

Nelchina Caribou Harvest Plans

1

Nelchina Caribou

Objectives

Population: 35,000-40,000

Harvest: 3,000-6,000

Amount Reasonably Necessary for
Subsistence (ANS): 600-1,000

2

Nelchina Caribou

Hunts affecting this herd:

Federal: FC1302
 FC1202 (Tetlin fall)

State Subsistence: CC001
 RC561
 RC562

State Nonsubsistence: DC485 (up to 5,000)
 YC495(up to 200)
 DCXXX (up to 200)

3

Nelchina Caribou

Three Basic Strategies:

When the herd is **above the upper end** of the objectives:

All hunts are held.

Federal Subsistence: FC1302
 FC1202

State Subsistence: CC001
 RC561
 RC562

State Nonsubsistence: DC485 (up to 5,000)
 YC495(up to 200)
 DCXXX (up to 200)

4

Nelchina Caribou

Three Basic Strategies:

When the herd is **below the lower end** of the objectives:

Only Tier II hunt will be guaranteed.

There will be a transition

Federal Subsistence?:	FC1302
(State / Federal Coordination needed)	FC1202
State Subsistence:	Tier II during next application period
	Tier I hunts*
State Nonsubsistence:	DC485 (up to 5,000)* YC495(up to 200)* DCXXX (up to 200)*

* These hunts will only be held if permits were awarded

5

Nelchina Caribou

Three Basic Strategies:

When the herd is

within objectives:

All hunts are held

Harvest Allocation on a sliding scale

Federal Subsistence?:	FC1302
(State / Federal Coordination needed)	FC1202 (Tetlin fall)

6

Nelchina Caribou

Three Basic Strategies:

When the herd is

within objectives:

All hunts are held

Harvest allocation on a sliding scale

State Subsistence:
(ANS 600-1,000)

CC001

RC561

RC562

Lower participation anticipated at lower quotas

7

Nelchina Caribou

Three Basic Strategies:

When the herd is

within objectives:

All hunts are held

Harvest allocation on a sliding scale

State Nonsubsistence: DC485 (up to 5,000)*
 YC495(up to 200)*
 DCxxx (up to 200)*

* These hunts will only be held if permits were awarded at lower
quotas

Permit numbers adjusted to optimize and achieve harvest

8

Nelchina Caribou

RY18 example: Population estimate 35,700

Calculated harvestable surplus: 1,800

(based on population and composition)

Federal hunts (expected harvest 400)

State subsistence hunts (high participation)

- CC001 expected harvest of 150

- RC561 expected harvest of 500*

- RC562 expected harvest of 500*

* To provide 'reasonable opportunity'

1,550

9

Nelchina Caribou

RY18 example: Population estimate 35,700

Calculated harvestable surplus: 1,800

(based on population and composition)

Remainder to State nonsubsistence (250)

- DC485 5,000 permits

1,800

10

Nelchina Caribou

Harvest

- FC1302 334 (212/119/3)
- FC1202 5
- CC001 148/150
- RC561 531/500
- RC562 527/500
- DC485 260/250

1,805/1,800

11

Nelchina Caribou

RY19 example: Population est. **33,229 (37,700)**

Calculated harvestable surplus: 1,400

(based on population and composition,
fewer bulls available)

Federal hunts (expected harvest 400)

State subsistence hunts (high participation)

- CC001 expected harvest of 150
- RC561 expected harvest of 350*
- RC562 expected harvest of 350*

* To provide 'reasonable opportunity'

1,250

12

Nelchina Caribou

RY19 example: Population estimate (**37,700 July**)

Calculated harvestable surplus: 1,400

(based on population and composition, fewer bulls)

Remainder to State nonsubsistence (150)

- YC495 200 permits (expected harvest 50)
- DC485 400 permits (expected harvest 100)
- DCxxx (nonresident hunt not held)
1% Rule? (1,000 = 10 NR)

1,400

13

Nelchina Caribou

RY22 example: Population estimate **39,700**

Calculated harvestable surplus: 3,400

(based on population and composition,
fewer bulls available)

Federal hunts (expected harvest 400+)

State subsistence hunts (high participation)

- CC001 expected harvest of 150
- RC561 Expected harvest of 500+*
- RC562 Expected harvest of 500+*

* To provide 'reasonable opportunity'

1550+

14

Nelchina Caribou

RY19 example: Population estimate **39,700**

Calculated harvestable surplus: 3,400

(based on population and composition)

Remainder to State nonsubsistence (1,800)

- YC495 200 permits (expected harvest 80)
- DC485 5,000 permits (expected harvest 1,620)
- DCxxx 200 permits (expected harvest 100)

3,350
