

PROPOSAL 59

5 AAC 85.045. Hunting seasons and bag limits for moose.

Increase the community subsistence any bull moose hunt allocation in Unit 13 as follows:

Amend 5 AAC 85.045(a)(11) as follows:

1 moose per regulatory year, only as follows:

RESIDENT HUNTERS:

1 bull per harvest report by community harvest permit only; however, no more than **150** [100] bulls that do not meet antler restrictions for other resident hunts in the same area may be taken by Tier II permit in the entire community harvest area during the August 20 - September 20 season, up to 350 Tier II permits may be issued; or

What is the issue you would like the board to address and why? Increase community subsistence any bull moose hunt allocation from no more than 100 bulls that do not meet antler restrictions to 150 any bull moose.

This change is requested in order to address the fact that additional moose are needed in the community subsistence any bull moose hunt to provide for customary and traditional harvest and uses of moose by Alaska residents living in Unit 13.

PROPOSED BY: Ahtna Intertribal Resource Commission (HQ-F20-024)
