

**PROPOSAL 97**

**5 AAC 92.095. Unlawful methods of taking furbearers; exceptions.**

Allow beaver to be taken with firearm or archery equipment in Unit 16 as follows:

Re-write regulation to read: and in Unit 16 beaver may be taken throughout the trapping season with a firearm or archery equipment.

**What is the issue you would like the board to address and why?** Change regulations in Unit 16 to allow beaver to be taken with archery equipment as well as firearms.

Unit 16 has had a beaver population explosion the last 15 or so years. The Department of Fish and Game now allows beaver to be taken with a firearm in Unit 16 throughout the trapping season, as well as in many other units of the state. I have had several clients ask if they could shoot them with their bow and arrow while they are hunting with us, and the answer has to be NO. We need to thin out the beavers, and although, I don't feel there will be a lot of archery effort, I know there will be some and those folks will also need to purchase a hunting license. Archery equipment is plenty capable of killing a beaver and with a fishing/bow they would also have no trouble retrieving them. In fact, most likely better than with a rifle.

Of course, it would be much more effective if they approve my other proposal to open the season in August as well.

Please open the opportunity to more sportsman and help me get rid of a few more dam engineers in the process!! Thank you.
