PROJECT PLANNING NOTES

1 Linda Pete were borned  
2 grandparents-parents all ~~born~~  
3 and raised here. I currently  
4 reside in Copper Center. My family  
5 is not intending on leaving the  
6 area.

7  
8 God blessed us with beautiful  
9 land and wild game to  
10 feed us. We depend on wild  
11 game to live. Our Ancestors  
12 for generations lived and  
13 regulated game for generations  
14 and we continue to do the same  
15 ~~My~~ my family and village do  
16 solely depend on wild  
17 game to survive in this  
18 environment.

moose-caribou

19  
20 We are in support of prop 44.

21  
22 There are proposals to do away  
23 with the Comm Hunt.  
24 The Community Hunt was intended  
25 for the 8 villages due to the  
26 2006 findings.

27  
28 I believe in moving forward

29 not backwards. We have a  
30 system in place and yes it  
31 needs some adjustments to  
32 make it successful.

33  
34 And through prop 44 we  
35 offer some good recommendation  
36 to improve the hunt.

37  
38 if people want to do away  
39 with the hunt why dont  
40 they just apply for  
41 general hunt.  
42 that's a simple fix for them

43  
44 And if you recall the BOG  
45 created the Comm Hunt  
46 for the 8 tribal Comm using  
47 the 2006 findings.

48 There was 100 any bull allocated  
49 for the hunt. Well the 100  
50 was not for the whole State  
51 of AK.

52  
53 definition of Comm needs to  
54 be defined.

55 groups need to prove their depend  
56 in the resources,

Tier II - ASH must  
 be only for those in CSH  
 not everyone - our  
 - If I get permit I will have you in front

lastly

8 villages did. Why <sup>have we</sup> are we  
 been discriminated to  
 prove our way of life

And people who are trophy  
 hunters are given the same  
 opportunity as a subsistence  
 user. That shows you  
 that the system is  
 broken and is need  
 of repair.

our custom and traditional  
 laws is to take whatever moose  
 presents itself - not some with  
 a big antler or small

Our 8 villages ~~do~~ have the  
 same values and share  
 a common goal and  
 that is to live a C+T life  
 that our ancestors passed on to  
 us. We proved to the BOG  
 in the 2006 finding that  
 we live and depend on  
 moose + caribou. Please ~~consider~~  
~~consider~~ consider our recomm
