The only thing I have is the Antlerless moose authorization for the antler less moose hunt. There were no objections to continue the Antlerless moose by the AC meeting.

VC Question: What about the rest of the Andrafski River and the remainder of Unit 18

Perry: All of that is open in August through the fall and will remain open till February. 2 harvest tickets and 2 moose, all of the Andrafski drainage, reopened Dec 20th- end of February for 1 moose. If they got one this falls they can get another one this winter.

Gretchen- How long is the moose hunt?

c. BOARD OF FISH:

- I. Arctic- Yukon- Kuskokwim (All Finfish) Meeting dates: 2013/2014
- II. Review Board of Fisheries proposals:

Gene Sandone- Explains Proposal 133, this is just for commercial fishing VC- the community of St. Mary's, Pitkas Point, and Yupiit of Andreafski, opposed this proposal. The main concern for this proposal was a lot of fisherman doesn't carry 5 1/2" gear.

Nunam Iqua will not support this proposal if this will limit the mesh gear to get smaller.

Sandone clarifies- this is to add gear to the current gear types and not take any of them away.

Eric ADFG- Neutral, this size allowed fisherman to catch more chum and chinook catches were decreased.

Motion to support 133: Aloysius Unok 2nd- Will Alstrom Discussion: Aloysius Unok, no matter what if they change the gear, we are still going to catch them king salmon and were not going to be able to sell any kings, it may take 10 years or so. I don't know how much loner it will take.

Edward Adam- Ya, you can catch kings at any mesh size, I was fishing for white fish one summer and I was still able to catch kings in my whitefish gear.

Proposal T135: his proposal sets a date no later than, the rationale behind this is to conserve Canadian or middle river salmon we can do that before July 1. Most of the salmon pass through district 1 would be upper river stocks. With the 6 inch mesh. To allow a summer commercial fishery to start no later than July 1.

ADFG Eric Miller- the department opposes this proposal.

VC- Pitkas Point, St. Mary's, 3 tribal councils from this area is all opposed for this proposal.

Motion- Edward Adam, Sr. 2nd- Gretchen Kameroff

Discussion:

Aloysius Unok- Gene Sandone, are these proposals trying to save commercial fishing for summer chums.

Sandone- Yes, these would be able to add additional options for

Sandone- yes, in times of king conservation it could occur earlier if the kings weren't in jeopardy.

VC- Pitkas Point, Mountain Village, They oppose this proposal because that is not their fishing area and

Motion- Emmonak

2nd- Nunam

Question/ Discussion: Aloysius- if the proposal passes, will you reopen and extend the outside.

ADF&G- this area of south mouth down the coast to black river; this is the only area that will be open for commercial fishing.

Aloysius Unok- there was no boundary on the north side, which part of the river were they closing this. They should also open the north side.

Gene- Even though I submitted this proposal, you can do whatever you want to do with this proposal.

Edward Nunam- I would support this proposal, this is my area this is where I fish, and I have no problems supporting this. Since, I'm not from your area. I don't understand you area, I only understand my area. From my area, I'm in support of this area.

Proposal 152: Passes with Amendment

Proposal 151: List the main priority for king salmon for personal or direct consumption. This asks the state to list the priority use of Chinook salmon to be personal and direct consumption. This will give the managers of Chinook salmon across the drainage to restrict all other subsistence uses, but allows chinook salmon to be caught and used for food.

ADF&G- Neutral on the allocation of this, oppose to reducing opportunity for subsistence.

Motion to support: Nunam

2nd- Hooper Bay

Questions/ Discussion: Nunam- the way I understand this proposal, it does oppose customary trade, sharing your relatives that this. Can I get clarification?

Gene- Customary trade is not legal under state, but it is under the fed. If you look at the wording, although it doesn't say anything about sharing for personal and direct consumption.

They would have watched the fish wheels and people would manly watch the fish wheel and release immediate caught Chinook salmon back into the river. They had a commercial fishery in Kaltag and they did pretty good.

Motion- Nunam

2nd- Emmonak

Question/ Discussion: Aloysius- There was a comment about the fish wheels that were catching enormous amounts of fish that were jeopardizing the lower river commercial fishery. I don't know how it is going to be in the future, if they continue to fish with the fish wheels.

Question/ Discussion-

Martha Kelly- Will that be similar to what was going on last summer

Eric- Yes, there is a basically that we were having commercial fishing and subsistence fishing. The idea was to stream line fishing and have both open instead of waiting for the time opening and closing period.

Al- through fish and game in the past and they closed the commercial and subsistence fishing.

Eric- prior to the ability to sale of king and summer chum in 09, we didn't have that authority d 1-3 separate from the subsistence periods with the intent that the subsistence fish wouldn't find their way into the commercial sale.
