

ALASKA BOARD OF FISHERIES

ALLOCATION CRITERIA

The Alaska Supreme Court recently issued a decision, Peninsula Marketing Association vs. State (Opinion No. 3754; dated September 20, 1991), regarding the application of the allocation criteria found in AS 16.05.251(e). The Court interpreted the statute to require the criteria to be considered when allocating between commercial fisheries as well as among the three user groups, commercial, personal use, and sport.

Consistent with the decision of the Court, the board finds that it will utilize the following specific allocation criteria when allocating between fisheries. Note that these criteria are essentially the same as the allocative criteria specified in AS 16.05.251(e), which the board has historically used as set out in 5AAC 39.205, 5AAC 77.007, and 5AAC 75.017.

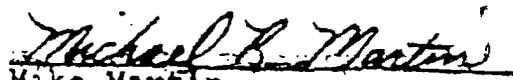

- 1) the history of each personal use, sport, and commercial fishery;
- 2) the characteristics and number of participants in the fisheries;
- 3) the importance of each fishery for providing residents the opportunity to obtain fish for personal and family consumption;
- 4) the availability of alternative fisheries resources;
- 5) the importance of each fishery to the economy of the state;
- 6) the importance of each fishery to the economy of the region and local area in which the fishery is located;
- 7) the importance of each fishery in providing recreational opportunities for residents and nonresidents.

Note that all seven (7) criteria do not necessarily apply in all allocation situations, and any particular criterion will be applied only where the board determines it is applicable.
