

Alaska Board OF Fisheries RC from Eric Jordan, Jackson Combs, and James Moore on proposal 99, Southeast Cove Terminal Harvest Area Management Plan.

Dear Board Of Fish Members, We are writing this RC because we recently voted to allow gillnetting in SE Cove as troll representatives on the NSRAA Board. After visiting with other trollers and the seiners, and reviewing data on allocations over the years, it is clear that even though SE Cove has not been productive for trollers so far it should not be open to gillnetters under the Enhanced Salmon Allocation Plan 5 AAC 33.364. So, after reconsideration, we want the BOF to know we have joined our fellow troll reps on the NSRAA Board opposing gillnetting in SE Cove.

Sincerely,

Eric Jordan
James Moore
Jackson Combs
