

PROPOSAL 18

5 AAC 28.210. Fishing seasons for Prince William Sound Area.

Extend the season dates in the Prince William Sound sablefish fishery, as follows:

Extend the fishery closier from August 31st through the end of October.

What is the issue you would like the board to address and why? Would like the board to consider extending the fishing period for the Prince William Sound Sablefish fishery through October.

This would enable permit holders more oppertunity to fish their quota and potentially afford greater market flexibility.

Did you develop your proposal in coordination with others, or with your local Fish and Game Advisory Committee? Explain. I consutled with the current ADFG management biologist.
