RC 138

I oppose any attempt to limit the ESSN fishery to $\frac{1}{2}$ mile. This approach will eliminate $\frac{2}{3}$ of the fishery. Many of these outside sites are owned by smaller family organizations and do not have the financial means to attend this meeting. I am fortunate to have been able to attend briefly, but I must return to my Active Duty military obligation. My sites are outside of $\frac{1}{2}$ mile and I would be out of business by this strategy
