

**Proposal 102**  
**Prohibition of Non-Pelagic trawling is**  
**West-Side Kodiak State Waters**

**Fishery Dependence, as a percentage of total catch, Comparison<sup>1</sup>**

	2013 TAC (pounds)	Average (10 yr) Annual non-pelagic trawl catch, westside Kodiak state waters	Percent age
Walleye Pollock	173,755,549	260,931	0.15%
Arrowtooth	165,345,000	210,612	0.12%
Flathead Sole	33,950,840	53,101	0.15%
Pacific Cod	81,495,244	40,935	0.05%
Big Skate	3,952,848	12,368	0.31%
Longnose Skate	4,142,443	11,127	0.27%
Rex Sole <sup>2</sup>	14,056,530	6,702	0.05%

<sup>1</sup> Trawl catch information from this area by year is not available due to limited vessel participation and confidentiality requirements. Consequently, catch comparisons are taken as "average" from the 10 year catch assessments provided by the Department.

<sup>2</sup> Rock Sole and Butter Sole not broken out on NMFS TAC sheet but are part of the flatfish complexes. Percentages of catch dependence for these species in non-pelagic trawl fishery in State waters on Kodiak's west side are likely to be similar to other species.
