

Jim Tilly, Lake Iliamna AC
Testimony

Bog prop 44

With the newer (15 yrs now) residents are finding it more difficult to find a moose with antlers.

Bog prop 45

Our moose is still way down in traditional hunting area's. We amended it to include non-residents. Spotting a moose calf now a days is a rare event.

Bog prop 47 & 48

We support change to extend season until the end of March.

Reasons being most years the caribou don't migrate to the Lake area until then. Our travel has been dicey lately and 2 more weeks would be a great asset.

Bog prop 51

Due to increasingly difficult travel conditions an earlier moose season start would allow boating to moose hunting area's.

Bog prop 53

We oppose bear baiting in 9B,, with brown bears it might compound issues and habituate them to the area.

Bog prop 54

Possible income from claws and skulls???
