Dear Chair Marit Carlson-Van Dort and Boar of Fisheries Members,

I support proposal 117 as modified and submitted by Jeff Favour in RC183.

Having done cost recovery and fished common property seine openings in crawfish and seen the vast area full of chum salmon on many occasions I believe it is a perfect area for trollers to try 6 lines and for fisherman who want to make the effort it could increase their production. I opposed the original version of this proposal mainly due to enforcement difficulties but believe it is a good proposal with the changes made.

Thank You for your time

Moses P johnson
