

**RC 041**

**Submitted by Tim McDonough, Chair Upper Lynn Canal Fish and Game AC**

We (ULC AC) voted unanimously to support board of game proposal #143. After lengthly discussion and input from F&G biologist Kevin White, we wish to support the reauthorization of the antlerless moose hunt in Unit 1 C. It is our opinion that having the authority to implement a antlerless hunt is an important tool for F&G to retain. Some concern was expressed about past use of the tool which lead to over harvest and herd declines but the concerns were addressed by Mr. White and we fully support the proposal.
