

My name is Brent Gilbertson. I have been commercial Dungeness crab fishing 12 years off the coast of Washington, Oregon and Alaska. I have spent two seasons in the Northern Peninsula district. I am opposed to proposition 170. I see no reason to set a pot limit and cap in such a vast area with crab throughout the whole area. With the cost to operate now days a 500 pot permit and cap would make it difficult or even possible to be profitable.

Thank you for your time,

Brent Gilbertson
