

"general hunt" means

- (a) A hunt that is regulated in a non-subsistence area, or
- (b) A hunt that is regulated outside of a non-subsistence area for a game population that does not have a positive finding of customary and traditional use, or
- (c) A hunt, regulated outside of a non-subsistence area for a game population that has a positive finding of customary and traditional use, for which the amount of harvestable surplus of the game population exceeds the maximum amount reasonably necessary for subsistence uses, which provides subsistence opportunity, non-subsistence opportunity, and may provide nonresident opportunity.
