

*Note: The Board of Game deferred this proposal from the November 2017 Statewide Regulations Meeting to the February 2018 Central/Southwest Region Meeting.*

**PROPOSAL 58 – 5 AAC 92.072. Community subsistence harvest hunt area and permit conditions; and 92.220. Salvage of game meat, furs, and hides.** Modify the salvage requirements for moose and caribou taken under community subsistence harvest hunts as follows:

Community harvest hunts for caribou and moose must have all meat stay naturally attached to the bone.

**What is the issue you would like the board to address and why?** By having all meat stay naturally attached to the bone, the Denali Fish and Game Advisory Committee suggests that this will help prevent and simplify enforcement of wanton waste. This includes the existing front quarter, hind quarter and rib meat as well as all of the neck meat, all of the brisket, and all of the meat along the backbone.

**PROPOSED BY:** Denali Fish and Game Advisory Committee (HQ-F17-004)
