

PROPOSAL 108 – 5 AAC 85.045. Hunting seasons and bag limits for moose. Change the antler restrictions for moose in Unit 13 as follows:

R 13 One bull with spike-fork or 50-inch antlers or antlers with **3** [4] or more brow tines on at least one side. HT September 1 – September 20.

What is the issue you would like the board to address and why? Amend antler restriction rule in Unit 13 from four brow tines to three brow tines. There are dozens of bulls with a 48-inch antler spread and two or three brow tines. Twenty years ago adult bulls had brow palms. Antler restrictions removed them before breeding season.
