resources of upper Cook Inlet;

(4) in these management plans, the board may, as appropriate, address the following considerations:

(A) the need to allocate the harvestable surplus among commercial, sport, guided sport and personal use fisheries; and

(B) the need to allocate the harvestable surplus within user groups;

(5) in the absence of a specific management plan, it is the intent of the board that salmon be harvested in the fisheries that have historically harvested them, according to the methods, means, times, and locations of those fisheries;

(6) consistent with 5 AAC 39.220(b), it is the intent of the board that, in the absence of a specific management plan, where there are known conservation problems, the burden

of conservation shall, to the extent practicable, be shared among all user groups in close proportion to their respective harvest on the stock of concern.

(b) Repealed 6/13/99.

(c) In this section, "upper Cook Inlet salmon stocks" means those salmon that move through the Northern and Central Districts as defined in 5 AAC 21.200(a) and (b) and spawn in waters draining into those districts.

(d) Repealed 6/11/2005.

(e) Notwithstanding any other provision of this chapter, it is the intent of the board that, while in most circumstances the department will adhere to the management plans in this chapter, no provision within a specific management plan is intended to limit the commissioner's use of emergency order authority under AS 16.05.060 to achieve established escapement goals for the management plans as the primary management objective. For the purpose of this subsection, "escapement goals" includes inriver goal, biological escapement goal, sustainable escapement goal, and optimal escapement goal as defined in 5 AAC 39.222.

5 AAC 21.364. Fish Creek Sockeye Salmon Management Plan Repealed.

5 AAC 21.365. Kasilof River Salmon Management Plan

(a) This management plan governs the harvest of Kasilof River salmon excess to spawning escapement needs. It is the intent of the Board of Fisheries that Kasilof River salmon be harvested in the fisheries that have historically harvested them, including the methods, means, times, and locations of those fisheries. Openings in the areas historically fished must be consistent with escapement objectives for upper Cook Inlet salmon and with the Upper Cook Inlet Salmon Management Plan (5 AAC 21.363).

(b) Achieving the lower end of the Kenai River sockeye salmon escapement goal shall take priority over not exceeding the upper end of the Kasilof River optimal escapement goal range of 140,000 — 370,000 sockeye salmon.

(c) The commercial set gillnet fishery in the Kasilof Section shall be managed as follows:

- (1) fishing will be opened as described in 5 AAC 21.310(b)
- (2) for regular weekly fishing periods, as specified in 5 AAC 21.320;
- (2) from the beginning of the fishing season through July 7,

(A) the commissioner may, by emergency order, open additional fishing periods or extend regular weekly fishing periods to a maximum of 48 hours of additional fishing time per week;

(B) the fishery shall remain closed for at least one continuous 36-hour period per

week to begin between 7:00 p.m. Thursday and 7:00 a.m. Friday;

(3) beginning July 8, the set gillnet fishery in the Kasilof Section will be managed as specified in 5 AAC 21.360(c); in addition to the provisions of 5 AAC 21.360

(c), the commissioner may, by emergency order, limit fishing during the regular weekly periods and any extra fishing periods to those waters within one-half mile of shore, if the set gillnet fishery in the Kenai and East Forelands Sections are not open for the fishing period; if the commissioner determines that further restrictions are necessary to aid in achieving the lower end of the Kenai River late run sockeye and king salmon escapement goals, the commissioner may, in an emergency order under this paragraph, further restrict fishing to within 600 feet of the mean high tide mark in the Kasilof Section and is not subject to the time limitations in 5 AAC 21.359(e)(3) and 5 AAC 21.360;

(4) after July 8, if the Kasilof Section set gillnet fishery is restricted to fishing within the first one-half mile of shore, the commissioner may, by emergency order, open the KRSHA described in

(f) of this section to both set and drift gillnet fishing using only one gillnet, for fishing periods not to exceed 48 hours in duration without one period of 24 consecutive hours of closure;

(5) after July 15, if the department determines that the Kenai River late-run sockeye salmon run strength is projected to be less than 2,300,000 fish and the 390,000 optimal escapement goal for the Kasilof River sockeye salmon may be exceeded, the commissioner may, by emergency order, open fishing for an additional 24 hours per week in the Kasilof Section within one-half mile of shore and as specified in 5 AAC 21.360(c).

(d) The personal use fishery will be managed as specified in 5 AAC 77.540(b) and (c).

(e) Repealed 6/4/2008.

(f) The commissioner may, by emergency order, open the Kasilof River Special Harvest Area (KRSHA) to the taking of salmon by gillnets when it is projected that the Kasilof River sockeye salmon escapement will exceed 365,000 fish. It is the intent of the Board of Fisheries (board) that the KRSHA should rarely, if ever, be opened under this subsection and only for conservation reasons. Before the commissioner opens the KRSHA, it is the board's intent that additional fishing time be allowed in the remainder of the Kasilof Section first, and secondly that the mandatory closures specified in regulation be reduced in duration, if necessary to meet the escapement goals contained within this and other management plans. The Kasilof River Special Harvest Area is defined as those offshore waters bounded by a line from 60° 22.59' N. lat., 151° 20.79' W. long., to 60° 23.83' N. lat., 151° 21.70' W. long., to 60° 24.13' N. lat., 151° 21.34' W. long., to 60° 24.13' N. lat., 151° 17.72' W. long., excluding waters of the Kasilof River upstream of ADF&G regulatory markers located near the terminus of the river and waters open to set gillnetting under 5 AAC 21.330(b)(3)(C)(ii) and (iii). The following apply within the special harvest area when it is open:

(1) the boundary between waters open to set gillnet gear and waters open to drift gillnet gear is a line from 60° 22.77' N. lat., 151° 20.93' W. long., to 60° 23.23' N. lat., 151° 19.31' W. long., to 60° 23.56' N. lat., 151° 18.17' W. long., to 60° 24.13' N. lat., 151° 18.12' W. long.;

(2) a set gillnet may not exceed 35 fathoms in length;

(3) repealed 6/8/2017;

(4) no more than 50 fathoms of drift gillnet may be used to take salmon;

(5) a permit holder may not use more than one set gillnet per permit to take salmon at any time;

(6) a person may not operate a gillnet outside the special harvest area when operating a gillnet in the special harvest area;

(7) there is no minimum distance between gear, except that a gillnet may not be set or operated within 600 feet of a set gillnet located outside of the special harvest area; and

(8) repealed 6/8/2017;

(9) Except for nets which may not be in the water after the closure, set gillnet gear, including running lines, shore leads, anchors, and buoys must be removed from the water and the beach prior to the opening of the KRSHA and no more than 4 hours after any closure of the KRSHA, and may not be placed back in the water or on the beach prior to the next opening of the KRSHA.

(g) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).

(h) For the purposes of this section, "week" means a calendar week, a period of seven consecutive days beginning at 12:01 a.m. Sunday and ending at 12:00 midnight the following Saturday.

5 AAC 21.366. Northern District King Salmon Management Plan

(a) The purpose of this management plan is to ensure an adequate escapement of king salmon into the Northern District drainages and to provide management guidelines to the department. The department shall manage the Northern District king salmon stocks primarily for sport and guided sport uses in order to provide sport and guided sport fishermen with a reasonable opportunity to harvest these salmon over the entire run as measured by the frequency of inriver restrictions. The department shall manage the Northern District for the commercial harvest of king salmon as follows:

(1) except as specified in (8) of this section, the season will open for commercial fishing periods with the first fishing period beginning on the first Monday on or after May 25, except when May 25 falls within a closed period, in which case the season opens

the next following open period and continues through June 24, unless closed earlier by emergency order;

(2) fishing periods are from 7:00 a.m. to 7:00 p.m. on Mondays;

(3) the harvest may not exceed 12,500 king salmon;

(4) set gillnets may not exceed 35 fathoms in length and six inches in mesh size;

(5) no CFEC permit holder may operate more than one set gillnet per permit at a time;

(6) no set gillnet may be set or operated within 1,200 feet of another set gillnet;

(7) no CFEC permit holder may set a gillnet seaward of a set gillnet operated by another CFEC permit holder;

(8) from May 25 through June 24, the area from an ADF&G regulatory marker located one mile south of the Theodore River to the Susitna River is open to fishing the second regular Monday period only;

(9) if the Theodore, Lewis, or Ivan River is closed to sport fishing, the commissioner shall close, by emergency order, the area from an ADF&G regulatory marker located one mile south of the Theodore River to the Susitna River to commercial king salmon fishing for the remainder of the fishing periods provided for under this section;

(10) if the king salmon sport fishery on the Deshka River as described in 5 AAC 61 is

(A) conducted as a no bait fishery, the commissioner shall, by emergency order, reduce the time allowed per commercial set gillnet fishing period provided for in this section to no more than nine hours in duration, or from 7:00 a.m. until 4:00 p.m.;

(B) conducted as a catch and release fishery, the commissioner shall, by emergency order, reduce the time allowed per fishing period provided for in this section to no more than six hours in duration, or from 7:00 a.m. until 1:00 p.m.;

(C) closed, the commissioner shall close, by emergency order, the commercial king salmon fishery throughout the Northern District;

(11) if the Chuitna River is closed to sport fishing, the commissioner shall close, by emergency order, the area from a point at the wood chip dock located approximately at 61° 02.77' N. lat., 151° 10.04' W. long., to the Susitna River to commercial king salmon fishing for the remainder of the directed king salmon fishery;

(12) if the inseason Deshka River run projection is below the sustainable escapement goal, the commissioner may, by emergency order, close the commercial salmon set gillnet fishery throughout the Northern District.

(b) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).

5 AAC 21.367. Upper Subdistrict King Salmon Management Plan Repealed 6/10/89.

5 AAC 21.368. Big River Sockeye Salmon Management Plan

(a) The purpose of this management plan is to authorize a harvest of Big River sockeye salmon by set gillnets in a portion of the Kustatan and Kalgin Island Subdistricts.

(b) Salmon may be taken in waters of the Kustatan Subdistrict west of 151° 52.30' W. long., approximately one mile south of the terminus of the Kustatan River, and in the Kalgin Island Subdistrict north and east of 60° 20.67' N. lat., near the Kalgin Island Light around Kalgin Island to the southside of Light Point at 151° 50.50' W. long.

(c) The open fishing season is from June 1 through June 24, except that if June 1 falls within a closed weekly fishing period, the season will open the next following open period.

(d) Fishing periods are from 7:00 a.m. through 7:00 p.m. on Monday, Wednesday, and Friday.

(e) Salmon may be taken by set gillnets only as follows:

(1) a set gillnet may not exceed 35 fathoms in length nor five and one-half inches in mesh size;

(2) no CFEC permit holder may operate more than one set gillnet at a time;

(3) no set gillnet may be set or operated within 1,800 feet of another set gillnet;

(4) no set gillnet may extend more than 35 fathoms seaward of the mainland beach at the lowest tide of the current day;

(5) repealed 4/7/93.

(f) Commercial salmon fishing is prohibited as follows, and no other closed waters provision applies:

(1) within one statute mile of the terminus, at mean high tide, of the Kustatan River and of the Drift River, and within one statute mile of the Big River;

(2) within 500 yards of the terminus, at mean high tide, of Montana Bill Creek and of Bachatna Creek (also known as Johnson Slough);

(3) in the freshwater portions of any anadromous fish stream, in accordance with 5 AAC 39.290.

(g) The commissioner shall close, by emergency order, the fishery, when the harvest

of king salmon reaches 1,000 fish.

(h) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).

5 AAC 21.369. Lower Cook Inlet Seine Fishery Management Plan When the Board of Fisheries authorized the use of power purse seines in the Cook Inlet salmon fishery, the board was concerned that the more efficient gear might allow the fleet to increase its harvest of Upper Cook Inlet salmon stocks. The department shall manage the seine fleet so that its efforts are directed on Lower Cook Inlet salmon stocks. The board recognizes that some incidental catch of Upper Cook Inlet salmon stocks will occur while the seine fishery is managed for Lower Cook Inlet salmon stocks.

5 AAC 21.370. Packers Creek Sockeye Salmon Management Plan The department may not base fishing time in the Kalgin Island Subdistrict on the enhanced run strength of Packers Creek sockeye salmon. For the purpose of harvesting Packers Creek sockeye salmon, extra fishing time in the Kalgin Island Subdistrict shall be limited to no more than one additional fishing period per week.

5 AAC 21.372. Tutka Bay Lagoon Salmon Hatchery Management Plan

(a) The department, in consultation with the hatchery operator, shall manage the Tutka Bay Subdistrict and the Paint River Subdistrict to provide for common property fisheries and to achieve the hatchery broodstock and cost recovery goals set by the hatchery operator and approved by the department for the Tutka Bay Lagoon Hatchery. The department will manage the sport fisheries in accordance with regulations in 5 AAC 56 - 62 and 5 AAC 75. The commissioner may issue emergency orders to liberalize or restrict sport fisheries based on achievement of broodstock goals.

(b) The Tutka Bay Lagoon Hatchery special harvest areas are as follows:

(1) Tutka Bay Lagoon Special Harvest Area: the marine waters of Tutka Bay Subdistrict in the Southern District southeast and shoreward of a line from 59° 30.23' N. lat., 151° 28.23' W. long. to 59° 28.63' N. lat., 151° 30.37' W. long., including Tutka Bay Lagoon;

(2) Paint River Special Harvest Area: the marine waters of Akjemguiga Cove west of a line from 59° 09.50' N. lat., 154° 12.83' W. long. to 59° 10.00' N. lat., 154° 12.50' W. long., including the lagoon at the Paint River mouth and intertidal fish ladder;

(3) Halibut Cove Lagoon Special Harvest Area: the marine waters of Halibut Cove Subdistrict east of 151° 11.90' W. long., including all marine waters of Halibut Cove Lagoon.

(c) Notwithstanding 5 AAC 21.320 and 5 AAC 21.330, and except as otherwise provided by emergency order issued under AS 16.05.060, the permit holder for the Tutka Bay Lagoon Hatchery, and the permit holder's agents, contractors, or employees authorized under 5 AAC 40.005(g) may harvest salmon in the Tutka Bay Lagoon Hatchery Special Harvest Area, Paint River Special Harvest Area, and Halibut Cove

Lagoon Special Harvest Area from 6:00 a.m. June 15 until 6:00 p.m. September 15 using purse seines, hand purse seines, and beach seines.

5 AAC 21.373. Trail Lakes Hatchery Salmon Hatchery Management Plan

(a) The department, in consultation with the hatchery operator, shall manage the Resurrection Bay North Subdistrict, China Poot Subdistrict, Tutka Bay Subdistrict, and the Kirschner Lake Section of the Bruin Bay Subdistrict to provide for a common property fishery and to achieve the hatchery broodstock and cost recovery goals set by the hatchery operator and approved by the department for the Trail Lakes Hatchery. The department will manage the sport fisheries in accordance with regulations in 5 AAC 56 - 62 and 5 AAC 75. The commissioner may issue emergency orders to liberalize or restrict sport fisheries based on achievement of broodstock goals.

(b) The Trail Lakes Hatchery special harvest areas are as follows:

(1) Bear Lake Special Harvest Area: the marine waters of Resurrection Bay in the Eastern District north of the latitude of Caines Head at 59° 58.93' N. lat., and the fresh waters of Bear Creek, Salmon Creek, and Resurrection River downstream from, and including, the Bear Creek weir, excluding all freshwaters downstream from the Seward Highway and Nash Road to a line between the ADF&G saltwater/freshwater regulatory markers at 60° 07.49' N. lat., 149° 24.72' W. long. and 60° 07.25' N. lat., 149° 22.54' W. long.;

(2) China Poot Special Harvest Area: the marine waters of China Poot Bay Subdistrict in the Southern District inshore of, and enclosed by, a line from a point at the base of China Poot Spit at 59° 33.42' N. lat., 151° 21.70' W. long., to a point offshore at 59° 34.11' N. lat., 151° 22.45' W. long. to a point at 59° 35.08' N. lat., 151° 19.77' W. long., to Moosehead Point at 59° 34.66' N. lat., 151° 19.27' W. long.;

(3) Tutka Bay Lagoon Special Harvest Area: the marine waters of Tutka Bay Subdistrict in the Southern District southeast and shoreward of a line from 59° 30.23' N. lat., 151° 28.23' W. long. to 59° 28.63' N. lat., 151° 30.37' W. long., including Tutka Bay Lagoon;

(4) Kirschner Lake Special Harvest Area: the marine waters of Bruin Bay Subdistrict in the Kamishak Bay District northwest of a line connecting 59° 25.17' N. lat., 153° 50.50' W. long. and 59° 23.17' N. lat., 153° 56.90' W. long.

(5) Hazel Lake Special Harvest Area: the marine waters of the China Poot Bay Subdistrict in the Southern District inshore of, and enclosed by, a line connecting 59° 32.84' N. lat., 151° 24.90' W. long., to a point offshore at 59° 33.09' N. lat., 151° 25.22' W. long., to a point at 59° 34.11' N. lat., 151° 22.45' W. long., to a point at the base of China Poot Spit at 59° 33.42' N. lat., 151° 21.70' W. long.

(c) Notwithstanding 5 AAC 21.320 and 5 AAC 21.330, and except as otherwise provided by emergency order issued under AS 16.05.060, the permit holder for the Trail Lakes Hatchery, and the permit holder's agents, contractors, or employees authorized under 5 AAC 40.005

(g) may harvest salmon in the

(1) Bear Lake Special Harvest Area, from 6:00 a.m. May 15 until 6:00 p.m. October 31 using weirs, purse seines, hand purse seines, and beach seines;

(2) China Poot and Hazel Lake Special Harvest Area, from 6:00 a.m. June 1 until 6:00 p.m. July 31 using purse seines, hand purse seines, and beach seines;

(3) Tutka Bay Lagoon Special Harvest Area, from 6:00 a.m. June 1 until 6:00 p.m. September 15 using purse seines, hand purse seines, and beach seines;

(4) Kirschner Lake Special Harvest Area, from 6:00 a.m. June 1 until 6:00 p.m. August 15 using purse seines, hand purse seines, and beach seines.

5 AAC 21.375. Bear Lake Management Plan Repealed.

5 AAC 21.376. Resurrection Bay Salmon Management Plan

(a) Since the beginning of significant commercial harvests of pink and chum salmon in Resurrection Bay, there have been some conflicts between recreational and commercial fishermen. The issues are the protection of coho and king salmon for the recreational fishery, and the management of surplus pink and chum salmon stocks in a manner that provides for a commercial fishery while minimizing the incidental catch of coho and king salmon.

(b) The commissioner shall, by emergency order,

(1) manage Resurrection Bay coho and king salmon stocks primarily for recreational use;

(2) manage the indigenous pink and chum salmon stocks primarily for commercial use, insofar as that harvest does not interfere in time or area with the recreational fishery;

(3) manage the commercial fishery in Resurrection Bay in a manner that does not interfere with the recreational fishery.

5 AAC 21.377. Port Graham Salmon Hatchery Management Plan

(a) The department, in consultation with the hatchery operator, shall manage the Port Graham Subdistrict to provide for a common property fishery and to achieve the hatchery broodstock and cost recovery goals set by the hatchery operator and approved by the department for the Port Graham Salmon Hatchery. The department will manage the sport fisheries in accordance with regulations in 5 AAC 56 - 62 and 5 AAC 75. The commissioner may issue emergency orders to liberalize or restrict sport fisheries based on achievement of broodstock goals.

(b) The Port Graham Special Harvest Area consists of the marine waters of Port Graham Subdistrict in the Southern District south of a line from the southern tip of

Passage Island at 151° 53.08' W. long., 59° 22.00' N. lat., to a point offshore at 59° 21.45' N. lat., 151° 50.05' W. long., to a point on shore at 59° 20.83' N. lat., 151° 48.53' W. long.

(c) Notwithstanding 5 AAC 21.320 and 5 AAC 21.330, and except as otherwise provided by emergency order issued under AS 16.05.060, the permit holder for the Port Graham Salmon Hatchery, and the permit holder's agents, contractors, or employees authorized under 5 AAC 40.005

(g) may harvest salmon in the Port Graham Salmon Hatchery Special Harvest Area from 6:00 a.m. July 15 until 6:00 p.m. September 15 using purse seines, hand purse seines, and beach seines.

5 AAC 21.378. Prohibition on the use of aircraft Repealed.

5 AAC 21.379. Prohibitions on the use of aircraft A person may not use or employ an aircraft to locate salmon for the commercial taking of salmon or to direct commercial fishing operations in the Central and Northern Districts of the Cook Inlet Area one hour before, during, and one hour after a commercial salmon fishing period.

5 AAC 21.380. Unlawful possession of subsistence-taken salmon It is unlawful to purchase or sell salmon from which both lobes of the caudal fin (tail) have been removed as required by 5 AAC 01.590.

Article 5

Smelt Fishery

5 AAC 21.505. Cook Inlet Smelt Fishery Management Plan

(a) Smelt may be taken only under the conditions of a commissioner's permit issued under this section.

(b) Smelt may be taken only

(1) from May 1 through June 30;

(2) in the marine waters of Cook Inlet in that portion of the General Subdistrict northeast of the Chuit River and southwest of the Little Susitna River; and

(3) with a dip net.

(c) No more than 200 tons of smelt may be taken annually under this section.

5 AAC 21.510. Fishing seasons Repealed.

5 AAC 21.531. Gillnet specifications and operation Repealed.

5 AAC 21.534. Identification of gear Repealed.

5 AAC 21.535. Minimum distance between units of gear Repealed.

5 AAC 21.550. Closed waters Repealed.

Article 6

Herring Fishery-Repealed 4/8/79

Article 7

Shellfish Fishery-Repealed

Article 8

Freshwater Fishery

5 AAC 21.850. Closed waters Commercial fishing is prohibited in Lake Louise, Susitna Lake and Tyone Lake.

5 AAC 21.880. Permits A permit is required as specified in 5 AAC 39.780.

Article 9

Subsistence Fishery-Repealed

Chapter 39. General Provisions.

Article 1. General

5 AAC 39.001. Application of this chapter. Unless otherwise specified in this section or 5 AAC 01 - 5 AAC 77, requirements in this chapter apply to commercial fishing only, except that 5 AAC 39.002 and 5 AAC 39.999 apply to all of 5 AAC 01 - 5 AAC 77. Subsistence, personal use, and sport fishing regulations affecting commercial fishing vessels or affecting any other commercial fishing activity are set out in the subsistence fishing regulations in 5 AAC 01 and 5 AAC 02, personal use regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 47 - 5 AAC 75.

5 AAC 39.002. Liability for violations. Unless otherwise provided in 5 AAC 01 - 5 AAC 41 or in AS 16, a person who violates a provision of 5 AAC 01 - 5 AAC 41 is strictly liable for the offense, regardless of his intent.

5 AAC 39.010. Retention of fish taken in a commercial fishery. (a) A person engaged in commercial fishing may retain fish from lawfully taken commercial catch for that person's own use, including for the use as bait in a commercial fishery. Fish retained under this section may not be sold or bartered.

(b) Except as otherwise specified in 5 AAC 01 - 5 AAC 39, a commercial fisherman shall report on an ADF&G fish ticket, at the time of delivery of the commercial catch, the number of steelhead retained from the commercial catch but not sold. For the purposes of this subsection, "delivery" means the offloading of the finfish for sale or for transport to a buyer for later sale.

5 AAC 39.105. Types of legal gear. (a) All gear shall be operated in a manner conforming to its basic design.

(b) The size of meshes of a gillnet shall be substantially consistent.

(c) All references to mesh size in the regulations are considered to be "stretched measure."

(d) Unless otherwise provided in this title, the following are legal types of gear:

(1) a **gillnet** is a net primarily designed to catch fish by entanglement in the mesh and consisting of a single sheet of webbing hung between cork line and lead line, and fished from the surface of the water;

(2) a **set gillnet** is a gillnet that has been intentionally set, staked, anchored, or otherwise fixed;

(3) a **drift gillnet** is a drifting gillnet that has not been intentionally staked, anchored, or otherwise fixed;

(4) a **purse seine** is a floating net designed to surround fish and which can be closed at the bottom by means of a free-running line through one or more rings attached to the lead line;

(5) a **hand purse seine** is a floating net designed to surround fish and which can be closed at the bottom by pursing the lead line; pursing may only be done by hand power, and a free-running line through one or more rings attached to the lead line is not allowed;

(6) a **beach seine** is a floating net designed to surround fish which is set from and hauled to the beach;

(7) **power troll** gear consists of a line or lines with lures or baited hooks which are deployed, drawn through the water, and retrieved by means of a power troll gurdy, for which the power source may be hydraulic, electrical or mechanical; power troll gear does not include hand troll gear;

(8) **hand troll** gear consists of a line or lines with lures or baited hooks which are drawn through the water from a vessel by hand trolling, strip fishing or other types of trolling, and which are retrieved by hand power or hand-powered crank and not by any type of electrical, hydraulic, mechanical or other assisting device or attachment;

(9) a **fish wheel** is a fixed, rotating device, with no more than four baskets on a single axle, for catching fish which is driven by river current or other means;

(10) a **trawl** is a bag-shaped net towed through the water to capture fish or shellfish;

(A) a **beam trawl** is a trawl with a fixed net opening utilizing a wood or metal beam;

(B) an **otter trawl** is a trawl with a net opening controlled by devices commonly called otter doors;

(C) a **pelagic trawl** is a trawl where the net, or the trawl doors or other trawl-spreading device, do not operate in contact with the seabed, and which does not have attached to it any protective device, such as chafing gear, rollers, or bobbins, that would make it suitable for fishing in contact with the seabed;

(11) a **pot** is a portable structure designed and constructed to capture and retain fish and shellfish alive in the water;

(12) a **ring net** is a bag-shaped net suspended between no more than two frames; the bottom frame may not be larger in perimeter than the top frame; the gear must be nonrigid and collapsible so that when fishing it does not prohibit free movement of fish or shellfish across the top of the net;

(13) a **longline** is a stationary buoyed or anchored line or a floating, free drifting line with lures or baited hooks attached;

GENERAL PROVISIONS

- (14) a **shovel** is a hand-operated implement for digging clams or cockles;
- (15) a **mechanical clam digger** is a mechanical device used or capable of being used for the taking of clams;
- (16) a **scallop dredge** is a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor;
- (17) a **fyke net** is a fixed, funneling (fyke) device used to entrap fish;
- (18) a **lead** is a length of net employed for guiding fish into a seine or set gillnet;
- (19) an **anchor** is a device used to hold a salmon fishing vessel or net in a fixed position relative to the beach; this includes using part of the seine or lead, a ship's anchor or being secured to another vessel or net that is anchored;
- (20) a **herring pound** is an enclosure used primarily to retain herring alive over extended periods of time;
- (21) **diving gear** is any type of hard hat or skin diving equipment including scuba, a tethered, umbilical, surface-supplied system, and a snorkel;
- (22) a **hydraulic clam digger** is a device using water or a combination of air and water to remove clams from their environment;
- (23) a **grappling hook** is a hooked device with flukes or claws and attached to a line and operated by hand;
- (24) a **dip net** is a bag-shaped net supported on all sides by a rigid frame; the maximum straight-line distance between any two points on the net frame, as measured through the net opening, may not exceed five feet; the depth of the bag must be at least one-half of the greatest straight-line distance, as measured through the net opening; no portion of the bag may be constructed of webbing that exceeds a stretched measurement of 4.5 inches; the frame must be attached to a single rigid handle and be operated by hand;
- (25) a **mechanical jigging machine** is a device that deploys a line with lures or baited hooks and retrieves that line with electrical, hydraulic, or mechanically powered assistance; a mechanical jigging machine allows the line to be fished only in the water column; a mechanical jigging machine must be attached to a vessel registered to fish with a mechanical jigging machine; the mechanical jigging machine may not be anchored or operated unattached from the vessel;
- (26) an **abalone iron** is a flat device used for taking abalone and which is more than one inch (24 mm) in width and less than 24 inches (61 cm) in length and with all prying edges rounded and smooth;

(27) a **handline** is a hand-held line, with one or more hooks attached, which may only be operated manually; a handline is legal gear only for smelt in the Bristol Bay Area, described in 5 AAC 06.100;

(28) **dinglebar troll** gear consists of one or more lines, retrieved and set with a troll gurdy or hand troll gurdy, with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while a vessel is making way;

(29) a **sea urchin rake** is a hand-held implement, no longer than four feet, equipped with projecting prongs used to gather sea urchins;

(30) a **cast net** is a circular net with a mesh size of no more than one and one-half inches and weights attached to the perimeter which, when thrown, surrounds the fish and closes at the bottom when retrieved.

5 AAC 39.107. Operation of gear (a) Each fisherman shall operate or assist in operating only one type of net gear at any one time.

(b) Throughout the period of operation of mobile net gear, a person who holds a valid CFEC permit for that gear must be physically present on board the vessel from which the net gear is operated.

(c) A CFEC permit holder shall personally operate or assist in the operation of mobile net gear. "Personally operate or assist in operation" means assisting or supervising some portion of the immediate operation.

(d) A person who holds a limited entry permit or an interim-use permit for stationary fishing gear must be physically present at a beach or riparian fishing site during the operation of net gear or other stationary fishing gear at the site, except when the permit holder is at or traveling to or from the location of

(1) a sale of fish caught in the gear; or

(2) other stationary gear of the permit holder. For purposes of this subsection "fishing site" includes any structure used for providing shelter in support of the operation of net gear or other stationary gear.

(e) A person who holds a CFEC permit for the operation of stationary net gear or fish wheels shall be within a reasonable distance of the gear when at a point of sale or at the location of other stationary gear of that permit holder. A "reasonable distance" means a distance that ensures that the CFEC permit holder retains competent supervision of the gear.

(f) In the Yukon Area, as described in 5 AAC 05.100, a person who holds a CFEC permit for stationary fishing gear must be physically present for the initial deployment of

the gear at the beginning of the commercial fishing period and at the end of the commercial fishing period to terminate operation of the gear.

(g) In the Yakutat District south of 59° 40' N. lat. in Yakutat Bay, a fishing site under AS 16.05.253(b) includes the CFEC permit holder's permanent place of residence in Yakutat.

5 AAC 39.110. Crewmember fishing license requirements (a) Each commercial fisherman who does not hold a valid interim-use or entry permit card issued by the Commercial Fisheries Entry Commission shall obtain a crewmember fishing license before fishing in any waters of Alaska. A crewmember fishing license is not required for the holder of a valid interim-use or entry permit card.

(b) Repealed 8/15/2008.

(c) A crewmember licensee who does not hold a valid CFEC permit may crew in any fishery if he or she is working for the holder of a valid CFEC permit for that fishery who is operating the fishing gear in the manner described in 5 AAC 39.107.

(d) A valid interim-use or entry permit card holder may crew in any fishery.

(e) In this section, "crew" means the activities of a commercial fisherman as defined in AS 16.05.940(4), who is actively engaged in the operation of fishing gear that is being operated in the manner described in 5 AAC 39.107.

(f) Each holder of a commercial fishing license, as required in AS 16.05.480(a), who is 16 years of age or older and participating in a commercial fishery in which crewmember participation is restricted by exclusive or superexclusive area registration requirements shall possess an identification card that has been issued to the commercial fishing license holder by a state or federal agency or other organization specified by the Department of Public Safety that bears a photograph of the commercial fishing license holder.

(g) The department will issue a duplicate crewmember license to a person whose crewmember license has been lost or destroyed and who submits a request for a duplicate crewmember license on a form prescribed by the department along with a \$5 duplicate crewmember license fee.

5 AAC 39.111. Personal identification required A person who is in possession of a CFEC interim-use or entry permit card shall, upon the request of a buyer of fish or a peace officer of the state, present the personal identification required under AS 16.10.267(a)(2) to establish that the permit card is in the possession of the person to whom the permit card is issued.

5 AAC 39.112. Use of net pens and other holding devices A net pen or other holding device may be used to hold live salmon or herring before processing only under the conditions specified in a commissioner's permit.

5 AAC 39.115. Designation of salmon net registration area A person who holds salmon net gear permits for more than one registration area listed in 5 AAC 39.120(d) shall designate upon a form provided by the Commercial Fisheries Entry Commission the single area in which he desires to salmon net fish in that year. The area so designated must be an area for which the person holds a valid salmon net permit.

5 AAC 39.117. Vessel length; bulbous bow (a) Notwithstanding any other provision in 5 AAC 01 - 5 AAC 39, the addition of a bulbous bow may cause a vessel, other than a vessel engaged in the Bering Sea hair crab fishery, to exceed an established vessel overall length limitation. Only that portion of the vessel comprising the bulbous bow may cause the vessel to exceed a vessel overall length limitation.

(b) For the purposes of this section, "bulbous bow" means a bulbous extension of the bow, below or predominately below the water line of a vessel, that is designed to increase stability or fuel efficiency and does not contain storage space or equipment that can be accessed from within the vessel.

5 AAC 39.119. Vessel identification (a) Unless otherwise specified, a commercial fishing vessel required to be licensed under AS 16.05.490 must display its permanent vessel license plate number

(1) in permanent symbols at least 12 inches high and with lines at least one inch wide that contrast with the background;

(2) on both sides of the hull, cabin, or mast;

(3) in a manner such as to be plainly visible and unobscured; and

(4) at all times when registered to fish.

(b) Repealed 10/1/98.

(c) The following vessels are exempt from the requirements of this section:

(1) those exempt from licensing under AS 16.05.495;

(2) seine skiffs operating with a seine vessel;

(3) repealed 2/10/2005.

5 AAC 39.120. Registration of commercial fishing vessels (a) A person who owns a commercial fishing vessel or that person's authorized agent shall register that vessel by completing a vessel license application or renewal form and submitting it to the Commercial Fisheries Entry Commission, unless the vessel is not required to be licensed under AS 16.05.495. Vessel registration is required before fishing or transporting unprocessed fish in any waters of Alaska. A vessel, if it is in compliance with all

GENERAL PROVISIONS

regulations governing registration and if it displays a license issued under AS 16.05.530, unless the vessel is not required to be licensed under AS 16.05.495, is considered to be registered under the laws of the state and may take or transport unprocessed fish. It is unlawful to take, attempt to take, or possess unprocessed fish aboard a vessel in the waters of Alaska unless the vessel is registered under the laws of the state. For purposes of this subsection,

(1) "employ," as used in AS 16.05.475, means taking or attempting to take fish, or transporting fish which have been taken or any operation of a vessel aiding or assisting in the taking or transporting of unprocessed fish;

(2) "in compliance with all regulations governing registration" includes vessel registration required by 5 AAC 28.020, 5 AAC 31.020, 5 AAC 31.030, 5 AAC 32.020, 5 AAC 32.030, 5 AAC 34.020, 5 AAC 34.030, 5 AAC 35.020, 5 AAC 35.030, 5 AAC 38.020, and 5 AAC 38.030, and includes district or subdistrict registration requirements of 5 AAC 03 - 5 AAC 38, and includes the provisions of this section;

(3) "registered under the laws of the state" means that a vessel displays a license described in 20 AAC 05.1958 and issued under AS 16.05.530, unless the vessel is not required to be licensed under AS 16.05.495, and that the registration provisions of 5 AAC 03 - 5 AAC 39 have been complied with and evidence of compliance is immediately available at all times during fishing or transporting operations, and can be shown upon request to an authorized representative of the department.

(b) Area registration requirements for shellfish vessels are as specified in the registration regulations in 5 AAC 31 - 5 AAC 38.

(c) Area registration requirements for salmon net fishing vessels are as follows:

(1) a person who owns a fishing vessel to be used to take salmon with net gear, or his authorized agent, shall register for an area by designating on the vessel license application or renewal form the vessel's one area of intended salmon net gear operation for the year; it is unlawful for a vessel to engage in salmon net fishing in an area other than the single area selected;

(2) in this section the term "area" means any registration area listed in (d) of this section, except that

(A) in salmon net Registration Area T, a vessel must also be registered by the department for a fishing district as required by 5 AAC 06.370;

(B) in salmon net Registration Area Y, a vessel must also be registered by the department for a fishing district as required by 5 AAC 05.370;

(C) a purse seine vessel registered for salmon net Registration Area M is also registered to operate purse seine gear in Registration Area F during the same registration year;

GENERAL PROVISIONS

(3) a vessel registered for an area of salmon net fishing in compliance with (c)(1) of this section will be issued, by the Commercial Fisheries Entry Commission, a vessel license area tab for that year; it is unlawful for a vessel to fish in the area of registration unless the vessel displays the area tab on the vessel license number plate; no vessel owner or operator may possess for each vessel, or no vessel may display, more than one vessel license area tab;

(4) a person who owns a fishing vessel registered for an area of intended operation in compliance with (c)(1) of this section or his authorized agent may register it for a different salmon net registration area under the following conditions:

(A) the reregistration of a salmon net fishing vessel shall be authorized by the

(i) commissioner upon receipt of proof in writing that the vessel has been lost through sinking, destruction, or extensive mechanical breakdown, or that the vessel operator has suffered serious injury, sickness or death during the open season; or

(ii) Commercial Fisheries Entry Commission upon receipt of a written certification or personal affidavit stating that the vessel has not been used for salmon net fishing in the original area of registration during the current registration year;

(B) a person authorized to reregister a vessel must complete a reregistration form issued by the Commercial Fisheries Entry Commission and submit it to the commissioner together with any previously issued vessel license area tab;

(C) it is unlawful for a vessel to fish in the area of reregistration unless the vessel displays the appropriate area tab on the vessel license number plate;

(D) area reregistration under this section shall supersede the original area registration as if the original area registration had never been made;

(E) once a vessel has reregistered for another net registration area to replace a lost vessel, that vessel can not transfer back to its original net registration area during that season;

(5) repealed 4/16/83.

(d) Salmon net gear registration areas are as follows:

| Code Letter | Area |
|--------------------|--|
| A | Southeastern Alaska Area (5 AAC 33.100) |
| D | Yakutat Area (5 AAC 30.100) |
| E | Prince William Sound Area (5 AAC 24.100) and the Yakataga District of the Yakutat Area (5 AAC 30.200(a)) |

GENERAL PROVISIONS

| | |
|----------|--|
| F | Atka-Amlia Islands Area (5 AAC 11.101) |
| H | Cook Inlet Area (5 AAC 21.100) |
| K | Kodiak Area (5 AAC 18.100) |
| L | Chignik Area (5 AAC 15.100) |
| M | Aleutian Islands and Alaska Peninsula Areas (5 AAC 12.100 and 5 AAC 09.100) and, from August 1 through August 31, the Atka-Amlia Islands Area (5 AAC 11.101) for purse seine gear only |
| T | Bristol Bay Area (5 AAC 06.100) and January 1 through December 31, the Cinder River and Inner Port Heiden Sections of the Alaska Peninsula Area and August 1 through December 31, that portion of the Ilnik Section within Ilnik Lagoon and all waters inside the Seal Islands of the Alaska Peninsula Area (5 AAC 09.200(a)(1) - (3)) |
| W | Kuskokwim Area (5 AAC 07.100) |
| X | Arctic-Kotzebue Area (5 AAC 03.100) |
| Y | Yukon Area (5 AAC 05.100) |
| Z | Norton Sound-Port Clarence Area (5 AAC 04.100) |

(e) Evidence of proper registration or licensing must be kept immediately available at all times during fishing operations and must be shown upon request to any peace officer of the state.

(f) The provisions of this section do not apply to halibut fishing.

(g) Repealed 10/1/98.

5 AAC 39.123. Late registration (a) To qualify for an extension of a registration or permit deadline set out in 5 AAC 01 - 5 AAC 39, a person must show that the person had demonstrated an intent to harvest fish before the deadline. An "intent to harvest fish" may be demonstrated by

(1) renewing or applying for, before the deadline, a CFEC permit which is effective in the fishery and area for which extension is being requested;

(2) participation during the previous season in the fishery in the requested area, unless entry into the fishery is limited and the person did not own a permit for that season;

(3) purchasing or showing intent to purchase a vessel, permit, or fishing gear for the fishery before the deadline;

(4) showing intent to start, starting, or completion of vessel or gear repair or maintenance for the fishery before the deadline; or

(5) any other written documentation, such as loan applications, agreements with fish buyers, license applications, or other writings, which indicate the necessary intent to participate in the fishery before the deadline.

(b) In addition to (a) of this section, a person must demonstrate that failure to apply before the deadline was a result of excusable neglect. "Excusable neglect" may be demonstrated by

(1) loss of registration or permit form in the mail, or other documentation which may demonstrate excusable carelessness or inattention on the part of authorized agents or other third parties;

(2) receipt of incorrect information from a department official, which is substantiated by the appropriate official;

(3) illness or injury of the individual or a member of his family that was serious enough to prevent him from meeting the deadline;

(4) required government or military service; or

(5) written documentation that will substantiate other unavoidable circumstances that prevented meeting the deadline.

5 AAC 39.130. Reports required of fishermen, processors, buyers, exporters, and operators of certain commercial fishing vessels; transporting requirements (a)

Before operating during a calendar year, an individual, company, firm, or other organization that is a first purchaser, catcher-exporter, catcher-processor, or catcher-seller shall submit to the department a completed intent to operate application provided by the department or available online, together with a \$25 processing fee for each individual, company, firm, or other organization identified in the application; the fee is not required of an applicant that paid the annual fee required by AS 43.75.020(a). The individual, company, firm, or other organization may begin to operate only after receiving authorization from the department to begin operating, along with the individual's or organization's processor code for the current year.

(b) An individual, company, firm, or other organization described in (a) of this section that intends or is required to use the eLandings Electronic Reporting System shall access the system by completing an operator documentation and user agreement on the Interagency eLandings Electronic Reporting System's website. In addition to the other requirements of this section, an individual, company, firm, or other organization described in (a) of this section that the commissioner determines has submitted at least 2,000 salmon harvest fish tickets or bought more than 20 million pounds of salmon during any of the previous three calendar years shall thereafter use the eLandings Electronic Reporting System for all salmon delivered to a tender vessel, floating processor, or shorebased processor. In addition to the other requirements of this section, a first purchaser shall use the tLandings application for all groundfish delivered to a tender vessel.

GENERAL PROVISIONS

(c) An individual, company, firm, or other organization described in (a) of this section shall record each delivery on an ADF&G fish ticket. A fish ticket must be completed for all fish or byproducts of fish harvested in the waters of Alaska and for all fish or byproducts of fish harvested in waters outside of the waters of Alaska and offloaded or processed in the waters of Alaska. Fish tickets for each fishery must be finalized and submitted to a local representative of the department not later than seven days after a delivery or partial delivery, or as otherwise specified by the department, such as for each vessel trip. The operator of a vessel that has harvested fish in the waters of Alaska and whose port of delivery is outside this state, or who sells, transfers, receives, or delivers fish in the Exclusive Economic Zone (EEZ), shall submit a completed hailed weight fish ticket or a fish ticket to the department before the fish are transported out of the jurisdiction of this state. At the time of delivery or partial delivery, or as otherwise directed by the department, fish tickets must include the following information:

- (1) the name and signature of the applicable individual, company, firm, or other organization described in (a) of this section;
- (2) the name and signature of the CFEC permit holder that operated the unit of gear with which the fish were taken;
- (3) the processor code imprinted on the fish ticket from the code plate issued by the department, the processor code handwritten on the fish ticket if instructed by an authorized representative of the department, or the electronically captured information from the eLandings Electronic Reporting System, except that if a catcher-seller is shipping fish to a fisheries business, the fisheries business must imprint the fish ticket, or electronically capture the information on the eLandings Electronic Reporting System, with the processor code of the fisheries business; in this paragraph, "fisheries business" has the meaning given in AS 43.75.290;
- (4) the name, or the United States Coast Guard number or Department of Transportation number, of the vessel employed in taking the fish, if applicable;
- (5) the date fishing gear was deployed and the date the delivery or partial delivery of the fish is completed;
- (6) the permanent ADF&G vessel license plate number, if applicable;
- (7) the type of gear by which the fish were taken by the gear code number specified by the department;
- (8) the statistical areas, districts, and subdistricts in which the fish were taken and, if required by a local representative of the department, the nearest headland or bay in which the fish were taken;
- (9) the pounds, including any applicable weight modifier such as with ice and slime, delivery condition code, and disposition code, including any applicable overage code, of fish by species, except that

(A) for salmon and crab, the number is also required;

(B) for herring, only the weight, in pounds or tons, and delivery condition are required;

(10) an indication of a partial delivery, including a partial delivery of groundfish as specified in 5 AAC 28.070(f), if applicable;

(11) the CFEC permit number of the operator of the unit of gear with which the fish were taken, imprinted on the fish ticket from the valid permit card or electronically captured from the valid permit card; the imprinting requirement under this paragraph may be suspended by a local representative of the department after presentation by the commercial fisherman of the operator's permit application validated by CFEC or documentation from the department or CFEC that the permit card has been damaged, lost, or stolen; if a suspension is granted, the buyer or commercial fisherman must handwrite the name of the permit holder, the permit holder's permit number, and, if applicable, the permanent ADF&G vessel license plate number on the fish ticket, and attach a copy of the supporting documentation;

(12) the number or pounds of fish by species retained by a commercial fisherman for that person's own use, if applicable;

(13) the number of licensed crewmembers, including the vessel operator, if applicable;

(14) the number of certified onboard observers, if applicable;

(15) the management program code, if using the eLandings Electronic Reporting System;

(16) the permanent ADF&G vessel license plate number of the tender vessel, if applicable;

(17) for a dual permit, the second CFEC permit number, if required by the department;

(18) any other information that the commissioner determines is necessary.

(d) A person may not possess a fish ticket that has been imprinted with a CFEC permit number until the time of delivery or partial delivery.

(e) A buyer of fish harvested through a CDQ program, as described in 6 AAC 93, shall electronically submit a fish ticket at least one time per week. The buyer may use the consolidated fish ticket feature in the eLandings Electronic Reporting System, including seaLandings, to generate the fish ticket. In this subsection, "week" means a seven-day period of time that begins on Sunday and ends on Saturday.

GENERAL PROVISIONS

(f) An individual, company, firm, or other organization described in (a) of this section shall furnish, verbally or in writing, purchasing, production, or other information as required by the commissioner.

(g) Not later than April 1, a first purchaser, catcher-exporter, or catcher-processor that has been assigned a processor code under (a) of this section shall submit a Commercial Operator's Annual Report (COAR), which is an operator's accurate and complete summary of activity for each intent to operate application approved by the department for the previous year, or a signed statement of nonactivity for the previous year, on a form provided by the department or available online. The department will not authorize operations for the current year to an applicant that has not submitted all COAR reports due under this section for any previous year.

(h) A commercial fisherman shall furnish to the buyer information necessary for completion of reports required by the commissioner.

(i) An individual, company, firm, or other organization described in (a) of this section using the eLandings Electronic Reporting System must electronically submit the initial landing report at the completion of a delivery or partial delivery, and submit to the department the final landing report and a copy of the fish ticket generated and printed from the eLandings Electronic Reporting System not later than seven days after the delivery or partial delivery.

(j) A commercial fisherman shall submit to the department verbally, in writing, or electronically through the eLandings Electronic Reporting System, directly or through the buyer, information necessary for reports required by the commissioner.

(k) Unless otherwise specified in this chapter, in addition to other requirements of this section, each person that is the first purchaser of or that first processes raw groundfish or halibut shall comply with the record keeping and electronic reporting requirements through the eLandings Electronic Reporting System and any other reporting requirements in 50 C.F.R. 679.5, revised as of October 1, 2013.

(l) The commissioner may, by emergency order, close a fishing season and immediately reopen a fishing season during which a different reporting requirement is in effect.

(m) In addition to the other provisions of this section, if the commissioner determines it is necessary, the following information regarding the transporting, delivery, or shipping of unprocessed fish must be transmitted to an authorized local representative of the department either in person, in writing, by radio or telephone, or by other means specified by the department:

(1) the number and species of salmon taken in a regulatory area must be reported before being transported to any other area or out of this state;

GENERAL PROVISIONS

(2) the number or pounds, by species, of all other fish must be reported before being transported out of this state;

(3) the number or pounds, by species, of fish taken by a catcher-seller must be reported upon delivery or before shipping the fish within the state.

(n) A floating processor shall report in person, by radio or telephone, or by other means specified by the department, to the local representative of the department located within the management area of intended operation before the start of processing operations. The report must include the initial processing location by district or subdistrict and latitude and longitude, and the date of intended operation. Before moving the operation and upon arriving at a new location, the operator shall notify the local representative of the department in person, by radio or telephone, or by other means specified by the department, of the new location of operation by district or subdistrict and latitude and longitude. A local representative of the department may waive all or part of the requirements of this subsection upon determining that the requirements are not necessary for the conservation or management of the fishery in that area.

(o) In this section,

(1) "buyer-exporter" means the first purchaser of unprocessed fish that exports or attempts to export out of this state the fish either unprocessed or custom processed;

(2) "catcher-exporter" means a commercial fisherman who exports or attempts to export out of this state unprocessed or custom processed fish that were legally taken by the catcher-exporter;

(3) "catcher-processor" means a commercial fisherman who sells or attempts to sell processed or unprocessed fish that were legally taken by the catcher-processor in or out of this state;

(4) "catcher-seller" means a commercial fisherman who sells or attempts to sell unprocessed fish that were legally taken by the catcher-seller

(A) to the general public for use for noncommercial purposes;

(B) for use as bait for commercial or noncommercial purposes;

(C) to restaurants, grocery stores, and established fish markets;

(D) by shipping the fish to a licensed buyer, processor, or exporter within this state;

(5) "commercial fish transporter" means those individuals whose activities require a permit under AS 16.05.671;

GENERAL PROVISIONS

(6) "custom processed" means that the fish is processed by a person that does not own the fish;

(7) "delivery" means offloading fish for sale or for transport to a buyer for later sale;

(8) "dual permit" means the use of additional fishing gear on board a vessel or at a set gillnet site under a second CFEC permit as allowed under the applicable provisions in this title;

(9) "eLandings Electronic Reporting System"

(A) means the electronic and Internet based reporting system maintained by the department, the National Marine Fisheries Service, Alaska Region, and the International Pacific Halibut Commission to provide an alternative to paper fish tickets;

(B) includes the following:

(i) eLandings, which is a web application for shore side and Internet capable vessels;

(ii) seaLandings, which is a desktop application for sea vessels without Internet capability;

(iii) tLandings, which is a portable data storage application for tender and other operations;

(10) "first purchaser:

(A) means the person that first purchases unprocessed fish directly from the commercial fisherman for the purchaser's own business and does not act as a buying agent for another business;

(B) includes a

(i) buyer-exporter;

(ii) floating processor;

(iii) independent buyer;

(iv) shorebased processor;

(11) "fish ticket" includes

(A) a department issued paper copy form for recording harvest; and

(B) an electronically generated record of harvest from the eLandings Electronic Reporting System;

(12) "floating processor" includes the operator of a vessel who

(A) operates as a catcher-processor;

(B) is the first purchaser of unprocessed fish and sells or attempts to sell processed or unprocessed fish in or out of this state;

(13) "independent buyer" means the first purchaser of unprocessed fish for sale unprocessed within this state to a shorebased processor, floating processor, or buyer-exporter;

(14) "partial delivery" means the offloading of fish for sale or for transport to a buyer of only a portion of the total harvest from one vessel's trip, excluding catch retained for

(A) personal use under 5 AAC 39.010;

(B) bait under applicable provisions of this title;

(15) "shorebased processor" means a land-based first purchaser that purchases unprocessed fish and sells or attempts to sell that fish, processed or unprocessed, in or out of this state;

(16) "trip" means

(A) for a vessel on which fish are harvested but not processed, the period of time from when the vessel commences fishing until completion of the final delivery; a trip may include one or more partial deliveries; or

(B) a period of time designated by the department, such as every seven days.

(17) "tender vessel" means a vessel whose operator acts as an agent for a processor and accepts delivery of fish from a commercial fisherman or another tender vessel for transport to a shore-based or floating processor.

5 AAC 39.135. Requirements for releasing confidential information to third persons

(a) A person requesting the release of confidential information to a third person regarding the requesting person's fishery landings shall make the request in the form of a limited power of attorney on a request form provided by the department. The department will make the request form available at its local and regional offices and its website.

(b) The person requesting the release of information under this section shall indicate on the request form the time period that the person authorizes the department to release the information that is not less than 30 days and not more than one year from the date that the person signs the form.

(c) The person requesting the release of information under this section shall complete the request form as prescribed by the department. When submitting the form in person, the person shall produce a government-issued photo identification for inspection by a department employee. If the form is being submitted by mail, the person shall first have the form notarized. If the form is being sent by facsimile, the person shall first have the form notarized, and after facsimile transmission, shall mail the original form to the department office that the facsimile was sent. The department will not release information requested under this section until it receives the original, completed request form.

5 AAC 39.140. Inspection of fishing establishments and vessels

(a) Representatives of the Department of Fish and Game or the Department of Public Safety shall have free and unobstructed access to all fishing vessels, canneries, salteries, and other land-based or floating processing establishments to inspect catch, equipment, gear, and operational compliance with AS 16 and regulations promulgated thereunder.

(b) Upon being approached by a vessel or aircraft under the control of a representative of the Departments of Fish and Game or Public Safety, the operator of a fishing vessel, catcher-processor, or floating processor shall be alert for, and immediately comply with, signals conveying enforcement intent. A vessel operator signaled to stop or heave to for boarding shall

(1) stop immediately and lay to or maneuver in such a way as to permit the representative and his party to come aboard;

(2) if requested, provide a safe ladder for the representative and his party;

(3) when necessary to facilitate the boarding, provide a man rope, safety line and illumination of the ladder;

(4) take such other actions as necessary to ensure the safety of the representative and party and to facilitate the boarding; and

(5) make every effort to comply with all lawful orders given by the representative, except that the owner or operator of the vessel is solely responsible for navigation, supervision, and control of the vessel and his decisions shall be final in all matters pertaining to proper navigation and safety of the vessel crew, and fishing gear.

(c) On a vessel which catches and processes crab and is required to carry an observer under 5 AAC 39.645, the vessel operator must separate crab to be retained and, before butchering, must make those crab available to the observer for inspection.

(d) Notwithstanding the requirements of 5 AAC 30.392(a), 5 AAC 30.393, 5 AAC 33.392(d), and 5 AAC 33.393, upon request by a local representative of the department or a peace officer of the state, a fisherman or processor shall relinquish the tag and head of adipose-fin-clipped salmon, and shall inform the representative or peace officer of the date and location of the catch, if known.

5 AAC 39.150. Explosives, chemicals and poisons unlawful The use of an explosive, chemical or poison in the taking or killing of fish or shellfish is prohibited, except that chemical baits or lures may be used to attract shellfish.

5 AAC 39.155. Seine drums unlawful It shall be unlawful to have mounted aboard any seine vessel a seine drum or reel around which a seine can be coiled or rolled.

5 AAC 39.170. Monofilament purse seine web unlawful It is unlawful to use single- or multiple-strand monofilament purse seine web. For the purpose of this regulation, "monofilament" means any single filament having more than 50 denier, that is, weighing more than 50 grams per 9,000 meters of filament.

5 AAC 39.175. Use of lights prohibited It is unlawful to use artificial lights to attract salmon out of closed waters for the purpose of a commercial taking.

5 AAC 39.180. Time limit for preservation of salmon It is unlawful to preserve for sale as food any salmon, unless it has been canned, salted, iced, frozen, brine chilled, smoked, or dried within 48 hours after being killed.

5 AAC 39.185. Policy on closures due to illegal fishing (a) Some fisheries have had a documented history of illegal commercial fishing dating back to 1968. Enforcement efforts by the Department of Public Safety have been largely ineffective in controlling this recurring problem on a long-term basis. The Board recognizes the difficulty of enforcement in some areas of the state and although the current regulations are sufficient to protect fish stocks, they may be ineffective due to special enforcement problems.

(b) In the interest of the conservation of valuable renewable fish resources, the Board of Fisheries directs the commissioner, or his authorized designee, to take the following actions given the specified circumstances. If illegal fishing activities develop to the point that regulations pertaining to protection of fish stocks become ineffective, the commissioner shall consider closing the affected fishery by emergency order for a period of up to one week. When the fishery reopens and illegal fishing continues to be a problem, the appropriate fishery may be closed for an additional period of time. Continued violations may result in additional closures of the fishery.

5 AAC 39.190. Driving salmon prohibited It is unlawful to drive or attempt to drive salmon from waters closed to salmon fishing.

5 AAC 39.195. Announcement of emergency orders Announcement of emergency orders will be publicized and made known to interested persons, fishermen, buyers, packers, and canneries by one or more of the following means, if possible:

- (1) radio transmission by department stations;
- (2) notices posted at canneries and public places;
- (3) press releases and announcements in
 - (A) the department's website;
 - (B) local newspapers; and
 - (C) commercial radio stations;
- (4) telephone message hotline;
- (5) electronic mail;
- (6) facsimile transmission;
- (7) other appropriate public notification media.

5 AAC 39.197. Unlawful possession of fish No person may possess, purchase, sell, barter or transport fish within the state or within water subject to the jurisdiction of the state if that person knows or has reason to know that fish were taken or possessed in contravention of 5 AAC 03 - 5 AAC 39.

5 AAC 39.198. Foreign fish processing permits (a) Except as provided in this chapter, a foreign fishing vessel is prohibited from engaging in fish processing in the internal waters of Alaska.

(b) A foreign fishing vessel may engage in fish processing in the internal waters of Alaska if

(1) the foreign nation under which it is flagged will be a party to an agreement or a treaty, as required by 16 U.S.C. 1856(c), and during the time the vessel will engage in the fish processing;

(2) the owner or operator of the foreign fishing vessel, or a person representing the owner or operator, applies to the governor for, and is granted, a foreign processing permit for the vessel to engage in fish processing in the internal waters of Alaska.

(c) The governor will not grant a permit under (b)(2) of this section if he determines that fish processors in Alaska have adequate capacity, and will use that capacity, to process all of the United States harvested fish from the fishery concerned that are landed in Alaska.

(d) In determining whether or not fish processors in Alaska have adequate capacity, and will use that capacity, to process all of the United States harvested fish from the fishery, the governor will, in his discretion, consider the following factors:

(1) the total allowable catch expected in the fishery;

(2) availability and capability of harvesting vessels in Alaska, seasonal fishing and processing schedules, and marketing and other similar conditions in the fishery concerned and in alternative fisheries;

(3) availability of labor, adequacy and condition of processing machinery, freezers, and cold storage facilities of fish processors in Alaska, and the ability, intent and plans of those processors to process particular species;

(4) economic considerations, including contracts, agreements, and negotiations for the purchase of United States harvested fish by processors in Alaska;

(5) geographical considerations including proximity of harvest areas to the facilities of fish processors in Alaska; and

(6) the extent to which fish processors in Alaska have processed particular species.

(e) An owner or operator of a foreign fishing vessel who submits an application for a permit to engage in fish processing in the internal waters of Alaska must

(1) state the reasons why fish processors in Alaska do not have adequate capacity, or will not use their capacity, to process all of the United States harvested fish from the fishery concerned that are landed;

(2) provide the following information:

(A) vessel description and identification;

(B) names and descriptions of the vessels, if known, from which the applicant will purchase fish;

(C) the species and quantity proposed to be processed and processing methods to be used;

(D) a description of the fishery from which the species will be harvested;

(E) the stage of development of the fishery as established, developing or undeveloped, and a statement of how the proposed operation in the fishery will help to achieve the full potential of the resources and provide benefits including employment, food supply, and revenue;

(F) the dates for which permission is sought;

(G) the specific locations in internal waters proposed for foreign processing;

(H) the qualifying governing international fisheries agreement or treaty, as required by 16 U.S.C. 1856(c);

(I) evidence of compliance with applicable federal and state regulations including state laws and regulations that apply to processing vessels;

(J) proof of financial ability to purchase the expected quantity of fish to be processed, at reasonable market conditions;

(K) the ultimate sales market for the product, and marketing information showing how the operation will benefit development of the United States fishing industry;

(L) other information on the applicant's vessels, equipment, operations, and experience, reliance on local fishing vessel operations, and ability to benefit the United States fishing industry and residents of Alaska.

(f) In evaluating an application for a foreign processing permit, the governor will consider whether and to what extent the applicant and the applicant's nation have been, are, or will be contributing to the conservation, use, management, development, and enforcement of domestic fisheries programs.

(g) If a permit is granted, the governor will, in his discretion, designate times and areas of operations, species and quantities to be processed and other conditions of operation in order to attain desired benefits to the United States fishing industry.

(h) The governor will, in his discretion, suspend or terminate a permit granted under this section when he determines that processors in Alaska have adequate capacity, and will use that capacity, to process all United States harvested fish from the fishery and that the suspension or termination is necessary to achieve desired benefits to the United States fishing industry.

(i) The governor will, in his discretion, appoint a foreign processing advisory committee to obtain and review information regarding fish processing operations, including capacity determinations, in Alaska.

(j) In this section,

(1) "developed fishery" means a fishery in which United States processing capacity is available and has been used by United States fishermen and processors but not to the full extent of the total allowable catch in the fishery;

(2) "established fishery" means a fishery in which United States processing capacity has been available and has been used by United States fishermen and processors to the full extent of the total allowable catch in the fishery and in which full utilization by United States fishermen and processors is likely to continue;

(3) "fishery" means

(A) a stock or stocks of fish which may be treated as a unit for purposes of conservation and management and which are identified on the basis of geographical, scientific, technical, recreational, and economic characteristics; or

(B) the commercial taking of these stocks;

(4) "foreign fishing vessel" means a vessel that is documented under the flag of a foreign nation and engages in fish processing;

(5) "internal waters of Alaska" means all waters within the boundaries of the state except those seaward of the baseline from which the territorial sea is measured;

(6) "processing" means the application of preservative methods to the flesh of fish to maintain quality and prevent deterioration, including

(A) storage and transportation of unprocessed fish;

(B) preparation for preservation;

(C) cooking, canning, smoking, salting, drying, freezing, icing, refrigeration, vacuum packing, gas, microwave preservation, and other preservation means;

(7) "total allowable catch" means the quantity of fish in a fishery that may be harvested without detriment to sustained yield;

(8) "undeveloped fishery" means a fishery in which there has been no United States commercial fishing nor processing of the total allowable catch in the fishery.

5 AAC 39.200. Application of fishery management plans

(a) The Board of Fisheries has implemented by regulation fishery management plans that provide the Department of Fish and Game with guidelines to be followed when making management decisions regarding the state's subsistence, commercial, sport and personal use fisheries. The primary goal of these management plans is to protect the sustained yield of the state's fishery resources while at the same time providing an equitable distribution of the available harvest between various users. The regulations contained in this section are intended to aid in the achievement of that goal and therefore will apply to all fishery management plans contained in 5 AAC 03 - 5 AAC 39.

(b) In some fishery management plans, the distribution of harvestable fish between various users is determined by the harvest that occurs during a specific time period, at a specific location or by a specific group or groups of users. At times fishermen, due to circumstances that are beyond the control of the department, such as weather or price disputes, will not harvest fish. When this happens in a fishery governed by a management plan, the goals of that plan may not be achieved. Therefore, when a fishery is open to the taking of fish and the group or groups of users whose catch determines the distribution of the harvest as set out in the applicable management plan is not taking the harvestable fish available to them, the department shall manage the fishery as if the available harvest is being taken. When determining the available harvest, the department shall consider the number of fish needed to meet spawning requirements, the number of fish present in the fishery and in spawning areas that are in excess of spawning requirements and the estimated harvesting capacity of the group or groups of users that would normally participate in the fishery.

5 AAC 39.205. Criteria for the allocation of fishery resources among personal use, sport, and commercial fisheries Before adopting regulations that allocate fish among personal use, sport, and commercial fisheries, the board will, as appropriate to particular allocation decisions, consider factors such as those set out in AS 16.05.251(e).

5 AAC 39.210. Management plan for high impact emerging fisheries (a) To guide management of high impact emerging commercial fisheries, a plan is needed that ensures resource conservation, minimizes impacts on existing users, and provides orderly development of new fishery resources.

(b) The department may regulate a commercial fishery as a high impact emerging commercial fishery if the commissioner determines that any of the following conditions apply to a species or species group in an area or region:

- (1) harvesting effort has recently increased beyond a low sporadic level;
- (2) interest has been expressed in harvesting the resource by more than a single user group;
- (3) the level of harvest might be approaching a level that might not be sustainable on a local or regional level;
- (4) the board has not developed comprehensive regulations to address issues of conservation, allocation, and conduct of an orderly fishery.

(c) The commissioner shall notify the board if a determination is made to manage a fishery as a high impact emerging fishery.

(d) The department shall close a high impact emerging commercial fishery once it has been designated as such by the commissioner, and may not reopen the fishery until an interim management plan and associated regulations have been adopted by the

commissioner. If an interim management plan and regulations have been adopted, the commissioner may allow the fishery to continue.

(e) The department shall develop an interim management plan for each high impact emerging commercial fishery. An interim management plan shall contain at least the following information:

- (1) a review of the history of commercial exploitation of the species in Alaska and other relevant jurisdictions;
- (2) a review of the life history of the organism;
- (3) identification of specific management goals and objectives;
- (4) an evaluation of potential impacts on existing users;
- (5) designation and justification of the preferred management measures;
- (6) an evaluation of the conservation impacts of the preferred management approach on nontarget species and on nontarget individuals of the same species;
- (7) a plan for determining the productivity of the species and impact of the fishery;
- (8) a list of proposed interim regulations;
- (9) a cost estimate for plan implementation;
- (10) an analysis of customary and traditional subsistence use patterns.

(f) The commissioner may adopt regulations and open the fishery consistent with measures identified in the interim management plan. The regulations will remain in effect until the board adopts regulations under (g) of this section.

(g) Upon completion of an interim plan, the department shall petition the board under 5 AAC 96.625 to consider adoption of the management plan and associated regulations at its next regularly scheduled meeting.

(h) The department may require onboard observers as specified in 5 AAC 39.141 and 5 AAC 39.645 on fishing vessels, catcher-processors, and floating processors that participate in high impact emerging commercial fisheries.

Article 2. Salmon Fishery.

5 AAC 39.220. Policy for the management of mixed stock salmon fisheries (a) In applying this statewide mixed stock salmon policy for all users, conservation of wild

salmon stocks consistent with sustained yield shall be accorded the highest priority. Allocation of salmon resources under this policy will be consistent with the subsistence preference in AS 16.05.258, and the allocation criteria set out in 5 AAC 39.205, 5 AAC 75.017, and 5 AAC 77.007.

(b) In the absence of a regulatory management plan that otherwise allocates or restricts harvest, and when it is necessary to restrict fisheries on stocks where there are known conservation problems, the burden of conservation shall be shared among all fisheries in close proportion to their respective harvest on the stock of concern. The board recognized that precise sharing of conservation among fisheries is dependent on the amount of stock-specific information available.

(c) The board's preference in assigning conservation burdens in mixed stock fisheries is through the application of specific fishery management plans set out in the regulations. A management plan incorporates conservation burden and allocation of harvest opportunity.

(d) Most wild Alaska salmon stocks are fully allocated to fisheries capable of harvesting available surpluses. Consequently, the board will restrict new or expanding mixed stock fisheries unless otherwise provided for by management plans or by application of the board's allocation criteria. Natural fluctuations in the abundance of stocks harvested in a fishery will not be the single factor that identifies a fishery as expanding or new.

(e) This policy will be implemented only by the board through regulations adopted

(1) during its regular meeting cycle; or

(2) through procedures established in the Joint Board's Petition Policy (5 AAC 96.625), Subsistence Petition Policy (5 AAC 96.625(f)), Policy for Changing Board Agenda (5 AAC 39.999), or Subsistence Proposal Policy (5 AAC 96.615).

5 AAC 39.222. Policy for the management of sustainable salmon fisheries (a) The Board of Fisheries (board) and Department of Fish and Game (department) recognize that

(1) while, in the aggregate, Alaska's salmon fisheries are healthy and sustainable largely because of abundant pristine habitat and the application of sound, precautionary, conservation management practices, there is a need for a comprehensive policy for the regulation and management of sustainable salmon fisheries;

(2) in formulating fishery management plans designed to achieve maximum or optimum salmon production, the board and department must consider factors including environmental change, habitat loss or degradation, data uncertainty, limited funding for research and management programs, existing harvest patterns, and new fisheries or expanding fisheries;

(3) to effectively assure sustained yield and habitat protection for wild salmon stocks, fishery management plans and programs require specific guiding principles and criteria, and the framework for their application contained in this policy.

(b) The goal of the policy under this section is to ensure conservation of salmon and halibut's required marine and aquatic habitats, protection of customary and traditional subsistence uses and other uses, and the sustained economic health of Alaska's fishing communities.

(c) Management of salmon fisheries by the state should be based on the following principles and criteria:

(1) wild salmon stocks and the salmon's habitats should be maintained at levels of resource productivity that assure sustained yields as follows:

(A) salmon spawning, rearing, and migratory habitats should be protected as follows:

(i) salmon habitats should not be perturbed beyond natural boundaries of variation;

(ii) scientific assessments of possible adverse ecological effects of proposed habitat alterations and the impacts of the alterations on salmon populations should be conducted before approval of a proposal;

(iii) adverse environmental impacts on wild salmon stocks and the salmon's habitats should be assessed;

(iv) all essential salmon habitat in marine, estuarine, and freshwater ecosystems and access of salmon to these habitats should be protected; essential habitats include spawning and incubation areas, freshwater rearing areas, estuarine and nearshore rearing areas, offshore rearing areas, and migratory pathways;

(v) salmon habitat in fresh water should be protected on a watershed basis, including appropriate management of riparian zones, water quality, and water quantity;

(B) salmon stocks should be protected within spawning, incubating, rearing, and migratory habitats;

(C) degraded salmon productivity resulting from habitat loss should be assessed, considered, and controlled by affected user groups, regulatory agencies, and boards when making conservation and allocation decisions;

(D) effects and interactions of introduced or enhanced salmon stocks on wild salmon stocks should be assessed; wild salmon stocks and fisheries on those stocks

should be protected from adverse impacts from artificial propagation and enhancement efforts;

(E) degraded salmon spawning, incubating, rearing, and migratory habitats should be restored to natural levels of productivity where known and desirable;

(F) ongoing monitoring should be conducted to determine the current status of habitat and the effectiveness of restoration activities;

(G) depleted salmon stocks should be allowed to recover or, where appropriate, should be actively restored; diversity should be maintained to the maximum extent possible, at the genetic, population, species, and ecosystem levels;

(2) salmon fisheries shall be managed to allow escapements within ranges necessary to conserve and sustain potential salmon production and maintain normal ecosystem functioning as follows:

(A) salmon spawning escapements should be assessed both temporally and geographically; escapement monitoring programs should be appropriate to the scale, intensity, and importance of each salmon stock's use;

(B) salmon escapement goals, whether sustainable escapement goals, biological escapement goals, optimal escapement goals, or inriver run goals, should be established in a manner consistent with sustained yield; unless otherwise directed, the department will manage Alaska's salmon fisheries, to the extent possible, for maximum sustained yield;

(C) salmon escapement goal ranges should allow for uncertainty associated with measurement techniques, observed variability in the salmon stock measured, changes in climatic and oceanographic conditions, and varying abundance within related populations of the salmon stock measured;

(D) salmon escapement should be managed in a manner to maintain genetic and phenotypic characteristics of the stock by assuring appropriate geographic and temporal distribution of spawners as well as consideration of size range, sex ratio, and other population attributes;

(E) impacts of fishing, including incidental mortality and other human-induced mortality, should be assessed and considered in harvest management decisions;

(F) salmon escapement and harvest management decisions should be made in a manner that protects nontarget salmon stocks or species;

(G) the role of salmon in ecosystem functioning should be evaluated and considered in harvest management decisions and setting of salmon escapement goals;

(H) salmon abundance trends should be monitored and considered in harvest management decisions;

(3) effective management systems should be established and applied to regulate human activities that affect salmon as follows:

(A) salmon management objectives should be appropriate to the scale and intensity of various uses and the biological capacities of target salmon stocks;

(B) management objectives should be established in harvest management plans, strategies, guiding principles, and policies, such as for mixed stock fishery harvests, fish disease, genetics, and hatchery production, that are subject to periodic review;

(C) when wild salmon stocks are fully allocated, new fisheries or expanding fisheries should be restricted, unless provided for by management plans or by application of the board's allocation criteria;

(D) management agencies should have clear authority in statute and regulation to

(i) control all sources of fishing mortality on salmon;

(ii) protect salmon habitats and control nonfishing sources of mortality;

(E) management programs should be effective in

(i) controlling human-induced sources of fishing mortality and should incorporate procedures to assure effective monitoring, compliance, control, and enforcement;

(ii) protecting salmon habitats and controlling collateral mortality and should incorporate procedures to assure effective monitoring, compliance, control, and enforcement;

(F) fisheries management implementation and outcomes should be consistent with regulations, regulations should be consistent with statutes, and effectively carry out the purpose of this section;

(G) the board will recommend to the commissioner the development of effective joint research, assessment, and management arrangements with appropriate management agencies and bodies for salmon stocks that cross state, federal, or international jurisdictional boundaries; the board will recommend the coordination of appropriate procedures for effective monitoring, compliance, control, and enforcement with those of other agencies, states, or nations;

(H) the board will work, within the limits of its authority, to assure that

GENERAL PROVISIONS

(i) management activities are accomplished in a timely and responsive manner to implement objectives, based on the best available scientific information;

(ii) effective mechanisms for the collection and dissemination of information and data necessary to carry out management activities are developed, maintained, and utilized;

(iii) management programs and decision-making procedures are able to clearly distinguish, and effectively deal with, biological and allocation issues;

(I) the board will recommend to the commissioner and legislature that adequate staff and budget for research, management, and enforcement activities be available to fully implement sustainable salmon fisheries principles;

(J) proposals for salmon fisheries development or expansion and artificial propagation and enhancement should include assessments required for sustainable management of existing salmon fisheries and wild salmon stocks;

(K) plans and proposals for development or expansion of salmon fisheries and enhancement programs should effectively document resource assessments, potential impacts, and other information needed to assure sustainable management of wild salmon stocks;

(L) the board will work with the commissioner and other agencies to develop effective processes for controlling excess fishing capacity;

(M) procedures should be implemented to regularly evaluate the effectiveness of fishery management and habitat protection actions in sustaining salmon populations, fisheries, and habitat, and to resolve associated problems or deficiencies;

(N) conservation and management decisions for salmon fisheries should take into account the best available information on biological, environmental, economic, social, and resource use factors;

(O) research and data collection should be undertaken to improve scientific and technical knowledge of salmon fisheries, including ecosystem interactions, status of salmon populations, and the condition of salmon habitats;

(P) the best available scientific information on the status of salmon populations and the condition of the salmon's habitats should be routinely updated and subject to peer review;

(4) public support and involvement for sustained use and protection of salmon resources should be sought and encouraged as follows:

(A) effective mechanisms for dispute resolution should be developed and used;

(B) pertinent information and decisions should be effectively disseminated to all interested parties in a timely manner;

(C) the board's regulatory management and allocation decisions will be made in an open process with public involvement;

(D) an understanding of the proportion of mortality inflicted on each salmon stock by each user group, should be promoted, and the burden of conservation should be allocated across user groups in a manner consistent with applicable state and federal statutes, including AS 16.05.251(e) and AS 16.05.258; in the absence of a regulatory management plan that otherwise allocates or restricts harvests, and when it is necessary to restrict fisheries on salmon stocks where there are known conservation problems, the burden of conservation shall be shared among all fisheries in close proportion to each fisheries' respective use, consistent with state and federal law;

(E) the board will work with the commissioner and other agencies as necessary to assure that adequately funded public information and education programs provide timely materials on salmon conservation, including habitat requirements, threats to salmon habitat, the value of salmon and habitat to the public and ecosystem (fish and wildlife), natural variability and population dynamics, the status of salmon stocks and fisheries, and the regulatory process;

(5) in the face of uncertainty, salmon stocks, fisheries, artificial propagation, and essential habitats shall be managed conservatively as follows:

(A) a precautionary approach, involving the application of prudent foresight that takes into account the uncertainties in salmon fisheries and habitat management, the biological, social, cultural, and economic risks, and the need to take action with incomplete knowledge, should be applied to the regulation and control of harvest and other human-induced sources of salmon mortality; a precautionary approach requires

(i) consideration of the needs of future generations and avoidance of potentially irreversible changes;

(ii) prior identification of undesirable outcomes and of measures that will avoid undesirable outcomes or correct them promptly;

(iii) initiation of any necessary corrective measure without delay and prompt achievement of the measure's purpose, on a time scale not exceeding five years, which is approximately the generation time of most salmon species;

(iv) that where the impact of resource use is uncertain, but likely presents a measurable risk to sustained yield, priority should be given to conserving the productive capacity of the resource;

GENERAL PROVISIONS

(v) appropriate placement of the burden of proof, of adherence to the requirements of this subparagraph, on those plans or ongoing activities that pose a risk or hazard to salmon habitat or production;

(B) a precautionary approach should be applied to the regulation of activities that affect essential salmon habitat.

(d) The principles and criteria for sustainable salmon fisheries shall be applied, by the department and the board using the best available information, as follows:

(1) at regular meetings of the board, the department will, to the extent practicable, provide the board with reports on the status of salmon stocks and salmon fisheries under consideration for regulatory changes, which should include

(A) a stock-by-stock assessment of the extent to which the management of salmon stocks and fisheries is consistent with the principles and criteria contained in the policy under this section;

(B) descriptions of habitat status and any habitat concerns;

(C) identification of healthy salmon stocks and sustainable salmon fisheries;

(D) identification of any existing salmon escapement goals, or management actions needed to achieve these goals, that may have allocative consequences such as the

(i) identification of a new fishery or expanding fishery;

(ii) identification of any salmon stocks, or populations within stocks, that present a concern related to yield, management, or conservation; and

(iii) description of management and research options to address salmon stock or habitat concerns;

(2) in response to the department's salmon stock status reports, reports from other resource agencies, and public input, the board will review the management plan, or consider developing a management plan, for each affected salmon fishery or stock; management plans will be based on the principles and criteria contained in this policy and will

(A) contain goals and measurable and implementable objectives that are reviewed on a regular basis and utilize the best available scientific information;

(B) minimize the adverse effects on salmon habitat caused by fishing;

(C) protect, restore, and promote the long-term health and sustainability of the salmon fishery and habitat;

(D) prevent overfishing; and

(E) provide conservation and management measures that are necessary and appropriate to promote maximum or optimum sustained yield of the fishery resource;

(3) in the course of review of the salmon stock status reports and management plans described in (1) and (2) of this subsection, the board, in consultation with the department, will determine if any new fisheries or expanding fisheries, stock yield concerns, stock management concerns, or stock conservation concerns exist; if so, the board will, as appropriate, amend or develop salmon fishery management plans to address these concerns; the extent of regulatory action, if any, should be commensurate with the level of concerns and range from milder to stronger as concerns range from new and expanding salmon fisheries through yield concerns, management concerns, and conservation concerns;

(4) in association with the appropriate management plan, the department and the board will, as appropriate, collaborate in the development and periodic review of an action plan for any new or expanding salmon fisheries, or stocks of concern; action plans should contain goals, measurable and implementable objectives, and provisions, including

(A) measures required to restore and protect salmon habitat, including necessary coordination with other agencies and organizations;

(B) identification of salmon stock or population rebuilding goals and objectives;

(C) fishery management actions needed to achieve rebuilding goals and objectives, in proportion to each fishery's use of, and hazards posed to, a salmon stock;

(D) descriptions of new or expanding salmon fisheries, management concern, yield concern, or conservation concern; and

(E) performance measures appropriate for monitoring and gauging the effectiveness of the action plan that are derived from the principles and criteria contained in this policy;

(5) each action plan will include a research plan as necessary to provide information to address concerns; research needs and priorities will be evaluated periodically, based on the effectiveness of the monitoring described in (4) of this subsection;

(6) where actions needed to regulate human activities that affect salmon and salmon's habitat that are outside the authority of the department or the board, the department or board shall correspond with the relevant authority, including the governor,

relevant boards and commissions, commissioners, and chairs of appropriate legislative committees, to describe the issue and recommend appropriate action.

(e) Nothing in the policy under this section is intended to expand, reduce, or be inconsistent with, the statutory regulatory authority of the board, the department, or other state agencies with regulatory authority that impacts the fishery resources of the state.

(f) In this section, and in implementing this policy,

(1) "allocation" means the granting of specific harvest privileges, usually by regulation, among or between various user groups; "allocation" includes quotas, time periods, area restrictions, percentage sharing of stocks, and other management measures providing or limiting harvest opportunity;

(2) "allocation criteria" means the factors set out in AS 16.05.251(e) considered by the board as appropriate to particular allocation decisions under 5 AAC 39.205, 5 AAC 75.017, and 5 AAC 77.007;

(3) "biological escapement goal" or "(BEG)" means the escapement that provides the greatest potential for maximum sustained yield; BEG will be the primary management objective for the escapement unless an optimal escapement or inriver run goal has been adopted; BEG will be developed from the best available biological information, and should be scientifically defensible on the basis of available biological information; BEG will be determined by the department and will be expressed as a range based on factors such as salmon stock productivity and data uncertainty; the department will seek to maintain evenly distributed salmon escapements within the bounds of a BEG;

(4) "burden of conservation" means the restrictions imposed by the board or department upon various users in order to achieve escapement, rebuild, or in some other way conserve a specific salmon stock or group of stocks; this burden, in the absence of a salmon fishery management plan, will be generally applied to users in close proportion to the users' respective harvest of the salmon stock;

(5) "chronic inability" means the continuing or anticipated inability to meet escapement thresholds over a four to five year period, which is approximately the generation time of most salmon species;

(6) "conservation concern" means concern arising from a chronic inability, despite the use of specific management measures, to maintain escapements for a stock above a sustained escapement threshold (SET); a conservation concern is more severe than a management concern;

(7) "depleted salmon stock" means a salmon stock for which there is a conservation concern;

(8) "diversity", in a biological context, means the range of variation exhibited within any level of organization, such as among genotypes within a salmon population,

among populations within a salmon stock, among salmon stocks within a species, among salmon species within a community, or among communities within an ecosystem;

(9) "enhanced salmon stock" means a stock of salmon that is undergoing specific manipulation, such as hatchery augmentation or lake fertilization, to enhance its productivity above the level that would naturally occur; "enhanced salmon stock" includes an introduced stock, where no wild salmon stock had occurred before, or a wild salmon stock undergoing manipulation, but does not include a salmon stock undergoing rehabilitation, which is intended to restore a salmon stock's productivity to a higher natural level;

(10) "escapement" means the annual estimated size of the spawning salmon stock; quality of the escapement may be determined not only by numbers of spawners, but also by factors such as sex ratio, age composition, temporal entry into the system, and spatial distribution within the salmon spawning habitat;

(11) "expanding fishery" means a salmon fishery in which effective harvesting effort has recently increased significantly beyond historical levels and where the increase has not resulted from natural fluctuations in salmon abundance;

(12) "expected yields" mean levels at or near the lower range of recent historic harvests if they are deemed sustainable;

(13) "genetic" means those characteristics (genotypic) of an individual or group of salmon that are expressed genetically, such as allele frequencies or other genetic markers;

(14) "habitat concern" means the degradation of salmon habitat that results in, or can be anticipated to result in, impacts leading to yield, management, or conservation concerns;

(15) "harvestable surplus" means the number of salmon from a stock's annual run that is surplus to escapement needs and can reasonably be made available for harvest;

(16) "healthy salmon stock" means a stock of salmon that has annual runs typically of a size to meet escapement goals and a potential harvestable surplus to support optimum or maximum sustained yield;

(17) "incidental harvest" means the harvest of fish, or other species, that is captured in addition to the target species of a fishery;

(18) "incidental mortality" means the mortality imposed on a salmon stock outside of directed fishing, and mortality caused by incidental harvests, interaction with fishing gear, habitat degradation, and other human-related activities;

(19) "inriver run goal" means a specific management objective for salmon stocks that are subject to harvest upstream of the point where escapement is estimated; the

GENERAL PROVISIONS

inriver run goal will be set in regulation by the board and is comprised of the SEG, BEG, or OEG, plus specific allocations to inriver fisheries;

(20) "introduced stock" means a stock of salmon that has been introduced to an area, or portion of an area, where that stock had not previously occurred; an "introduced salmon stock" includes a salmon stock undergoing continued enhancement, or a salmon stock that is left to sustain itself with no additional manipulation;

(21) "management concern" means a concern arising from a chronic inability, despite use of specific management measures, to maintain escapements for a salmon stock within the bounds of the SEG, BEG, OEG, or other specified management objectives for the fishery; a management concern is not as severe as a conservation concern;

(22) "maximum sustained yield" or "(MSY)" means the greatest average annual yield from a salmon stock; in practice, MSY is achieved when a level of escapement is maintained within a specific range on an annual basis, regardless of annual run strength; the achievement of MSY requires a high degree of management precision and scientific information regarding the relationship between salmon escapement and subsequent return; the concept of MSY should be interpreted in a broad ecosystem context to take into account species interactions, environmental changes, an array of ecosystem goods and services, and scientific uncertainty;

(23) "mixed stock fishery" means a fishery that harvests fish from a mixture of stocks;

(24) "new fishery" means a fishery that new units of effort or expansion of existing effort toward new species, areas, or time periods, results in harvest patterns substantially different from those in previous years, and the difference is not exclusively the result of natural fluctuations in fish abundance;

(25) "optimal escapement goal" or "(OEG)" means a specific management objective for salmon escapement that considers biological and allocative factors and may differ from the SEG or BEG; an OEG will be sustainable and may be expressed as a range with the lower bound above the level of SET, and will be adopted as a regulation by the board; the department will seek to maintain evenly distributed escapements within the bounds of the OEG;

(26) "optimum sustained yield" or "(OSY)" means an average annual yield from a salmon stock considered to be optimal in achieving a specific management objective other than maximum yield, such as achievement of a consistent level of sustained yield, protection of a less abundant or less productive salmon stock or species, enhancement of catch per unit effort in sport fishery, facilitation of a nonconsumptive use, facilitation of a subsistence use, or achievement of a specific allocation;

(27) "overfishing" means a level of fishing on a salmon stock that results in a conservation or management concern;

(28) "phenotypic characteristics" means those characteristics of an individual or group of salmon that are expressed physically, such as body size and length at age;

(29) "rehabilitation" means efforts applied to a salmon stock to restore it to an otherwise natural level of productivity; "rehabilitation" does not include an enhancement, which is intended to augment production above otherwise natural levels;

(30) "return" means the total number of salmon in a stock from a single brood (spawning) year surviving to adulthood; because the ages of adult salmon (except pink salmon) returning to spawn varies, the total return from a brood year will occur over several calendar years; the total return generally includes those mature salmon from a single brood year that are harvested in fisheries plus those that compose the salmon stock's spawning escapement; "return" does not include a run, which is the number of mature salmon in a stock during a single calendar year;

(31) "run" means the total number of salmon in a stock surviving to adulthood and returning to the vicinity of the natal stream in any calendar year, composed of both the harvest of adult salmon plus the escapement; the annual run in any calendar year, except for pink salmon, is composed of several age classes of mature fish from the stock, derived from the spawning of a number of previous brood years;

(32) "salmon" means the five wild anadromous semelparous Pacific salmon species *Oncorhynchus* sp., except steelhead and cutthroat trout, native to Alaska as follows:

- (A) Chinook or king salmon (*O. tshawytscha*);
- (B) sockeye or red salmon (*O. nerka*);
- (C) coho or silver salmon (*O. kisutch*);
- (D) pink or humpback salmon (*O. gorbuscha*); and
- (E) chum or dog salmon (*O. keta*);

(33) "salmon population" means a locally interbreeding group of salmon that is distinguished by a distinct combination of genetic, phenotypic, life history, and habitat characteristics, comprised of an entire stock or a component portion of a stock; the smallest uniquely identifiable spawning aggregation of genetically similar salmon used for monitoring purposes;

(34) "salmon stock" means a locally interbreeding group of salmon that is distinguished by a distinct combination of genetic, phenotypic, life history, and habitat characteristics or an aggregation of two or more interbreeding groups which occur within the same geographic area and is managed as a unit;

(35) "stock of concern" means a stock of salmon for which there is a yield, management, or conservation concern;

(36) "sustainable escapement goal" or "(SEG)" means a level of escapement, indicated by an index or an escapement estimate, that is known to provide for sustained yield over a 5 to 10 year period, used in situations where a BEG cannot be estimated or

GENERAL PROVISIONS

managed for; the SEG is the primary management objective for the escapement, unless an optimal escapement or inriver run goal has been adopted by the board; the SEG will be developed from the best available biological information; and should be scientifically defensible on the basis of that information; the SEG will be determined by the department and will take into account data uncertainty and be stated as either a "SEG range" or "lower bound SEG"; the department will seek to maintain escapements within the bounds of the SEG range or above the level of a lower bound SEG;

(37) "sustainable salmon fishery" means a salmon fishery that persists and obtains yields on a continuing basis; characterized by fishing activities and habitat alteration, if any, that do not cause or lead to undesirable changes in biological productivity, biological diversity, or ecosystem structure and function, from one human generation to the next;

(38) "sustained yield" means an average annual yield that results from a level of salmon escapement that can be maintained on a continuing basis; a wide range of average annual yield levels is sustainable; a wide range of annual escapement levels can produce sustained yields;

(39) "sustained escapement threshold" or "(SET)" means a threshold level of escapement, below which the ability of the salmon stock to sustain itself is jeopardized; in practice, SET can be estimated based on lower ranges of historical escapement levels, for which the salmon stock has consistently demonstrated the ability to sustain itself; the SET is lower than the lower bound of the BEG and lower than the lower bound of the SEG; the SET is established by the department in consultation with the board, as needed, for salmon stocks of management or conservation concern;

(40) "target species" or "target salmon stocks" means the main, or several major, salmon species of interest toward which a fishery directs its harvest;

(41) "yield" means the number or weight of salmon harvested in a particular year or season from a stock;

(42) "yield concern" means a concern arising from a chronic inability, despite the use of specific management measures, to maintain expected yields, or harvestable surpluses, above a stock's escapement needs; a yield concern is less severe than a management concern, which is less severe than a conservation concern;

(43) "wild salmon stock" means a stock of salmon that originates in a specific location under natural conditions; "wild salmon stock" may include an enhanced or rehabilitated stock if its productivity is augmented by supplemental means, such as lake fertilization or rehabilitative stocking; "wild salmon stock" does not include an introduced stock, except that some introduced salmon stocks may come to be considered "wild" if the stock is self-sustaining for a long period of time;

(44) "action point" means a threshold value for some quantitative indicator of stock run strength at which an explicit management action will be taken to achieve an optimal escapement goal.

5 AAC 39.223. Policy for statewide salmon escapement goals (a) The Department of Fish and Game (department) and the Board of Fisheries (board) are charged with the duty to conserve and develop Alaska's salmon fisheries on the sustained yield principle. Therefore, the establishment of salmon escapement goals is the responsibility of both the board and the department working collaboratively. The purpose of this policy is to establish the concepts, criteria, and procedures for establishing and modifying salmon escapement goals and to establish a process that facilitates public review of allocative issues associated with escapement goals.

(b) The board recognizes the department's responsibility to

(1) document existing salmon escapement goals for all salmon stocks that are currently managed for an escapement goal;

(2) establish biological escapement goals (BEG) for salmon stocks for which the department can reliably enumerate salmon escapement levels, as well as total annual returns;

(3) establish sustainable escapement goals (SEG) for salmon stocks for which the department can reliably estimate escapement levels when there is not sufficient information to enumerate total annual returns and the range of escapements that are used to develop a BEG;

(4) establish sustained escapement thresholds (SET) as provided in 5 AAC 39.222 (Policy for the Management of Sustainable Salmon Fisheries);

(5) establish escapement goals for aggregates of individual spawning populations with similar productivity and vulnerability to fisheries and for salmon stocks managed as units;

(6) review an existing, or propose a new, BEG, SEG and SET on a schedule that conforms, to the extent practicable, to the board's regular cycle of consideration of area regulatory proposals;

(7) prepare a scientific analysis with supporting data whenever a new BEG, SEG, or SET, or a modification to an existing BEG, SEG, or SET is proposed and, in its discretion, to conduct independent peer reviews of its BEG, SEG, and SET analyses;

(8) notify the public whenever a new BEG, SEG, or SET is established or an existing BEG, SEG, or SET is modified;

(9) whenever allocative impacts arise from any management actions necessary to achieve a new or modified BEG, SEG or SET, report to the board on a schedule that conforms, to the extent practicable, to the board's regular cycle of consideration of area regulatory proposals so that it can address allocation issues.

(c) In recognition of its joint responsibilities, and in consultation with the department, the board will

(1) take regulatory actions as may be necessary to address allocation issues arising from implementation of a new or modified BEG, SEG, and SET;

(2) during its regulatory process, review a BEG, SEG, or SET determined by the department and, with the assistance of the department, determine the appropriateness of establishing an optimal escapement goal (OEG); the board will provide an explanation of the reasons for establishing an OEG and provide, to the extent practicable, and with the assistance of the department, an estimate of expected differences in yield of any salmon stock, relative to maximum sustained yield, resulting from implementation of an OEG.

(d) Unless the context requires otherwise, the terms used in this section have the same meaning given those terms in 5 AAC 39.222(f).

5 AAC 39.230. Gear Only those gillnets, seines, troll lines, fish wheels, spears or other appliances as provided for in 5 AAC 03 - 5 AAC 39 may be used to take salmon.

5 AAC 39.240. General gear specifications and operations (a) A salmon fishing vessel shall operate, assist in operating, or have aboard it or any boat towed by it, only one legal limit of salmon fishing gear in the aggregate except as otherwise provided in this title.

(b) Unhung gear sufficient for mending purposes may be carried aboard fishing vessels.

(c) A purse seine, hand purse seine or beach seine may not be fished simultaneously with gillnet gear by any individual or vessel.

(d) Salmon fishing nets must be measured, either wet or dry, by determining the maximum or minimum distance between the first and last hanging of the net when the net is fully extended with traction applied at one end only.

(e) The interim-use or entry permit card holder is responsible for the operation of the net.

5 AAC 39.250. Gillnet specifications and operations (a) The trailing of gillnet web is prohibited at any time or place where fishing is not permitted.

(b) Set gillnets shall be removed from the water during any closed period.

(c) The gillnet web in a gillnet must contain

(1) at least 30 filaments, each of which must be of equal diameter; or

(2) at least six filaments, each of which must be at least 0.20 millimeters in diameter.

(d) The float line and floats of gillnets must be floating on the surface of the water while the net is fishing, unless natural conditions cause the net to temporarily sink. The restriction of this subsection does not apply in the Arctic-Kotzebue Area (5 AAC 03.100), the Norton Sound-Port Clarence Area (5 AAC 04.100), the Yukon Area (5 AAC 05.100), the Kuskokwim Area (5 AAC 07.100), and the Kodiak Area (5 AAC 18.100).

5 AAC 39.260. Seine specifications and operations (a) In the use of purse seines and hand purse seines, not more than one anchor may be used to hold the seine, lead and seine boat during a set.

(b) Repealed 3/26/76.

(c) A purse seine has ceased fishing when both ends of the seine, excluding skiff tow lines and straps, are attached to the seine vessel.

(d) A hand purse seine is considered to have ceased fishing when both ends of the seine are fast to the vessel.

(e) A beach seine is considered to have ceased fishing when all of the lead line is above the water on the beach.

(f) Where the use of leads is permitted, a purse seine vessel may not have or use more than one lead of legal length and depth, without purse rings attached, and with a minimum mesh size of seven inches, except that a lead may have a cork line border strip not to exceed five meshes of less than seven-inch meshes stretch measure and a lead line chafing strip not to exceed 25 meshes less than seven-inch stretch measure.

(g) If a purse seine and a lead are operated together

(1) the lead must be attached to the purse seine;

(2) the lead may be attached to only one end of the purse seine;

(3) the lead may not be attached at any other part of the purse seine;

(4) the web of the purse seine must overlap the web of the lead by at least one fathom, or the web of the purse seine must be sewn to the end of the lead for the entire depth of the shallowest net;

(5) repealed 6/2/88;

(6) repealed 6/2/88;

(7) repealed 6/2/88;

(8) repealed 6/2/88.

(h) One end, and only one end, of a seine lead may be attached to land above the waterline. If the lead is attached to land above the waterline, no other anchor may be used on the lead, purse seine, seine vessel, or skiff. "Anchor" is defined in 5 AAC 39.105(d)(19).

(i) During the operation of a purse seine, the propulsion engines of the seine vessel, or the skiff assisting the operation, must be running and the vessel must be controlling the configuration of the purse seine.

(j) A seine vessel must be attached to one end, and only one end, of a purse seine or lead when it is in operation. Any line used to make the attachment may not be more than 13 fathoms in length.

(k) A purse seine may not be used as a lead for another purse seine.

5 AAC 39.265. Retention of salmon taken in a commercial net fishery (a) The Board of Fisheries recognizes that at times during a commercial salmon season it may be necessary to require retention of all salmon species taken in a commercial net fishery for the purpose of conservation or development of the salmon resource.

(b) In a commercial salmon net fishery, if the commissioner determines that retention of all salmon species is necessary under this section, the commissioner may, by emergency order, close a commercial salmon net fishery and immediately reopen the fishery, during which all salmon species caught must be retained, unless otherwise specified in 5 AAC 01 - 77.

5 AAC 39.280. Identification of stationary fishing gear (a) The owner or operator of a set gillnet or fish wheel in operation shall place in a conspicuous place on or near the set gillnet or fish wheel the name of the fisherman operating it, together with the fisherman's five-digit CFEC permit serial number. Numbers must be at least six inches in height with lines at least one inch wide and of a color contrasting with the background. The identification name and numbers for fish wheels must be placed on the side of the fish wheel facing midstream of the river.

(b) In addition to the requirements of (a) of this section, the owner or operator of a set gillnet in operation shall have at each end of the set gillnet a red keg, buoy, or cluster of floats, or, in the case of set gillnets anchored to land, shall have a red keg, buoy, or cluster of floats at the outer end of the net. The kegs, buoys, or clusters of floats must be plainly and legibly marked with the fisherman's five-digit CFEC permit serial number. The kegs, buoys, or clusters of floats may bear only a single number - that of the permit holder operating the gear. In the Upper Subdistrict of the Central District of the Cook Inlet Area, the operator of a set gillnet shall attach to the net a 'trailer' buoy that floats at all times.

5 AAC 39.290. Closed waters (a) Except as otherwise specified in this title, commercial fishing for salmon is prohibited at all times in the waters of Alaska that are

(1) within the fresh water of streams and rivers of this state;

(2) within 500 yards of the fresh water of a stream that is a salmon stream; or

(3) over the beds or channels of fresh water of streams and rivers of this state during all stages of the tide.

(b) The department may post any closed area designated in (a) of this section by appropriate markers. The department shall place such markers as close as practically possible to the distance or location specified by the applicable regulation or emergency order. However, where markers have been deployed, it is unlawful to take salmon for commercial purposes on the streamward side of the area indicated by the markers and as described in (a) of this section.

(c) Where markers as described above have been lost or destroyed or are not in place, the area closed to commercial salmon fishing is as specified by the applicable regulation or emergency order.

(d) The Ugashik, Yukon and Kuskokwim Rivers, the Yakutat Area and any other river where a legal commercial fishery now exists are the only exceptions to this closure.

(e) The points established for stream mouths listed in the Catalog of Waters Important for Spawning, Rearing, or Migration of Anadromous Fishes under 5 AAC 95.011 do not apply to enforcement of this section or other regulations limiting the distance that commercial fishing may occur from the fresh water of a stream that is a salmon stream.

5 AAC 39.291. Boundary markers The department may post a boundary described in regulation by an appropriate marker. The marker must be placed as close as possible to the location specified in the applicable regulation. Where markers have been lost or destroyed, the boundary is as specified in the applicable regulation.

Article 9. Definitions; Miscellaneous

5 AAC 39.975. Definitions (a) In 5 AAC 01 - 5 AAC 39,

(1) "alien" means a person who is not a citizen of the United States, and who does not have a petition for naturalization pending before the district court;

(2) "bag limit" means the maximum legal take per person per day, even if part or all of the fish are preserved;

(3) "buyer" means a person who purchases fish from the fishermen who caught the fish or who, for commercial purposes, processes fish he has caught himself;

GENERAL PROVISIONS

(4) "depth of net" means the perpendicular distance between cork line and lead line expressed as either linear units of measure or as a number of meshes, including all of the web of which the net is composed;

(5) repealed 2/18/73;

(6) "gear" means any type of fishing apparatus;

(7) "inclusive season dates" means whenever the doing of an act between certain dates or from one date to another is allowed or prohibited, the period of time thereby indicated includes both dates specified; the first date specified designates the first day of the period, and the second date specified designates the last day of the period;

(8) "legal limit of fishing gear" means the maximum aggregate of a single type of fishing gear permitted to be used by one individual or boat, or combination of boats in any particular regulatory area, district or section;

(9) "local representative of the department" means the nearest, most accessible professional employee of the department, a person designated by the commissioner or by a professional employee of the department to perform a specific function for the department and a law enforcement officer of the Department of Public Safety;

(10) "salmon stream" means a stream used by salmon, at any stage of life, for spawning, rearing, presence, or migration;

(11) "stretched measure" means the average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurements shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under five-pound weight, except as otherwise provided in this title;

(12) repealed 6/30/79;

(13) "waters of Alaska" means the internal waters of the state including rivers, streams, lakes and ponds, the tidal zone of the state from mean higher high water to mean lower low water, and those waters extending three miles seaward of a line (the baseline) between the following points:

(A) Southeastern and Yakutat Areas: 100 southernmost tip Cape Muzon, Dall Island; 101 westernmost tip unnamed point, Dall Island (54° 39.87' N. lat., 132° 43.53' W. long.); 102 westernmost tip Wolk Point, Dall Island; 103 southernmost tip Liscome Point, Dall Island; 104 westernmost tip Point Cornwallis, Dall Island; 105 westernmost tip Security Point, Dall Island; 106 westernmost tip Parrot Point, Dall Island; 107 westernmost tip Point Bazan, Dall Island; 108 westernmost tip of westernmost unnamed island west of Dolgoi Island (54° 49.33' N. lat., 133° 00.40' W. long.); 109 westernmost tip Ritter Point, Dall Island; 110 westernmost tip Rockwell Point, Dall Island; 111

GENERAL PROVISIONS

westernmost tip Cape Augustine, Dall Island; 112 westernmost tip Sakie Point, Dall Island; 113 southernmost tip Cape Felix, Suemez Island; 114 southernmost tip of southernmost island off Cape Bartolome, Baker Island; 115 westernmost tip Cape Chirikof, Baker Island; 116 southernmost tip Cape Addington, Noyes Island; 117 westernmost tip of the southernmost island of the Hazy Islands; 118 westernmost tip of the westernmost island of the Hazy Islands; 119 southernmost tip Cape Ommaney, Baranof Island; 120 southernmost tip Eagle Rocks, Baranof Island; 121 westernmost tip Puffin Point, Baranof Island; 122 westernmost tip Sea Lion Rocks; 123 56° 19.50' N. lat., 134° 54' W. long., Baranof Island; 124 westernmost tip First Kekur Island; 125 westernmost tip Second Kekur Island; 126 westernmost tip North Cape, Baranof Islands; 127 westernmost tip John Rock; 128 westernmost tip Jacob Rock; 129 westernmost tip Kaiuchali Island; 130 westernmost tip Cape Edgecumbe, Kruzof Island; 131 westernmost tip Pt. Amelia, Kruzof Island; 132 westernmost tip Sealion Islands; 133 westernmost tip Eagle Rock; 134 westernmost tip Klokachef Point, Klokachef Island; 135 westernmost tip Black Island; 136 westernmost tip Cape Edward; 137 westernmost tip Urey Rocks; 138 westernmost tip of westernmost rock off Cape Cross, Yakobi Island (57° 54.67' N. lat., 136° 34.33' W. long.); 139 westernmost tip Yakobi Rock (off Cape Bingham, Yakobi Island); 140 westernmost tip Zip Rock (off Cape Spencer); 141 westernmost tip Graves Rocks; 142 westernmost tip Sugarloaf Island; 143 westernmost tip Astrolabe Rocks; 144 southernmost tip Icy Point; 145 westernmost tip Harbor Point; 146 westernmost tip La Chaussee Spit; 147 westernmost tip Cape Fairweather; 148 easternmost tip of the west side of the entrance to Dry Bay; 149 southernmost tip at the mouth of Dangerous River; 150 westernmost tip Ocean Cape; 151 easternmost tip Point Manby; 152 southernmost tip Sitkagai Bluffs; 153 southernmost tip Point Riou; 154 southernmost tip Icy Cape; 155 southernmost tip Cape Yakataga; 200 southernmost tip Cape Suckling;

(B) Prince William Sound and Cook Inlet Areas: 200 southernmost tip Cape Suckling; 201 easternmost tip Pinnacle Rock (off Cape St. Elias, Kayak Island); 202 southernmost tip Hook Point, Hinchinbrook Island; 203 southernmost tip Cape Hinchinbrook, Hinchinbrook Island; 204 easternmost tip Montague Island; 205 easternmost tip Box Point, Montague Island; 206 easternmost tip Wooded Islands; 207 southernmost tip, Wooded Islands; 208 southernmost tip Jeanie Point, Montague Island; 209 southernmost tip Cape Cleare, Montague Island; 210 southernmost tip Point Elrington, Elrington Island; 211 southernmost tip Cape Puget; 212 southernmost tip Cape Junken; 213 southernmost tip Cape Fairfield; 214 southernmost tip Barwell Island (off Cape Resurrection); 215 easternmost tip Pilot Rock; 216 easternmost tip Chiswell Island; 217 southernmost tip Seal Rocks; 218 southernmost tip unnamed cape south of Black Mountain (Black Bay) (59° 27.20' N. lat., 150° 14' W. long.); 219 easternmost tip Hoof Point, Ragged Island; 220 easternmost tip Outer Island, Pye Islands; 221 southernmost tip of southernmost island off Outer Island; 222 southernmost tip Nuka Rock (south of Nuka Point, Nuka Island); 223 southernmost tip Gore Point; 224 southernmost tip East Chugach Island; 225 southernmost tip Perl Rock (off Perl Island, Chugach Islands); 300 easternmost tip East Amatuli Island, Barren Islands;

(C) Kodiak, Chignik, Aleutian Islands, and Alaska Peninsula Areas: 300 easternmost tip East Amatuli Island, Barren Islands; 301 easternmost tip Point Banks, Shuyak Island; 302 northernmost tip Tonki Cape, Afognak Island; 303 northernmost tip Cape St. Hermogenes, Marmot Island; 304 along the seaward coast of Marmot Island southernmost tip of Marmot Cape; 305 southernmost tip Pillar Cape, Afognak Island; 306

GENERAL PROVISIONS

easternmost tip East Cape, Spruce Island; 307 northernmost tip Kodiak Rock (off Long Island); 308 easternmost tip Cape Chiniak, Kodiak Island; 309 easternmost tip Cape Greville Kodiak Island; 310 easternmost tip Ugak Island; 311 along the coast to the southernmost tip of Ugak Island; 312 southernmost tip Dangerous Cape, Kodiak Island; 313 easternmost tip Cape Barnabas, Sitkalidak Island; 314 easternmost tip Black Point, Sitkalidak Island; 315 easternmost tip Twoheaded Island; 316 easternmost tip Geese Islands; 317 easternmost tip Cape Sitkinak, Sitkinak Island; 318 along the coast to the southernmost tip of Sitkinak Island; 319 southernmost tip Tugidak Island; 320 along the west coast to the northernmost tip of Tugidak Island; 321 southernmost tip Cape Alitak, Kodiak Island; 322 westernmost tip Low Cape, Kodiak Island; 323 westernmost tip Cape Ikolik, Kodiak Island; 324 easternmost tip Kilokak Rocks (off Alaska Peninsula); 325 easternmost tip Ashiiak Island; 326 easternmost tip Poltava Island; 327 easternmost tip Navy Island (off Cape Providence); 328 easternmost tip Aiugnak Columns; 329 easternmost tip Ugaiushak Island; 330 easternmost tip Hydra Island; 331 easternmost tip Foggy Cape, Sutwik Island; 332 around the south coast of Sutwik Island via the southernmost offcoast islets to the westernmost tip of Sutwik Island; 333 southernmost tip Cape Kumlik; 334 easternmost tip Unavikshak Island; 335 southernmost tip Atkulik Island; 336 easternmost tip Kak Island; 337 easternmost tip Castle Cape (Tuliumnit Point); 338 easternmost tip Chankliut Island; 339 along seaward coast to southernmost tip Chankliut Island; 340 southernmost tip Seal Cape; 341 easternmost tip Mitrofanina Island; 342 southernmost tip Spitz Island; 343 southernmost tip Chiachi Island; 344 easternmost tip Kupreanof Point; 345 easternmost tip Castle Rock; 346 easternmost tip Atkins Island; 347 easternmost tip Simeonof Island; 348 along the seaward coast of Simeonof Island to the southernmost tip; 349 easternmost tip of the unnamed island off the southern coast of Simeonof Island; 350 easternmost tip Chernabura Island; 351 along the coast to southernmost tip of Point Farewell, Chernabura Island; 352 southernmost tip Point Welcome, Bird Island; 353 southernmost tip Mountain Cape, Nagai Island; 354 westernmost tip Sealion Rocks; 355 southernmost tip Acheredin Point, Unga Island; 356 southernmost tip of Kennoys Island; 357 easternmost tip East Rock; 358 easternmost tip Olga Rock; 359 easternmost tip Pinnacle Rock; 360 easternmost tip Hay Island; 361 easternmost tip Hague Rock; 362 easternmost tip Lookout Point, Caton Island, Sanak Islands; 363 along the coast to southernmost tip Caton Island; 364 southernmost tip Umla Island; 365 southernmost tip Telemitz Island; 366 southernmost tip Dora Island; 367 easternmost tip Seal Rock; 368 southernmost tip Haystack Rock; 369 southernmost tip South Rock; 370 southernmost tip Sisters Island; 371 easternmost tip Clifford Island; 372 along the coast of Clifford Island and Long Island to the westernmost tip of the westernmost Trinity Island; 373 westernmost tip Point Petrof, Sanak Island; 374 southernmost tip Cape Lutke, Unimak Island; 375 along the coast to the southernmost tip of Scotch Cap, Unimak Island; 376 easternmost tip Ugamak Island; 377 easternmost tip Round Island; 378 easternmost tip Aiktak Island; 379 easternmost tip Kaligagan Island; 380 easternmost tip Tigalda Island; 381 along the coast of Tigalda Island to Derbin Island; 382 southernmost tip Avatanak Point, Avatanak Island; 383 easternmost tip Rootok Island; 384 along the coast to southernmost tip Rootok Island; 385 southernmost tip Battery Point, Akutan Island; 386 easternmost tip Unalga Island; 387 easternmost tip Egg Island off Sedanka Island; 388 easternmost tip Outer Signal (island); 389 easternmost tip Inner Signal (island); 390 southernmost tip Sedanka Island; 391 easternmost tip Kayak Cape, Unalaska Island; 392 easternmost tip Cape Yanaliuk, Unalaska Island; 393 easternmost tip Whalebone Cape, Unalaska Island; 394 southernmost tip Cape Prominence, Unalaska Island; 395 southernmost tip Reef Point,

Unalaska Island; 396 southernmost tip Ogangen Island off Unalaska Island; 397 southernmost tip Eagle Point, Unalaska Island; 398 southernmost tip Cape Aiak, Unalaska Island; 399 southernmost tip South Rock off Cape Izigan, Unalaska Island; 400 southernmost tip Emerald Island off Konets Head, Unalaska Island; 401 easternmost tip Kettle Cape, Umnak Island; 402 easternmost tip The Pillars (off Thumb Point, Umnak Island); 403 easternmost tip Kigul Island; 404 easternmost tip Ogchul Island; 405 easternmost tip Vsevidof Island; 406 easternmost tip Black Cape, Umnak Island; 407 easternmost tip Cape Udak, Umnak Island; 408 easternmost tip Breadloaf Island; 409 easternmost tip Samalga Island; 410 along the coast to westernmost tip of Samalga Island; 411 southernmost tip Concord Point, Chuginadak Island; 412 southernmost tip unnamed point south of Mt. Cleaveland, Chuginadak Island (52° 48.75' N. lat., 169° 57.50' W. long.); 413 southernmost tip Herbert Island; 414 southernmost tip Yunaska Island; 415 southernmost tip Amutka Island; 416 along the south and west coast to northernmost tip of Amutka Island; 417 northernmost tip Chagulak Island; 418 northernmost tip of Yunaska Island; 419 northernmost tip Herbert Island; 420 westernmost tip of Carlisle Island; 421 along the coast to the northernmost tip of Carlisle Island; 422 westernmost tip Uliaga Island; 423 along northern coast to easternmost tip of Uliaga Island; 424 northernmost tip of Kagamil Island; 425 northernmost tip Anangula Island (off Okee Point, Umnak Island); 426 northernmost tip Ananiuliak Island; 427 northernmost tip Okee Point, Umnak Island; 428 westernmost tip Cape Kigushimkada, Umnak Island; 429 along the coast to westernmost tip of Kshaliuk Point; 430 northernmost tip Cape Ilmalianuk, Umnak Island; 431 westernmost tip Cape Aslik, Umnak Island; 432 along the coast to northernmost tip of Ashishik Point; 433 northernmost tip Cape Tanak, Umnak Island; 434 northernmost tip Cape Idak, Umnak Island; 435 westernmost tip Chernofski Point, Unalaska Island; 436 northernmost tip Cape Aspid, Unalaska Island; 437 westernmost tip of westernmost unnamed island off Sedanka Point, Unalaska (53° 27.05' N. lat., 167° 20' W. long.); 438 westernmost tip Kashega Point, Unalaska Island; 439 westernmost tip Spray Cape, Unalaska Island; 440 westernmost tip Cape Starichkof, Unalaska Island; 441 southernmost tip of Cape Kovrizhka, Unalaska Island; 442 along the coast to the northernmost tip of Cape Kovrizhka; 443 westernmost tip Point Kadin, Unalaska Island; 444 northernmost tip Koriga Point, Unalaska Island; 445 northernmost tip Bishop Point, Unalaska Island; 446 northernmost tip Point Tebenkof, Unalaska Island; 447 northernmost tip Cape Wislow, Unalaska Island; 448 northernmost tip Cape Cheerful, Unalaska Island; 449 northernmost tip Priest Rock (off Cape Kalekta, Unalaska Island); 450 westernmost tip Reef Point, Akutan Island; 451 westernmost tip Lava Point, Akutan Island; 452 northernmost tip North Head, Akutan Island; 453 northernmost tip Akun Head, Akun Island; 454 westernmost tip Cape Sarichef, Unimak Island; 455 northernmost tip Raven Point, Unimak Island; 456 northernmost tip Oksenof Point, Unimak Island; 457 northernmost tip Cape Mordvinof, Unimak Island; 458 northernmost tip Cape Lapin, Unimak Island; 459 northernmost tip of unnamed point, Unimak Island (55° N. lat., 163° 54' W. long.); 460 northernmost tip Otter Point, Unimak Island; 461 northernmost tip Cape Krenitzin; 462 along the north coast of the Alaska Peninsula to northernmost tip of Cape Glazenap; 463 along the coast and across the entrances between the Kudiakof Islands and the northernmost tip of Moffet Point; 464 along the north coast of the Alaska Peninsula to easternmost tip of Lagoon Point; 465 northernmost tip Cape Kutuzof; 500 along the north coast of the Alaska Peninsula including the outer coast of all barrier islands, to the westernmost tip of Cape Menshikof;

GENERAL PROVISIONS

(D) Bristol Bay Area: 500 westernmost tip of Cape Menshikof; 501 southernmost tip of Pyrite Point; 502 along the coast to the westernmost tip of Cape Peirce; 600 westernmost tip of Cape Newenham;

(E) Kuskokwim, Yukon, Norton Sound-Point Clarence, and Arctic-Kotzebue Areas: 600 westernmost tip Cape Newenham; 601 southernmost tip Kwigluk Island; 602 southernmost tip Pingurbek Island; 603 westernmost tip Kikegtek Island; 604 westernmost tip Cape Vancouver; 605 southernmost tip Dall Point; 606 along the coast and across all entrances, to the westernmost tip of Cape Romanzof; 607 westernmost tip Cape Rodney; 608 westernmost tip of Point Spencer Spit; 609 southernmost tip Cape York; 610 westernmost tip Cape Prince of Wales; 611 along coast of all barrier islands to Northwest Corner light; 612 westernmost tip Cape Krusenstern; 613 along the coast to the westernmost tip of Point Hope; 614 westernmost tip Cape Lisburne; 615 along the coast of all barrier islands and across all entrances to the northernmost tip of Point Barrow; 616 along the coast of all barrier islands and across all entrances to the easternmost tip of Cape Simpson; 617 northernmost tip Pitt Point; 618 along the coast to easternmost tip of Cape Halkett; 619 easternmost tip Thetis Island, Jones Islands; 620 along the coast of all barrier islands and across all entrances, through the Jones Islands to the northernmost tip Long Island; 621 northernmost tip Reindeer Island, Midway Islands; 622 northernmost tip Cross Island; 623 westernmost tip Flaxman Island; 624 along the north coast of Flaxman Island and across all entrances to the northernmost tip Brownlow Point; 625 along the coast of all barrier islands and across all entrances to the easternmost tip Konganevik Point; 626 northernmost tip Anderson Point; 627 northernmost tip Arey Island; 628 northernmost tip Barter Island; 629 northernmost tip Bernard Spit; 630 along the coast of all barrier islands and across all entrances to the northernmost tip Griffen Point; 631 northernmost tip along the coast to Humphrey Point; 632 across the entrances and along coast of all barrier islands, to the northernmost tip Demarcation Point; 700 along the coast to the United States-Canada Boundary;

(F) and extending three miles seaward of all islands not enclosed by the above line;

(14) "salmon stream terminus" means a line drawn between the seaward extremities of the exposed tideland banks of any salmon stream at mean lower low water;

(15) repealed 8/14/70;

(16) "ton" means 2,000 pounds avoirdupois weight;

(17) "king crab" means any or all of the following species:

- (A) *Paralithodes camtschaticus* (red king crab);
- (B) *Paralithodes platypus* (blue king crab);
- (C) *Lithodes couesi*;
- (D) *Lithodes aequispinus* (golden king crab);
- (E) *Paralithodes brevipes* (Hanasaki king crab);

(18) "Tanner crab" means any or all of the following species:

- (A) *Chionoecetes opilio* (snow crab);
- (B) *Chionoecetes tanneri* (grooved Tanner crab);
- (C) *Chionoecetes bairdi* (Tanner crab);
- (D) *Chionoecetes angulatus* (triangle Tanner crab);

(19) "Dungeness crab" means the species *Metacarcinus magister*;

(20) "household" means a person or persons having the same residence;

(21) "groundfish" or "bottomfish" means any marine finfish except halibut, osmerids, herring, and salmonids;

(22) "to operate fishing gear" means

(A) the deployment of gear or to have gear deployed in the waters of Alaska;

(B) the removal of gear from the waters of Alaska;

(C) the removal of fish or shellfish from the gear during an open season or period; or

(D) possession of a gillnet containing fish during an open fishing period, except that a net which is completely clear of the water is not considered to be operating for the purpose of minimum distance requirements;

(23) "possession limit" means the maximum number of fish a person may have in his possession if the fish have not been canned, salted, frozen, smoked, dried or otherwise preserved so as to be fit for human consumption after a 15-day period;

(24) "hung measure" means the maximum length of the cork line when measured wet or dry with traction applied at one end only;

(25) "drainage" means all of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds and lakes which contribute to the supply of the watershed;

(26) "fresh water of streams and rivers" means fresh water separated from salt water at the mouth of streams and rivers by a line drawn between the seaward extremities of the exposed tideland banks at the present stage of the tide;

(27) "guideline harvest level" means the preseason estimated level of allowable fish harvest which will not jeopardize the sustained yield of the fish stocks; an area, district, section or portion thereof may close to fishing before or after the guideline harvest level has been reached if principles of management and conservation dictate such action;

GENERAL PROVISIONS

- (28) "peace officer of the state" means a person defined in AS 16.05.150;
- (29) "processing" means completion of
- (A) cooking;
 - (B) canning;
 - (C) smoking;
 - (D) salting, which means uniformly mixing with a minimum salting level of at least 20 percent of the weight of the fish resources;
 - (E) drying; or
 - (F) freezing, which means to congeal and solidify the flesh of fish by abstraction of heat;
- (30) "domicile" means the same as in AS 16.05.940; evidence of a person's domicile may include, but is not limited to, the following:
- (A) statements made to obtain a license to drive, hunt, fish, or engage in an activity regulated by a government entity;
 - (B) affidavit of the person, or of other persons who may know of that person's domicile;
 - (C) place of voter registration;
 - (D) location of residences owned, rented, or leased;
 - (E) location of storage of household goods;
 - (F) location of business owned or operated;
 - (G) residence of spouse and minor children or dependents;
 - (H) governments to which taxes are paid;
 - (I) whether the person has claimed residence in another location for the purpose of obtaining benefits provided by the governments in that location;
- (31) "fishing site" means a structure or vessel used by a CFEC permit holder for providing shelter in support of the operation of stationary net gear;

(32) "net gear site" means the in-water location of stationary net gear;

(33) "seine vessel" means the largest vessel, as determined by keel length, used to operate a seine and the vessel from which the seine is set, and to which the seine is retrieved to;

(34) "demersal shelf rockfish" means any or all of the following *Sebastes* species:

- (A) repealed 4/30/91;
- (B) *S. pinniger* (Canary);
- (C) *S. nebulosus* (China);
- (D) *S. caurinus* (Copper);
- (E) *S. maliger* (Quilback);
- (F) repealed 4/30/91;
- (G) *S. helvomaculatus* (Rosethorn);
- (H) repealed 4/30/91;
- (I) *S. nigrocinctus* (Tiger);
- (J) *S. ruberrimus* (Yelloweye);
- (K) repealed 4/4/97;

(35) "onboard observer" means a representative of the Departments of Fish and Game or Public Safety who

(A) is certified by the Department of Fish and Game as having completed minimum training requirements;

(B) is living on board a fishing or processing vessel for all or part of the period the vessel is at sea; and

(C) is monitoring fishing or processing activities and collecting harvest data essential to management and enforcement;

(36) "rockfish" means all species of the genus *Sebastes*;

(37) "pelagic shelf rockfish" means any or all of the following *Sebastes* species:

- (A) *S. ciliatus* (Dark);
- (B) *S. entomelas* (Widow);
- (C) *S. flavidus* (Yellowtail);
- (D) *S. melanops* (Black);
- (E) *S. diaconus* (Deacon);
- (F) *S. variabilis* (Dusky);

(38) "slope rockfish" means any species of the genus *Sebastes* not specified as either demersal shelf rockfish or pelagic shelf rockfish;

(39) "thornyhead rockfish" or "idiot rockfish" means all species of the genus *Sebastes*;

(40) "weathervane scallop" means the species *Patinopecten caurinus*;

(41) "mile" means

(A) a nautical mile when used in reference to marine waters; or

(B) a statute mile when used in reference to fresh water;

(42) "miscellaneous shellfish" means all shellfish and marine invertebrates, except shrimp, and king, Tanner, and Dungeness crab;

(43) "total allowable catch" or "TAC" means the annual harvest quota or the retainable catch allowed for a species or species group;

(44) "individual fishing quota" or "IFQ" means the annual allocation of pounds for harvest that represents a quota share holder's percentage of the total allowable catch;

(45) "handicraft" means a finished product in which the shape or appearance of the natural material has been substantially changed by skillful use of the hands, such as by sewing, carving, etching, scrimshawing, painting, or other means, and which has substantially greater monetary and aesthetic value than the unaltered natural material alone.

(b) Beginning April 15, 2017, in AS 16.05.835, "anchor roller" means a device used solely in aid of deploying and retrieving anchor gear and does not provide any additional flotation, planing surface, sea keeping ability, buoyancy, deck space, or structural support to the vessel.

5 AAC 39.995. Water depth Unless otherwise specified, water depths in 5 AAC 01 - 5 AAC 39 are to be measured from mean lower low water.

5 AAC 39.997. Abbreviations and symbols (a) The abbreviations a.m. and p.m. indicate antemeridian and postmeridian respectively for either Standard Time or Daylight Saving Time in conformance with the official time in use for Alaska.

(b) The symbols °, ', " indicate degrees, minutes, and seconds, respectively, of longitude or latitude, based upon the North American datum of 1983.

(c) Lat. and long. indicate latitude and longitude, respectively.

(d) E. indicates east, N. indicates north, W. indicates west, and S. indicates south. All bearings and directions shall be construed to be true bearings and true directions.

GENERAL PROVISIONS

(e) ADF&G is the abbreviation for Alaska Department of Fish and Game.

(f) CFEC is the abbreviation for the Commercial Fisheries Entry Commission.

Notes:

Title 16. Fish and Game. Chapter 05. Fish and Game Code Definitions.

Article 1. The Department of Fish and Game.

Sec. 16.05.055. On-board observer program. (a) The commissioner may enter into appropriate contracts and agreements with agencies, such as the National Marine Fisheries Service, the North Pacific Fishery Management Council, and the International Pacific Halibut Commission, designed to ensure that on-board observer programs conducted in the fisheries of the state are coordinated and consistent with each other for vessels operating in state and federal water.

(b) The master of a vessel, as a condition of participating in a fishery for which an on-board observer program is authorized by the Board of Fisheries under AS 16.05.251, shall consent in writing to the placement of an observer aboard the vessel.

Sec. 16.05.060. Emergency orders. (a) This chapter does not limit the power of the commissioner or an authorized designee, when circumstances require, to summarily open or close seasons or areas or to change weekly closed periods on fish or game by means of emergency orders.

(b) The commissioner or an authorized designee may, under criteria adopted by the Board of Fisheries, summarily increase or decrease sport fish bag limits or modify methods of harvest for sport fish by means of emergency orders.

(c) An emergency order has the force and effect of law after field announcement by the commissioner or an authorized designee. An emergency order adopted under this section is not subject to AS 44.62 (Administrative Procedure Act).

Sec. 16.05.070. Regulations as evidence. Regulations of a board and of the commissioner, including emergency openings and closures, are admissible as evidence in the courts of the state in accordance with AS 44.62 (Administrative Procedure Act).

Sec. 16.05.080. Limitation of power. Nothing in this chapter authorizes the department or a board to change the amount of fees or licenses.

Sec. 16.05.160. Duty to arrest. Each peace officer designated in AS 16.05.150 shall arrest a person violating a provision of this title except AS 16.51 and AS 16.52, or any regulation adopted under this title except AS 16.51 and AS 16.52, in the peace officer's presence or view, and shall take the person for examination or trial before an officer or court of competent jurisdiction unless in the judgment of the peace officer it would be in the state's best interest to issue a warning or a citation under AS 16.05.165.

Sec. 16.05.165. Form and issuance of citation. (a) When a peace officer stops or contacts a person concerning a violation of this title except AS 16.51 and AS 16.52 or of a regulation adopted under this title except AS 16.51 and AS 16.52 that is a misdemeanor, the peace officer may, in the officer's discretion, issue a citation to the person as provided in AS 12.25.175 — 12.25.230.

(b) The supreme court shall specify by rule or order those misdemeanors that are appropriate for disposition without court appearance, and shall establish a schedule of bail amounts. Before establishing or amending the schedule of bail amounts required by this subsection, the supreme court shall appoint and consult with an advisory committee consisting of two law enforcement officers of the Department of Public Safety engaged in fish and wildlife protection, two representatives of the Department of Fish and Game, two district court judges, and the chairpersons of the House and Senate Judiciary Committees of the legislature. The maximum bail amount for an offense may not exceed the maximum fine specified by law for that offense. If the misdemeanor for which the citation is issued may be disposed of without court appearance, the issuing peace officer shall write on the citation the amount of bail applicable to the violation.

(c) If a person cited for a misdemeanor for which a bail amount has been established under (b) of this section does not contest the citation, the person may, on or before the 30th day after the date of the citation, mail or personally deliver to the clerk of the court in which the citation is filed by the peace officer

(1) the amount of bail indicated on the citation for that offense; and

(2) a copy of the citation indicating that the right to an appearance is waived, a plea of no contest is entered, and the bail is forfeited.

(d) When bail has been forfeited under (c) of this section, a judgment of conviction shall be entered. Forfeiture of bail and all seized items is a complete satisfaction for the misdemeanor. The clerk of the court accepting the bail shall provide the offender with a receipt stating that fact if requested.

(e) A person cited under this section is guilty of failure to obey a citation under AS 12.25.230 if the person fails to pay the bail amount established under (b) of this section or fails to appear in court as required.

(f) Notwithstanding other provisions of law, if a person cited for a misdemeanor for which a bail amount has been established under (b) of this section appears in court and is found guilty, the penalty that is imposed for the offense may not exceed the bail amount for that offense established under (b) of this section.

Sec. 16.05.170. Power to execute warrant. Each peace officer designated in AS 16.05.150 may execute a warrant or other process issued by an officer or court of competent jurisdiction for the enforcement of this title except AS 16.51 and AS 16.52, and may, with a search warrant, search any place at any time. The judge of a court having jurisdiction may, upon proper oath or affirmation showing probable cause, issue a warrant in all cases.

Sec. 16.05.180. Power to search without warrant. Each peace officer designated in AS 16.05.150 may without a warrant search any thing or place if the search is reasonable or is not protected from searches and seizures without warrant within the meaning of art. I, § 14, Alaska State Constitution, which specifically enumerates “persons, houses and other property, papers and effects.” However, before a search without warrant is made a signed written statement by the person making the search shall be submitted to the person in

control of the property or object to be searched, stating the reason the search is being conducted. A written receipt shall be given by the person conducting the search for property which is taken as a result of the search. The enumeration of specific things does not limit the meaning of words of a general nature.

Sec. 16.05.190. Seizure and disposition of equipment. Guns, traps, nets, fishing tackle, boats, aircraft, automobiles or other vehicles, sleds, and other paraphernalia used in or in aid of a violation of this chapter or a regulation of the department may be seized under a valid search, and all fish and game, or parts of fish and game, or nests or eggs of birds, taken, transported, or possessed contrary to the provisions of this chapter or a regulation of the department shall be seized by any peace officer designated in AS 16.05.150. Upon conviction of the offender or upon judgment of the court having jurisdiction that the item was taken, transported, or possessed in violation of this chapter or a regulation of the department, all fish and game, or parts of them are forfeited to the state and shall be disposed of as directed by the court. If sold, the proceeds of the sale shall be transmitted to the proper state officer for deposit in the general fund. Guns, traps, nets, fishing tackle, boats, aircraft, or other vehicles, sleds, and other paraphernalia seized under the provisions of this chapter or a regulation of the department, unless forfeited by order of the court, shall be returned, after completion of the case and payment of the fine, if any.

Sec. 16.05.195. Forfeiture of equipment. (a) Guns, traps, nets, fishing gear, vessels, aircraft, other motor vehicles, sleds, and other paraphernalia or gear used in or in aid of a violation of this title or AS 08.54, or regulation adopted under this title or AS 08.54, and all fish and game or parts of fish and game or nests or eggs of birds taken, transported, or possessed contrary to the provisions of this title or AS 08.54, or regulation adopted under this title or AS 08.54, may be forfeited to the state

(1) upon conviction of the offender in a criminal proceeding of a violation of this title or AS 08.54 in a court of competent jurisdiction; or

(2) upon judgment of a court of competent jurisdiction in a proceeding in rem that an item specified above was used in or in aid of a violation of this title or AS 08.54 or a regulation adopted under this title or AS 08.54.

(b) Items specified in (a) of this section may be forfeited under this section regardless of whether they were seized before instituting the forfeiture action.

(c) An action for forfeiture under this section may be joined with an alternative action for damages brought by the state to recover damages for the value of fish and game or parts of them or nests or eggs of birds taken, transported, or possessed contrary to the provisions of this title or a regulation adopted under it.

(d) It is no defense that the person who had the item specified in (a) of this section in possession at the time of its use and seizure has not been convicted or acquitted in a criminal proceeding resulting from or arising out of its use.

(e) Forfeiture may not be made of an item subsequently sold to an innocent purchaser in good faith. The burden of proof as to whether the purchaser purchased the item innocently and in good faith shall be on the purchaser.

(f) An item forfeited under this section shall be disposed of at the discretion of the department. Before the department disposes of an aircraft it shall consider transfer of ownership of the aircraft to the Alaska Wing, Civil Air Patrol.

Sec. 16.05.200. Power to administer oaths. Each peace officer designated in AS 16.05.150 may administer to or take from any person, an oath, affirmation, or affidavit when it is for use in a prosecution or proceeding under or in the enforcement of this chapter.

Sec. 16.05.241. Powers excluded. The boards have regulation-making powers as set out in this chapter, but do not have administrative, budgeting, or fiscal powers.

Sec. 16.05.251. Regulations of the Board of Fisheries. (a) The Board of Fisheries may adopt regulations it considers advisable in accordance with AS 44.62 (Administrative Procedure Act) for

(1) setting apart fish reserve areas, refuges, and sanctuaries in the waters of the state over which it has jurisdiction, subject to the approval of the legislature;

(2) establishing open and closed seasons and areas for the taking of fish; if consistent with resource conservation and development goals, the board may adopt regulations establishing restricted seasons and areas necessary for

(A) persons 60 years of age and older to participate in sport, personal use, or subsistence fishing; or

(B) residents under 18 years of age and nonresidents under 16 years of age to participate in sport fishing;

(3) setting quotas, bag limits, harvest levels, and sex and size limitations on the taking of fish;

(4) establishing the means and methods employed in the pursuit, capture, and transport of fish;

(5) establishing marking and identification requirements for means used in pursuit, capture, and transport of fish;

(6) classifying as commercial fish, sport fish, guided sport fish, personal use fish, subsistence fish, or predators or other categories essential for regulatory purposes;

(7) watershed and habitat improvement, and management, conservation, protection, use, disposal, propagation, and stocking of fish;

(8) investigating and determining the extent and effect of disease, predation, and competition among fish in the state, exercising control measures considered necessary to the resources of the state;

(9) prohibiting and regulating the live capture, possession, transport, or release of native or exotic fish or their eggs;

(10) establishing seasons, areas, quotas, and methods of harvest for aquatic plants;

(11) establishing the times and dates during which the issuance of fishing licenses, permits, and registrations and the transfer of permits and registrations between registration areas is allowed; however, this paragraph does not apply to permits issued or transferred under AS 16.43;

(12) regulating commercial, sport, guided sport, subsistence, and personal use fishing as needed for the conservation, development, and utilization of fisheries;

(13) requiring, in a fishery, observers on board fishing vessels, as defined in AS 16.05.475(d), that are registered under the laws of the state, as defined in AS 16.05.475(c), after making a written determination that an onboard observer program

(A) is the only practical data-gathering or enforcement mechanism for that fishery;

(B) will not unduly disrupt the fishery;

(C) can be conducted at a reasonable cost; and

(D) can be coordinated with observer programs of other agencies, including the National Marine Fisheries Service, North Pacific Fishery Management Council, and the International Pacific Halibut Commission;

(14) establishing nonexclusive, exclusive, and superexclusive registration and use areas for regulating commercial fishing;

(15) regulating resident or nonresident sport fishermen as needed for the conservation, development, and utilization of fishery resources;

(16) requiring unlicensed fishing vessels present in or transiting the waters of the state to report to the department the quantity, species, and origin of fish on board; in this paragraph, “unlicensed fishing vessel” means a fishing vessel that is not licensed under AS 16.05.490 — 16.05.530;

(17) promoting fishing and preserving the heritage of fishing in the state.

(b) [Repealed, § 12 ch 52 SLA 1986.]

(c) If the Board of Fisheries denies a petition or proposal to amend, adopt, or repeal a regulation, the board, upon receiving a written request from the sponsor of the petition or proposal, shall in addition to the requirements of AS 44.62.230 provide a written explanation for the denial to the sponsor not later than 30 days after the board has officially met and denied the sponsor’s petition or proposal, or 30 days after receiving the request for an explanation, whichever is later.

(d) Regulations adopted under (a) of this section must, consistent with sustained yield and the provisions of AS 16.05.258, provide a fair and reasonable opportunity for the taking of fishery resources by personal use, sport, and commercial fishermen.

(e) The Board of Fisheries may allocate fishery resources among personal use, sport, guided sport, and commercial fisheries. The board shall adopt criteria for the allocation of fishery resources and shall use the criteria as appropriate to particular allocation decisions. The criteria may include factors such as

(1) the history of each personal use, sport, guided sport, and commercial fishery;

(2) the number of residents and nonresidents who have participated in each fishery in the past and the number of residents and nonresidents who can reasonably be expected to participate in the future;

(3) the importance of each fishery for providing residents the opportunity to obtain fish for personal and family consumption;

(4) the availability of alternative fisheries resources;

(5) the importance of each fishery to the economy of the state;

(6) the importance of each fishery to the economy of the region and local area in which the fishery is located;

(7) the importance of each fishery in providing recreational opportunities for residents and nonresidents.

(f) Except as expressly provided in AS 16.40.120(e) and 16.40.130, the Board of Fisheries may not adopt regulations or take action regarding the issuance, denial, or conditioning of a permit under AS 16.40.100 or 16.40.120, the construction or operation of a farm or hatchery required to have a permit under AS 16.40.100, or a harvest with a permit issued under AS 16.40.120.

(g) The Board of Fisheries shall consider a request of the commissioner for approval of a petition to the Alaska Commercial Fisheries Entry Commission to establish a moratorium on new entrants into a commercial fishery under AS 16.43.225 at the board's next regular or special meeting that follows the receipt by the board of the request for approval of the petition and that allows time for the notice required under this subsection. The board may consider the request of the commissioner for approval of the petition only after 15 days' public notice of the board's intention to consider approval of the petition. The board shall consider whether the commissioner, in support of the request for approval of the petition, has adequately shown that the fishery meets requirements for a moratorium on new entrants under AS 16.05.050. The board by a majority vote of its members at the meeting when the petition must be considered shall approve or disapprove the petition.

(h) The Board of Fisheries shall adopt by regulation a policy for the management of

mixed stock fisheries. The policy shall provide for the management of mixed stock fisheries in a manner that is consistent with sustained yield of wild fish stocks.

(i) Notwithstanding AS 16.43.140(c)(5), the board may adopt, at a regularly scheduled meeting at which the board considers regulatory proposals for management of a specific salmon fishery, a regulation to allow a person who holds two entry permits for that salmon fishery an additional fishing opportunity appropriate for that particular fishery.

Sec. 16.05.259. No subsistence defense. In a prosecution for the taking of fish or game in violation of a statute or regulation, it is not a defense that the taking was done for subsistence uses.

Sec. 16.05.260. Advisory committees. The Board of Fisheries and the Board of Game may adopt regulations they consider advisable in accordance with AS 44.62 (Administrative Procedure Act) establishing, at places in the state designated by the individual boards, advisory committees to be composed of persons well informed on the fish or game resources of the locality. The boards shall set the number and terms of each of the members of the advisory committees, shall delegate one member of each committee as chairman, and shall give the chairman authority to hold public hearings on fish or game matters. Recommendations from the advisory committees shall be forwarded to the appropriate board for their consideration but if the Board of Fisheries or the Board of Game chooses not to follow the recommendations of the local advisory committee the appropriate board shall inform the appropriate advisory committee of this action and state the reasons for not following the recommendations. The commissioner shall delegate authority to advisory committees for emergency closures during established seasons. The commissioner is empowered to set aside and make null and void only opening of seasons set by the advisory committees under this section. The appropriate board shall adopt the necessary regulations governing these closures.

Sec. 16.05.270. Delegation of authority to commissioner. For the purpose of administering AS 16.05.251 and 16.05.255, each board may delegate authority to the commissioner to act in its behalf. If there is a conflict between the board and the commissioner on proposed regulations, public hearings shall be held concerning the issues in question. If, after the public hearings, the board and the commissioner continue to disagree, the issue shall be certified in writing by the board and the commissioner to the governor who shall make a decision. The decision of the governor is final.

Article 4. Licensing of Commercial Fishing Crewmembers and Vessels.

Sec. 16.05.440. Expiration date for licenses. Licenses issued under AS 16.05.440 — 16.05.723 expire at the close of December 31 following their issuance or, for licenses that are valid for two years, after December 31 of the year after the year of issuance, and shall be renewed upon application and payment of the license fees required by AS 16.05.440 — 16.05.723.

Sec. 16.05.450. Issuance of licenses; disclosure for child support purposes. (a) The commissioner or an authorized agent shall issue a crewmember fishing license under AS 16.05.480 to each qualified person who files a written application at a place in the state designated by the commissioner, containing the reasonable information required by the

commissioner together with the required fee. The commissioner shall require the reporting of the applicant's social security number on the application. The application shall be simple in form and shall be executed by the applicant under the penalty of unsworn falsification in the second degree.

(b) The Alaska Commercial Fisheries Entry Commission shall issue a vessel license under AS 16.05.490 to each qualified vessel for which a written application has been filed, at a place in the state designated by the commission, containing the reasonable information required by the commission together with the required fee. The application shall be simple in form and shall be executed by the applicant under the penalty of unsworn falsification in the second degree.

(c) [Repealed, § 19 ch 105 SLA 1977.]

(d) Upon request, the commissioner shall provide a social security number provided under (a) of this section to the child support services agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law.

Sec. 16.05.475. Registration of fishing vessels. (a) A person may not employ a fishing vessel in the water of this state unless it is registered under the laws of the state. Vessels registered under the laws of another state, and persons residing in another state, are not excused from this provision.

(b) The term "employ", as used in this section, shall be defined by the Board of Fisheries through the adoption of regulations under AS 44.62 (Administrative Procedure Act). The definition may include any activities involving the use or navigation of fishing vessels.

(c) The term "registered under the laws of the state", as used in this section, shall be defined by the Board of Fisheries through the adoption of regulations under AS 44.62 (Administrative Procedure Act). The definition may include any existing requirements regarding registration, licenses, permits, and similar matters imposed by law or regulation together with modifications of them and with any additional requirements the board finds necessary to maximize the authority of the state to apply and enforce fisheries regulations under 16 U.S.C. 1801-1882 (Magnuson-Stevens Fishery Conservation and Management Act of 1976 (P.L. 94-265, 90 Stat. 331)).

(d) In this section "fishing vessel" means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type which is normally used for

(1) fishing, or

(2) aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing, including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing.

Sec. 16.05.480. Commercial fishing license; disclosure for child support purposes. (a) A person engaged in commercial fishing shall obtain a commercial fishing license and

shall retain the license in possession and readily available for inspection during fishing operations. An entry permit or interim-use permit entitles the holder to participate as a gear operator in the fishery for which the permit is issued and to participate as a crewmember in any fishery. A crewmember fishing license is not transferable and entitles the holder to participate as a crewmember in any fishery.

(b) A person applying for a commercial fishing license under this section shall provide the person's social security number. A person applying for a resident commercial fishing license under this section shall also provide proof of residence that the department requires by regulation.

(c) [Repealed, § 12 ch 123 SLA 1978.]

(d) Upon request, the department or the Alaska Commercial Fisheries Entry Commission shall provide a social security number provided by an applicant for a license under this section to the child support services agency created in AS 25.27.010, or the child support agency of another state, for child support purposes authorized under law.

(e) Except as provided under AS 16.05.470 and AS 23.35.060, fees collected from the sale of crewmember fishing licenses under this section may be appropriated into the fish and game fund.

(f) [Repealed, § 7 ch 27 SLA 2001.]

(g) A resident engaged in commercial fishing who is 11 years of age or older and who does not hold an entry permit or an interim-use permit shall, except as provided in (i) of this section, pay a fee of \$60 for an annual crewmember fishing license. A resident engaged in commercial fishing who is less than 11 years of age and who does not hold an entry permit or an interim-use permit shall pay an annual fee of \$5.

(h) A nonresident engaged in commercial fishing who is 11 years of age or older and who does not hold an entry permit or an interim-use permit shall, except as provided in (i) of this section, pay a base fee of \$60 for an annual crewmember fishing license, plus an amount, established by the department by regulation, that is as close as is practicable to the maximum allowed by law. A nonresident engaged in commercial fishing who is less than 11 years of age and who does not hold an entry permit or an interim-use permit shall pay an annual base fee of \$5 plus an amount, established by the department by regulation, that is as close as is practicable to the maximum allowed by law.

(i) Notwithstanding (g) and (h) of this section, a resident or nonresident engaged in commercial fishing who does not hold an entry permit or an interim-use permit may obtain one seven-day crewmember fishing license under this subsection annually. A person who obtains a seven-day license is not eligible for another seven-day license in the same license year; however, if a person who obtains a seven-day license pays the full fee for an annual crewmember fishing license under (g) or (h) of this section during the same license year, the person is entitled to receive a refund of the fee for the seven-day license. The department shall adopt regulations establishing a refund procedure. During the period for which the seven-day license is valid, a person who holds a seven-day license may not engage in fishing with a rod and reel while present on a commercial fishing vessel. The fee for a seven-day license is \$30.

(j) In this section, “commercial fishing license” includes an entry permit and an interim-use permit issued under AS 16.43 and a crewmember fishing license.

Sec. 16.05.490. Vessel license. (a) As a condition to delivery or landing of fish or engaging in commercial fishing in the state, a license is required for a commercial vessel.

Sec. 16.05.495. Vessel license exemption. A vessel used exclusively for the commercial capture of salmon in commercial salmon administrative management areas that include state water between the latitude of Point Romanof and the latitude of Cape Newenham, and state water surrounding Nunivak Island, or at a set net site, is exempt from the licensing requirements of AS 16.05.490.

Sec. 16.05.510. Unlicensed vessel unlawful. A person may not operate a vessel to which AS 16.05.490 — 16.05.530 apply without a vessel license, whether the absence of a vessel license results from initial failure to purchase or from another reason.

Sec. 16.05.520. Number plate. (a) The vessel license includes a permanent number plate. The number plate shall be accompanied by a tab affixed to the number plate designating the year to be fished. A number plate is not transferable, and the number plate shall be considered a permanent fixture upon the vessel upon which the number plate is originally placed. The number plate shall be securely fastened well forward on the port side in plain sight. On a vessel with a superstructure, the number plate shall be fastened on the port side of the superstructure. A number plate remains the property of the state. The Alaska Commercial Fisheries Entry Commission may establish by regulation a reasonable fee for the initial issuance of a permanent number plate. If a permanent number plate is accidentally defaced, mutilated, destroyed, or lost, the person owning or operating the vessel shall immediately apply for and may obtain a duplicate upon furnishing the Alaska Commercial Fisheries Entry Commission with the pertinent facts and a payment of a reasonable fee established by the commission by regulation that is not less than \$2.

(b) If a vessel carrying a number plate is lost, destroyed, or sold, the owner shall immediately report the loss, destruction, or sale to the Alaska Commercial Fisheries Entry Commission.

Sec. 16.05.530. Renewal of vessel license. (a) Upon payment of the vessel license fee and filing of the name and address of the owner of the vessel or the owner’s authorized agent, the name and number of the vessel, a description of the vessel, the vessel license number, if any, the area to be fished, and other reasonable information required by the Alaska Commercial Fisheries Entry Commission, the commission shall issue a permanent number plate and a vessel license. If the vessel has a permanent number plate, the commission shall issue a vessel license and tab designating the year the license is valid. The tab shall be placed in the space provided on the permanent number plate.

(b) For calendar year 2006 and following years, the annual fee for a vessel license issued or renewed under this section is set according to the overall length, as defined by the United States Coast Guard, of the vessel under the following schedule:

(1) 0 — 25 feet\$24

| | |
|-------------------------------------|--------|
| (2) over 25 feet — 50 feet | \$60 |
| (3) over 50 feet — 75 feet | \$120 |
| (4) over 75 feet — 100 feet | \$225 |
| (5) over 100 feet — 125 feet | \$300 |
| (6) over 125 feet — 150 feet | \$375 |
| (7) over 150 feet — 175 feet | \$450 |
| (8) over 175 feet — 200 feet | \$525 |
| (9) over 200 feet — 225 feet | \$600 |
| (10) over 225 feet — 250 feet | \$675 |
| (11) over 250 feet — 275 feet | \$750 |
| (12) over 275 feet — 300 feet | \$825 |
| (13) over 300 feet | \$900. |

Sec. 16.05.665. Falsification of application for license. (a) A person who knowingly makes a false statement as to a material fact on an application for a license under AS 16.05.440 — 16.05.660 is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000, or by imprisonment for not more than six months, or by both.

(b) A license issued under AS 16.05.440 — 16.05.660 to a person convicted under (a) of this section is void.

(c) A person whose license is void under (a) and (b) of this section may not obtain another license of the same type for a period of not less than two nor more than three years from the date of conviction by the court.

Sec. 16.05.671. Transportation and sale of certain fish by an agent of the fisherman who caught the fish. (a) A person may transport and sell commercially taken fish as the agent of the commercial fisherman who caught the fish if the person holds a fish transporter permit issued by the commissioner under this section.

(b) The commissioner may issue a fish transporter permit to a natural person. A fish transporter permit authorizes the permittee to transport and sell commercially taken fish as the agent of the commercial fisherman who caught the fish. A fish transporter may not buy or process fish received for transport unless the fish transporter also holds the appropriate licenses, permits, and other authorizations required to buy or process fish.

(c) A person who applies for a fish transporter permit under this section shall provide the person's social security number to the department. Upon request of the child support services agency created in AS 25.27.010, or a child support agency of another state, the department shall provide a social security number provided by an applicant for a fish transporter permit under this section to that agency for child support purposes authorized under law.

(d) A commercial fisherman may authorize a fish transporter to transport and sell fish on behalf of the fisherman as the agent of the fisherman. The fish transporter shall complete a fish ticket in accordance with procedures prescribed by the department for each fisherman who transfers fish to the fish transporter. The fish ticket must accompany the fish transferred to the fish transporter while the fish are in possession of the fish

transporter. The fish transporter shall present the fish ticket for inspection upon request by a peace officer or representative of the commissioner. The fish transporter shall present the fish ticket to the buyer of the fish at the time of sale. The buyer of the fish shall complete the fish ticket by inserting the buyer's information as required by the department, including the weight or count of fish purchased. The buyer shall return a copy of the fish ticket to the commercial fisherman on whose behalf the fish are sold.

(e) A commercial fisherman who transfers fish to a fish transporter to transport and sell fish on behalf of the fisherman shall provide the fish transporter with all required information that the fisherman would have to provide to the buyer of the fish if the fisherman were to personally sell the fish to the buyer. The fish transporter who sells fish as the agent of a commercial fisherman shall provide all information to the buyer of the fish that the commercial fisherman would have to provide to the buyer if the fisherman were to personally sell the fish.

(f) A commercial fisherman may also hold a fish transporter permit. A commercial fisherman who holds a fish transporter permit may simultaneously transport or sell fish that the fisherman caught as well as fish caught by other commercial fishermen. A commercial fisherman who is simultaneously operating as a fish transporter shall physically possess

(1) the fish ticket completed under (d) of this section for the fish being transported or sold on behalf of another fisherman; and

(2) other documentation that may be prescribed by the commissioner by regulation.

(g) The commissioner may adopt regulations the commissioner considers necessary to implement this section. The regulations may not conflict with regulations or management plans adopted by the Board of Fisheries. The regulations may include

(1) criteria for determining areas or fisheries for which transporter permits may not be issued because

(A) fish transporter operations may alter harvest rates for the area or fishery to the extent that conservation of the resource is jeopardized, may significantly impair the ability of the department to accurately determine catch or effort levels, or may interfere with fishery management, allocation, or enforcement matters;

(B) a fishery is managed through allocations of the harvest to individuals, such as trip limits or quota shares; or

(C) combining of catches by multiple fishermen on a vessel may impair the ability of the department to accurately determine the incidental catch by each fisherman;

(2) requirements for timely and accurate reporting and record keeping; or

(3) procedures to maintain quality of harvested resources.

(h) Fish transferred to the possession of a fish transporter under the authority of this

section are property of the fisherman who caught the fish until the fish are sold to a buyer by the fish transporter on behalf of the fisherman.

(i) In this section, “fish” means fish legally harvested and retained in salmon, herring, or Pacific cod fisheries.

Sec. 16.05.675. Landing permits. (a) A person who does not hold a limited entry permit or interim-use permit issued under AS 16.43 or a fish transporter permit issued under AS 16.05.671 may not deliver or land fish in the state unless the person

(1) holds a valid federal permit to operate commercial fishing gear in the fishery conservation zone; and

(2) has been issued a landing permit by the Alaska Commercial Fisheries Entry Commission.

(b) The commissioner may by regulation establish eligibility requirements for the issuance of a landing permit.

(c) The commissioner may authorize the Alaska Commercial Fisheries Entry Commission to issue landing permits for a fishery if the commissioner has made a written finding that the issuance of landing permits for that fishery is consistent with state resource conservation and management goals.

Sec. 16.05.680. Unlawful practices. (a) It is unlawful for a person, or an agent or representative of the person,

(1) to employ, in the harvesting, transporting, or purchasing of fish, a fisherman who neither is licensed under AS 16.05.480 nor is the holder of a permit issued under AS 16.43;

(2) to purchase fish from a person who is not

(A) the holder of a limited entry, interim-use, or landing permit issued under AS 16.43;

(B) a fish transporter who is selling the fish as the agent of the holder of a limited entry, interim-use, or landing permit issued under AS 16.43; or

(C) exempt under AS 16.05.660; or

(3) to purchase fish from an association other than one to which a permit has been issued under AS 16.05.662.

(b) A person may not sell salmon that was not harvested under the authority of the entry permit, interim-use permit, or landing permit under which the salmon is sold. For purposes of this subsection, salmon sold by a fish transporter on behalf of the commercial fisherman who harvested the salmon is salmon harvested under the authority of the limited entry, interim-use, or landing permit under which the salmon is sold.

Sec. 16.05.690. Record of purchases. (a) Each buyer of fish shall keep a record of each purchase showing the name or number of the vessel from which the catch involved is taken, the date of landing, vessel license number, pounds purchased of each species, number of each species, and the Department of Fish and Game statistical area in which the fish were taken, and other information the department requires. Records may be kept on forms provided by the department. Each person charged with keeping the records shall report them to the department in accordance with regulations adopted by the department.

(b) A person may not knowingly enter false information on a fish ticket or supply false information to a person who is recording information on a fish ticket.

(c) [Repealed, § 1 ch 13 SLA 1997.]

Sec. 16.05.710. Suspension of commercial license and entry permit. (a) Upon the conviction of a person for a misdemeanor or felony violation of a commercial fishing law of this state, in a fishery other than a commercial salmon fishery, the court, in addition to other penalties imposed by law,

(1) may suspend one or more of the person's commercial fishing privileges and licenses for a period of not more than one year if the conviction is the person's first or second misdemeanor or felony conviction within a 10-year period for violating a commercial fishing law of this state, in a fishery other than a commercial salmon fishery, or another jurisdiction; or

(2) shall suspend one or more of the person's commercial fishing privileges and licenses for a period of not more than three years if the conviction is the person's third or subsequent misdemeanor or felony conviction within a 10-year period for violating a commercial fishing law of this state, in a fishery other than a commercial salmon fishery, or another jurisdiction.

(b) Upon a first conviction of a person for a violation of AS 11.46.120 — 11.46.130 in which the property is commercial fishing gear as defined in AS 16.43.990, the court shall, in addition to the penalty imposed by law, suspend one or more of the person's commercial fishing privileges and licenses for one year. Upon a second or subsequent conviction for a violation of AS 11.46.120 — 11.46.130 or a similar law of another jurisdiction in which the property is commercial fishing gear as defined in AS 16.43.990, the court shall, in addition to the penalty imposed by law, suspend one or more of the person's commercial fishing privileges and licenses for two years.

(c) If proceedings in which commercial fishing privileges or licenses may be suspended under this section are pending against a limited entry permit holder, the permit holder's limited entry permit may not be permanently transferred, unless allowed by order of the court in which the proceedings are pending, and a permanent transfer of the permit, unless allowed by order of the court, is void. During the period for which a limited entry permit or the permit holder's right to obtain a limited entry permit or to engage in an activity for which a limited entry permit is required is suspended under this section, a permit card may not be issued to the permit holder and the permit holder's permit may not be transferred or sold.

(d) In this section,

(1) “commercial fishing law” means a statute or regulation that regulates the conduct of a person engaged in commercial fishing activities by establishing requirements relating to fishing licenses and permits; catch records and reports; size, nature, or use of fishing vessels, sites, and gear; time, place, or manner of taking fishery resources; possession, transportation, sale, barter, or waste of fishery resources; or other aspects of commercial fishing;

(2) “commercial fishing license” means a limited entry permit or a crew member license;

(3) “commercial fishing privilege” means the privilege of participating in an activity for which a commercial fishing license is required and the privilege of obtaining a commercial fishing license;

(4) “limited entry permit” means an entry permit or an interim-use permit issued under AS 16.43.

Sec. 16.05.722. Strict liability commercial fishing penalties. (a) A person who without any culpable mental state violates AS 16.05.440 — 16.05.690, or a regulation of the Board of Fisheries or the department governing commercial fishing, is guilty of a violation and upon conviction is punishable by a fine of not more than

(1) \$3,000 for a first conviction;

(2) \$6,000 for a second conviction or for a subsequent conviction not described in (3) of this subsection; and

(3) \$9,000 for a third or subsequent conviction within a 10-year period.

(b) In addition, the court shall order forfeiture of any fish, or its fair market value, taken or retained as a result of the commission of the violation. For purposes of this subsection, it is a rebuttable presumption that all fish found on board a fishing vessel used in or in aid of a violation, or found at the fishing site, were taken or retained in violation of AS 16.05.440 — 16.05.690 or a commercial fisheries regulation of the Board of Fisheries or the department. It is the defendant’s burden to show by a preponderance of the evidence that fish on board or at the site were lawfully taken and retained.

(c) A person charged with a violation under this section is entitled to a trial by court but not by jury, and is not entitled to representation at public expense.

Sec. 16.05.723. Misdemeanor commercial fishing penalties. (a) A person who negligently violates AS 16.05.440 — 16.05.690, or a regulation of the Board of Fisheries or the department governing commercial fishing, is guilty of a misdemeanor and in addition to punishment under other provisions in this title, including AS 16.05.195 and 16.05.710, is punishable upon conviction by a fine of not more than \$15,000 or by imprisonment for not more than one year, or by both. In addition, the court shall order

forfeiture of any fish, or its fair market value, taken or retained as a result of the commission of the violation, and the court may forfeit any vessel and any fishing gear, including any net, pot, tackle, or other device designed or employed to take fish commercially, that was used in or in aid of the violation. Any fish, or its fair market value, forfeited under this subsection may not also be forfeited under AS 16.05.195. For purposes of this subsection, it is a rebuttable presumption that all fish found on board a fishing vessel used in or in aid of a violation, or found at the fishing site, were taken or retained in violation of AS 16.05.440 — 16.05.690 or a commercial fisheries regulation of the Board of Fisheries or the department, and it is the defendant's burden to show by a preponderance of the evidence that fish on board or at the site were lawfully taken and retained.

(b) If a person is convicted under this section of one of the following offenses, then, in addition to the penalties imposed under (a) of this section, the court may impose a fine equal to the gross value of the fish found on board or at the fishing site at the time of the violation:

(1) commercial fishing in closed waters;

(2) commercial fishing during a closed period or season;

(3) commercial fishing with unlawful gear, including a net, pot, tackle, or other device designed or employed to take fish commercially; or

(4) commercial fishing without a limited entry permit holder on board if the holder is required by law or regulation to be present.

(c) Upon a third misdemeanor conviction within a period of 10 years for an offense listed in (b) of this section or any combination of offenses listed in (b) of this section, the court shall impose, in addition to any penalties imposed under (a) of this section, a fine equal to three times the gross value of the fish found on board or at the fishing site at the time of the offense, or a fine equal to \$10,000, whichever is greater.

Sec. 16.05.735. Management of offshore fisheries. The state may assume management of a fishery in offshore water adjacent to the state in the absence of a federal fishery management plan for the fishery or in the event that a federal fishery management plan for the fishery delegates authority to the state to manage the fishery in the United States exclusive economic zone.

Article 6. Miscellaneous Provisions.

Sec. 16.05.800. Public nuisances. A net, seine, lantern, snare, device, contrivance, and material while in use, had and maintained for the purpose of catching, taking, killing, attracting, or decoying fish or game, contrary to law or regulation of a board or the commissioner, is a public nuisance and is subject to abatement.

Sec. 16.05.810. Burden of proof. The possession of fish or game or a part of fish or game, or a nest or egg of a bird during the time the taking of it is prohibited is prima facie evidence that it was taken, possessed, bought, or sold or transported in violation of this

chapter. The burden of proof is upon the possessor or claimant of it to overcome the presumption of illegal possession and to establish the fact that it was obtained and is possessed lawfully. This section does not apply

(1) during the first full 10 days after the time when a taking is prohibited, except as provided in (3) of this section;

(2) if the fish or game or part of fish or game is in a preserved condition whether frozen, smoked, canned, salted, pickled, or otherwise preserved; or

(3) with respect to crab aboard a commercial crab fishing vessel, during the first full three days after the time when a taking is prohibited.

Sec. 16.05.815. Confidential nature of certain reports and records. (a) Except as provided in (b) and (c) of this section, records required by regulations of the department concerning the landings of fish, shellfish, or fishery products, and annual statistical reports of fishermen, buyers, and processors required by regulation of the department are confidential and may not be released by the department or by the Alaska Commercial Fisheries Entry Commission except as set out in this subsection. The department may release the records and reports set out in this subsection to the Alaska Commercial Fisheries Entry Commission. The department and the Alaska Commercial Fisheries Entry Commission may release the records and reports set out in this subsection to the recipients identified in this subsection if the recipient, other than a recipient under (5) — (9) of this subsection, agrees to maintain the confidentiality of the records and reports. The department and the Alaska Commercial Fisheries Entry Commission may release

(1) any of the records and reports to the National Marine Fisheries Service and the professional staff of the North Pacific Fishery Management Council as required for preparation and implementation of the fishery management plans of the North Pacific Fishery Management Council within the exclusive economic zone;

(2) any of the records and reports to the professional staff of the Pacific States Marine Fisheries Commission who are employed in the Alaska Fisheries Information Network project for the purpose of exchanging information with users authorized by the department;

(3) any of the records and reports to the Department of Revenue to assist the department in carrying out its statutory responsibilities;

(4) records or reports of the total value purchased by each buyer to a municipality that levies and collects a tax on fish, shellfish, or fishery products if the municipality requires records of the landings of fish, shellfish, or fishery products to be submitted to it for purposes of verification of taxes payable;

(5) such records and reports as necessary to be in conformity with a court order;

(6) on request, the report of a person to the person whose fishing activity is the subject of the report, or to a designee of the person whose fishing activity is the subject of the report;

(7) on request, annual statistical reports of a fisherman, buyer, or processor to the fisherman, buyer, or processor whose activity is the subject of the report, or to a designee of the fisherman, buyer, or processor whose activity is the subject of the report;

(8) any of the records and reports to the Department of Public Safety for law enforcement purposes;

(9) fish tickets, fish ticket information, records required of sport fishing guides, and annual statistical reports of fishermen, buyers, and processors and information in those reports to the law enforcement personnel of the National Marine Fisheries Service and the National Oceanic and Atmospheric Administration for the purpose of enforcing fishery laws in waters of this state and in waters of the exclusive economic zone adjacent to this state;

(10) fish tickets, fish ticket information, and records required of sport fishing guides regarding halibut to the International Pacific Halibut Commission;

(11) any of the records and reports to the child support services agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law;

(12) any of the records and reports to the Department of Natural Resources to assist the department in carrying out its statutory responsibilities in regard to sport fishing operations and sport fishing guides within the Kenai River Special Management Area under AS 41.21.500 — 41.21.514; and

(13) fish ticket information and records or reports of the total value purchased by each fisherman, buyer, or processor to the National Marine Fisheries Service for the purpose of enforcing the industry fee system of a fishing capacity reduction program under 16 U.S.C. 1861a (Magnuson-Stevens Fishery Conservation and Management Act).

(b) Except as provided in (c) of this section, records or reports received by the department which do not identify individual fishermen, buyers, or processors or the specific locations where fish have been taken are public information.

(c) Crab stock abundance survey information that reveals crab catch by sampling location is confidential and is not subject to inspection or copying under AS 40.25.110 — 40.25.120 until the close of the fishing season for which the survey was conducted.

(d) Except as otherwise provided in this section, the department shall keep confidential (1) personal information contained in fish and wildlife harvest and usage data; and (2) the records of the department that concern (A) telemetry radio frequencies of monitored species; (B) denning sites; (C) nest locations of raptors that require special attention; (D) the specific location of animal capture sites used for wildlife research or management; and (E) the specific location of fish and wildlife species. The department may release records and information that are kept confidential under this subsection if the release is necessary to comply with a court order, if the requester is a state or federal agency, if the requester is under contract with the state or federal agency to conduct research on a fish

or wildlife population, or if the requester has been authorized by the department to perform specific activities and agrees to use the records and information only for purposes as provided under a contract or agreement with the department. After 25 years, the records and information that are kept confidential under this subsection become public records subject to inspection and copying under AS 40.25.110 — 40.25.140 unless the department determines that the release of the records or information may be detrimental to the fish or wildlife population. In this subsection, “personal information” has the meaning given in AS 40.25.350.

Sec. 16.05.831. Waste of salmon. (a) A person may not waste salmon intentionally, knowingly, or with reckless disregard for the consequences. In this section, “waste” means the failure to utilize the majority of the carcass, excluding viscera and sex parts, of a salmon intended for

- (1) sale to a commercial buyer or processor;
- (2) consumption by humans or domesticated animals; or
- (3) scientific, educational, or display purposes.

(b) The commissioner, upon request, may authorize other uses of salmon that would be consistent with maximum and wise use of the resource.

(c) A person who violates this section or a regulation adopted under it is punishable by a fine of not more than \$10,000, or by imprisonment for not more than six months, or by both. In addition, a person who violates this section is subject to a civil action by the state for the cost of replacing the salmon wasted.

Article 9. General Provisions.

Sec. 16.05.905. Activities by aliens prohibited. (a) Alien persons not lawfully admitted to the United States are prohibited from engaging in commercial fishing activities or taking marine mammals in the territorial waters of the state as they presently exist or may be extended in the future.

(b) An alien person who violates (a) of this section is guilty of a misdemeanor, and upon conviction is punishable by a confiscation and forfeiture of the fishing vessel used in the violation, or by imprisonment for not more than one year, or by fine of not more than \$10,000, or by all or any two of the foregoing punishments.

Sec. 16.05.920. Prohibited conduct generally. (a) Unless permitted by AS 16.05 — AS 16.40 or by regulation adopted under AS 16.05 — AS 16.40, a person may not take, possess, transport, sell, offer to sell, purchase, or offer to purchase fish, game, or marine aquatic plants, or any part of fish, game, or aquatic plants, or a nest or egg of fish or game.

(b) A person may not knowingly disturb, injure, or destroy a notice, signboard, seal, tag, aircraft, boat, vessel, automobile, paraphernalia, equipment, building, or other improvement or property of the department used in the administration or enforcement of

this title except AS 16.51 and AS 16.52, or a poster or notice to the public concerning the provisions of this title except AS 16.51 and AS 16.52, or a regulation adopted under this title except AS 16.51 and AS 16.52, or a marker indicating the boundary of an area closed to hunting, trapping, fishing, or other special use under this title except AS 16.51 and AS 16.52. A person may not knowingly destroy, remove, tamper with, or imitate a seal or tag issued or used by the department or attached under its authority to a skin, portion, or specimen of fish or game, or other article for the purpose of identification or authentication in accordance with this title except AS 16.51 and AS 16.52 or a regulation adopted under this title except AS 16.51 and AS 16.52.

Sec. 16.05.930. Exempted activities. (a) This chapter does not prevent the collection or exportation of fish and game, a part of fish or game or a nest or egg of a bird for scientific or educational purposes, or for propagation or exhibition purposes under a permit that the department may issue and prescribe the terms thereof.

(b) This chapter does not prohibit a person from taking fish or game during the closed season, in case of dire emergency, as defined by regulation adopted by the appropriate board.

(c) AS 16.05.920 and 16.05.921 do not prohibit rearing and sale of fish from private ponds, the raising of wild animals in captivity for food, or the raising of game birds for the purpose of recreational hunting on game hunting preserves, under regulations adopted by the appropriate board. In this subsection, “animals” includes all animal life, including insects and bugs.

(d) Nondomestic animals of any species may not be transferred or transported from the state under (a) of this section unless approved by the Board of Game in regular or special meeting. Animals transferred or transported under (a) of this section shall be animals that are certified by the department to be surplus and unnecessary to the sustained yield management of the resource. Each application for a permit under (a) of this section shall be accompanied by a statement prepared by the department examining the probable environmental impact of the action.

(e) This chapter does not prevent the traditional barter of fish and game taken by subsistence hunting or fishing, except that the commissioner may prohibit the barter of subsistence-taken fish and game by regulation, emergency or otherwise, if a determination on the record is made that the barter is resulting in a waste of the resource, damage to fish stocks or game populations, or circumvention of fish or game management programs.

(f) A permit may not be required for possessing, importing, or exporting mink and fox for fur farming purposes.

(g) AS 16.05.330 — 16.05.723 do not apply to an activity authorized by a permit issued under AS 16.40.100 or 16.40.120, or to a person or vessel employed in an activity authorized by a permit issued under AS 16.40.100 or 16.40.120.

Sec. 16.05.940. Definitions. In AS 16.05 — AS 16.40,

(1) “**aquatic plant**” means any species of plant, excluding the rushes, sedges, and true grasses, growing in a marine aquatic or intertidal habitat;

(2) “**barter**” means the exchange or trade of fish or game, or their parts, taken for subsistence uses

(A) for other fish or game or their parts; or

(B) for other food or for nonedible items other than money if the exchange is of a limited and noncommercial nature;

(3) “**a board**” means either the Board of Fisheries or the Board of Game;

(4) “**commercial fisherman**” means an individual who fishes commercially for, takes, or attempts to take fish, shellfish, or other fishery resources of the state by any means, and includes every individual aboard a boat operated for fishing purposes who participates directly or indirectly in the taking of these raw fishery products, whether participation is on shares or as an employee or otherwise; however, this definition does not apply to anyone aboard a licensed vessel as a visitor or guest who does not directly or indirectly participate in the taking; “commercial fisherman” includes the crews of tenders or other floating craft used in transporting fish, but does not include processing workers on floating fish processing vessels who do not operate fishing gear or engage in activities related to navigation or operation of the vessel; in this paragraph “operate fishing gear” means to deploy or remove gear from state water, remove fish from gear during an open fishing season or period, or possess a gill net containing fish during an open fishing period;

(5) “**commercial fishing**” means the taking, fishing for, or possession of fish, shellfish, or other fishery resources with the intent of disposing of them for profit, or by sale, barter, trade, or in commercial channels; the failure to have a valid subsistence permit in possession, if required by statute or regulation, is considered prima facie evidence of commercial fishing if commercial fishing gear as specified by regulation is involved in the taking, fishing for, or possession of fish, shellfish, or other fish resources;

(6) “**commissioner**” means the commissioner of fish and game unless specifically provided otherwise;

(7) “**customary and traditional**” means the noncommercial, long-term, and consistent taking of, use of, and reliance upon fish or game in a specific area and the use patterns of that fish or game that have been established over a reasonable period of time taking into consideration the availability of the fish or game;

(8) “**customary trade**” means the limited noncommercial exchange, for minimal amounts of cash, as restricted by the appropriate board, of fish or game resources; the terms of this paragraph do not restrict money sales of furs and furbearers;

(9) “**department**” means the Department of Fish and Game unless specifically

provided otherwise;

(10) “**domestic mammals**” include musk oxen, bison, and reindeer, if they are lawfully owned;

(11) “**domicile**” means the true and permanent home of a person from which the person has no present intention of moving and to which the person intends to return whenever the person is away; domicile may be proved by presenting evidence acceptable to the boards of fisheries and game;

(12) “**fish**” means any species of aquatic finfish, invertebrate, or amphibian, in any stage of its life cycle, found in or introduced into the state, and includes any part of such aquatic finfish, invertebrate, or amphibian;

(13) “**fish derby**” means a contest in which prizes are awarded for catching fish;

(14) “**fish or game farming**” means the business of propagating, breeding, raising, or producing fish or game in captivity for the purpose of marketing the fish or game or their products, and “**captivity**” means having the fish or game under positive control, as in a pen, pond, or an area of land or water that is completely enclosed by a generally escape-proof barrier; in this paragraph, “fish” does not include shellfish, as defined in AS 16.40.199;

(15) “**fish stock**” means a species, subspecies, geographic grouping, or other category of fish manageable as a unit;

(16) “**fish transporter**” means a natural person who holds a fish transporter permit issued under AS 16.05.671;

(17) “**fishery**” means a specific administrative area in which a specific fishery resource is taken with a specific type of gear; however, the Board of Fisheries may designate a fishery to include more than one specific administrative area, type of gear, or fishery resource; in this paragraph

(A) “**gear**” means the specific apparatus used in the harvest of a fishery resource; and

(B) “**type of gear**” means an identifiable classification of gear and may include

(i) classifications for which separate regulations are adopted by the Board of Fisheries or for which separate gear licenses were required by former AS 16.05.550 — 16.05.630; and

(ii) distinct subclassifications of gear such as “power” troll gear and “hand” troll gear or sport gear and guided sport gear;

(18) “**fur dealing**” means engaging in the business of buying, selling, or trading in animal skins, but does not include the sale of animal skins by a trapper or hunter who has legally taken the animal, or the purchase of animal skins by a person, other than a fur

dealer, for the person's own use;

(19) "**game**" means any species of bird, reptile, and mammal, including a feral domestic animal, found or introduced in the state, except domestic birds and mammals; and game may be classified by regulation as big game, small game, fur bearers or other categories considered essential for carrying out the intention and purposes of AS 16.05 — AS 16.40;

(20) "**game population**" means a group of game animals of a single species or subgroup manageable as a unit;

(21) "**hunting**" means the taking of game under AS 16.05 — AS 16.40 and the regulations adopted under those chapters;

(22) "**nonresident**" means a person who is not a resident of the state;

(23) "**nonresident alien**" means a person who is not a citizen of the United States and whose permanent place of abode is not in the United States;

(24) "**operator**" means the individual by law made responsible for the operation of the vessel;

(25) "**person with developmental disabilities**" means a person who presents to the department an affidavit signed by a physician licensed to practice medicine in the state stating that the person is experiencing a severe, chronic disability

(A) attributable to a mental or physical impairment or a combination of mental and physical impairments;

(B) that is manifested before the person reaches 18 years of age;

(C) that is likely to continue indefinitely;

(D) that results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency;

(E) that reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services that are of lifelong or extended duration and are individually planned and coordinated;

(F) and that the person is not a danger to themselves or others; and

(G) and that the person does not suffer from a mental illness; in this subparagraph, "mental illness" means an organic, mental, or emotional impairment that has substantial adverse effects on a person's ability to exercise conscious control of the person's actions or ability to perceive reality or to reason or understand.

(26) “**person with physical disabilities**” means a person who presents to the department either written proof that the person receives at least 70 percent disability compensation from a government agency for a physical disability or an affidavit signed by a physician licensed to practice medicine in the state stating that the person is at least 70 percent physically disabled;

(27) “**personal use fishing**” means the taking, fishing for, or possession of finfish, shellfish, or other fishery resources, by Alaska residents for personal use and not for sale or barter, with gill or dip net, seine, fish wheel, long line, or other means defined by the Board of Fisheries;

(28) “**resident**” means

(A) a person who for the 12 consecutive months immediately preceding the time when the assertion of residence is made has maintained the person’s domicile in the state and who is neither claiming residency in another state, territory, or country nor obtaining benefits under a claim of residency in another state, territory, or country;

(B) a partnership, association, joint stock company, trust, or corporation that has its main office or headquarters in the state; a natural person who does not otherwise qualify as a resident under this paragraph may not qualify as a resident by virtue of an interest in a partnership, association, joint stock company, trust, or corporation;

(C) a member of the military service, or United States Coast Guard, who has been stationed in the state for the 12 consecutive months immediately preceding the time when the assertion of residence is made;

(D) a person who is the dependent of a resident member of the military service, or the United States Coast Guard, and who has lived in the state for the 12 consecutive months immediately preceding the time when the assertion of residence is made; or

(E) an alien who for the 12 consecutive months immediately preceding the time when the assertion of residence is made has maintained the person’s domicile in the state and who is neither claiming residency in another state, territory, or country nor obtaining benefits under a claim of residency in another state, territory, or country;

(29) “**rural area**” means a community or area of the state in which the noncommercial, customary, and traditional use of fish or game for personal or family consumption is a principal characteristic of the economy of the community or area;

(30) “**seizure**” means the actual or constructive taking or possession of real or personal property subject to seizure under AS 16.05 — AS 16.40 by an enforcement or investigative officer charged with enforcement of the fish and game laws of the state;

(31) “**sport fishing**” means the taking of or attempting to take for personal use, and not for sale or barter, any fresh water, marine, or anadromous fish by hook and line held in the hand, or by hook and line with the line attached to a pole or rod which is held in the hand or closely attended, or by other means defined by the Board of Fisheries;

(32) “**subsistence fishing**” means the taking of, fishing for, or possession of fish, shellfish, or other fisheries resources by a resident domiciled in a rural area of the state for subsistence uses with gill net, seine, fish wheel, long line, or other means defined by the Board of Fisheries;

(33) “**subsistence hunting**” means the taking of, hunting for, or possession of game by a resident domiciled in a rural area of the state for subsistence uses by means defined by the Board of Game;

(34) “**subsistence uses**” means the noncommercial, customary and traditional uses of wild, renewable resources by a resident domiciled in a rural area of the state for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation, for the making and selling of handicraft articles out of nonedible by-products of fish and wildlife resources taken for personal or family consumption, and for the customary trade, barter, or sharing for personal or family consumption; in this paragraph, “family” means persons related by blood, marriage, or adoption, and a person living in the household on a permanent basis;

(35) “**take**” means taking, pursuing, hunting, fishing, trapping, or in any manner disturbing, capturing, or killing or attempting to take, pursue, hunt, fish, trap, or in any manner capture or kill fish or game;

(36) “**taxidermy**” means tanning, mounting, processing, or other treatment or preparation of fish or game, or any part of fish or game, as a trophy, for monetary gain, including the receiving of the fish or game or parts of fish or game for such purposes;

(37) “**trapping**” means the taking of mammals declared by regulation to be fur bearers;

(38) “**vessel**” means a floating craft powered, towed, rowed, or otherwise propelled, which is used for delivering, landing, or taking fish within the jurisdiction of the state, but does not include aircraft.

Chapter 10. Fisheries and Fishing Regulations.

Article 2. Interference with Commercial Fishing Gear.

Sec. 16.10.055. Interference with commercial fishing gear. A person who wilfully or with reckless disregard of the consequences, interferes with or damages the commercial fishing gear of another person is guilty of a misdemeanor. For the purposes of this section “interference” means the physical disturbance of gear which results in economic loss or loss of fishing time, and “reckless disregard of the consequences” means a lack of consideration for the consequences of one’s acts in a manner that is reasonably likely to damage the property of another.

Article 7. Purchase of Fish.

Sec. 16.10.265. Purchase of fish from permit holders. (a) An individual may not, while acting as a fish processor or primary fish buyer, or as an agent, director, officer, member, or employee of a fish processor, of a primary fish buyer, or of a cooperative corporation

organized under AS 10.15, intentionally or knowingly make an original purchase of fish from a seller who does not hold

(1) a landing permit, an entry permit, or an interim-use permit; or

(2) a fish transporter permit under AS 16.05.671.

(b) An individual who violates (a) of this section is

(1) upon a first conviction, guilty of a class B misdemeanor and shall be sentenced to a fine of not less than \$1,000 nor more than \$5,000, and may be sentenced to a definite term of imprisonment of not more than 90 days;

(2) upon a second conviction, guilty of a class A misdemeanor and shall be sentenced to a fine of not less than \$5,000 nor more than \$10,000, and may be sentenced to a definite term of imprisonment of not more than one year;

(3) upon a third or subsequent conviction, guilty of a class A misdemeanor and shall be sentenced to a fine of not less than \$10,000 nor more than \$25,000, and may be sentenced to a definite term of imprisonment of not more than one year.

(c) The commissioner of revenue shall impose upon a fish processor, primary fish buyer, or cooperative corporation organized under AS 10.15, a civil fine equal to the value of fish purchased in violation of this section by (1) the fish processor or primary fish buyer if the fish processor or primary fish buyer is not a corporation; or (2) a director, officer, or employee in a policy-making position of the fish processor, of the primary fish buyer, or of the cooperative corporation. Value is based on the average price paid to fishermen at the time of the violation.

(d) The commissioner of commerce, community, and economic development may suspend or revoke a business license issued under AS 43.70.020 and the commissioner of revenue may suspend or revoke a license to engage in the business of processing or buying raw fish if the licensee or an officer, director, or employee in a policy-making position of the licensee has been convicted of three offenses under this section. Proceedings to suspend or revoke a license are governed by AS 44.62 (Administrative Procedure Act).

(e) An organization may not be criminally prosecuted under (a) of this section.

(f) In this section, "individual" means a natural person.

Sec. 16.10.267. Possession of permit and identification by seller. (a) When a fisherman sells fish, the fisherman shall possess

(1) a landing permit, entry permit, or interim-use permit issued or transferred to the fisherman under AS 16.43, or other document authorized by regulation to be used in place of an entry permit or interim-use permit; and

(2) an identification card that has been issued to the fisherman by a state or federal

agency or other organization designated by the Department of Public Safety and that bears a photograph of the fisherman.

(b) If requested by the purchaser of the fish or by a peace officer, the fisherman or fish transporter shall present for inspection the identification card, entry permit, interim-use permit, fish transporter permit, or other document required to be in the fisherman's or the fish transporter's possession under (a) or (d) of this section.

(c) Examples of a suitable identification card required under (a)(2) and (d)(2) of this section are a motor vehicle operator's license issued under AS 28.15.111 and an identification card issued under AS 18.65.310.

(d) When a fish transporter sells fish as the agent of the commercial fisherman who caught the fish, the fish transporter shall possess

(1) a fish transporter permit and the fish ticket completed by the fish transporter under AS 16.05.671(d); and

(2) an identification card that has been issued to the fish transporter by a state or federal agency or other organization designated by the Department of Public Safety and that bears a photograph of the fish transporter.

(e) A person who violates this section is, upon conviction, guilty of a class B misdemeanor and may be sentenced to a definite term of imprisonment of not more than 90 days. In addition

(1) upon a first conviction for a violation of this section, the court may sentence the convicted person to pay a fine of not more than \$5,000 and may order the loss of commercial fishing privileges for a period of not more than three years from the date of conviction;

(2) upon a second conviction for a violation of this section, the court may sentence the convicted person to pay a fine of not more than \$10,000 and may order the loss of commercial fishing privileges for a period of not more than three years from the date of conviction;

(3) upon a third or subsequent conviction for a violation of this section, the court

(A) may sentence the convicted person to pay a fine of not more than \$10,000; and

(B) shall order that the convicted person lose commercial fishing privileges for a period of three years from the date of conviction.

Sec. 16.10.270. Purchase of fish by the pound. (a) A fish processor or primary fish buyer shall purchase raw fish by the pound. The poundage of the fish to be purchased shall be determined by weighing the fish unless both the buyer and seller agree in writing upon a sample weighing technique that will fairly determine the average weight of the fish purchased.

(b) A person who violates this section is guilty of a misdemeanor and upon conviction is punishable by imprisonment for not more than one year, or by a fine of not more than \$5,000, or by both.

Sec. 16.10.296. Definitions. In AS 16.10.265 — 16.10.296, unless the context otherwise requires,

(1) “**commissioner**” means the commissioner of labor and workforce development;

(2) “**fish**” means any species of aquatic finfish, invertebrates and amphibians, shellfish, or any other raw fishery resource, in any stage of its life cycle, found in or introduced into the state, and includes fish eggs except fish eggs sold for stock enhancement purposes;

(3) “**fish processor**” means a person engaging or attempting to engage in a business for which a license is required under AS 43.75;

(4) “**primary fish buyer**” means a person, other than a cooperative corporation organized under AS 10.15, engaging or attempting to engage in the business of originally purchasing or buying any fishery resource in intrastate, interstate, or foreign commerce.

Chapter 43. Regulation of Entry into Alaska Commercial Fisheries.

Article 1. Alaska Commercial Fisheries Entry Commission.

Sec. 16.43.100. Duties and general powers. (a) To accomplish the purposes set out in AS 16.43.010, the commission shall

(1) regulate entry into the commercial fisheries for all fishery resources in the state;

(2) establish priorities for the application of the provisions of this chapter to the various commercial fisheries of the state;

(3) establish administrative areas suitable for regulating and controlling entry into the commercial fisheries;

(4) establish, for all types of gear, the maximum number of entry permits for each administrative area;

(5) designate, when necessary to accomplish the purposes of this chapter, particular species for which separate interim-use permits or entry permits will be issued;

(6) establish qualifications for the issuance of entry permits;

(7) issue entry permits to qualified applicants;

(8) issue interim-use permits as provided in AS 16.43.210, 16.43.220, and 16.43.225;

(9) establish, for all types of gear, the optimum number of entry permits for each

administrative area;

(10) administer the buy-back program provided for in AS 16.43.310 and 16.43.320 to reduce the number of outstanding entry permits to the optimum number of entry permits;

(11) provide for the transfer and reissuance of entry permits to qualified transferees;

(12) provide for the transfer and reissuance of entry permits for alternative types of legal gear, in a manner consistent with the purposes of this chapter;

(13) establish and administer the collection of the annual fees provided for in AS 16.43.160;

(14) administer the issuance of commercial fishing vessel licenses under AS 16.05.490;

(15) issue educational entry permits to applicants who qualify under the provisions of AS 16.43.340 — 16.43.390;

(16) establish reasonable user fees for services;

(17) issue landing permits under AS 16.05.675 and regulations adopted under that section;

(18) establish and collect annual fees for the issuance of landing permits that reasonably reflect the costs incurred in the administration and enforcement of provisions of law related to landing permits;

(19) establish a moratorium on entry into commercial fisheries as provided in AS 16.43.225;

(20) when requested by a regional development organization formed under former AS 44.33.895, provide to the organization, without charge, public information contained in the commission's data with respect to relevant fisheries, including limited fisheries, fishery participants, and limited entry permit holders' harvests and earnings; and

(21) administer, when necessary to accomplish the purposes of this chapter, a Bering Sea hair crab fishery vessel permit system under AS 16.43.451 — 16.43.521.

(b) The commission may do all things necessary to the exercise of its powers under this chapter, whether or not specifically designated in this chapter.

Article 2. Entry Permit System.

Sec. 16.43.140. Permit required.

(a) A person may not operate gear in the commercial taking of fishery resources without a valid entry permit or a valid interim-use permit issued by the commission.

(b) A permit is not required of a crewmember or other person assisting in the operation of a unit of gear engaged in the commercial taking of fishery resources as long as the holder of the entry permit or the interim-use permit for that particular unit of gear is at all times present and actively engaged in the operation of the gear.

(c) A person may hold more than one interim-use or entry permit issued or transferred under this chapter only for the following purposes:

(1) fishing more than one type of gear;

(2) fishing in more than one administrative area;

(3) harvesting particular species for which separate interim-use or entry permits are issued;

(4) if authorized by regulations of the commission, fishing an entire unit of gear in a fishery in which the commission has issued entry permits for less than a unit of gear under AS 16.43.270(d); under this paragraph, a person may not hold more than two entry permits for a fishery; however, the person may not

(A) fish more than one unit of gear in the fishery; or

(B) acquire a second entry permit for the fishery after the person has acquired an entry permit that authorizes the use of an entire unit of gear in the fishery;

(5) consolidation of the fishing fleet for a salmon fishery; however, a person may hold not more than two entry permits for a salmon fishery under this paragraph, but the person who holds two entry permits for a salmon fishery may not engage in fishing under the second entry permit.

Sec. 16.43.150. Terms and conditions of entry permit; annual renewal. (a) Except as may be otherwise provided under AS 16.43.270(d), an entry permit authorizes the permittee to operate a unit of gear within a specified fishery.

(b) The holder of an entry permit shall have the permit in possession at all times when engaged in the operation of gear for which it was issued.

(c) Each entry permit is issued for a term of one year and is renewable annually.

(d) Failure to renew an entry permit for a period of two years from the year of last renewal results in a forfeiture of the entry permit to the commission, except as waived by the commission for good cause. An entry permit may not be renewed until the fees for each preceding year during which the entry permit was not renewed are paid. However, failure to renew an entry permit in a year in which there is an administrative closure for the entire season for a specific fishery is good cause not to renew the entry permit. The commission shall waive the payment of fees for that year.

(e) An entry permit constitutes a use privilege that may be modified or revoked by the legislature without compensation.

(f) Except for permits that are not transferable under AS 16.43.170(e), an entry permit survives the death of the holder.

(g) Except as provided in AS 16.10.333 — 16.10.338, AS 44.81.215, 44.81.225, and 44.81.231 — 44.81.250, an entry permit may not be

(1) pledged, mortgaged, leased, or encumbered in any way;

(2) transferred with any retained right of repossession or foreclosure, or on any condition requiring a subsequent transfer; or

(3) attached, distrained, or sold on execution of judgment or under any other process or order of any court, except as provided in AS 16.43.170(g) and (h).

(h) Unless an entry permit holder has expressed a contrary intent in a will that is probated, the commission shall, upon the death of the permit holder, transfer the permanent permit by right of survivorship directly to the surviving spouse or, if no spouse survives, to a natural person designated by the permit holder on a form provided by the commission. If no spouse survives and if the person designated on the form, if any, does not survive, the permit passes as part of the permit holder's estate. A designation under this subsection must be acknowledged before a person authorized to administer an oath under AS 09.63.010 or must be witnessed by two persons who are qualified under AS 13.12.505 to witness the will of the permit holder. Except as provided in AS 16.10.333 — 16.10.337, AS 44.81.215, and 44.81.231 — 44.81.250, the permit is exempt from the claims of creditors of the estate.

(i) The holder of a transferable or nontransferable entry permit or of an interim-use permit may voluntarily relinquish the permit to the commission.

Article 9. General Provisions.

Sec. 16.43.950. Applications of regulations of Board of Fisheries. Nothing in this chapter limits the powers of the Board of Fisheries, including the power to determine legal types of gear and the power to establish size limitations or other uniform restrictions applying to a certain type of gear. Holders of interim-use permits or entry permits issued under this chapter are subject to all regulations adopted by the Board of Fisheries.
