RE: Proposal 209 & 211

Chairman Johnstone & Board Members,

The attached pages are part of one hundred twenty-four (124) S04H permit holders that are opposed to gear reduction in any form.

Record Copies (RC) 126 & 127 are more names included in the 124 count.

Please note that there are close to 3 times the opposing signatures/permit holders than supporting S04H permit holders.

Ninety-nine percent (99%) are signatures from the Ninilchik, Coho, South K-Beach, Salamatof and East Forelands subdistricts of the East Side Set Net (ESSN) commercial fishery.

Respectfully,

Christine Brandt

Upper Cook Inlet Finfish Regulatory Meeting: January-February 2014

ATTN: Chairman Johnstone,

Re: Petition against Proposals 209 & 211 (authored by Kenai River Sportsfishing Association)

We the undersigned below **reject and do not support** any methods or means (*gear*) restrictions on our setnet fishery within the East Side Set Net (ESSN) districts of Cook Inlet. We understand the importance of flexibility in managing salmon for escapement goals and agree that using the current "tools" of **time** and **area** are the only tried and true measures that are scientifically supported. We urge the Board of Fisheries to seek decisions that incorporate the best available science and reason that are supported and defined by the Alaska Department of Fish and Game.
