

PROPOSAL 24

5 AAC 01.645. Subsistence bag, possession, and size limits; annual limits.

Add bag and possession limits for Dolly Varden in the Prince William Sound freshwater finfish subsistence fishery, as follows:

5 AAC 01.645 is amended to read:

(l) The bag and possession limit for Dolly Varden is ten fish, with an annual limit of 40 fish per water body. A person may not take or possess Dolly Varden under sport fishing regulations and this section on the same day.

...

What is the issue you would like the board to address and why? There are no bag and possession limits identified for Dolly Varden in the Prince William Sound freshwater finfish subsistence regulations. Bag and possession limits must be listed in regulation to be enforceable. When bag and possession limits for other common freshwater finfish species in the Prince William Sound Area were removed from permit stipulations and added to regulation, Dolly Varden were inadvertently left out.

PROPOSED BY: Alaska Department of Fish and Game
