USAG'S MAIN PURPOSE IS TO PROTECT, SERVE AND ENHANCE SOUTHEAST ALASKA'S COMMERCIAL GILLNET FISHERY

USAG Proposal 124

The maps below show the traditional common property areas available to both the seine and gillnet fleets. Note that both maps show the location of the Hawk Inlet area in question. The area is north of Pt. Marsden to the latitude of Pt. Couverden.

The gillnet map shows the 5 gillnet areas. Lynn Canal, Taku/Snettisham, Stikine, and Prince of Wales areas are all subject to SOC for King Salmon. The Tree Point fishery is the only area we have without SOC measures. Please note that gillnets are always behind the seine fleet when they fish.
