

Southeast Alaska Seiners Association Enhanced Allocation Position:

The Southeast Seiners position on enhanced allocation is:

Anita Bay 1:1 rotation gillnet to seine. This keeps the gear sharing the same as it has been in recent years. This is an amendment to SEAS proposal 98

SE Cove SEAS proposal 99 – This will keep the sharing arrangement between the seine fleet and troll fleet, which is the same as it has been since the inception of the fishery.

Deep Inlet: Refer to RC 122 submitted by the Northern Southeast Regional Aquaculture association. This rotation will be 2 days troll, 2 days gillnet, 3 days seine. Our SEAS proposal is for 1:2 gillnet to seine, but we believe this 1:1.5 gillnet to seine is a compromise and it will add more troll opportunity.
