

PROPOSAL 52

5 AAC 06.XXX. New section.

Reestablish a General District Salmon Management Plan, as follows:

General district Management Plan. General district when all East side river systems have met their midpoint escapement goal on or after 17 of July.

The General district is all waters within 3-mile on the East side. There will be 3 subsections Naknek-Kvichak, Egegik, and Ugashik to allocate where the harvest is caught and delivered. Boundaries between subsections are the latitude of middle bluff and 57 degrees and 57 minutes

(this is approximately half way between Egegik and Ugashik).

What is the issue you would like the board to address and why? After July 17 the EO management is over and enforcement is limited. A general district will provide equal opportunity to fish by all users. Previously a subset of harvesters has taken advantage of limited enforcement and fished in closed waters.
