

PROPOSAL 205

5 AAC 47.023. Special provisions for seasons, bag, possession, annual, and size limits, and methods and means for the fresh waters of the Southeast Alaska area.

Prohibit multiple and barbed hooks in the Tsiu River drainage, as follows:

(b)(x) In the Tsiu drainage area barbed and multiple hooks, lures prohibited for all sport fishing in fresh water.

What is the issue you would like the board to address and why? I would like to see the Tsiu river go single, barbless hooks for all sport fishing for Salmon in fresh water. It would help to eliminate the waste of a valuable resource.
